

back pain and impacted heart and lung function would begin.

Approximately one out of every six children diagnosed with scoliosis requires continued treatment, and, in extreme cases, surgery. It is of paramount importance that early detection resources are available to local schools and physicians to ensure that children and their families are both screened and educated about the condition.

Further, while up to three percent of the American population is estimated to have scoliosis, the number of family and friends who are impacted by this condition numbers many millions more. With early detection and proper treatment, patients can live a healthy and active life. National Scoliosis Awareness Month promotes public awareness for this condition—elevating the visibility of scoliosis and empowering individuals whose lives have been touched by this condition.

Mr. Speaker, please join me in recognizing June as National Scoliosis Awareness Month by thanking organizations such as the National Scoliosis Foundation and the Scoliosis Research Society, as well as their many supporters, for their tireless efforts in raising awareness of scoliosis and promoting critical research on this condition.

CELEBRATING CAPE VERDEAN INDEPENDENCE DAY

HON. DAVID N. CICILLINE

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2015

Mr. CICILLINE. Mr. Speaker, I rise today to recognize the 40th anniversary of independence for the Republic of Cape Verde, or Cabo Verde, which was celebrated on Sunday, July 5th.

Uninhabited until its discovery by the Portuguese in the 15th century, Cape Verde grew into a thriving center of commerce by the time it achieved independence in 1975.

Today, the Republic of Cape Verde is a model democracy and friend to the United States.

My home state of Rhode Island is home to one of the largest Cape Verdean-American populations in the United States—with nearly 20,000 men, women, and children calling Rhode Island home today.

It is a privilege to serve on their behalf and represent their interests before Congress today.

I have also been fortunate to host Cape Verdean Prime Minister Jose Maria Neves for official visits to Rhode Island's First Congressional District and to discuss the work we can do together to strengthen the Cape Verdean community living in Rhode Island today.

I extend my best wishes to the people of Cape Verde for a joyous celebration of the 40th anniversary of their independence this month.

IN RECOGNITION OF NATIONAL SUNGLASSES DAY

HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2015

Mr. BURGESS. Mr. Speaker, I rise today to recognize National Sunglasses Day and to honor the sunglass manufacturers and suppliers throughout my Dallas Congressional District, the State of Texas and around the country. Texas and the Dallas area are home to a variety of optical industry leaders including 24 optical laboratories that manufacture prescription sun wear, 3 lens manufacturers that supply UV filtering lenses, and 6 sun wear frame suppliers. As a physician, I commend the sunglass industry and their trade association The Vision Council (TVC) for ongoing outreach campaigns to educate consumers regarding the damaging effects of ultraviolet (UV) rays to the eye and healthy vision.

In the case of eye protection, what you don't know can hurt you. When it comes to the human eye and the sun's rays, it's what we can't see that matters most. UV radiation that reaches the earth's surface, made up of two types of invisible rays, UVA and UVB, endangers an unprotected eye. The effects of long-term exposure can include cataracts, macular degeneration, abnormal growths on the eye's surface and even cancer of the eye. While everyone should shield their eyes from UV rays, certain risk factors like age and eye color increase an individual's vulnerability to UV related eye disorders. Where you live and travel can also make a big difference in the level of UV exposure. Since UV damage can't be reversed, prevention through protection is key.

Later this summer, sunglass manufacturers and distributors from my home district in Texas and The Vision Council (TVC) will be convening a Capitol Hill briefing on the topic of UV danger and protecting your eye health. I encourage my colleagues to attend and applaud the sunglass community and The Vision Council for their leadership in promoting healthy vision.

116TH BIRTHDAY OF MS. SUSANNAH MUSHATT JONES

HON. HAKEEM S. JEFFRIES

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2015

Mr. JEFFRIES. Mr. Speaker, I rise today in celebration of the 116th birthday of Ms. Susannah Mushatt Jones, who is affectionately called Miss Susie. Confirmed by Guinness World Records as the world's oldest living person, she is a beloved member of the Brooklyn community I am proud to represent in Congress. In recognition of her birthday, Miss Susie will be honored on July 7, 2015 at the Vandalia Senior Center in Brooklyn, NY. We revel not just the years since her birth, but the history she has witnessed in three separate centuries. From experiencing segregation in the South to being a first-hand witness of the Civil Rights movement in New York, we commemorate her birthday with awe and inspiration.

Miss Susie was born into a large, loving family on July 6, 1899 in Lowndes County,

Alabama as the third of eleven children. In 1923 she moved to New York as part of the Great Migration of African Americans from the rural South to cities in the North, Midwest, and West. Miss Susie dedicated her professional pursuits to children, first as a school teacher and then as a childcare provider. At one point, she moved to Hollywood to work for a family in the film industry. During her time on the west coast, she enjoyed socializing with movie stars and attending movie premieres. She fondly remembers meeting Ronald Reagan, Clark Gable, and Cary Grant.

Family has always surrounded Miss Susie: she takes great delight in being an aunt to over 100 nieces and nephews. Throughout her life, she has brightened many lives with her positive attitude and infectious laugh. She resides in Vandalia Houses and was an active member of the Vandalia Houses Senior Center tenant patrol through her 100th birthday. Miss Susie credits her healthy lifestyle free of smoking and drinking for her longevity.

Mr. Speaker, I ask that you and my other distinguished colleagues join me in celebrating Ms. Susannah Mushatt Jones on her 116th birthday.

IN RECOGNITION OF THE 40TH ANNIVERSARY OF CABO VERDE'S INDEPENDENCE

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2015

Mr. KEATING. Mr. Speaker, I rise today in proud recognition of the historic 40th Anniversary of Cabo Verdean independence.

The history of Cabo Verde is as intricate and vibrant as the people themselves. First founded by the adventuresome European explorers of the fifteenth century, Cabo Verde became a critical trading post on the route from the coasts of Africa and bustling Mediterranean ports to the newly discovered lands across the Atlantic. The diverse residents of Cabo Verde lived under Portuguese rule until the establishment of a transitional government and first election of a National Assembly in 1975. To date, July 5 remains celebrated by the residents of Cabo Verde and their growing diaspora overseas as a day of independence.

I have the privilege of representing communities in Southeastern Massachusetts that boast strong ties to Cabo Verde and hosts the highest concentration of Cabo Verdean-Americans in the United States. The Cities of New Bedford and Fall River, in addition to Brockton and Boston, are some of the largest communities of Cabo Verdean descent in the country.

The Cabo Verdean community has played an integral role in molding the rich culture of Massachusetts as we know it today. This influence dates back to the height of the whaling industry in the 18th century, during which time Cabo Verdeans were universally respected for their skills as seamen and whale hunters—recognized across the world as honest, hard workers. They continue to uphold that reputation in Massachusetts, where many Cabo Verdean-Americans continue to work in the historic fishing and cranberry industries.

Today, the scenic archipelago of Cabo Verde enjoys political stability, democratic rule and substantial economic growth.

Mr. Speaker, I ask you to join me in honoring the 40th anniversary of Cabo Verde's independence and in recognizing the country's irreplaceable role in the international community.

DEPARTMENT OF THE INTERIOR,
ENVIRONMENT, AND RELATED
AGENCIES APPROPRIATIONS
ACT, 2016

SPEECH OF

HON. JOHN KLINE

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2015

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 2822) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2016, and for other purposes:

Mr. KLINE. Mr. Chair, I rise today because I believe every child in every school should receive an excellent education.

It is a goal that I have worked toward as Chairman of the Education and the Workforce Committee, and one I know many in this House share. I would like to especially thank the Committee Chairmen ROGERS and CALVERT, and Ranking Members LOWEY and MCCOLLUM, for working with me to address the challenges facing Native American students.

Earlier this year I visited the Bug-O-Nay-Ge-Shig School of the Leech Lake Band of Ojibwe in Minnesota. At the school, thin metal walls are all that separate students from harsh winters and blankets hang over the doors in a desperate attempt to keep out the cold air. When winds reach a certain strength at the "Bug School," students are forced to evacuate the building—often in below-zero temperatures. On many cold and windy winter days, Bug School students keep their winter jackets on all day, to save time during evacuation.

Mr. Chair, this is unacceptable. These children deserve much better. It's incumbent on the Administration and this Congress to get to the bottom of this.

The Education and the Workforce Committee recently held hearings to examine the deplorable conditions affecting Native American schools—an issue that in recent months has received national attention thanks to the investigative work of the Star Tribune.

Mr. Chair, the federal government promised to provide Native American students a quality education in a manner that preserves their heritage, and we are failing to keep that promise.

Accordingly, I sent a letter to my colleagues on the House Committee on Appropriations this year requesting an increase of nearly \$60 million more than last year's budget for Bureau of Indian Education schools.

I am pleased the Department of Interior appropriations bill, through the hard work of the Chairmen and Ranking Members, reflects my request and recognizes that we cannot continue to fail meeting our commitment.

While additional resources are certainly important, they are only part of what is needed in a long-term solution. We still must work together in a bipartisan manner to untangle the

maze of bureaucracy that continues to plague BIE schools and students.

Mr. Chair, these unique, vulnerable children have waited long enough for the federal government to live up to its promises and I urge my colleagues to support this bill which is an important step toward our goal of providing an excellent education for all our children.

TRIBUTE TO OARD-ROSS DRUG

HON. DAVID YOUNG

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2015

Mr. YOUNG of Iowa. Mr. Speaker, I rise today to recognize Oard-Ross Drug of Council Bluffs, Iowa. Oard-Ross Drug has been operating at the same corner location since 1907. Mr. Joe Beraldi, the drug store's owner and pharmacist, has himself worked at the store for 75 years. Mr. Beraldi continues to enjoy working with the customers and does not enjoy golf, which, he explains, are the two main reasons he has no plans for retirement yet.

Mr. Beraldi was born and raised in Council Bluffs and began working at the store at age 14 while attending high school. He said he made deliveries on his bike for 10 cents an hour during that time. Today, Mr. Beraldi serves second and third generation customers at the drug store. This multi-generational customer loyalty is a testament to the great service provided by Mr. Beraldi and his staff. Currently, Mr. Beraldi works part-time at the store and has no intention of retiring. His son, Tony, also a pharmacist, has worked at Oard-Ross Drug for 29 years and now manages the store.

I commend Mr. Joe Beraldi, his son, Tony, and the staff at Oard-Ross Drug for their many years of dedicated service to Council Bluffs. I urge my colleagues in the House to join me in congratulating Oard-Ross Drug for this extraordinary occasion. I wish them all the best moving forward.

COMMEMORATING 46TH ANNIVERSARY OF THE APOLLO 11 MOON LANDING

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2015

Ms. JACKSON LEE. Mr. Speaker, forty six years ago, on July 20, 1969, millions of Americans and other people around the world, sat glued to their televisions and radios to witness a human being walk on the surface of the moon, one of the signal events in world history.

This astounding technological achievement could not have come at a better time because in July 1969, the United States was in need of a unifying event following the assassinations of President John F. Kennedy, Rev. Dr. Martin Luther King, Jr., and Senator Robert Kennedy, and Malcolm X, and social divisions resulting from America's involvement in the Vietnam War, a war that cost the nation dearly in blood and treasure.

In 1969, the world was still caught in the grip of the Cold War, divided by ideology, sep-

arated into opposing blocs of countries aligned with either the Soviet Union or the United States.

Today the world stands connected in a variety of ways unimaginable 46 years ago.

The step onto the surface of the moon by Neil Armstrong, left more than a mere foot print in the moon sand, it spurred a technological revolution that has resulted in many of the devices that help shape our lives today.

On September 29, 1962 at Rice University in Houston, Texas, President John F. Kennedy inspired the nation to accept the challenge of sending a man to the moon and bringing him safely home before the end of the decade.

President Kennedy said, "We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard, because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one which we intend to win, and the others, too."

In July 1969, through the combined determination and efforts of the American people, the United States made good on President Kennedy's prediction.

From the inspiration of a young President who challenged us to set our sights on the moon, scientists developed new materials, engineers manufactured innovative equipment, and factory workers assembled cutting edge transport crafts.

Together, Americans proved that by working together, toward a common purpose, there is nothing beyond our reach.

And let us not forget the crew of American heroes, who made President's Kennedy's promise a reality for the world, and whose courage and daring embodied the virtues and ideals of the American spirit: astronauts Neil Armstrong, Edwin "Buzz" Eugene Aldrin Jr., and Michael Collins.

The words spoken by Neil Armstrong when he stepped off Eagle 1 onto the surface of the moon perfectly captured the significance of that moment in human history: "This is one small step for a man, one giant leap for mankind."

This giant step forward in world history reflected the ground breaking research, development, inventions, and discoveries of thousands of Americans who successfully opened a new path in frontier of space exploration.

IN RECOGNITION OF DR. GILBERT "GIL" ERNEST ADAMI

HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2015

Mr. BURGESS. Mr. Speaker, I rise today to posthumously honor Dr. Gilbert Ernest Adami, who passed away on June 24, 2015 at the age of 92, leaving behind a proud legacy.

Dr. Adami was born September 2, 1922 in Winters, Texas to Ernest and Emma Adami. Even as a child, he knew his calling in life was to heal others. He graduated from Winters High School at age 16, and attended the University of Texas. At age 19, he was admitted to Tulane University School of Medicine, obtaining his medical degree at age 22. Dr. Adami entered the United States Navy in 1945
