the Federal Government to undermine privacy and encryption technology in commercial products and in NIST computer security and encryption standards.

S. 2529

At the request of Mrs. Shaheen, the name of the Senator from California (Mrs. Feinstein) was added as a cosponsor of S. 2529, a bill to amend and reauthorize the controlled substance monitoring program under section 3990 of the Public Health Service Act.

S. 2581

At the request of Mr. Nelson, the name of the Senator from Rhode Island (Mr. Reed) was added as a cosponsor of S. 2581, a bill to require the Consumer Product Safety Commission to promulgate a rule to require child safety packaging for liquid nicotine containers, and for other purposes.

S. 2645

At the request of Mr. Markey, the name of the Senator from Michigan (Mr. Levin) was added as a cosponsor of S. 2645, a bill to provide access to medication-assisted therapy, and for other purposes.

S. 2839

At the request of Mr. WHITEHOUSE, the name of the Senator from Massachusetts (Ms. WARREN) was added as a cosponsor of S. 2839, a bill to authorize the Attorney General to award grants to address the national epidemics of prescription opioid abuse and heroin use.

S. 2930

At the request of Mr. REED, his name was added as a cosponsor of S. 2930, a bill to direct the Secretary of Defense and the Secretary of Veterans Affairs to provide for the conduct of an evaluation of mental health care and suicide prevention programs of the Department of Defense and the Department of Veterans Affairs, to require a pilot program on loan repayment for psychiatrists who agree to serve in the Veterans Health Administration of the Department of Veterans Affairs, and for other purposes.

At the request of Mr. McCain, the name of the Senator from New York (Mr. Schumer) was added as a cosponsor of S. 2930, supra.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 600—TO LIMIT CERTAIN USES OF THE FILIBUSTER IN THE SENATE TO IMPROVE THE LEGISLATIVE PROCESS

Mr. UDALL of New Mexico (for himself and Mr. Merkley) submitted the following resolution; which was referred to the Committee on Rules and Administration:

S. RES. 600

SECTION 1. MOTIONS TO PROCEED.

Paragraph 1 of rule XXII of the Standing Rules of the Senate is amended by inserting at the end the following new paragraph: "Other than a motion made during the first 2 hours of a new legislative day as described in paragraph 2 of rule VIII, consideration of a motion to proceed to the consideration of any debatable matter, including debate on any debatable motion or appeal in connection therewith, shall be limited to not more than 2 hours, to be equally divided between, and controlled by, the Majority Leader and the Minority Leader or their designees. This paragraph shall not apply to motions considered nondebatable by the Senate pursuant to rule or precedent.".

SEC. 2. EXTENDED DEBATE.

Paragraph 2 of rule XXII of the Standing Rules of the Senate is amended by striking the second undesignated paragraph and inserting the following:

"Is it the sense of the Senate that the debate shall be brought to a close? And if that question shall be decided in the affirmative by three-fifths of the Senators duly chosen and sworn, except on a measure or motion to amend the Senate rules, in which case the necessary affirmative vote shall be two-thirds of the Senators voting, a quorum being present, then cloture has been invoked.

"If that question is on disposition of a bill or joint resolution, a resolution or concurrent resolution, a substitute amendment for a bill or resolution, a motion with respect to amendments between the Houses, a conference report, or advice and consent to a nomination or treaty, and if such question shall be decided in the affirmative by a majority of Senators voting, a quorum being present, but less than three-fifths of the Senators duly chosen and sworn (or less than two-thirds of the Senators voting, a quorum being present, in the case of a measure or motion to amend the Senate rules), then it shall be in order for the Majority Leader (or his or her designee) to initiate a period of extended debate upon the measure, motion, or other matter pending before the Senate, or the unfinished business, in relation to which the motion to close debate was offered, in which case the period of extended debate shall begin one hour later.

"During a period of extended debate, such measure, motion, or other matter pending before the Senate, or the unfinished business, shall be the unfinished business to the exclusion of all other business, except on action or motion by the Majority Leader (or his or her designee).

"During a period of extended debate it shall not be in order for a Senator other than the Majority Leader (or his or her designee) to raise a question as to the presence of a quorum, except immediately prior to a vote or when it has been more than forty-eight hours since a quorum was demonstrated. If upon a roll call it shall be ascertained that a quorum is not present, then the Senate shall adjourn to a time previously decided by order of the Senate or, if no such time has been established, then to a time certain determined by the Majority Leader, after consultation with the Minority Leader.

"During a period of extended debate a motion to adjourn or recess shall not be in order, unless made by the Majority Leader (or his or her designee) or if the absence of a quorum has been demonstrated. Notwithstanding paragraph 1 of rule XIX, there shall be no limit to the number of times a Senator may speak upon any question during a period of extended debate.

"If, during the course of extended debate, the Presiding Officer puts any question to a vote, the Majority Leader (or his or her designee) may postpone any such vote, which shall occur at a time determined by the Majority Leader, after consultation with the Minority Leader, but not later than the time at which a quorum is next demonstrated.

"If at any time during a period of extended debate no Senator seeks recognition, then the Presiding Officer shall inquire as to whether any Senator seeks recognition. If no Senator seeks recognition, then the Presiding Officer shall again put the question as to bringing debate to a close (and the Majority Leader or his or her designee may postpone such vote in accordance with the preceding paragraph), which shall be decided without further debate or intervening motion. If that question shall be decided in the affirmative by a majority of Senators voting, a quorum being present, then cloture has been invoked and the period of extended debate has ended. If that question shall be decided in the negative by a majority of Senators voting, a quorum being present, then the period of extended debate has ended.

"If cloture is invoked, then the measure, motion, other matter pending before the Senate, or the unfinished business, in relation to which the motion to close debate was offered, shall remain the unfinished business to the exclusion of all other business until disposed of.".

SEC. 3. POST-CLOTURE DEBATE ON NOMINATIONS.

Paragraph 2 of rule XXII of the Standing Rules of the Senate is amended by striking "After no more than thirty hours of consideration of the measure, motion, or other matter on which cloture has been invoked, the Senate shall proceed, without any further debate on any question, to vote on" in the fourth undesignated paragraph and inserting "After no more than 30 hours of consideration of the measure, motion, or other matter on which cloture has been invoked, except on the question of advice and consent to a nomination other than a nomination to a position as Justice of the Supreme Court in which case consideration shall be limited to 2 hours, the Senate shall proceed, without any further debate on any question, to vote

SEC. 4. CONFERENCE MOTIONS.

Rule XXVIII of the Standing Rules of the Senate is amended by—

- (1) redesignating paragraphs 1 through 9 as paragraphs 2 through 10, respectively;
- (2) redesignating any reference to paragraphs 1 through 9 as paragraph 2 through 10, respectively; and
- (3) inserting before paragraph 2, as redesignated, the following:
- "1. A nondivisible motion to disagree to a House amendment or insist upon a Senate amendment, to request a committee of conference with the House or to agree to a request by the House for a committee of conference, and to authorize the Presiding Officer to appoint conferees (or to appoint conferees), is in order and consideration of such a motion, including consideration of any debatable motion or appeal in connection therewith, shall be limited to not more than 2 hours."

SEC. 5. RIGHT TO OFFER AMENDMENTS.

Paragraph 2 of rule XXII of the Standing Rules of the Senate is amended by inserting at the end the following:

"After debate has concluded under this paragraph but prior to final disposition of the pending matter, the Majority Leader and the Minority Leader may each offer not to exceed 3 amendments identified as leadership amendments if they have been timely filed under this paragraph and are germane to the matter being amended. Debate on a leadership amendment shall be limited to 1 hour equally divided. A leadership amendment may not be divided."

SENATE RESOLUTION 601—RECOGNIZING 35 YEARS OF COOPERATION IN SCIENCE AND TECHNOLOGY BETWEEN THE UNITED STATES AND THE PEOPLE'S REPUBLIC OF CHINA

Mr. MENENDEZ (for himself, Mr. KIRK, Mrs. FEINSTEIN, and Mr. CARDIN) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 601

Whereas mutually beneficial cooperation between the Governments of the People's Republic of China and the United States in promoting science and technology has made tremendous strides since the signing of the Agreement Between the Government of the United States and the Government of the People's Republic of China on Cooperation in Science and Technology, done at Washington January 31, 1979, which was the first intergovernmental agreement since the United States and the People's Republic of China established diplomatic relations in 1979:

Whereas the Governments of the People's Republic of China and the United States have become active partners in fostering research and innovation since the signing of the Agreement Between the Government of the United States and the Government of the People's Republic of China on Cooperation in Science and Technology in 1979;

Whereas cooperation in science and technology since 1979 has brought numerous benefits to both countries, including—

- (1) shared information on issues such as climate variability, seismic activity, and agricultural science;
- (2) joint publication of scientific and technological research; and
- (3) exchange of technical assistance and best practices in areas such as food and pharmaceutical safety and environmental cleanup;

Whereas the continued promotion of science and technology in both countries holds the potential to advance shared interests, as well as the interests of United States partners and allies in the region and globally, including in mitigating the effects of climate change, securing the availability of water, food and energy, and improving public health, disease prevention, and pandemic response:

Whereas the government-to-government relationship conducted under the Agreement Between the Government of the United States and the Government of the People's Republic of China on Cooperation in Science and Technology now consists of some 30 subordinate agency-to-agency protocols, including—

- (1) cooperation between the Department of Energy and the Chinese Ministry of Science and Technology to form the Clean Energy Research Center to explore advances in clean vehicles, advanced coal technology, and building energy efficiency;
- (2) cooperation between the Department of Agriculture's Agricultural Research Service and the Chinese Ministry of Science and Technology on agricultural biotechnology, natural resource management, food safety, and similar issues;
- (3) cooperation between the National Institutes of Health and the counterparts in China, including the Natural Science Foundation of China and Chinese Ministry of Science and Technology to conduct basic and clinical biomedical research;
- (4) cooperation between the Environmental Protection Agency and the counterparts in China, including the Chinese Ministry of Science and Technology and the Chinese

Ministry of Environmental Protection to support joint environmental research, and to exchange best practices on environmental legislation and enforcement;

(5) exchange of personnel between the Chinese Centers for Disease Control and Prevention and the Centers for Disease Control and Prevention to develop information exchange and response mechanisms for influenza pandemics;

(6) collaboration between the Food and Drug Administration and food and medical regulators in China to enhance the safety of imported food and medical products from China through better information sharing and access to production facilities: and

(7) collaboration between the Centers for Disease Control and Prevention and Peking University Health Center (former Beijing Medical University) to study child health issues and health hazards caused by environmental factors:

Whereas many educational institutions in the United States and China have established partnerships to further science and technology research, including—

- (1) Northwestern University, based in Evanston, Illinois, which has developed strategic partnerships in China, such as the Wanxiang Fellows Program, which allows Northwestern students to study emerging energy challenges and renewable energy innovations in the United States and China; and
- (2) University of California, Davis, based in Davis, California, which has partnered with China's Northwest Agricultural and Forestry University in Shaanxi province to establish the Sino-U.S. Joint Research Center for Food Safety to promote international collaborative research for food safety in China and the United States:

Whereas the University of Illinois at Urbana-Champaign has signed 97 inter-institutional cooperative partnership agreements with various institutions that are headquartered in China in the fields of engineering, food sciences, and transportation, including a high-speed rail research partnership between the university's Railway Transportation and Engineering Center and China's oldest and most recognized railway engineering school, Southwest Jiaotong University:

Whereas, on December 5, 2014, China and the United States will commemorate the 30th anniversary, and renew for another ten years, the CHELBI partnership, which has created the largest joint venture engineering consulting firm in China, having undertaken over 600 bridge, road, and other projects the designs of which meet World Bank and Asian Development Bank standards, and has made significant progress in engineering knowledge-sharing for road, bridge, and other project design and construction between the United States and China;

Whereas several United States Department of Energy national laboratories have established partnerships with research institutions in China to advance energy research, including—

(1) Argonne National Laboratory in Lemont, Illinois, which has worked with the China Automotive Technology and Research Center (CATARC) to promote energy-efficient vehicle technologies and clean transportation fuels in China since 2003; and

(2) Lawrence Berkeley National Laboratory in Berkeley, California, which has formed the China Energy Group to work collaboratively with groups in China to understand the dynamics of energy use, improve energy efficiency, reduce emissions in China, strengthen Chinese capabilities in energy efficiency, and enhance relationships on energy efficiency among Chinese, United States, and international institutions;

Whereas, in 2013, the State of California and the Chinese Ministry of Commerce signed a Memorandum of Understanding to establish a working group to deepen cooperation in fields such as biological pharmaceuticals, information technology, agriculture, and energy;

Whereas the exchange of ideas in science and technology and shared research conducted in China and the United States holds the potential to increase United States exports of non-sensitive commercial technologies to China;

Whereas the agreement reached in November 2014 between the United States and the People's Republic of China to expand the scope of goods covered by the Information Technology Agreement will further deepen trade, investment, and mutual cooperation in science and technology;

Whereas collaboration in science and technology since 1979 has provided both countries with the technological foundation to make ambitious pledges to reduce future emissions of carbon dioxide; and

Whereas people-to-people exchanges conducted under the Agreement Between the Government of the United States and the Government of the People's Republic of China on Cooperation in Science and Technology have fostered mutual understanding of both countries and have led to joint research in science and technology: Now, therefore, be it

Resolved, That the Senate-

- (1) recognizes the cooperation in science and technology between the Governments of the United States and the People's Republic of China since 1979;
- (2) emphasizes the importance of open markets, intellectual property rights, and the free exchange of information to the development of science and technology; and
- (3) expresses continued support for the principles of the Agreement Between the Government of the United States and the Government of the People's Republic of China on Cooperation in Science and Technology, done at Washington January 31, 1979, to which both countries remain committed.

$\begin{array}{c} {\rm AMENDMENTS} \ {\rm SUBMITTED} \ {\rm AND} \\ {\rm PROPOSED} \end{array}$

SA 4100. Mr. REID proposed an amendment to the bill H.R. 83, to require the Secretary of the Interior to assemble a team of technical, policy, and financial experts to address the energy needs of the insular areas of the United States and the Freely Associated States through the development of energy action plans aimed at promoting access to affordable, reliable energy, including increasing use of indigenous clean-energy resources, and for other purposes.

SA 4101. Mr. REID proposed an amendment to amendment SA 4100 proposed by Mr. REID to the bill H.R. 83. supra.

SA 4102. Mr. REID proposed an amendment to the bill H.R. 83, supra.

SA 4103. Mr. REID proposed an amendment to amendment SA 4102 proposed by Mr. REID to the bill H.R. 83, supra.

SA 4104. Mr. REID proposed an amendment to amendment SA 4103 proposed by Mr. REID to the amendment SA 4102 proposed by Mr. REID to the bill H.R. 83, supra.

SA 4105. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 5771, to amend the Internal Revenue Code of 1986 to extend certain expiring provisions and make technical corrections, to amend the Internal Revenue Code of 1986 to provide for the tax treatment of ABLE accounts established under State programs for the care of family members with disabilities, and for other purposes; which was ordered to lie on the table.
