STATEMENTS ON INTRODUCED
BILLS AND JOINT RESOLUTIONS

By Mr. NELSON (for himself, Mr. BLUMENTHAL, Mrs. BOXER, Mr. BROWN, Mr. DURBIN, Mr. HARKIN, Mr. MARKEY, Mr. MERKLEY, Mr. PRYOR, Mr. SCHUMER, and Mr. BENNET):

S. 2581. A bill to require the Consumer Product Safety Commission to promulgate a rule to require child safety packaging for liquid nicotine containers, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. NELSON. Mr. President, we all recognize the danger that many hazardous chemicals and over-the-counter drugs pose to children. That's why we require child-resistant packaging for these substances to prevent accidental poisonings that could result in serious injury or death.

Unfortunately, there is no child-resistant packaging required for concentrated liquid nicotine, which can be toxic if ingested or even absorbed through skin in large amounts. According to the American Academy of Pediatrics, AAP, some small 15 mL bottles of liquid nicotine contain as much as 540 mg of nicotine. At the estimated lethal dose range of nicotine, AAP notes that this small bottle contains enough nicotine to kill 4 small children. And even a very small amount of the liquid splashed on a child's skin can make the child very ill.

The American Association of Poison Control Centers, AAPCC, reports that local poison control centers had already received 1,571 calls between January 1 and May 31 of this year related to liquid nicotine exposure. According to some experts who study nicotine exposure, it's only a matter of time be-

fore an accidental nicotine ingestion results in death.

Today I am introducing the Child Nicotine Poisoning Prevention Act with Senators PRYOR, BENNET, BLUMENTHAL, BOXER, BROWN, DURBIN, HARKIN, MARKEY, MERKLEY, and SCHUMER to prevent these unnecessary tragedies. This common-sense legislation gives the U.S. Consumer Product Safety Commission, CPSC, authority and direction to issue rules requiring safer, child-resistant packaging for liquid nicotine products within 1 year of passage.

The CPSC already requires child-resistant packaging for many household products, including over-the-counter medicines and cleaning agents. These rules have prevented countless injuries and deaths to children. There is no reason that bottles of liquid nicotine should not also be required to have child-resistant packaging as well.

I invite my colleagues to join us to support the Child Nicotine Poisoning Prevention Act. Working together, we can take simple steps to prevent accidental child nicotine poisonings.

Mr. President, I ask unanimous consent that text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 2581

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

By Mr. Kaine (for himself, Mr. PORTMAN, and Mr. WARNER):

S. 2584. A bill to amend the Carl D. Perkins Career and Technical Education Act of 2006 to raise the quality of career and technical education programs and to allow local eligible recipients to use funding to establish high-quality career academics; to the Committee on Health, Education, Labor, and Pensions.

Mr. Kaine. Mr. President, I rise today to introduce the Educating Tomorrow's Workforce Act of 2014. This is a bipartisan bill with Senator PORTMAN, who will follow me on the floor today. Senator PORTMAN and I are working together as coauthors of the Senate Career and Technical Education Caucus.

Let me first explain why career and technical education is important to me.

I grew up in a household in Kansas City where my dad ran a union-organized ironworking shop. He was the owner. Ironworkers and welders—in a good year, eight employees; in a bad year, five employees. My mother and my brothers and I worked in my dad's shop, and I came to appreciate working in that ironworking shop, the tremendous craftsmanship and skill that went into being an ironworker. That lesson has stuck with me for the rest of my life, and I really credit my dad with my work ethic. In a manufacturing welding shop, you get up and you go to work early because you want to get the work done before it gets too hot in the middle of the day.

I then had the experience in 1980 to take a year off from Harvard Law School and go to Honduras, where I was the principal of the Instituto Tecnico Loyola, which was a school that taught kids to be welders and carpenters. I was able to use the trades I had learned in my dad's shop, and what I saw in Honduras was the same thing: that the acquisition of skills—whether it be welding or carpentry or other skills—is a great path to life's success.

But one thing I noticed about the education system in my country—even
