

his or her invention should be significant to society as a whole, and the invention should have been commercialized, utilized, or led to important innovations.

The 2014 Inductees of the Florida Inventors Hall of Fame are: Thomas Edison (1847–1931), the most prolific inventor in U.S. history and longtime resident of Fort Myers; Robert Cade (1927–2007), University of Florida professor, who developed the hydrating sports drink Gatorade, Gainesville; William Glenn (1926–2013), Florida Atlantic University professor, who invented the high-definition camera for NASA, Boca Raton; John Gorrie (1803–1855), physician and the father of refrigeration and air conditioning, Apalachicola; Shyam Mohapatra, University of South Florida professor and pioneer of applied biomedical nanotechnology, Tampa; and Shin-Tson Wu, University of Central Florida professor, whose liquid crystal research has impacted display technology worldwide, Orlando.

The 2015 Inductees of the Florida Inventors Hall of Fame are: Henry Ford (1863–1947), automotive technology pioneer and Fort Myers resident, who advanced industrial manufacturing and contributed to experimental botanical research; Robert Howard Grubbs, University of Florida graduate, professor at the California Institute of Technology, and recipient of the 2005 Nobel Prize in Chemistry, whose contributions led to new materials in medicine and plastics, Gainesville; Robert Holton, Florida State University professor, who invented the chemical synthesis of Taxol, a widely utilized and highly effective anti-cancer drug, Tallahassee; Jerry Pratt, scientist at the Florida Institute for Human and Machine Cognition, for his revolutionary work in walking robotics, Pensacola; Paul R. Sanberg, professor, and Senior Vice President for Research, Innovation and Economic Development at the University of South Florida, for discovery of novel approaches to drug and cell therapies to treat stroke, brain injuries and diseases, and for founding the National Academy of Inventors, Tampa; Nan-Yao Su, University of Florida professor, who invented Sentricon®, which revolutionized termite control, Gainesville and Fort Lauderdale; and Janet Yamamoto, University of Florida professor, who discovered the deadly feline immunodeficiency virus (FIV), created the FIV vaccine, and furthered research on HIV, Gainesville.

The contributions made to society through innovation and invention are significant and life changing. I commend these individuals and the organizations and institutions that have supported them for the work they have done to benefit the world in which we live. In contemplating the work of these inventors, may future generations be encouraged to strive to emulate these honorees and their dedication to the ideal of innovation.

HONORING THE SERVICE OF DR.
SANFORD L. JONES

HON. ANDY BARR

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 22, 2015

Mr. BARR. Mr. Speaker, I rise today to recognize an outstanding individual, Dr. Sanford L. Jones, of Richmond, Kentucky. Dr. Jones, a part of the Greatest Generation, answered

his nation's call to service during World War II. Following the war, he had a distinguished career as an educator. Today, on his ninetieth birthday, it is my honor to recognize him before the House of Representatives.

Dr. Jones was born in Lost Creek, in Perry County, Kentucky. The oldest of seven children, his father worked as a coal miner and his mother taught school. When he was a senior in high school, Dr. Jones was drafted into the United States Army. He served as a Staff Sergeant in the U.S. Army 15th Air Force, 304th Bombardment Wing, 455th Bombardment Group from 1944–1945. Dr. Jones was assigned as a nose turret gunner on a B–24 Liberator bomber. He completed 35 missions over Europe, with targets in Italy, Yugoslavia, Austria, and Germany. He was awarded the Air Medal, with three Oak Leaf Clusters to the Air Medal, for his outstanding service.

Dr. Jones flew many important missions, but one stands out in particular. On March 23rd, 1944, 157 Liberators flew a raid on the Saint Valentine tank factory north of Linz, Austria. The anti-aircraft flak by the Germans was rough. In the words of Dr. Jones, "I never saw flak burst so close and so much at one time. There were flashes of fire everywhere." His plane was badly damaged. After the pilot miraculously landed the plane, crew members counted over one hundred holes in the plane. Seven Liberators were lost on this mission, the most harrowing one of Dr. Jones' service.

Following the war, Jones completed high school and went on to earn a bachelor's degree from Eastern Kentucky State College. He taught high school in Perry County before receiving a master's degree from the University of Kentucky and a doctorate from the University of Tennessee Memphis. Dr. Jones served on the faculty of Eastern Kentucky University from 1961–1992, serving as Chairman of the Department of Biological Sciences for 13 years. Over his many years in education, he has affected hundreds of young lives. His dedication to the education field is admirable.

The bravery of Dr. Sanford and his fellow men and women of the United States Army is heroic. Because of his courage and the courage of individuals from all across Kentucky and our great nation, our freedoms have been preserved for our generation and for future generations. He is truly an outstanding American, a patriot, and a hero to us all.

IN RECOGNITION OF THE NEW
BEDFORD WHALING MUSEUM
AND THE WILLIAM M. WOOD
FOUNDATION

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 22, 2015

Mr. KEATING. Mr. Speaker, I rise today to recognize the New Bedford Whaling Museum and the William M. Wood Foundation for their collaboration in celebrating the history of Cape Verdean and Azorean culture in Southeastern Massachusetts.

Our nations' histories are forever interwoven, as the ancestors of today's Azorean and Cape Verdean American families remain an integral part of Massachusetts' economic prosperity. Many of these immigrants were first drawn to New England's ports on whaling

and fishing vessels in the early nineteenth century, often finding work in the region's nearby cranberry bogs. Cape Cod and Southeastern Massachusetts are home to the fastest growing Cape Verdean and Azorean communities in the United States.

Today, it is estimated that over 40% of the southeastern Massachusetts population are of Portuguese descent. The strong influence that the Cape Verdean and Azorean cultures have had on our local community cannot be understated, and it is essential that we honor and celebrate this important part of Southeastern Massachusetts culture.

In keeping with this spirit the William M. Wood Foundation has generously approved a \$300,000 grant to support the initiatives at the New Bedford Whaling Museum geared toward preserving the history of Azorean and Cape Verdean communities in Southeastern Massachusetts. Among other things, this grant will support a major traveling exhibit detailing the lives of Azorean and Cape Verdean whalers that will make an appearance at various coastal communities throughout New England. Additional community events will be supported by this funding, including an international symposium on the history of Azorean and Cape Verdean immigration in Massachusetts that will be held at the Museum.

In order to ensure that Cape Verdean and Azorean culture is not only preserved but celebrated in Southeastern Massachusetts, I have worked closely with many local and international officials, including Cape Verdean President Jorge Carlos Fonseca, Cape Verdean Prime Minister Jose Maria Neves, and President of the Regional Government of the Azores Vasco Cordeiro. It gives me great pride to work with these individuals and to see such strong support for honoring Azorean and Cape Verdean culture in Southeastern Massachusetts. The funding given by the William M. Wood Foundation will establish a strong base as we move forward, and we envision many more opportunities for collaboration in the future.

Mr. Speaker, please join me in recognizing the New Bedford Whaling Museum and the William M. Wood Foundation as they join together to celebrate the history of Azorean and Cape Verdean culture in Southeastern Massachusetts. I thank my colleagues for joining me in recognition of these organizations for celebrating such an important aspect of Massachusetts history.

A TRIBUTE IN HONOR OF MARGARET BELTRAMO RECIPIENT
OF THE 2015 ST. MADELEINE
SOPHIE AWARD

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 22, 2015

Ms. ESHOO. Mr. Speaker, I ask my colleagues to join me in honoring the recipients of the sixteenth annual St. Madeleine Sophie Awards, given by Sacred Heart Schools (SHS), Atherton, California. The recipients of this prestigious and highly regarded recognition are individuals in the SHS community who have made a sustained and significant contribution to the Schools and embody the Goals and Criteria of a Sacred Heart education.

Their commitment to the mission of a Sacred Heart education is a source of great inspiration to our entire community. This awards celebration will be held on September 23, 2015, in the Eileen Sullivan Connolly Auditorium in the Campbell Center for the Performing Arts at Sacred Heart Schools in Atherton.

Margaret Beltramo has given generously of her time, considerable talents, and devotion to the Mission of the Society of the Sacred Heart.

Margaret was born in South San Francisco, California, and moved to Portola Valley when she was three months old. She attended local schools, including Portola Valley Elementary School, Notre Dame High School, and University of Notre Dame de Namur, Belmont. She and her husband Dan, who met at a New Year's Eve dinner-dance in Menlo Park in 1964, have been married since 1966. They have two children, Dan, Jr. and Diana and four beautiful grandchildren, Lisa, Sara, Emily, and Thomas.

Margaret serves her community in many capacities, and was instrumental in founding Families in Transition, an organization that served the people of East Palo Alto. She has left an indelible mark on the SHS campus, beginning with the Mothers' Club, which she was President of. In the late 1970's, she assisted the Director of Schools in a search for a new Montessori Director which brought Mary Gebhart to the position, strengthening the Montessori school immeasurably.

In 1980, she joined the School's first Capital Campaign Committee which raised over \$3.5 million to build the new McGanney Gymnasium and Sports Center in 1984. As a member of the Board of Trustees from 1981 to 1989, Margaret was involved with the painful decision to close the Boarding School and the challenging decision to make the school co-educational. These were exciting times for Sacred Heart, but what Margaret Beltramo is best remembered for is the establishment of the Sacred Heart Auction, a critical component of SHS's fund raising efforts.

Mr. Speaker, I have known and admired Margaret Beltramo for more than four decades and I am blessed to call her my friend. As the mothers of children who grew up together and were educated by the Religious of the Sacred Heart, I saw first-hand how her organizational skills and dedication helped to expand SHS and build for a sound future. That's why Margaret Beltramo's talents and contributions on behalf of SHS are worthy of the St. Madeleine Sophie Award.

I ask the entire House of Representatives to join me in honoring the extraordinary work and contributions of Margaret Beltramo and congratulate her on being honored with the 2015 St. Madeleine Sophie Award. She has bettered our community and strengthened our country with all she has accomplished.

IT'S TIME TO STOP TAXPAYER
FUNDING OF PLANNED PARENT-
HOOD

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 22, 2015

Mr. SHUSTER. Mr. Speaker, on July 14th, 2015 pro-life activists with the group Center

for Medical Progress released a video of a Planned Parenthood official discussing the sale of fetal body parts. There have been many other videos released since, and each one has revealed more terrible details about the reprehensible activities of this organization. When the first Planned Parenthood video was made public, I called it horrific and inhumane, and called for an immediate investigation. Sadly, we have discovered over the last few months that this was just the beginning. With each passing day, more information comes to light illustrating that the sale and profit from fetal body parts is central to Planned Parenthood's business model, as is the performance of abortions. The American taxpayer should not be forced to pay for this. It is time to defund Planned Parenthood, and bring a stop to these barbaric practices. This is not a Republican vs. Democrat issue. This is about protecting life and taking a stand against an inhumane activity that the people of this country are being forced to subsidize. Enough is enough. I am proud to support the Defund Planned Parenthood Act to put a moratorium on both mandatory and discretionary funding while Congress continues its investigation, and to have been a leader on the issue of protecting life and stopping these evil practices. It is time to act, and I am hopeful that we stand for life, and end this once and for all.

RECOGNIZING THE NEW BEDFORD SYMPHONY ORCHESTRA FOR ITS 100TH ANNIVERSARY

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 22, 2015

Mr. KEATING. Mr. Speaker, I rise today in recognition of the 100th Anniversary of the New Bedford Symphony Orchestra and in celebration of a century of music, entertainment and education in the arts to the public.

The New Bedford Symphony Orchestra owes its establishment to Clarence Arey, a Fairhaven music teacher who founded the then-New Bedford Philharmonic Orchestra to provide quality performances of classical music for his community. It is recognized as the third oldest symphonic group in Massachusetts and one of the first twenty established in the nation.

Today, the Orchestra performs six symphonic concerts, six chamber music concerts and a holiday Pops every year. These widely attended events are renowned as a pillar and celebration of the arts from the South Coast and beyond. Their performances enrich the lives of adults and children alike through the power of music and exposure to the fine arts.

When Clarence Arey founded the New Bedford Symphony Orchestra, he did so with a very specific goal in mind—providing his students with a place to continue practicing and growing their talents and abilities after they left the school. It is in that spirit that the Orchestra continues to offer a free music education to over 30,000 students annually. The Orchestra does this in coordination with schools in the region at all age groups—from organizing its signature programs for pre-school, elementary, and adolescent programs, including Symphony Tales, Music in the Morning, Youth Orchestras

and the Strings Program. Designed to ignite a passion for music in future generations, the Orchestra also works with music teachers to establish and collaborate on education frameworks, and provides resources to assist in teaching their students.

Mr. Speaker, the 100th Anniversary of the New Bedford Symphony Orchestra provides us with an opportunity to reflect on the significance of the fine arts in Massachusetts—and our nation's—history. May this historic Orchestra continue to enrich our lives with the power of music for years to come.

H.R. 3134 AND H.R. 3504

HON. MICHAEL R. TURNER

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 22, 2015

Mr. TURNER. Mr. Speaker, today, the United States House of Representatives votes on two important pieces of legislation that offer us the opportunity to take a strong stance supporting life—H.R. 3134, the Defund Planned Parenthood Act of 2015 and H.R. 3504, the Born-Alive Survivors Protection Act of 2015. We must demand that all human beings be treated equally, with the dignity that each human life deserves.

The right to life is one of the most fundamental and precious rights we enjoy as Americans. We must protect it with a degree of strength that equals its significance. Time and time again over my years in Congress, I have stood on the side of life, and I am proud to do so again today. I urge my colleagues, in the strongest terms, to do the same—to stand on the side of life.

A TRIBUTE IN HONOR OF MARIE VAUDELL RECIPIENT OF THE 2015 ST. MADELEINE SOPHIE AWARD

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 22, 2015

Ms. ESHOO. Mr. Speaker, I ask my colleagues to join me in honoring the recipients of the sixteenth annual St. Madeleine Sophie Awards, given by Sacred Heart Schools (SHS), Atherton, California. The recipients of this prestigious and highly regarded recognition are individuals in the SHS community who have made a sustained and significant contribution to the Schools and embody the Goals and Criteria of a Sacred Heart education. Their commitment to the mission of a Sacred Heart education is a source of great inspiration to our entire community. This awards celebration will be held on September 23, 2015, in the Eileen Sullivan Connolly Auditorium in the Campbell Center for the Performing Arts at Sacred Heart Schools in Atherton.

This year's award recipient, Marie VauDell, has given generously of her time, talent, and devotion to the Mission of the Society of the Sacred Heart.

Marie VauDell was born in Redwood City to Edward and Josephine Imlach, and continues to live there today with her husband Doug and son Tyler. She attended St. Pius Elementary
