TEXAS HOUSE RESOLUTION NO.
1508

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, September 11, 2015

Mr. POE of Texas. Mr. Speaker, I rise today to make it known that the Texas House of Representatives through Robert Haney, the Chief Clerk of the House, has adopted House Resolution No. 1508 by King of Uvalde. This resolution expresses support for the use of sound science to study and regulate modern agricultural technologies, as well as supporting opposition to legislative or regulatory action that may result in unnecessary restrictions on the technologies.

And that's just the way it is.

RESOLUTION

Whereas, A sustainable agricultural system is crucial to the continued production of food, feed, and fiber to meet both domestic and global demand; and

Whereas, In the United States, the agriculture and food production industries employ precision farming equipment, crop protection chemistries, genetic engineering or enhancement, agricultural nutrients, and other modern technologies; such advanced practices protect the safety of the public and reduce environmental impact while expanding yields, improving profitability, and ensuring an abundant and affordable food supply; and

Whereas, Agricultural pests present significant dangers to the industry and to global supplies of the products they attack; accordingly, the environmental risks of forgoing advances in agricultural technologies that protect crops are severe; excessive regulation may scuttle or discourage the use of agricultural chemicals that could improve human welfare; and

Whereas, Crop protection is among the most studied and highly regulated of all industries, at both the state and federal levels; the use of sound science should be the bedrock of our nation's regulatory scheme for the agriculture and food production industries, as these industries are critical to the economic vitality of Texas and the United States; Now, therefore, be it

Resolved, That the House of Representatives of the 84th Texas Legislature hereby express support for the use of sound science to study and regulate such modern agricultural technologies as crop protection chemistries, genetically engineered or enhanced traits, and nutrients; and, be it further

Resolved, That the Texas House of Representatives express opposition to legislative or regulatory action at any level that may result in unnecessary restrictions on the use of modern agricultural technologies; and, be it further

Resolved, That the chief clerk forward official copies of this resolution to the president of the United States, to the president of the Senate and the speaker of the House of Representatives of the United States Congress, and to all the members of the Texas delegation to Congress with the request that this resolution be entered in the Congressional Record as a memorial to the Congress of the United States of America.

Mr. WILLIAMS. Mr. Speaker, I submit the following resolution as a memorial.

RESOLUTION

Whereas, The Transportation Security Administration currently excludes concealed handgun licenses (CHL) from its list of valid forms of identification, causing an inconvenience for the agency as well as for many travelers; and

Whereas, Acquiring a CHL from the Texas Department of Public Safety is a rigorous procedure that requires applicants to submit to a criminal history background check and provide a valid driver's license or identification card and residential and employment information; these measures ensure that CHL holders are law-abiding citizens whose identities have been verified; and

Whereas, A CHL is such a trusted proof of identification that it is accepted for voter registration and many other governmental processes; and

Whereas, Permitting the use of CHLs as valid forms of identification would help advance the TSA's mission of safeguarding our national transportation system and protecting the American public: Now, therefore, be it

Resolved, That the House of Representatives of the 84th Texas Legislature hereby urge the Congress of the United States to instruct the Transportation Security Administration to accept concealed handgun licenses as valid forms of identification; and, be it further

Mr. EMMER of Minnesota. Mr. Speaker, I rise today to congratulate Ralph Donais of Elk River for receiving a Veterans' Voices Legacy Award.

Ralph served in the Marine Corps from 1964 to 1994 and retired as an Aviation Avionics Chief. During his service, Ralph fought for our country while being deployed for two tours in Vietnam. Ralph's efforts earned him the Meritorious Service Medal along with numerous other awards.

Ralph's commitment to his country and his fellow veterans did not end once he returned to Elk River. He also spends time at the Minnesota Capitol to inform and educate legislators as well as testifying in committees regarding issues important to the veterans community.

Elk River's Beyond the Yellow Ribbon program, which lends a helping hand to veterans and members of our military before, during and after deployments, was started by Ralph and he remains an active member.

I would like to congratulate Ralph for receiving this award, but I would also like to commend him for all that he has done for his country and the Elk River community. It takes an extraordinary person to accomplish all that he has, and I am proud to recognize him here today.

65TH ANNIVERSARY OF OPERATION CHROMITE

HON. TOM REED

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, September 11, 2015

Mr. REED. Mr. Speaker, next Tuesday, September 15, will mark the 65th anniversary of Operation Chromite, better known as the Incheon Landing. This decisive invasion and the battle which ensued marked a key turning point at the outset of the Korean War in 1950.

My father, Thomas W. Reed, was a veteran of the Korean War, serving as an ammunition officer with the U.S. Army's 45th and 25th Infantry Divisions. He fought alongside brave South Korean soldiers who were struggling to save their homeland from the onslaught of communism.

For 65 years since, the United States and the Republic of Korea have continued to stand shoulder to shoulder in strength and solidarity to defend freedom, democracy, market capitalism, human rights and the rule of law on the Korean Peninsula. Indeed, our alliance, which was forged on the battlefield, has become a "blood alliance."

I had the privilege of visiting South Korea in April 2011 and the trip left a lasting impression. It was particularly meaningful for me to have been able to visit the Korean War Memorial and Exhibition in Seoul, to lay a wreath and to pray and reflect. My visit served as a humbling and sobering reminder of the cost of freedom that was paid 65 years ago through the service and sacrifice of all Korean War veterans.

I also witnessed firsthand economic prosperity and industrial prowess in Korea that never could have been imagined when my father was there in the 1950's.

Today, Korea ranks as the world's thirteenth-largest economy, the sixth-largest trading partner of the United States, the fifth-largest market for agricultural goods, and the third-largest destination for U.S. foreign direct investment in the Asia-Pacific region. Bilateral trade between our two nations averages about \$80 billion each year, further cemented by the U.S.-Korea Free Trade Agreement.

In the 23rd congressional district of New York, which I am privileged to represent, farmers, small business owners, and larger firms are already benefiting from the KORUS FTA. Of note, there are more than 140 family-owned wineries in the area around my hometown, and several of them are enjoying increased exports due to tariff eliminations.

My district is also home to Corning Incorporated, which launched a joint venture with Samsung in 1995 to form Samsung Corning Precision Materials. SCPM is now a global leader in the development and supply of LCD glass substrates.

For so many reasons, Korea constitutes one of America's greatest foreign policy success stories in the post-World War II era. Korea is not only an indispensable ally and friend but serves as the linchpin of regional peace and stability in Northeast Asia.

To this end, Korean President Park Geun-hye will be visiting Washington in mid-October. Her visit is a timely and meaningful one, and I offer my expression of welcome and support for a productive and successful trip.

I recall President Park's Address to a Joint Meeting of the Congress on May 8, 2013

when she eloquently stated that "our chorus of freedom and peace, of future and hope, has not ceased to resonate over the last 60 years and will not cease to go on."

I further applaud and support President Park's vision and goals as articulated in her Dresden Address in March of last year on South-North reunification, including a proposal to create an International Peace Park at the DMZ. In addition, the Northeast Asia Peace and Cooperation Initiative (NAPCI) will be an important means to promoting regional peace and prosperity through a trust-building process.

In the post-KORUS FTA implementation era, there are several ways we can continue to enhance our bilateral economic relationship. First, I have supported the Partner with Korea Act, authored by my friend and colleague, PETER ROSKAM, to provide up to 15,000 temporary professional visas for Korean nationals. Second, I support the renewal of the U.S.-Korea Civilian Nuclear Energy Agreement which was signed on June 15, 2015. Third, I support Korea's Creative Economy action plan to enhance mutual competitiveness in the global marketplace.

Mr. Speaker, the U.S.-Korea alliance is at its strongest ever and yet our alliance will continue to be tested as was evidenced in light of recent North Korean provocations. It is important we remain ever vigilant and resolute in our alliance to counter any and all threats that could lead to instability on the Korean Peninsula. In the Congress, I will do all I can to support and defend our great ally and friend—the Republic of Korea—and I urge my colleagues to do the same.
