

stapes and is considered a leading cause of deafness. Although the medical community ended surgical attempts to address this condition 50 years earlier, Dr. Shea had a vision to combat this cause of deafness in middle-aged adults by replacing the calcified bone with a prosthetic. While many of his colleagues questioned the procedure as dangerous, Dr. Shea was convinced through his research that the revolutionary surgery would work. On May 1, 1956, he successfully performed the first stapedectomy and went on to repeat the procedure nearly 50,000 times during his career before retiring in 2011.

In addition to inventing the prosthetic stapes and developing the stapedectomy, Dr. Shea contributed to otology surgical instruments, including drills and microscopes, and intratympanic perfusion treatment for Meniere's disease or spontaneous vertigo. His ingenuity earned him a spot on the London Times list of "1,000 Makers of the Twentieth Century" and a 1962 featured cover article in Life magazine as one of five people who were recognized as part of "The Takeover Generation." In 2013, he donated 406 papers, including over 300 published articles, documenting his life's work to the local Memphis Public Library's Memphis Room. Dr. Shea belonged to more than 50 scientific societies, and was a clinical professor in the otology departments of the University of Tennessee, the University of Mississippi, the University of North Carolina and Tulane University. Additionally, he received honorary doctorates from Memphis schools Christian Brothers University and Rhodes College, and an honorary fellowship from the Australian and English Royal College of Surgeons.

In 1985, Dr. Shea opened the Shea Ear Clinic at Poplar and Ridgeway in Memphis where his son, Dr. Paul Shea, continues the family practice today. Dr. Shea, Jr. was a pioneer in the field of otology and a legendary doctor who helped usher in a new era of treatment. He came from one family of physicians and leaves behind another. My father, Dr. Morris D. Cohen, taught me about Dr. Shea, Sr. and Jr. and always spoke admiringly of them and their level of professionalism. While many Memphis physicians have received national acclaim, none have been more renowned than Dr. John Shea, Jr. Memphis will miss Dr. John Shea, Jr., and I send my condolences to his wife Lynda Lee Mead; sons Paul and Dr. John Shea III (private practice otologist); daughters Susanna Shea and Wendy Canarios; seven grandchildren and three great grandchildren; and his friends and loved ones. I ask my colleagues to join me in recognizing the life and medical contributions of Dr. John Shea, Jr. His was a life well-lived.
