

Muslim Brotherhood requires a mosque be built there and a presence there.

Naturally, they would want one at Ground Zero in New York; further, they would want a mosque and a strong presence in Dallas which was, they believe, the place of their big defeat when the Holy Land Foundation principals were convicted and sent to prison.

I did want to point out, as we finish up here today, that the President was giving an excellent speech in India about the importance of stopping the global war on women. He didn't call it that. He only calls it that for Republicans, but there is a war on women, and it is not by Republicans. It is radical Islam and even some moderate Islamists.

He is giving this talk about the importance of recognizing the importance and the equality of women—or some of us might say they are more equal than we are—but as he was doing that, this picture was on Saudi television.

We have our United States President depicted here, and this is the First Lady of the United States of America being blurred out by this country's allies because she wasn't covered. Michelle Obama should never need to be covered if she doesn't want to be; yet at the very time our President is talking about equality of women, he fails to notice that people that he considers allies are treating his own wife like this.

Mr. Speaker, it is critical that we stand up against radical Islam or any Islam that wants a settlement civilization jihad in America. Anything and anybody who disagrees with the United States Constitution and wants to destroy it, tear it down, is an enemy to the United States and needs to be recognized as such and not welcomed with open arms at the State Department and the White House.

With that, I yield back the balance of my time.
