"Most importantly, he was an outstanding father," Thomas VanKirk, Highmark's chief legal officer, said.

The decision to use the atomic bomb on Japan—another B-29, the Bockscar, bombed Nagasaki three days after Hiroshima—remains controversial because of the lives lost.

However, Donald Goldstein, a military historian, former Air Force officer and retired University of Pittsburgh professor, said the bombings hastened the war's end and spared many other lives that would have been lost during an invasion of Japan.

He said the prevailing sentiment among U.S. military personnel at the time was, "Thank God for the bomb." Mr. Goldstein said bringing the war to a rapid close also helped to forestall Soviet geopolitical ambitions in Japan.

Thomas VanKirk said he initially learned about his father's exploits through newspaper clippings he found during a childhood exploration of his grandmother's attic. In 1995, father and son stood together during the unveiling of an Enola Gay exhibit at the Smithsonian's National Air and Space Museum.

"He had no regrets about dropping the bomb. He believed it was necessary," said Youngstown, N.Y., historian Suzanne Simon Dietz, whose book about Mr. VanKirk, "My True Course," relies on his letters and memoirs.

In 2005, Mr. VanKirk told the Pittsburgh Post-Gazette, "I just had a job to do." But others considered him a hero and his death a reminder of the passing of the WWII generation.

"A son of Pennsylvania, Theodore 'Dutch' VanKirk helped to save the world from tyranny and then returned home to live the quiet life of a citizen." Gov. Tom Corbett said in a statement. Mr. Corbett said he and his wife, Susan, "send our heartfelt sympathies to his family and the thanks of a grateful state for his service to the cause of freedom."

Mr. VanKirk was born Feb. 27, 1921. He graduated from Northumberland High School, briefly attended Susquehanna University and joined the Army Air Forces cadet program in fall 1941—before the Japanese attack on Pearl Harbor, his son said, because he knew the war was coming and wanted to choose his method of service.

Posted to Europe, he served aboard a B-17 bomber, the Red Gremlin, with Mr. Tibbets and bombardier Thomas Ferebee, who also would be part of the Enola Gay crew for the Hiroshima bombing. After nearly 60 bombing runs over Europe and a special mission ferrying Gen. Dwight D. Eisenhower, Mr. VanKirk returned to the United States and married his high school sweetheart, Mary Jane Young, who died in 1975.

In 1944, at Mr. Tibbets' request, he joined a special group, stationed in Utah, that was preparing for use of the atomic bomb. Mr. VanKirk told his story many times over the years and, Thomas VanKirk said, was still fit enough early this summer to go on a family beach vacation.

Also surviving are another son, Larry VanKirk of Charlotte, N.C.; two daughters, Vicki Triplett of Atlanta and Joanne Gotelli of Sacramento, Calif.; seven grandchildren; and two great-grandchildren.●

## SUBMITTED RESOLUTIONS

## SENATE RESOLUTION 536—DESIGNATING SEPTEMBER 2014 AS "NATIONAL OVARIAN CANCER AWARENESS MONTH"

Ms. STABENOW (for herself, Ms. AYOTTE, Mr. WARNER, Mr. MORAN, Ms. BALDWIN, and Mr. HELLER) submitted the following resolution; which was considered and agreed to:

S. RES. 536

Whereas ovarian cancer is the deadliest of all gynecologic cancers;

Whereas ovarian cancer is the 5th leading cause of cancer deaths among women in the United States;

Whereas, in 2014, approximately 21,980 new cases of ovarian cancer will be diagnosed, and 14,270 women will die of ovarian cancer in the United States;

Whereas the mortality rate for ovarian cancer has not significantly decreased since the "War on Cancer" was declared more than 40 years ago;

Whereas 25 percent of women will die within 1 year of diagnosis with ovarian cancer and over 50 percent will die within 5 years;

Whereas while there is the mammogram to detect breast cancer and the Pap smear to detect cervical cancer, there is no reliable early detection test for ovarian cancer;

Whereas the lack of an early detection test means that approximately 80 percent of cases of ovarian cancer are detected at an advanced stage;

Whereas all women are at risk for ovarian cancer, and approximately 15 percent of women diagnosed with ovarian cancer have a family history of ovarian cancer, which places them at even higher risk;

Whereas scientists and physicians have uncovered changes in the BRCA genes that some women inherit from their parents, which may make them 30 times more likely to develop ovarian cancer;

Whereas the family history of a woman has been found to play an important role in accurately assessing that woman's risk of developing ovarian cancer and medical experts believe that family history should be taken into consideration during a woman's annual well woman visit;

Whereas many experts in health prevention now recommends genetic testing for young women with a family history of breast and ovarian cancer;

Whereas women who know they are at high risk of breast and ovarian cancer may undertake prophylactic measures to help reduce the risk of developing these diseases;

Whereas the Society of Gynecologic Oncology now recommends that all women diagnosed with ovarian cancer receive counseling and genetic testing;

Whereas many people are unaware that the symptoms of ovarian cancer often include bloating, pelvic or abdominal pain, difficulty eating or feeling full quickly, urinary symptoms, and several other symptoms that are easily confused with other diseases;

Whereas awareness of the symptoms of ovarian cancer by women and health care providers can lead to a quicker diagnosis;

Whereas, in June 2007, the first national consensus statement on ovarian cancer symptoms was developed to provide consistency in describing symptoms to make it easier for women to learn and remember the symptoms; and

Whereas each year during the month of September, the Ovarian Cancer National Alliance and partner members hold a number of events to increase public awareness of ovarian cancer: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates September 2014 as "National Ovarian Cancer Awareness Month"; and

(2) supports the goals and ideals of National Ovarian Cancer Awareness Month.
