

work and play, and I look forward to his visit and his words of inspiration to the people's House where the government for and by the people is practiced daily.

PLANNED PARENTHOOD

(Mr. MULVANEY asked and was given permission to address the House for 1 minute.)

Mr. MULVANEY. Mr. Speaker, as the House prepares next week to take up a discussion about Planned Parenthood, I want to speak very briefly to what the debate is not about. It is not about women's health.

The proposal that many of us are making to this House is that we simply take this money away from Planned Parenthood and move it to federally qualified healthcare clinics, clinics that provide better services and more services to women. There are 13,000 of these clinics versus 900 Planned Parenthood units, services that go to women that Planned Parenthood does not provide.

Planned Parenthood does not do mammograms; the clinics do. This debate is not about women's health care, and anyone who wants you to believe that it is, is simply afraid to tell you what it is really about, which is whether or not we should give taxpayer money to an entity that sells pieces of dead children.

THE FIVE MERCENARIES

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, earlier this year, Secretary of Defense Ash Carter stunned Congress and the country when he admitted that the administration's \$500 million program to train and equip so-called moderate Syrian rebels had resulted in the training of 60 individuals. The original goal was to have 5,000 within the first year, but they only had 60.

The information gets worse. Today, most of those 60 mercenaries have been killed, captured, or just gone missing.

Mr. Speaker, where, oh, where have the fighters gone? Where, oh, where could they be? Have they gone to fight with the enemy—which just leaves us how many? It is four or five, according to General Austin. Four or five fighters for a cost of \$500 million, is that the plan for the war in Syria to defeat ISIS?

The lack of a plan in Syria has created chaos. Thousands of people have panicked and are running from the Syrian turmoil. The U.S. needs to lead.

Expecting five mercenaries to defeat ISIS is disgraceful. The United States needs an aggressive strategy to defeat the enemy of civilization, ISIS.

And that is just the way it is.

DEFUNDING PLANNED PARENTHOOD

(Mr. YOUNG of Indiana asked and was given permission to address the House for 1 minute.)

Mr. YOUNG of Indiana. Mr. Speaker, I rise today as a father of four, a regular dad who loves my children more than I love my own life. I know I speak for millions when I say that my wife, Jenny, and I fell in love with our children before they were even born.

It is this love for my children that led me to the pro-life movement, to serve on the board of directors of a crisis pregnancy center, to offer free legal services for those who want to adopt.

It is in this spirit of love, informed by powerful life experiences, that I rise today in strong support of legislation to defund Planned Parenthood.

Now, Hoosiers have made it clear. They should not be forced to violate their own conscience so that Planned Parenthood can continue to operate.

Given the light that has recently been shed on Planned Parenthood's gruesome practices and procedures, can we not agree that taxpayers shouldn't have to foot the bill for these atrocities?

Now, if the best argument on the other side is that eliminating taxpayer subsidies for Planned Parenthood would create access problems, that is just not the case. The 73 federally qualified health centers, 63 rural clinics, and 24 community health centers in the State of Indiana, all of which provide women vital health services without providing abortions, prove otherwise.

Theirs is an empty argument, one I would encourage my colleagues, as a matter of integrity, to put to rest. Let's free Americans from participation in this morally reprehensible practice.

THREATS OF CLIMATE CHANGE

(Mr. KILMER asked and was given permission to address the House for 1 minute.)

Mr. KILMER. Mr. Speaker, I rise as a member of the Safe Climate Caucus to note the extraordinary damage done by wildfires in Washington State this summer.

It is a fact that our climate is changing. We just had one of the driest springs and summers in more than a century that led to trees and vegetation becoming kindling for the massive fires that we have seen.

The largest wildfire in our State's history hit central Washington, forcing thousands to flee and putting firefighters in harm's way. We have a wildfire that continues to smolder in Olympic National Park, a rain forest. From Washington to California, brave emergency responders have spent this summer on the front lines, battling flames, with no signs of abating.

I believe it is time we pay attention to these warning signs. If we want a

better future for our kids, if we want to protect the communities in which we live, then we need to confront the threats of climate change.

INTERNATIONAL COASTAL CLEANUP DAY

(Mr. CURBELO of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CURBELO of Florida. Mr. Speaker, I rise to recognize Saturday, September 19, as International Coastal Cleanup Day. I encourage everyone nationwide to participate by visiting a local beach and assisting with this special event.

Ocean pollution is a serious problem that negatively impacts wildlife, humans, and our economy, including many small-business owners. Debris found in ocean water and on shores is detrimental to aquatic life and has the potential to injure water sports enthusiasts and beachgoers, as well as destroy boats and their propellers.

In 2012, more than 10 million pounds of trash were collected by 500,000 volunteers in 97 countries. Earlier this year, my staff and I spent a morning cleaning up the beaches on Stock Island in the Florida Keys and saw just how much trash washes ashore.

Unfortunately, this amount is just a snapshot of an even larger problem. Though International Coastal Cleanup Day happens annually, it is important that we make a stronger effort to protect our beaches more than once a year.

PLANNED PARENTHOOD

(Mr. WALKER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WALKER. Mr. Speaker, in America, the practice of abortion is now referred to as women's health care. Yes, in the 21st century, even with all the science, we refuse to ask the question: What about the baby?

The cavalier spirit and the cold-hearted callousness in taking a live baby and then cutting into her face to retrieve fresh body parts—can you imagine the national outrage if we were carving up puppies in the same manner?

We don't condemn these young mothers who have been convinced that no other options exist; yet we will be negligent if we stand silent over the atrocities of an abortion mill that goes by the name Planned Parenthood. Whether you are pro-life or not, surely, most Americans are appalled by the idea that our tax dollars are funneled to this organization.

I cannot look the other way. It is my belief, and I am thoroughly convinced that this is no longer a political issue. This is about a human rights violation that parallels other barbaric times throughout history. Ultimately, we will stand before almighty God.

The Psalmist David wrote:

For You, God, formed my inward parts.
You wove me together in my mother's womb.
I praise You because I am fearfully and wonderfully made.

PLANNED PARENTHOOD

(Mr. FLEMING asked and was given permission to address the House for 1 minute.)

Mr. FLEMING. Mr. Speaker, graphic videos, personal testimony, and verbal assent reveal the true colors of Planned Parenthood.

There is probable cause to believe that America's largest abortion provider is altering abortion procedures to obtain uncrushed baby body parts; is performing partial-birth abortions; and is selling baby hearts, brains, and other fetal specimens for monetary value. This is atrocious.

Planned Parenthood staff doesn't want to lowball fees for baby body parts, and third parties are drooling over intact unborn children. It is unimaginable how one can camouflage the humanity of a clinician's announcement of "another boy" and watch a baby's beating heart just before harvesting the baby's brain to sell; yet Federal funding continues to pour unabashed, unabated into the coffers of Planned Parenthood, America's number one killer of unborn babies. This must stop.

Mr. Speaker, I do not support this allotment of taxpayer dollars and will vote against any spending bill that funds Planned Parenthood.

PLANNED PARENTHOOD

(Mr. PEARCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PEARCE. Mr. Speaker, a nation, like an individual, is judged by the way it speaks for those who can't speak for themselves and by the way it treats those without total capacities.

It is in this regard that our Founders brought this Nation together with the core principles of life, liberty, and the pursuit of happiness—life being the first of those.

It is a constitutional requirement that I think that we have to speak for the unborn. When we see the atrocities in the videos, the callousness of the organization that is trafficking in body parts from dead babies, we should react in horror and remove the funding for that.

The greatest argument the other side puts up is that they provide women other services. This chart shows the Planned Parenthood locations in New Mexico versus those providing other services. We simply seek to move the funding from them to here.

The coverage from our State is much broader and much better and would be a voice for those unborn who can't scream out for their own sake.

FUNDING PLANNED PARENTHOOD

(Mr. WILLIAMS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILLIAMS. Mr. Speaker, the question we must ask ourselves today in light of recent revelations: Why does Congress insist on giving half a billion dollars of the taxpayer money to an organization that has such disregard for human life?

Considering the budget constraints currently imposed on our military, why are the American people's hard-earned money being diverted to Planned Parenthood, which reports more than \$127 million in excess revenue and more than \$1 billion in net assets?

When I was back home in Texas during the August recess, I had the pleasure of visiting the Austin Pregnancy Resource Center, a model women's health organization that can and should lead by example.

The APRC does a lot to support women's health and provide guidance on accessing women's health services. The APRC's slogan of building the culture of life is one that we should all be able to get behind, but there are many pro-life women's health organizations like APRC that take no Federal dollars.

Even so, some of my colleagues prefer to continue to send taxpayer dollars to Planned Parenthood, an organization that takes in money from aborted fetal parts, an organization that alters abortion procedures so they can harvest organs, an organization that, frankly, rips off the Federal Government.

Not only are the alleged actions of Planned Parenthood illegal under Federal law, they are morally reprehensible.

I am disgusted that an organization that is involved in such repulsive activity would promote itself as a protector of women's health. It is beyond hypocritical. It is deceitful and I believe fraudulent.

When I first ran for Congress, I promised that I would vote with my conscience and use God's word as my guide. For this reason, earlier I called for an end to Federal funding for Planned Parenthood.

In God we trust.

MISINFORMATION ON THE PLANNED PARENTHOOD DEBATE

(Mr. JORDAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. JORDAN. Mr. Speaker, the Congressman from South Carolina (Mr. MULVANEY) is exactly right. There is all kinds of misinformation about this Planned Parenthood debate. The biggest line is this: We are headed to a government shutdown. Are you kidding me?

We are going to fund the government at the levels the Democrats agreed to, Republicans agreed to, the levels outlined in the Ryan-Murray plan. We are going to fund it.

We are going to do one change, though, one simple, but important, change: Take the money from the organization engaged in the gruesome, horrific things that Planned Parenthood was caught doing and give it to organizations that weren't doing that and still meet women's health needs. That simple fact. The same levels, but move it from the bad organization to good organizations.

It is that basic. That is what this debate is about, and that is what the American people want us to do.

TAXPAYER DOLLARS SHOULD NOT SUPPORT TRAFFICKING OF ABORTED FETAL TISSUE

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute.)

Mr. CARTER of Georgia. Mr. Speaker, we have known for some time that Planned Parenthood is the largest provider of abortions in this country.

What we didn't know until recently was just how vile and disgusting they are willing to be in the trafficking of fetal tissue and the body parts of the unborn.

These actions uncovered from these videos have given the whole world insight into the inexcusable and horrific culture at Planned Parenthood. The heartlessness displayed represents an unraveling of the very moral fabric of our country.

The passage of the two bills before us is the appropriate action to address Planned Parenthood's illegal actions.

Taxpayer dollars should not be going to the killing of unborn babies. Taxpayer dollars should not go to organizations like Planned Parenthood that support the practice of abortion and trafficking of aborted fetal tissue.

I encourage my colleagues to support these two bills and to support precious, innocent lives of the unborn.

DEFUNDING PLANNED PARENTHOOD WILL HAVE NO EFFECT ON WOMEN'S HEALTH

(Mr. LABRADOR asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LABRADOR. Mr. Speaker, I want to make it clear that this is not simply an issue of whether Planned Parenthood broke the law by selling fetal body parts obtained through abortions.

The real tragedy we are confronted with today is that human beings have been reduced to mere commodities in this practice, and Federal dollars are contributing to it.

I do not want to contribute to a system that profits from someone's fate nor do I want to subject millions of taxpayers to supporting this violation of life.
