

TRIBUTE TO NICOLAS JEFFRESS

HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 26, 2015

Mr. OLSON. Mr. Speaker, I am privileged to interact with some of the brightest students in the 22nd Congressional District who serve on my Congressional Youth Advisory Council. I have gained much by listening to the high school students who are the future of this great nation. They provide important insight into the concerns of our younger constituents and hopefully get a better sense of the importance of being an active participant in the political process. Many of the students have written short essays on a variety of topics and I am pleased to share them with my House colleagues.

Nicolas Jeffress attends Dawson High School in Pearland, Texas. The essay topic is: In your opinion, why is it important to be involved in the political process?

In 1776, we fought for our right to self-govern, and every day men and women give their lives to protect and defend those rights. But now we are facing a new threat to our independence, apathy. Every day people willingly give up their right to govern and wonder why their community is not reaching its potential. Just like in other parts of life though, building a great community takes work.

During my sophomore year, many students felt the pressure of both rigorous course loads and class rank competition, and some resorted to cheating. This situation was complicated by the fact that the penalties for cheating were not consistently enforced and when they were enforced, they were light relative to the potential gain. As I talked to more students and teachers, I became concerned that Dawson had a culture of academic dishonesty, much like professional cycling, where some felt cheating was necessary just to keep up. I could not let this be my school's culture.

I started working on how to address this problem by talking to other students. Although many were frustrated with the dishonesty, they did not think anything could be done to fix it. Fortunately, thirty students did care! When we met, we talked not only about the problem but how we could change it. Over the next three weeks we developed specific proposals around testing procedures, penalties and education. We took these proposals forward to our principal and even demonstrated how students were cheating using tools like camera pens. We also spoke to the Pearland ISD school board about our work at Dawson and provided them the proposals as well. Although the early conversations were sometimes difficult, we started to have an impact.

Over the summer between my sophomore and junior year, Pearland ISD wrote a new honor code that went into place at both Dawson and Pearland High Schools. As I read through the honor code during packet pick-up, I could see many of our recommendations almost verbatim. I thought of Yoda, "Do or do not. There is no try"; I'm glad I decided to do. I got involved in my local community and changed my school.

As I become an adult, the political process will allow me to become even more involved in my community. During my Dad's school board campaign, I had the opportunity to meet many great public servants. We are so fortunate to have so many great people working hard on our community. However,

with only 5% of people choosing to vote in local elections, I doubt we are reaching our full potential. We need more people willing to be involved, developing solutions to problems, bringing new ideas. Communities form districts, which form states, which make up a nation; all political movements start at grass root local communities and cascade to the national government. I certainly intend to do my part to honor the sacrifices so many have made to build the country we have today.

RECOGNIZING THE 125TH ANNIVERSARY OF THE FRESNO HIGH SCHOOL SENATE CLUB

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 26, 2015

Mr. COSTA. Mr. Speaker, today I rise in recognition of the Fresno High School Senate Club. Fresno High School was founded in

1889 as the City of Fresno's first high school. The following year, the Fresno High School Senate was established on March 21, 1890.

The Foundation of the Senate is modeled after the United States Senate, with each member representing a state in our Union. Admission to the Fresno High School Senate requires a majority vote of the body for academically qualified candidates who are sponsored by an active member of the club. Candidates are required to attend at least three club meetings and present a speech to complete the application process. Upon admission, a U.S. state is permanently assigned to the new senator, who is then invited to declare a political party preference. The Fresno High School Senate is primarily a debate club and has the distinction of being the oldest continuously active high school club in the United States.

The Senate is governed by both a Constitution and bylaws and it follows parliamentary procedure set by Robert's Rules of Order. The organization instills knowledge of the law making process of our national government. Furthermore, the public speaking debate society addresses current issues of world, national, and community interest and concern.

The Fresno High School Senate Club meets every week on the Fresno High School Campus and is guided by a faculty member known as the "President of the United States." Active Senators, in addition to being top academic achievers, also perform hundreds of hours of service to the greater Fresno community.

Over many decades, the Senate has produced dozens of outstanding alumni known as, "Honorary Senators," who achieved distinguished careers in law, medicine, business, education, government, architecture, technology, the military, and other notable occupational fields.

Mr. Speaker, I ask my colleagues to join me in recognizing Fresno High School Senate on the significant milestone of its 125th Anniversary as I extend my best wishes for the organization's continued success in shaping the lives of young students, creating model citizens and nurturing the studies of United States history and government.

Mockler was one of the most influential voices on California education policy for more than 40 years, where he advised hundreds of Democratic and Republican lawmakers on public school funding. His legacy of public service, and support for public education, will impact California's public education system for many generations.

Born on October 2, 1941 in Chicago and raised in Harbison Canyon near San Diego, Mockler was the son of William and Jane Mockler and had three sisters: Elsie, Lynn and Virginia. Mockler attended the University of San Francisco at 16, and subsequently graduated from University of California, Santa Barbara with a degree in Economics. A lifelong Democrat, Mockler cut his teeth in San Francisco politics, where he became active in union politics and was the executive director of the Youth Against 14 campaign in 1964. Proposition 13 would have made it legal to discriminate against home buyers on the basis of race.

Mockler is best known as the architect of Proposition 98, the 1988 initiative that established a minimum level of state financial support for public schools at 40 percent of general fund spending. Proposition 98 remains a central feature in state budget negotiations for the past quarter century. His familiarity with the law made him an indispensable advisor to Governors Gray Davis and Jerry Brown as well as legislative leaders including former Assembly Speaker Willie Brown, Mockler's one-time boss.

He is survived by his life partner Carol Farris, two children—Robert and Jessica, five grandchildren Willa, Clara, Sidney, Zachary and Auden, and countless friends and admirers.

Today, the California Democratic Congressional Delegation salutes and honors the life of Mr. John Mockler. Mockler will be remembered for his tenacious support for schools and teachers and his legacy is felt with the enrollment of every kindergartner and the graduation of every senior class. We join all of Mockler's loved ones in celebrating his incredible life. He will be deeply missed.
