## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. FEINSTEIN (for herself and Mrs. BOXER):

S. 833. A bill to authorize the Secretary of Veterans Affairs to carry out certain major medical facility projects for which appropriations were made for fiscal year 2015, and for other purposes; to the Committee on Veterans' Affairs.

Mrs. FEINSTEIN. Mr. President, I speak today regarding the introduction of a bill, cosponsored by Senator BOXER, to provide the Department of Veterans Affairs with the authority to obligate and expend previously appropriated funds in order to begin construction on critical projects in Los Angeles, Long Beach, and San Diego, CA, as well as in Canandaigua, NY.

In December of 2014, Congress passed the Consolidated and Continuing Appropriations Act of 2015, which provided \$446,800,000 for major construction projects at these Veterans Affairs Medical Centers. However, the Department of Veterans Affairs cannot spend the money that has already been appropriated and begin construction on these projects because it lacks a separate authorization, which is required by law.

The funding provided for the three California projects will be used to make critical, time-sensitive seismic safety corrections to structures in West Los Angeles, Long Beach, and San Diego. These buildings, which include a spinal cord injury clinic, a mental health care facility, and a community living center, are at exceptionally high risk of collapse or suffering severe damage during an earthquake. If a major earthquake struck in proximity to one of these Medical Centers while it was in use by veterans and the Department's employees, there could be numerous injuries and deaths. The U.S. Geological Survey estimates there is a greater than 99 percent chance that a magnitude 6.7 or greater earthquake will strike California in the next 30 years.

It is important to note that even less severe earthquakes can cause damage to seismically unsafe buildings that result in injuries and deaths. The California Governor's Office of Emergency Services believes that the damage to seismically unfit buildings caused by the magnitude 6.0 earthquake that hit Napa, CA, on August 24, 2014 at 3:20 a.m. would likely have resulted in many more deaths and injuries if it had struck during business hours when these structures were in use. As it was, the earthquake caused over 200 injuries and one fatality. In fact, the U.S. Geological Survey estimates that a 6.0 magnitude earthquake hits California every 1.2 years on average. This is a terrifying figure, and it is why I strongly believe that Congress must enact this legislation without delay.

I appreciate that the Senate Veterans' Affairs Committee worked extremely hard to pass important legislation last year to address the veterans'

health care access crisis and that it, therefore, did not report a construction authorization bill. However, in the case of these four projects, the money has already been appropriated and is available for expenditure as soon as an authorization is forthcoming from Congress.

More hearings and delays are unnecessary to determine whether the Senate should pass this legislation. The Senate Appropriations Committee held hearings with the Department on these projects in 2014 as it reviewed the President's fiscal year 2015 Budget Request. The Committee marked up and reported the Military Construction, Veterans Affairs, and Related Agencies appropriations bill in a bipartisan fashion. Congress voted in a bipartisan fashion to pass this bill and approve funding for these projects as part of the Consolidated and Continuing Appropriations Act of 2015.

I want to reiterate that Congress appropriated funding for these four major medical projects in 2014, and the Department is ready to start construction today. However, due only to the lack of a separate authorization, the Department cannot start this vital work to protect our veterans and Federal employees. This is exactly why Americans believe that the Federal Government does not work. How does Congress explain this unnecessary delay to veterans who go to medical appointments in the buildings at risk of collapse or major damage? There is no reason to delay authorizing these projects when the money has already been appropriated.

I urge my colleagues to join me in quickly approving this legislation so that the Department can begin modification of buildings that currently leave veterans and the Department's employees in harm's way before the next earthquake strikes California. Congress must act before the next earthquake strikes.

By Mr. DURBIN (for himself, Mrs. BOXER, Mr. MERKLEY, Mr. BLUMENTHAL, and Mr. WHITEHOUSE):

S. 838. A bill to amend the Truth in Lending Act to establish a national usury rate for consumer credit transactions; to the Committee on Banking, Housing, and Urban Affairs.

Mr. DURBIN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 838

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*
