

To celebrate 30 successful years of providing housing and care for individuals with mental illness, Community Hope is hosting its Thirtieth Anniversary Reception on Thursday, April 30th. The reception will be held at the Lowenstein Sandler Reception Center, located at 75 Livingston Avenue in Roseland, New Jersey.

I commend the members of Community Hope, its Board of Trustees and Board of Directors, especially its chief executive officer, J. Michael Armstrong, for their dedication to providing for the welfare of individuals battling mental illness. Community Hope serves as the perfect model for other non-profits seeking to administer these critical services.

Mr. Speaker, I ask you and my colleagues to join me in congratulating Community Hope as it celebrates its 30th Anniversary.

**LAUREN HILL—PROFILE IN
COURAGE**

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mr. POE of Texas. Mr. Speaker, athlete, student, daughter, friend, fighter and hero—this was Lauren Hill. At just 19 years old, Lauren fought the beast of cancer on the basketball court as the world watched. As everyone scrambled and stressed filling out their March Madness brackets, hoping to have the perfect bracket, Lauren was battling a brain tumor.

Lauren was a freshman basketball player at Mount St. Joseph University in Cincinnati, Ohio. She was a high school student when she was diagnosed with an inoperable brain tumor. But Lauren wasn't going to let a tumor stop her.

She set off to college to achieve her dream: to play on a college court. And of course, she did it.

The NCAA allowed Mount St. Joseph move up its opening game so that Lauren could play.

Xavier University even offered their arena so more people could come watch her shoot some hoops. Tickets to the game sold out in less than an hour. 10,000 people came to watch Lauren doing what she loves—play basketball. Among the 10,000 was legendary Tennessee Women's Basketball Coach Pat Summitt and some notable WNBA players.

Because the tumor had so aggressively attacked the right side of her body, her dominant side, Lauren shot a left-handed layup just 17 seconds into the game. And by no surprise, she made it. But she was not quite done.

She made the last basket of the game. This time, she shot the layup with her right hand. One can only imagine what it was like in the arena that day. The spectators were able to watch such a strong soul and example be able to live her dream in spite of her illness. Tears and smiles filled the arena.

When she wasn't on the court, Lauren worked to raise awareness and money for cancer research through her nonprofit foundation.

She never let the disease define her, because she was Lauren, a college basketball player, who was just doing what she loved. In

watching her strength, she has given so many hope—hope that even in the midst of a battle for life, there is faith.

As a father of four kids (three of them being girls), and a grandfather of 11 kids (7 of them being girls), I know how special our girls are. Lauren Hill definitely left an impression not only on her team and school community, but the rest of us as well.

Thank you Lauren, for so selflessly sharing your story with the world. Thank you for inspiring and encouraging all of us.

President Kennedy would have referred to Lauren Hill as a "profile in courage."

And that's just the way it is.

PHILLIP PRATER'S ESSAY

HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mr. OLSON. Mr. Speaker, I am privileged to interact with some of the brightest students in the 22nd Congressional District who serve on my Congressional Youth Advisory Council. I have gained much by listening to the high school students who are the future of this great nation. They provide important insight into the concerns of our younger constituents and hopefully get a better sense of the importance of being an active participant in the political process. Many of the students have written short essays on a variety of topics and I am pleased to share them with my House colleagues.

Phillip Prater attends Dawson High School in Pearland, Texas. The essay topic is: in your opinion, why is it important to be involved in the political process?

"OBAMACARE" . . . one of the most important changes in the history of healthcare reform. Millions of Americans desperately in need of some form of health insurance are going to benefit mainly because individuals got involved in the political process.

The political process reaches far back to when our founding fathers created this great democracy. They instilled during that time that a democratic society is effective only if individuals are given the opportunity to express their concerns and actively participate in the political process.

Laws in government are made that affect our lives each and every day. Some of these laws are positive, yet some are negative. But we have to live by them. However, apathy is contagious. Our democracy could be a stake if we chose to ignore hearing about and participating in the political process. If you don't participate, then you can't and should not complain about an outcome that greatly affects you. Some individuals believe that government has no bearing on our daily lives. But this is farthest from the truth. Government affects every single aspect of our lives.

For example, the Civil Rights Act of 1964 outlawed discrimination based on race, color, religion, sex, or national origin. It also ended unequal application of voter registration requirements and racial segregation in schools. Many thanks to Dr. Martin L. King, Jr. and countless individuals, who marched thru city streets, participated in freedom rides, and some ultimately paying the ultimate sacrifice so that future generations could live and VOTE in a land of opportunity. It also paved the way for other civil rights legislation such as the Americans with Disabilities Act of 1990.

If you're eligible to vote, then vote!!!!!! This is by far the easiest way to get involved in the political process. But pulling the lever also means understanding the issues that candidates are for or against, so that you can make the right vote.

Another way is to write your representative and present your opposing views or disapproval on a topic that you firmly agree on.

Other ways to get and staying involved in the political process are as follows:

Volunteer to help with voter registration drives

Educate voters by developing voter guides

Volunteer to work on a political campaign

Participate in protest rallies and marches

Attend a debate or a town hall meeting

Getting involved in the political process by every individual is critical if our democracy is to continue as the greatest country in the world!!!!

**RIEMANN FAMILY FUNERAL
HOMES**

HON. STEVEN M. PALAZZO

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mr. PALAZZO. Mr. Speaker, I rise today to honor the Riemann Family Funeral Homes on the occasion of the opening of their Jackson County location. This facility will continue the legacy of service the Riemann family has provided the citizens of the Mississippi Gulf Coast for nearly a century.

In 1920, Ernest and Ruth Riemann moved from Michigan to South Mississippi and purchased Wilder Funeral Homes. They would be proud of the success and growth of their family business.

Today, with locations all along the Mississippi Gulf Coast this new Jackson County location provides the Riemann family another opportunity to compassionately serve their neighbors, friends, and family during life's most difficult times.

The Riemann family is blessed with a dedicated and professional staff that combined has hundreds of years of experience. Like the Riemann family, they are committed to faithfully serving their community.

Once again, I would like to thank the Riemann Family for their four generations of dedicated service to the citizens of the Mississippi Gulf Coast.

**BUSINESS ROUNDTABLE 2015
SUSTAINABILITY REPORT "CREATE,
GROW, SUSTAIN: LEADING BY
EXAMPLE"**

HON. FRED UPTON

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mr. UPTON. Mr. Speaker, it is wholly fitting that I rise today, Earth Day, to call attention to a report that attests to all of the wonderful strides our nation's largest companies are taking in the interest of sustainability—strides taken not in response to government mandates, but because they are good for customers, good for employees, good for the bottom line, and good for the communities in which these companies do business.

Mr. Speaker, for several years Business Roundtable, a fine organization that represents CEOs of more than 200 of the country's largest companies, has released a comprehensive Sustainability Report in conjunction with Earth Day. The companies participating in the report—most of the Roundtable's members—submit considerable information about the many ways in which they are striving to take sustainability to an even higher level.

Some companies have focused on drastically reducing the energy they use or increasing their use of renewable energy. Others have cut their waste production while increasing their commitment to reuse and recycle in ever more innovative ways. Still others have built sustainability into their products and workforce policies. Many have made progress on several fronts at once.

The 2015 edition of the Business Roundtable's Sustainability Report, "Create, Grow, Sustain: Leading by Example," is hot off the presses, and it is a pleasure for me to introduce it into the RECORD today. What is most notable—and impressive—to me is that the CEOs themselves contributed to this report through signed letters. These leaders personally attest to the steps taken by their companies and are justifiably proud of them. What a perfect way to mark this Earth Day.

Beyond that, what is most striking about the long list of accomplishments in the area of sustainability by our nation's largest firms is that for the most part, their actions have been taken not because they were forced to by regulations and legislation but because they were good for the bottom line. We see this happening more and more. Companies are using their ingenuity to reduce their impact on the environment, not because they are threatened with government action, but because they consider solid corporate citizenship, including lessening their environmental footprint, to be a major company value.

Mr. Speaker, I hope our colleagues will take the time to review "Create, Grow, Sustain: Leading by Example" so that we all can share with our constituent companies the many lessons that Business Roundtable companies have to offer.

EQUAL PAY DAY

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, today, roughly three months into the New Year, we commemorate Equal Pay Day—the typical time into the year where a woman's wage catches up to what men were paid the previous year. This day symbolizes the blatant and persistent wage gap between men and women. Even in 2015, women earn only 78 cents to every dollar made by a man. It's time to make equal pay not just a nice slogan but a reality for women and families.

Unequal pay is not just a women's issue—it's a family issue. Our country is evolving and more than ever before families rely on income from two parents. In fact, two out of three families now depend on the wages of working moms. Additionally, women are the primary breadwinners in 40 percent of U.S. households. It is a very real consequence that when

women are discriminated against in the workplace the entire family struggles. This serves as an urgent reminder why we need to work together to ensure equal pay for equal work.

Women have made remarkable strides in workforce participation and higher education. Today women make up nearly half of all workers as compared to 37 percent in 1970 and receive nearly 60 percent of all bachelor degrees granted in the U.S. Yet, regardless of the level of academic achievement, women's median earnings are still less than men's earnings. Sadly, a recent study by the American Association of University Women found that regardless of a woman's college major, occupation, age, geographic region, hours worked and more there is still an unexplainable seven percent wage gap a year after college graduation.

The gap in wages only grows from there, leaving a disproportionate impact on women and their families throughout the rest of their lives. The Joint Economic Committee found that lower earnings "can result in smaller private savings to draw upon in retirement, smaller contributions to employer-sponsored retirement plans, smaller Social Security benefits, and smaller paychecks for those women who continue to work later in life." The disparity is even more devastating when calculated over a course of a woman's career. By the time a woman retires it's estimated that she's lost over \$430,000 to the pay gap.

It is important to recognize that women make tremendous contributions to our nation's economy with potential to make even more. It's estimated that greater pay equity between men and women would produce nearly half a trillion dollars of additional income, stimulating our economy by close to three percent of 2012 Gross Domestic Product. Also, by closing the wage gap between men and women we could cut the poverty rate in half, raising an entire nation to a better standard of living.

Paying women their equal share has many implications. It means that we are a nation that stands for equality. That we are choosing to uplift women and families, reduce poverty and boost our economy. That is why I support the Paycheck Fairness Act, which strengthens the Equal Pay Act by closing loopholes and providing effective remedies to women who are not being paid equal wages for doing equal work. I urge my colleagues to pass this important legislation that confronts discrimination in the workplace. It is time for us to prioritize the long-term well-being of our nation's hardworking women and families.

GIRLS OF STEEL

HON. MICHAEL F. DOYLE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mr. DOYLE of Pennsylvania. Mr. Speaker, I rise today to commend the Girls of Steel robotics team on winning the Chairman's Award at the 2015 Buckeye Regional FIRST® Robotics Competition in Cleveland, Ohio.

This is the most prestigious award at FIRST and it honors the team that best represents a model for other teams to emulate and best embodies the purpose and goals of FIRST. The Chairman's Award is presented to the team judged to have the most significant

measurable impact of its partnerships among its participants and community over a sustained period, not just a single build season. The winner is able to demonstrate progress towards FIRST's mission of transforming our culture. I think that winning this award is a remarkable accomplishment that speaks volumes about the dedication these young women have in pursuing Science, Technology, Engineering, and Math or "STEM" careers, along with the hundreds of hours they have spent conducting outreach in the community. They even served to inspire the two female tech characters in the recently released Pixar film, "Big Hero 6".

FIRST, which stands for "For Inspiration and Recognition of Science and Technology," is an organization dedicated to engaging students in STEM fields. Hundreds of thousands of students gain practical, team-based engineering experiences through FIRST every year.

As a founder and co-chair of the Congressional Robotics Caucus, I believe competitions like these are valuable tools for helping our young people explore potential careers in STEM. I've witnessed firsthand the incredible economic growth and development that these fields can produce in my district, and I strongly believe that these fields are crucial to our nation's future prosperity. I want to commend organizations like FIRST for their important work in encouraging young people in these pursuits. The FIRST Robotics Competition allows students to apply creativity and critical thinking in the demanding and competitive field of robotics, all while instilling a strong sense of pride in participants.

Fifty young women from 8th through 12th grades associated with schools located in and around the Pittsburgh area are members of this year's Girls of Steel, and in recognition of their hard work, intelligence, and teamwork, I would like to mention each of these aspiring STEM professionals by name. They are Vishi Agrawal, Sonia Appasamy, Isabella Arnone, Arushi Bandi, Emilia Bianchini, Madeline Butch, Tristan Close-Abuyen, Samantha Eppinger, Adelle Fernando, Mackenzie Ferris, Payton Ferris, Marie Gerges, Kyra Halbert-Elriott, Corinne Hartman, Kristina Hilko, Sydney Hnat, Anna Jablonowski, Alaina Kotchey, Greta Lazzara, Jisue Lee, Sophia Lee, Sylvie Lee, Gayathri Manchella, Clara McCormick, Sree Mekala, Cheyenne Meyers, AJ Molder, Hera Mukhtar, Gigi Nieson, Anne Kailin Northam, Maddie Oppelt, Sanam Parwani, Helen Paulini, Sofia Porter Bacon, Priya Ray, Rachel Sadeh, Isabella Salvi, Lauren Scheller-Wolf, Sarah Seay, Alexa Selwood, Kriti Shah, Makayla Shreve, Annika Urban, Molly Urbina, Becca Volk, Mhairi Webster, Ziya Xu, Alayna Yates, Julia Young, and Natalie Young.

In addition, I want to commend the staff of Carnegie Mellon University's Field Robotics Center, who have mentored the Girls of Steel since 2010. As a result of their efforts, more young women can experience real-world technological challenges and learn from some of the nation's best at solving these problems. These experiences will certainly benefit these young women in the future.

I look forward to hearing about their progress as they advance to the FIRST Championship in St. Louis—the final and largest competition of its kind. This will be their fifth consecutive trip in five years and they will be competing against top teams from all over
