

EXTENSIONS OF REMARKS

HONORING THE GILMER HIGH SCHOOL BUCKEYES, 2014 4-A, DIV II STATE FOOTBALL CHAMPIONS

HON. LOUIE GOHMERT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Mr. GOHMERT. Mr. Speaker, it is with great pride that I rise to acknowledge and congratulate the superb performance of the Gilmer High School Buckeyes as they came together as a team resulting in their winning the 2014 Texas State 4-A, Div II Football Championship. The Gilmer Buckeyes displayed great resilience and commitment throughout their season, and it is indeed an honor to bring these outstanding athletes to national attention and retention in our national record.

After the devastating, unexpected death of a beloved member of the team last year, the Buckeyes and the entire Gilmer community pledged to preserve the memory of Desmond Pollard by honoring him throughout the season. Residents of east Texas generously paid tribute to Desmond by raising funds to pay for all his funeral expenses. So much money was donated and accumulated that it not only paid for the service, but there was also enough to establish a memorial scholarship fund in Desmond's name.

The Buckeyes carried Desmond's memory onto the field with them before every game by taking his jersey to midfield for every coin toss. This honorable group of young men created and adopted "DEZign8" as the team motto to pay tribute to Desmond throughout the season by combining his name with his team jersey number, #8. The motto was based on the belief that the team was "DEZign8"-ed to be tested, and to overcome any challenges in order to emerge victorious.

When the Buckeyes began the third quarter of the state championship game, they trailed West Orange-Stark 25-7. The Buckeyes recognized the daunting task before them, but they were not about to give up. Instead, every player reached deep inside themselves, and reinvigorated their strength, skill and commitment to such an incredible level that the Buckeyes became virtually unstoppable, scoring four more touchdowns, overtaking the Mustangs, while shutting down their vaunted opponent's powerful offense, and capturing the state title with a final score of 35-25. This amazing team of caring, committed, yet crushing Buckeyes were successful in achieving their objective. They were victorious in honoring their fallen teammate with an entire season of success resulting in the State Championship in honor of Desmond. Ultimately, the Buckeyes finished the season with a perfect, undefeated record of 16-0, and the honor of finishing with the second-highest point total in a season in Texas high school football history with 950 points.

Special commendations must be offered to each member of this exceptional company of young men. The team includes: Blevin Burns,

Devin Smith, McLane Carter, DeMarco Boyd, Quinn Fluellen, Jamel Jackson, Desmond Pollard, Blake Lynch, Zac Spears, Preston Smith, Kollin Hurt, Brandon Crouch, Ryen Lawhorn, Tanner Harrison, Taylor Lofton, Desmond Jones, Cameron Bowman, Nick Smith, Cambron Granville, Kris Boyd, Kelton Collier, Christian Loyd, Chase Tate, Jamaal Wheeler, LaMarcus Morton, Freddy Curtis, Dustin Brown, Hunter Richardson, CJ Grimmert, Kade Clemens, Tristan Olivares, Juan Esquivel, Nathan Mize, Trendon Brooks, Frankie Coleman, Kaloni Moton, Caleb Gunter, Clayton Williams, Jeremy Kelly, Matthew Caldwell, Jackson Sikes, Brett Rice, Zach Jones, Jake Traylor, Caleb Ritter, Jacob Cullins, Will Harrison, Colin Hardin, Johnny Perez, Dane Jesters, Colton Hendrix, Trevor Lewis, Landry Henson, Cole Hart, Lucas Garrett, Erik Cerda, Dakota Williamson, Andrew Hollis, Cameron Tennon, Colby Gipson, Zack Troell, Zod Heath, and Stoney Fuller.

No matter how talented and committed, no team could achieve so much resulting in an undefeated season without a head coach and coaching staff of extraordinary vision and ability who could lead the Buckeyes to success, both on and off the field. Superintendent Rick Albritton, Principal Greg Watson, Head Coach and Athletic Director Jeff Traylor, Todd Barr, Robert Bero, Colton Bunn, Randall Canady, Wayne Coleman, Russell Cunningham, Tommy Edwards, Todd Fenton, Dustin Gunter, Lonnie Henry, Olan Johnson, Kerry Lane, Terrence Lovely, Max Low, Alan Metzel, Cody Robinson, Keith Tate, Kurt Traylor, Matt Turner, and Brandon Williams; along with athletic trainers Kara Kanutson and Will Bennett.

It is truly an incalculable honor to pay tribute to this sensationally astounding group of young people who became so much more than the sum total of the team's individual parts. And they magnificently represent the very best of the Gilmer community and the entire First District of Texas. Their legacy, along with the memory of their friend and cherished teammate Desmond Pollard, is now recorded in the CONGRESSIONAL RECORD which will endure as long as there is a United States of America.

A TRIBUTE IN HONOR OF THE LIFE OF CARL DJERASSI, PH.D.

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Ms. ESHOO. Mr. Speaker, I rise today to honor an extraordinary American, Carl Djerassi, a chemist, novelist, poet and philanthropist who excelled in each of these fields. He was the child of two physicians, born in 1923 in Vienna, Austria, and he died on January 15, 2015, at his home in San Francisco, California.

Dr. Djerassi is best known as the "Father of the Pill", the birth control pill which brought

about a cultural revolution. He is less well known for his part in the development of antihistamines to treat allergies, and the synthesis of cortisone. Educated at Kenyon College and the University of Wisconsin, his first job was with the Swiss company, Ciba. From there he went to Syntex, then a small company in Mexico. He became a professor at Stanford University in 1959, and founded Zoecon, a manufacturer of non-toxic pesticides in 1968. He published over 1,200 articles and 7 monographs on chemical subjects.

Dr. Djerassi's brilliant work in chemistry was only a part of his life story. He published numerous poems, short stories, five novels and many plays. He founded the Djerassi Resident Artists Program in honor of his daughter, Pamela. He was the recipient of countless honors, including the National Medal of Science and the Wolf Prize in Chemistry. He was a member of the U.S. National Academy of Sciences and its Institute of Medicine, and he received 32 well-earned honorary doctorates.

Dr. Djerassi was married three times, most recently to the late Diane Middlebrook, a professor of literature at Stanford University.

Dr. Djerassi leaves his son Dale, an independent filmmaker, and his grandson Alexander Maxwell Djerassi. He will be sorely missed by all who had the good fortune to know him. His life's work was a gift to humanity, and his presence made the world a better place.

Mr. Speaker, I ask the entire House of Representatives to join me in honoring the extraordinary life of Carl Djerassi, who was a national treasure, and extend our sympathy to his family.

LIVES WELL-LIVED

HON. RICHARD M. NOLAN

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Mr. NOLAN. Mr. Speaker, I rise to recognize four people from the Cromwell/McGregor area of Minnesota who just celebrated turning 100-years-old or more. In some parts of the country, this would be in passing—but for Cromwell (population 231) and McGregor (population 376) it is big news that this many legacy members of their communities have reached this significant milestone. It must be our good Minnesota water.

When you stop to think about it, to be born 100 years ago, there were no tractors to plow the fields and automobiles were just starting to be built. Before that, people walked to town or took a horse-and-buggy. Most schoolrooms were in one-room buildings with an outhouse "out back." Radio communication was just beginning and television had not yet been invented. Penicillin had not been discovered. There were not vaccinations for polio or other deadly childhood diseases. The idea of an airplane was but a dream and the thought of man landing on the moon was unfathomable.

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

How exciting it must have been for them witnessing that first countdown as John Glenn was the first American about to orbit the earth.

These citizens lived through two World Wars, the Korean Conflict, Vietnam, Iraq, and Afghanistan.

They were just coming of age when the Depression hit this country and struggled like countless others to have part of the American dream.

They persevered.

Each of them—Mary Dahlberg, Hjalmer Hutar, Allie Costello and Viola Johnson took different paths in their lives. I congratulate each of them for the contributions they brought to their families and communities. They have been lives well lived.

PERSONAL EXPLANATION

HON. DAVID P. ROE

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Mr. ROE of Tennessee. Mr. Speaker, I was unable to vote yesterday because of a serious illness in my family. Had I been present, I would have voted:

Roll Call #69—YEA.

Roll Call #70—YEA.

RECOGNIZING HIGHLAND HILLS MIDDLE SCHOOL

HON. TODD C. YOUNG

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Mr. YOUNG of Indiana. Mr. Speaker, each year since 1999, the National Forum to Accelerate Middle-Grades Reform releases a Schools to Watch list to identify high-performing schools across the country. According to the stated criteria, each school on the list is academically excellent, developmentally responsive, and socially equitable.

This list is well-respected and highly exclusive. That's why I'm proud to say that Highland Hills Middle School in Floyd County, Indiana, is a new entry to the list this year. This recognition is well deserved and reflects the hard work and determination of the administration, the teachers, and especially the students of Highland Hills and the entire New Albany Floyd County Consolidated School Corporation.

As policy makers at every level of government continue to look for ways to improve our educational systems, we would all do well to look to models like Highland Hills Middle School for guidance.

PERSONAL EXPLANATION

HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Mrs. CAPPS. Mr. Speaker, I was not able to be present for the following Roll Call vote on February 10, 2015 and would like to reflect that I would have voted as follows:

Roll Call #69: YES.

Roll Call #70: YES.

HONORING DOROTHY BARNES PELOTE

HON. EARL L. "BUDDY" CARTER

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Mr. CARTER of Georgia. Mr. Speaker, I rise today to honor and celebrate the life of the late Mrs. Dorothy Barnes Pelote who entered into eternal rest Sunday, January 18, 2015. Mrs. Pelote, often described as a "people's lawmaker", dedicated her life to public service and to her community.

As a native of Lancaster, South Carolina and graduate of Allen University, Mrs. Pelote moved to Savannah, Georgia over 50 years ago where she furthered her education at Savannah State University. In her early career, Mrs. Pelote dedicated more than 30 years of service to teaching in the Savannah Chatham County Public School System.

Mrs. Pelote served in the Georgia General Assembly as a State Representative for the 149th District from 1992 until she retired in 2002. Mrs. Pelote also served as the Eighth District Representative on the Chatham County Board of Commissioners to which she became the first of two women to ever serve on this panel.

Today, it is my privilege to recognize the life of Mrs. Dorothy Pelote. As a teacher, an instrumental leader, and a friend, Mrs. Pelote will forever be remembered.

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took office, the national debt was \$10,626,877,048,913.08.

Today, it is \$18,128,511,342,681.14. We've added \$7,501,634,293,768.06 to our debt in 6 years. This is over \$7.5 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

ROSIE THE RIVETER

HON. RICHARD M. NOLAN

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Mr. NOLAN. Mr. Speaker, I rise to recognize LaVonne Feichtinger Ostergaard of Hoyt Lakes, Minnesota. She was one of the thousands of women throughout America who served as a "Rosie the Riveter" during World War II when she went to work for 50 cents an hour at the Char-Gale plant in St. Cloud. She operated as a riveter building planes. Her job was riveting the fuselage and wings on the outside of the aircraft for planes designed to

carry cargo, personnel, patients and mechanized equipment and to drop cargo and troops by parachute. It was by no means a clean or quiet working environment. Mrs. Ostergaard never won any medals for her service, but I call upon all Members to remember how so many women—from small towns and big cities alike—stepped forward when they heard the call for workers to serve as riveters, buckers, sanders, welders, crane operators, bus drivers, uniform makers, bullet makers, parachute folders, clerical workers, shipyard workers, assembly line workers, Red Cross workers and more.

These women probably never imagined they would answer the call to do this kind of work, but it was a time in our nation's history when everyone needed to pull together with their motto of "We pull better if we pull together." Those who served on the home front are often unrecognized, as after the war, they quietly returned to the routine of raising children, helping on the home farm or the family business.

According to the American Rosie the Riveter Association, of which Mrs. Ostergaard is a member, they came together for one purpose—to help win the war. They built 80,000 landing craft, 100,000 tanks, 300,000 aircraft, 15,000 guns and 41,000,000,000 rounds of ammunition. It was a massive accomplishment and our nation owes these outstanding women our deepest gratitude.

IN RECOGNITION OF HOLLY SCHLESSER OF STREAMWOOD, ILLINOIS

HON. TAMMY DUCKWORTH

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 11, 2015

Ms. DUCKWORTH. Mr. Speaker, I want to take a moment to recognize one of my constituents, Holly Schlessler, and her selfless act for a child in need. This past fall Holly donated a piece of her liver to a friend's 8 month old baby, Madison Casey. Holly and Madison's mom, Tanya, are the wives of firefighters in Streamwood, Illinois. Service and sacrifice is a part of their daily lives. Madison was born with a rare genetic disorder that led to liver failure. Thanks to Holly Schlessler's selfless gift she now has real hope of growing up healthy and strong alongside her twin brother. The Schlessler and Casey families show us the importance of living through our actions.

Their story is also an important reminder about the incredible difference that organ and tissue donors can make. There is a large and heartbreaking gap between the supply and demand for lifesaving organs and tissue. Each day an average of 18 people in the United States in need of transplants die waiting. And without angels like Holly Schlessler, every 10 minutes a new person joins the national transplant waitlist.

In my home state of Illinois, Gift of Hope, which is part of the national organ and tissue donation system, is working hard to address this challenge by educating the public about the need for donors. They're making progress and experienced their second record-setting year in a row in 2014, helping make 1,024 lifesaving donations happen through the generosity of 336 organ donors and 1,912 tissue donors. I applaud the more than 5 million Illinoisans who have decided to become organ
