

The Goldman Act specifically lists the increasingly escalating actions that Congress has in mind, from a demarche—or a protest through diplomatic channels—to a public condemnation to a delay or cancellation of one or more bilateral visits and even the withdrawal, limitation, or suspension of foreign assistance including non-humanitarian aid and including security assistance to the central government of a country. These are serious sanctions that must be seriously applied by a country that takes parental child abduction seriously.

We may also request extradition where appropriate.

If these measures sound pointed, it is because they are intended to focus the destination country on quick and accurate resolution of abduction and access cases.

The Goldman Act was written to cover countries that have signed the Hague Convention, such as Brazil; countries that have not signed the Convention, such as India; and countries that have a mix of open abduction cases from before and after signing the Hague Convention, such as Japan.

In 2013, India was the number three destination in the world for parents who abducted from the United States. Currently, there are 64 known open abduction and denial of access cases involving India. And yet the United States does not have any sort of resolution mechanism with India. Moms and dads left behind in the United States are forced to enter a labyrinthine foreign court system known for its incessant appeals and multi-year delays.

But now the Goldman Act applies. India will now face real penalties for any case that has been pending for more than one year, and will be “named and shamed” in the State Department’s report. As with the State Department’s annual trafficking report, there is morally suasive value in simply reporting what a country does, and some countries will I am sure respond to such moral pressure.

Thus we expect the State Department to apply these penalties zealously, and to work with India on establishing a bilateral agreement for the efficient and fair resolution of abduction and access cases. If the State Department faithfully applies the law as written, it will be in India’s interest to come to the negotiating table.

The same holds true for Japan, even though Japan recently signed the Hague Convention. Among such cases is that of Michael Elias, who has not seen his children, Jade and Michael Jr., since 2008. Michael served as a Marine who saw combat in Iraq. His wife, who worked in the Japanese consulate, used documents fraudulently obtained with the apparent complicity of Japanese consulate personnel to kidnap their children, then aged 4 and 2, in defiance of a court order, telling Michael on a phone call that there was nothing that he could do, as “my country will protect me.”

Her country will protect her, but what is our country doing to protect Michael and his children?

While the State Department has touted Japan’s accession to the Hague Convention as an accomplishment, Japan has said the Convention would only apply in post-ratification cases. As Ambassador Jacobs knows, I and several others predicted that unless a MOU or other bilateral agreement was concluded with Japan, American children and their left behind parents will be left behind in perpetuity. I ask to my friends at the State Department, what

then is to happen for parents already suffering from abductions prior to ratification? Would they be left behind again—this time by their own government?

I know Ambassador Jacobs, who testified at last month’s hearing, as recently as February 2014 in her testimony before the Senate, stated that she would continue to make “progress with the Japanese government on resolving existing cases in the spirit of the Convention.”

The Goldman Act requires accountability for the Japanese government on the abduction cases open at the time Japan signed the Convention. Unless Japan resolves scores of American cases before the end of next month, nearly 100% of abduction cases in Japan will still be unresolved and Goldman Act penalties will apply.

The Goldman Act has given the State Department new and powerful tools to bring Japan, and other countries, to the resolution table. The goal is not to disrupt relations but to heal the painful rifts caused by international child abduction.

INTRODUCTION OF THE EQUALITY FOR ALL RESOLUTION

HON. ANDRÉ CARSON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 16, 2015

Mr. CARSON of Indiana. Mr. Speaker, today I am pleased to introduce the Equality for All Resolution—which declares that gay, lesbian, and transgender people should be protected from discrimination under the law.

Earlier this month, I watched as Indiana—my home state—enacted the Religious Freedom Restoration Act, giving businesses the right to refuse service based on sexual orientation and gender identity.

Over the last few weeks, I’ve heard from businesses, religious organizations, community leaders, and countless concerned Americans.

It’s clear that the vast majority of Americans oppose this kind of discrimination.

Yet, in 2015, it is still legal in over 30 states to discriminate in the workplace, to refuse to sell or rent a home, or to turn someone away from your business—just because they are lesbian, gay, bisexual or transgender.

As elected representatives, we have a responsibility to show that America is better than this. I would like to thank the 126 colleagues who join me today as original cosponsors of this resolution.

I encourage every Member of the House to join me in supporting the Equality for All resolution.

CELEBRATING THE 150TH ANNIVERSARY OF BOWIE STATE UNIVERSITY

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 16, 2015

Mr. HOYER. Mr. Speaker, I rise to mark an important milestone in the history of my home state of Maryland. On April 15, 2015, the faculty, staff, students, and alumni of Bowie State

University will celebrate the school’s 150th anniversary at its annual Founders Day.

In the final months of the Civil War, the Baltimore Normal School began serving emancipated African-Americans by offering training for teachers. In 1910, it outgrew its facilities and moved to a 187-acre lot in Bowie, Maryland, and in 1914 it became the Maryland Normal and Industrial School at Bowie. Over the course of the twentieth century, the institution evolved into a four-year degree-granting college and eventually became a liberal arts college whose mission extended well beyond training educators. Renamed Bowie State College in 1963, it provided access to higher education for African American students, many of whom were barred from other institutions as a result of segregation.

In 1988, in recognition of the school’s important role in higher education for Marylanders and its expansion into graduate studies, it was elevated to University status and welcomed into the University System of Maryland. Since then, Bowie State University has been one of Maryland’s top institutions of higher education and has continued to rank as one of our nation’s leading historically black colleges and universities, preparing not only some of the brightest young minds in Maryland but also training a new generation of leaders for our nation’s African American community.

Mr. Speaker, I have been proud to represent Bowie State University in Congress and to help secure federal grants that help the school expand its cutting-edge programs, including in the high-demand areas of science, technology, engineering, and mathematics—or “STEM” education. In recent years, Bowie State University has become a national leader in what many are calling “STEAM” education, which brings traditional “STEM” fields together with art and design in order to prepare students for careers in digital technologies. At the same time, Bowie State University has become a national center for training in cybersecurity, drawing on its proximity to Ft. Meade and defense institutions in the Greater Washington area. It continues to build on a groundbreaking \$27 million award from NASA and the National Science Foundation in 1995 that recognized Bowie State University as a national Model Institution for Excellence in STEM education.

Last year, I joined President Obama in Prince George’s County, Maryland, to highlight a \$7 million Youth Career Connect grant that was made possible through an innovative partnership between the County’s public schools, Lockheed Martin, and Bowie State University’s Maryland Center to grow the pipeline of students pursuing college degrees and STEM-related careers. The University is playing a major role in growing Maryland’s high-skill workforce for the twenty-first century, and I am excited for what the future holds.

I hope my colleagues will join me in celebrating Bowie State University’s proud history as it marks its sesquicentennial. I look forward to continuing to work closely with President Mickey Burnim and the Administration to ensure that Bowie State University can continue to carry out its mission of providing high-quality higher education and research that supports learning and careers in Maryland and across the United States.

TRIBUTE TO LEE P. EVANS, SR.

HON. CORRINE BROWN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 16, 2015

Ms. BROWN of Florida. Mr. Speaker, on behalf of the constituents of the Fifth Congressional District of Florida, I am pleased and honored to join the chorus of family, friends, loved ones and many well-wishers who join in praise and give thanks to Lee P. Evans, Sr., for his endearing legacy of love, kindness and generosity. Our lives have been made all the better and richer because of this kind spirit. We are forever grateful to our Heavenly Father for having put him in our midst on April 15, 1925, and for filling him with grace, compassion and love.

These 90 years are marked by many milestones in his life, none more representative of the breadth and depth of his character than that of his humanity. We celebrate the richness of his life. We honor his strength of faith and his unwavering belief in the goodness of all. We come now to honor the man, for in him, and through him, the love of God flows, and warms us in his rich embrace. On this day, we say Happy Birthday Lee P. Evans, Sr., we love you, and may God continue to shower his blessings upon you and all that you love.

COMMEMORATING THE 36TH ANNIVERSARY OF THE TAIWAN RELATIONS ACT

HON. LUKE MESSER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 16, 2015

Mr. MESSER. Mr. Speaker, I rise today to commemorate the 36th anniversary of the Taiwan Relations Act (TRA). The U.S.-Taiwan bilateral relationship has expanded and grown stronger since the TRA was signed into law in 1979. I recently returned from Taiwan where I experienced firsthand our shared values and close economic ties. Last year, Taiwan was the United States' 10th largest trading partner. My home state of Indiana has also benefited from these commercial partnerships and was the first state to establish a trade office in Taiwan. On April 9th, President Ma Ying-jeou shared his insight on our bilateral relations in his remarks at the AmCham's annual Hsieh Nien Fan gala which I have included below. Like President Ma, I look forward to continuing to promote policies that reaffirm our mutual commitment to democratic and economic development.

"I am very pleased to be here today for AmCham's annual Hsieh Nien Fan. This is a special occasion for me, because it marks the 13th time that I have been invited to attend. But there's also another reason why today is a very special day. It's because tomorrow is April the 10th, and that marks the 36th anniversary of the date the Taiwan Relations Act (TRA) took effect.

"At the moment, U.S.-Taiwan relations are indeed the best they have been in the 36 years since the TRA became effective. Everyone in Taiwan, military and civilians, was shocked back on December 16, 1978 when President Carter announced on TV that the

U.S. was breaking diplomatic relations with the Republic of China. But three months later, the U.S. Congress made significant amendments to the Carter administration's Taiwan Enabling Act. Congress not only changed the content of the Act, but also changed its name to the Taiwan Relations Act.

"As you all know, based on existing international law, an unrecognized country loses its status as a legal entity in the United States. It therefore cannot engage in any legal proceedings due to the lack of a judicial personality. But the TRA not only sees Taiwan as a foreign government for purposes of U.S. law, but also allows Taiwan to initiate and respond to judicial litigation. The TRA also allows the U.S. government to provide Taiwan with defensive weaponry. And the property rights attached to our embassy and Twin Oaks estate in Washington, DC also remained unaffected by the break in diplomatic relations or de-recognition.

"Since I took office nearly seven years ago, mutual trust between Taiwan and the United States at the highest levels of government has been restored. Taiwan military procurement from the U.S. has also exceeded U.S.\$ 18.3 billion, the highest it has been in any period over the past 20 years, and twice what it was during my predecessor's term of office. And in March of 2013, our countries resumed negotiations under the 1994 Trade and Investment Framework Agreement (TIFA) as we prepare to take a step-by-step "building block" approach in promoting further trade liberalization.

"Last year, Taiwan and the U.S. forged even closer cooperation in several areas. U.S. Secretary of Commerce statistics show that last year, Taiwan-U.S. trade in goods reached U.S.\$ 67.4 billion. That allowed Taiwan to surpass India and Saudi Arabia to become the United States' 10th largest trading partner. At the same time, the U.S. once again surpassed Japan to become Taiwan's second largest trading partner. Last month, Taiwan companies also flocked to the U.S. government's SelectUSA 2015 Investment Summit, and overall, the Taiwan contingent was the second largest group in attendance.

"In addition to our interaction in the economic and trade arenas, official contacts between Taiwan and the U.S. have also continued. In December of last year, President Obama signed the Naval Vessel Transfer Act of 2014, agreeing to sell the ROC four Perry-class frigates. High-level U.S. officials also visited here, most notably U.S. Environmental Protection Agency Administrator Gina McCarthy, who came to Taiwan in April last year. She was the first U.S. Cabinet-level official to visit us in 14 years.

"This year, in February, U.S. Assistant Secretary of State for East Asian and Pacific Affairs Daniel Russel stated that over the past few years, developments in Taiwan-U.S. relations have been productive. He also said that those developments were closely related to the improvement in cross-strait relations. He also expressed that the U.S. hopes to see the continued positive development of cross-strait relations.

"So ever since the Cold War began, this was the first time that the United States did not have to choose sides when handling cross-strait relations. Nor did mainland China or Taiwan have to face that kind of predicament. This highlights our efforts in the realm of cross-strait relations over the past few years, as both ROC-U.S. and cross-strait relations have become more harmonious. As this kind of interaction has transformed Taiwan's cross-strait and international relations, the vicious cycle of the past is gone, and we're moving ahead under the virtuous cycle of today.

"In truth, the Republic of China and the U.S. have a long and storied relationship.

Now, I would like to tell you two stories to illustrate our friendship.

"The first story I want to tell occurred at the very beginning of the 20th century. In 1901, one year after the so-called Boxer Rebellion, the Qing Empire and the United States signed the Boxer Protocol, which paid U.S.\$ 24.4 million to the U.S.—known as the Boxer Indemnity. In his State of the Union Address in 1907, President Theodore Roosevelt stated that part of the Boxer Indemnity should be returned to China. In 1924, an executive order by U.S. President Coolidge returned the other portions of the Boxer Indemnity. So by that time, the U.S. had returned about 95% of the Indemnity to the Republic of China, making a tremendous contribution to cultivating human talent. The Boxer Indemnity Scholarship Program provided funds that helped many people who became the pillars of the Republic of China. And what the U.S. did also had an effect in Europe, where Holland used Boxer Indemnity funds to set up a China Research Program at Leiden University. That made Leiden University a strategic center for research on China, and fostered several generations of talented individuals. That soon became the norm, and the United Kingdom, France, Russia, and Japan all followed suit.

"The second story took place 75 years ago. This year is the 70th anniversary of the end of World War II, and the Republic of China's victory in the War of Resistance against Japan. During the course of World War II, the U.S. government and citizens not only gave the Republic of China substantive assistance, but also proved to be staunch friends. That hard-fought War of Resistance between the Republic of China and Japanese forces lasted for eight long years. For the first four years, our soldiers fought virtually alone, without any assistance from outside sources. During that period, however, the U.S. provided indirect assistance. And the most inspiring example of that assistance came from the American Volunteer Group—the AVG—which was later absorbed by the Fourteenth Army Air Force in China. That unit became known far and wide by their nickname: The Flying Tigers. They came to represent Chinese-American cooperation. When the Flying Tigers had been in China for less than a year, they had already downed at least 200 Japanese war planes. That allowed the Chinese Air Force, which was on its last legs, to slowly recover its fighting capabilities. So in November of 1943, at the Battle of Changde in Hunan Province, the U.S. Fourteenth Army Air Force in China joined forces with our own air force to form the Chinese-American Composite Wing. Working together, they brought down 25 Japanese planes, with another 14 planes listed as possibly shot down, and 19 additional Japanese planes damaged. The Japanese Air Force didn't dare return to challenge them again. And just when the forces defending Changde were in dire straits, the composite air forces air-dropped ammunition, rice, and pork for those ground troops. They also dispatched operatives to the battlefields who filed hourly intelligence reports to General Claire Lee Chennault. That allowed the General to direct the Flying Tigers to attack Japanese forces that mounted offensives, and also leverage victories by bombing defeated Japanese troops even as they retreated.

"So this year, we will be commemorating the 70th anniversary of victory in the War of Resistance Against Japan with various activities. We have decided to invite General Chennault's granddaughter, and descendants
