

ENDNOTES

1. CBO published *Updated Budget Projections: 2015 to 2025* in March 2015; some of the amounts shown in Table 1 are different in the March baseline, but at the request of the committee staff, these tables show the projections from the January baseline. In total, for mandatory spending, the differences between the two baselines are small, and the average annual growth rates over the 2016–2025 period are very similar—5.3 percent in the January projections versus 5.2 percent in the March baseline.

2. Under current law, funding for the program in 2015 consists of two semiannual allotments of \$2.85 billion—amounts that are much smaller than the allotments made in the four preceding years. (The first semiannual allotment in 2015 will be supplemented by \$15.4 billion in onetime funding for the program.) Following the rules prescribed by the Deficit Control Act, CBO extrapolates the \$2.85 billion provided for the second half of the year to arrive at projected annual funding of \$5.7 billion.

3. Refundable tax credits reduce a filer's overall income tax liability; if the credit exceeds the rest of the filer's income tax liability, the government pays all or some portion of that excess to the taxpayer. Those tax credits also affect the budget, to a lesser extent, by reducing tax revenues; those revenue effects are not shown in the tables.
