

they had both known growing up in Mississippi and Missouri. Sister Bradley opened her home in Gary for the very first meeting, and the church was founded on November 25, 1925. Soon after, a lot of land was purchased on Pierce Street for the construction of the church building. Finally, in 1933, under the direction of Elder Johnny James Peterson, the first church was built. Years later, the church's pastor, Elder L. M. Relf, helped to ensure that remodeling work was completed on the church. Due to the growing congregation, a larger place of worship was needed and, in 1980, under the leadership of Elder James K. Mitchell Jr., a bigger church was purchased at its current location on Washington Street in Gary. Bishop O.W. McInnis became the interim pastor in 1988 and worked to pay off the church's mortgage. Bishop McInnis appointed Elder Dale L. Cudjoe as the next pastor of the church in 1989, and he became the full-time pastor in 1993. In 2010, Pastor Cudjoe was elected to the bishopric and became the presiding prelate of the Northern Diocese Church of Christ (Holiness) U.S.A., which includes Illinois, Indiana, Iowa, Michigan, and Ohio.

Led by Bishop Cudjoe, Christ Temple Church of Christ (Holiness) U.S.A. continues to be a source of hope and charity for the community of Gary. Every week, members of the church organize a clothing and toy giveaway for those in need within the community. Through the church's youth ministry, children of the community can participate in the Youth Choir, Sunday School, and the Gym Ministry. In addition, the Brotherhood Ministry and the Temple Music Ministry programs are successful in building a spirit of unity throughout the church and the community.

Mr. Speaker, I ask that you and my other distinguished colleagues join me in honoring and congratulating Christ Temple Church of Christ (Holiness) U.S.A. in Gary, Indiana, on its 90th anniversary. For their commitment to service, and for touching the lives of countless individuals, the church leaders, parishioners, and board members are worthy of the blessings that have been bestowed upon them.

**RECOGNIZING WORLD DOWN
SYNDROME DAY**

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 16, 2015

Mr. HUNTER. Mr. Speaker, to mark World Down Syndrome Day on March 21st, 2015,

the San Diego Congressional Delegation honors individuals challenged by Down syndrome.

World Down Syndrome Day was established by the United Nations in 2011 and is marked each year on the 21st of March to raise awareness for those affected by this condition. Down syndrome is the most common genetic condition in the U.S., affecting approximately 400,000 Americans. Each year nearly 6,000 babies are born in the United States with Down syndrome. Over the years, research and improved therapy options have led to great advances in the health and quality of life for those affected by Down syndrome. And Congress needs to continue to build upon those efforts.

We applaud the efforts of Special Heroes and their San Diego Down Syndrome chapter for their mission to serve individuals diagnosed with Down syndrome and their families in the San Diego community—improving their daily lives by providing opportunities for success while promoting community education and engagement is paramount.

Special Heroes has partnered with The Arc of San Diego to be a valuable foundation and resource of support to many families in the San Diego Community. Mr. Speaker, the San Diego Congressional Delegation stands to recognize World Down Syndrome Day.

“SHARK LADY” OF MOTE PASSES AWAY AFTER NEARLY 75 YEARS OF MARINE RESEARCH

HON. VERN BUCHANAN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 16, 2015

Mr. BUCHANAN. Mr. Speaker, I rise today to recognize one of America’s great ocean research pioneers, Dr. Eugenie Clark.

“Genie” Clark—known as the “Shark Lady”—founded Mote Marine Laboratory in Southwest Florida. She died at age 92 on Feb. 25 at her home in Sarasota.

Genie visited the New York Aquarium in 1922 at age nine and was fascinated by the sharks and other fish of many shapes and colors. She began sharing what she learned about the fish with others.

After carrying out a distinguished career spanning almost 75 years, raising four children and inspiring students and others, Clark will be remembered for her amazing discoveries.

Her legacy is impressive: blazing trails for women in science; inspiring generations of people from ocean experts to school children; swimming with sharks to learn about them; and founding a world-class marine laboratory that turned 60 this year.

Clark was a world authority on fish—particularly sharks and tropical sand fish. A courageous diver and explorer, Clark conducted 72 submersible dives as deep as 12,000 feet and led over 200 field research expeditions to the Red Sea and Gulf of Aqaba, Caribbean, Mexico, Japan, Palau, Papua New Guinea, the Solomon Islands, Thailand, Indonesia and Borneo to study sand fish, whale sharks, deep sea sharks and spotted oceanic triggerfish. She wrote three books and more than 175 articles, including research publications in leading peer-reviewed journals such as *Science* and a dozen popular stories in *National Geographic* magazine.

In 1955, Clark started the one-room Cape Haze Marine Laboratory in Placida, Fla., with her fisherman assistant and with philanthropic support and encouragement from the Vanderbilt family. The Lab thrived in partnership with its community and became Mote Marine Laboratory in 1967 to honor major benefactor William R. Mote. Today the Lab is based on City Island, Sarasota, and it hosts 24 diverse marine research and conservation programs, education programs for all ages and a major public Aquarium. The Lab has six campuses in Florida and more than 200 staff, including scientists who work in oceans surrounding all seven continents.

Clark joined the Zoology faculty at the University of Maryland in 1968, and she officially retired in 1992. She returned to Mote in 2000 as Senior Scientist and Director Emerita and

later became a Trustee. There, she continued to build upon and champion the groundbreaking research that she started 60 years ago.

Clark dove as recently as June 2014, when she brought a team of volunteer research divers to study deep water triggerfish in the Solomon Islands. The divers had been searching for nests and monitoring how the fish behaved.

Clark is the recipient of three honorary degrees and numerous awards including The Explorers Club Medal; the Medal of Excellence from the American Society of Oceanographers; The NOGI award in Arts from Underwater Society of America; the Dugan Award in Aquatic Sciences from the American Littoral Society; a Gold Medal from the Society of Women Geographers; the Distinguished Fellow Award from the American Elasmobranch Society; and the Franklin L. Burr Award from the National Geographic Society. Several fish species have been named in her honor: *Callogobius clarki* (Goren), *Sticharium clarkae* (George and Springer), *Enneapterygius clarkae* (Holleman), and *Atrobucca geniae* (Ben-Tuvia and Trewavas).

Clark is survived by her four children: Hera, Aya, Tak and Niki Konstantinou, and her grandson, Eli Weiss.

**A TRIBUTE TO TRACY A. STONE—
28TH CONGRESSIONAL DISTRICT
WOMAN OF THE YEAR**

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 16, 2015

Mr. SCHIFF. Mr. Speaker, I rise today in honor of Women’s History Month. Each year, we pay special tribute to the contributions and sacrifices made by our nation’s women. It is an honor to pay homage to outstanding women who are making a difference in my Congressional District. I would like to recognize a remarkable woman, Tracy Stone, of Elysian Valley, a unique neighborhood in Los Angeles, California.

Tracy Stone received a Bachelor’s Degree in Art History from Cornell University in New York, a Master’s Degree in Architecture from The University of Texas at Austin, and in 1989, was licensed as an Architect by the State of California. In 1991, Ms. Stone opened her own firm, Tracy A. Stone Architect. The office has completed a variety of projects, including a ‘green’ teahouse, an animal shelter and a children’s dance studio.

Ms. Stone and members of her firm created and organized the annual “Frogtown Artwalk” in Elysian Valley, which started in 2006, as a small event showcasing the artists and artisans inhabiting the small commercial/industrial buildings along the Los Angeles River in Elysian Valley. It has grown into a full-scale community event that engages musicians from the surrounding areas, community organizations, local residents, as well as artists and artisans. The event has also featured various activities geared to parents and youth. The Frogtown Artwalk has traditionally celebrated the relationship between the Elysian Valley and the adjacent Los Angeles River, helping to bring interest as well as attention to a long forgotten resource. In 2008, Tracy Stone and Allen An-

erson established a non-profit organization, the Elysian Valley Arts Collective, which manages and funds the annual artwalk, and which has allowed the event to grow in complexity and size.

I ask all Members to join me in honoring an exceptional woman of California’s 28th Congressional District, Tracy A. Stone.

Mr. YOUNG of Iowa. Mr. Speaker, I rise to honor Mr. Todd Jacobson, a history teacher at Creston High School. Mr. Jacobson received the 2014–2015 VFW High School Teacher of the Year Award.

Mr. Jacobson received this award after being nominated by fellow teacher and 2009 award recipient, Lesa Downing. I applaud and congratulate Todd Jacobson for his award, for providing the youth in Iowa’s 3rd congressional district the education that they will need to be successful in the future and for serving our country during the Gulf
