

From its first overseas deployment, the USS *Simpson* and her crew have distinguished themselves in combat. On April 18, 1988, along with two other navy ships, the *Simpson* responded to the Iranian mine attack on the USS *Samuel B. Roberts* by destroying an Iranian oil platform and sinking the Iranian Navy mission patrol combatant, *Joshan*.

Over her 30 years of service, the *Simpson* made 14 deployments. Her final deployment was for seven months to the U.S. 5th and 6th Fleet areas of operation in which she conducted theater security cooperation exercises. As in the past, the crew was called on to support various task forces and performed perfectly never missing an operational commitment. Every sailor made a difference every day. In addition, some of the newest technologies in the Navy were aboard, four Fire Scouts (MQ-8B) vertical takeoff and landing tactical unmanned aerial vehicles.

The crew on the last deployment was comprised of reservists as well as active duty individual augmented personnel with zero previous experience with UAV's. Despite the challenges, the officers aboard reported the crew achieved the highest ever recorded maintenance readiness and sortie completion rate of any Fire Scout deployment in the program's history.

The *Simpson* will be decommissioned but the friendships and camaraderie this ship established on its decks will last for ages. It is a pleasure and honor to represent the great men and women who serve in the 4th Congressional District of Florida and to see them successfully complete the mission of the USS *Simpson*. Their hard work and dedication contributes to the important missions of our Nation's defense and reiterates our community's importance as an anchor of national security.

CONGRATULATING MRS. GLORIA
GALLOWAY ON HER RETIREMENT

HON. THOMAS J. ROONEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 18, 2015

Mr. ROONEY of Florida. Mr. Speaker, I would like to take this opportunity to recognize Mrs. Gloria Galloway, a dedicated professional with the Department of Veterans Affairs, Congressional Liaison Service, on the occasion of her retirement. Gloria has been an exemplary public servant who has demonstrated the highest standards of professionalism on a daily basis. She has served with the Department of Veterans Affairs for more than 36 years and her career in public service has been a testament to the importance of unselfish devotion. As Gloria embarks on a new chapter in life, it is my hope that she may recall with a deep sense of pride and accomplishment the outstanding contributions she has made to the Department of Veterans Affairs, the United States House of Representatives and the people of the United States of America. I would like to send her my best wishes for continued success in her future endeavors, and may her life be filled with health and happiness.

PERSONAL EXPLANATION

HON. GLENN THOMPSON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 18, 2015

Mr. THOMPSON of Pennsylvania. Mr. Speaker, on roll call no. 497, I was absent during roll call number 497 (the Previous Question on H. Res. 420) the afternoon of September 17, 2015 because I was meeting with constituents from Pennsylvania's Fifth Congressional District. Had I been present, I would have voted YES.

A TRIBUTE TO CARL AND DENISE JARDON

HON. DAVID YOUNG

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 18, 2015

Mr. YOUNG of Iowa. Mr. Speaker, I rise today to recognize and congratulate Carl and Denise Jardon of Randolph, Iowa, for receiving the 2015 Conservationist of the Year Award presented by the Fremont County Soil and Water Conservation District.

Carl and Denise were selected for this award based on their outstanding work in incorporating terraces, no-till farming, nitrogen stabilizer, and cover crops into their 368-acre farm operation. These practices are instrumental in helping preserve clean water and soil for generations to come.

Mr. Speaker, I applaud and congratulate Carl and Denise for earning this award. They are shining examples of how hard work and dedication to protecting the environment will benefit their property and others. I urge my colleagues in the United States House of Representatives to join me in congratulating Carl and Denise for this achievement. I wish them nothing but the best moving forward.

THE FAIR ACCESS TO EDUCATION ACT OF 2015

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Friday, September 18, 2015

Mr. BLUMENAUER. Mr. Speaker, today I am introducing the Fair Access to Education Act of 2015. This legislation would bring fairness to the Free Application for Federal Student Aid (FAFSA) form, which determines federal student aid, and currently asks eligibility questions about a student's drug conviction history.

Under this legislation, an applicant with misdemeanor marijuana possession offenses will not have to check the box when applying for federal financial assistance. It also immediately provides eligibility for grants, loans, and work assistance to those whose applications were suspended due to a marijuana misdemeanor offense.

Too often those with misdemeanor drug offenses, such as simple marijuana possession, continue to be discriminated against or stigmatized long after they've paid their fines or served their time. Such is the case when it

comes to higher education. One of our greatest opportunities as Americans to better ourselves and start anew is pushed out of reach for many because of an outdated bias built into our federal student aid application.

Under current law, the FAFSA requires applicants to disclose any drug-related offense they've had while receiving federal student aid. This outdated question is on the application because of the Anti-Drug Abuse Act of 1988, which authorizes federal and state judges to deny certain federal benefits, including student aid, to persons convicted of drug trafficking or possession.

If that box is checked when a student submits an application, the application is immediately placed on hold and the student is informed that the application cannot be processed and additional steps are required to determine eligibility. This intimidating process often has the effect of discouraging students from continuing.

Public opinion and state law is shifting dramatically on questions related to marijuana. Prohibition is outdated and does not reflect how Americans think, nor how they actually behave. Nearly half of the population has smoked marijuana at some point in their lives, and now in four states and the District of Columbia, people can do so legally.

It is senseless that we would limit a student's future for any drug offense for which they have served their sentence, and even more senseless that we would do so for an offense for a drug that a majority believes should be legal.

The FAFSA question—number 23 for the 2015–16 school year—is outdated, unfair, and traps those seeking to recover from mistakes and create opportunities for themselves. Current policy is inevitably more harmful to those with the greatest need. If a student has a misdemeanor marijuana offense but is fully able to afford an education on their own, their future is not limited. But if a student has taken strides to recover from past mistakes and is seeking help in getting an education, current policy will only hold them back.

The Fair Access to Education Act would help reduce recidivism and strengthen our communities.

RECOGNIZING THE MARINE & ENVIRONMENTAL RESEARCH INSTITUTE ON ITS 25TH ANNIVERSARY

HON. CHELLIE PINGREE

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Friday, September 18, 2015

Ms. PINGREE. Mr. Speaker, I rise today to congratulate and applaud an organization in my state on its 25th anniversary year of studying the effects of toxic chemicals on environmental and human health.

The Marine & Environmental Research Institute (MERI)—based in Blue Hill, Maine—began in 1990 with a group of scientists concerned about the impact of pollutants on marine mammal populations that were experiencing massive die-offs and disease outbreaks. Led by Dr. Susan Shaw, the organization has done incredible work since then investigating the effects toxic exposure has on health outcomes in the marine environment.

Moreover, the group has shown that toxic exposure has significant consequences for

human health as well. I especially appreciate MERI's groundbreaking studies of the effects of chemical exposure on firefighters, a group that encounters high incidences of cancer. The organization has conducted the most extensive bio-monitoring assessment of firefighters to date and continues to gather information that can be used to protect the health of the first responders who keep our communities safe.

As beings on this planet, we cannot separate ourselves from the environment. What we do to it, we do to ourselves. I truly appreciate MERI's work to remind us all that wildlife and humans alike benefit from protecting the environment and limiting the spread of dangerous chemicals. May it continue to do this important work for many years to come.

TRIBUTE TO MATTHEW SHAFNER

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Friday, September 18, 2015

Mr. COURTNEY. Mr. Speaker, I rise to pay tribute to Mr. Matthew Shafner, who recently passed away after a courageous battle with cancer. Matt was a beloved native son of the Groton-New London community, and a legendary attorney who never wavered as a champion of the underdog.

Born in New London in 1935, Matt attended the Bulkeley School and graduated from New London High School in 1953. Growing up, Matt worked for his family's renowned furniture business headed by his father, who also served as a state representative in the Connecticut General Assembly. Matt earned his undergraduate degree from the University of Connecticut and was awarded a law degree from UConn Law School in 1959. Shortly thereafter, Matt opened and built a workers' compensation practice with John O'Brien in New London, representing the region's shipyard workers. These deep roots in the southeastern Connecticut community indelibly connected Matt with the citizens—his neighbors—whom he would represent in the courtroom.

In the early seventies, Matt took the case of a shipyard worker who died of lung cancer and then took on asbestos companies. The lawsuits started with one asbestos case and one lung cancer case and quickly grew to 12 cases and then 50 cases including asbestos, lung cancer, mesothelioma, laryngeal cancer, esophageal cancer and GI cancer. By the end of the decade, the first 50 asbestos cases settled for \$6.5 million—winning surviving families justice and compensation for their losses.

Matt continued to handle many other cases, including 90 aerospace workers who had developed brain tumors after working in the same factory. Another powerful case for Matt arose out of a fabricated glove and aprons manufacturer in northeastern Connecticut using chrysotile asbestos cloth and gas masks with crocidolite asbestos filters. The plant manager's son, who worked during school vacations and was a biking champion of Connecticut, developed pleural mesothelioma at age 41. He died soon after, leaving a young wife and two infant children. Matt won the case for this family in court.

In the New London Day, Senior Superior Court Judge Robert Martin described Matt as

a “unanimous first ballot hall-of-fame lawyer. He had no peer in the personal injury field. We have a lot of good lawyers in New London County, but Matt really set the bar and I think everybody played off him. I don't know any lawyer who cared about justice more than Matt Shafner.”

Matt served his community as faithfully he served individuals in need, as the attorney for the City of Groton for 20 years.

Matt was named among the Super Lawyers of Connecticut every year from 2007 to 2012, as well as in New England and Metropolitan New York. Matt served as President of the New London County Bar Association, on the Board of Governors of the Connecticut Trial Lawyers Association and as State Delegate to the Association of Trial Lawyers of America. His lectures included a 1981 address to the XI Triennial World Congress of Pathology in Jerusalem on the legal aspects of asbestos disease. Matt was awarded the first Paul Tremont Award for Advocacy recognizing the first asbestos litigation in the Northeast filed in 1975.

In addition to his prolific professional career, Matt was a stalwart, grassroots activist in local, state, and national politics. A member of the Groton Democratic Town Committee, Matt faithfully worked at party headquarters, attended conventions as a delegate, and shared his compassionate perspective on issues of the day in the press and with public officials and candidates.

I benefited greatly from Matt's strong support during my two campaigns for Congress as a challenger. In 2006, when my race was decided by 83 votes out of 242,000 cast, Matt volunteered to help with the recount process—a very tense and challenging task. His training and experience as a lawyer and his passion for democracy were a perfect blend, from which I feel honored to have benefited.

For someone so accomplished, Matt was known equally for his extraordinary humility. His gentleness belied a tenacity in the courtroom that was unparalleled for his clients and achieved major victories for them.

Matt is survived by his wife Denise, four children, three step-children, nine grandchildren, and ten great-grandchildren. I ask my colleagues to join me in expressing our deepest sorrow for their loss and to the southeastern Connecticut community who lost a humble legal legend, who never stopped fighting for the underdog.

TRIBUTE TO ELLEN GRACE BROWN

HON. DAVID YOUNG

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 18, 2015

Mr. YOUNG of Iowa. Mr. Speaker, I rise today to recognize and congratulate Ellen Grace Brown on the celebration of her 100th birthday. Ms. Brown celebrated her 100th birthday on August 30th, 2015 in Lenox, Iowa.

Our world has changed a great deal during the course of Ms. Brown's life. Since her birth, we have revolutionized air travel and walked on the moon. We have invented the television, cellular phones, and the internet. We have fought in wars overseas, seen the rise and fall of Soviet communism, and witnessed the birth of new democracies. Ms. Brown has lived

through seventeen United States Presidents and twenty-four Governors of Iowa. In her lifetime, the population of the United States has more than tripled.

Mr. Speaker, it is an honor to represent Ellen in the United States Congress and it is my pleasure to wish her a very happy 100th birthday. I invite my colleagues in the United States House of Representatives to join me in congratulating Ms. Brown on reaching this incredible milestone, and wishing her even more health and happiness in the years to come.

COMMEMORATING THE ONE HUNDREDTH ANNIVERSARY OF THE ROTARY CLUB OF LEXINGTON

HON. ANDY BARR

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Friday, September 18, 2015

Mr. BARR. Mr. Speaker, I rise to recognize the centennial year of the Rotary Club of Lexington, Kentucky. This honorable humanitarian organization has been bringing men and women together to serve the Bluegrass community since 1915. It is one of the oldest and best established community-oriented organizations in the state and was Lexington's first civic club. The newly established Rotary Club first met in the historic Phoenix Hotel, which has been host to numerous celebrities and public figures including six United States Presidents. The club has grown over the years to become the twenty first largest in the world.

The motto of the Rotary Club is “Service over Self” and the Lexington club certainly exemplifies that. They are a shining example of individuals with servants' hearts coming together to better their community. Rotary organizes and implements several significant service projects that benefit our community, our commonwealth, and the world. Hundreds of community projects have been completed by the Rotary Club of Lexington, including providing clothing for children in the Fayette County School System, organizing the Southern Lights Santa Project, funding the Surgery on Sunday program, mentoring and assisting in school classrooms, funding the Born Learning night classes for parents, awarding sizeable college scholarships, and sponsoring international youth exchange programs. Rotary raises money and donates thousands of dollars each year to worthy programs such as the End Polio Now campaign and the Cardinal Hill Foundation.

Rotary membership consists of business owners, professionals, managers, and community leaders who take great interest in the happenings and welfare of the community. Lexington's Rotary Club members have been instrumental in community action for the betterment of Lexington and the quality of life of its citizens for one hundred years and this is cause for celebration. It is my honor to stand before the United States House of Representatives to acknowledge the historic celebration for the Rotary Club of Lexington. I wish them the best for a successful future in their next one hundred years.
