STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. INHOFE (for himself, Mr. MCCAIN, and Mr. ROUNDS):

S. 1877. A bill to require the Attorney General to appoint a special prosecutor to investigate Planned Parenthood, and for other purposes; to the Committee on the Judiciary.

Mr. INHOFE. Mr. President, we have all been disturbed—just really outraged—about the things that have come from Planned Parenthood recently. We have seen the videos exposing their casual disregard of human life. It is unconscionable. It is very sad. We have known this for a long time. The junior Senator, Mr. LANKFORD, back when he was in the House of Representatives was introducing bills to defund Planned Parenthood, and that was before the most recent events that have happened.

The Center For Medical Progress spent 3 years investigating Planned Parenthood and produced at least three videos revealing what appears to be an intentional and illegal harvesting of body parts from aborted babies.

There are countries such as China that condone killing children, but our Nation should not be condoning the act of killing our own children or allowing these corrupt organizations to sell body parts for profit. There was a book that was written that I remember very well entitled “Modernizing China” by Anthony Kubek. This was 30 years ago, when there was still a separation between China and Taiwan. They talked about at that time having a limit on how many babies people could have. They would go in and find out that there was one more child than they should have had, and they would take that baby and kill it. Of course, the

harvesting of body parts was taking place there. That was China. This is America. It is hard to believe this could be happening.

It is not about being pro-life or pro-choice anymore; it is about our country’s moral conscience. If Planned Parenthood has either profited from selling aborted babies’ organs or they have modified procedures used to conduct an abortion for the purposes of obtaining body parts, then they have broken the law.

In fact, the National Institutes of Health Revitalization Act of 1993 states that “no alteration of the timing, method or procedures used to terminate the pregnancy [may be] made solely for the purposes of obtaining tissue.” That includes arms, legs, kidneys, and body parts, but this is exactly what Planned Parenthood has admitted to doing in these videos.

The Federal law also states it is unlawful to sell human fetal tissue. Title 42 of the U.S. Code, section 289g-2(a) states: “It shall be unlawful for any person to knowingly acquire, receive, or otherwise transfer any human fetal tissue for valuable consideration if the transfer affects interstate commerce.” Again, it is illegal.

Based on the evidence in these videos, particularly with the Planned Parenthood employees haggling and negotiating over prices, joking about it, and using the income of the dead babies’ body parts to buy a Lamborghini—some kind of automobile—it seems as if it is commonplace. There is a total disregard for the babies or what they were doing.

My colleague Senator ERNST of Iowa and I, along with others in the Senate, wrote to the Department of Health and Human Services requesting answers to these questions.

One thing that is important to note is that Planned Parenthood receives \$1.4 million of taxpayers’ money every day. It is unthinkable that they are being supported by the taxpayers in the United States, according to their 2013-2014 annual report. They received 528.4 million taxpayer dollars and then performed and profited from illegal and immoral actions taking the lives of innocent babies. This is so incredibly evil it is even hard to talk about.

We are talking about women being manipulated into putting their health on the line for a government-funded organization to profit from harvesting their child’s body. Vulnerable women are being coerced into having abortions and delaying the abortions until the baby has grown to the age within the womb that they would have fully developed body parts in order to sell. This is what is happening today.

Planned Parenthood fights to keep mothers from seeing the human value of their babies with an ultrasound. They don’t want the mother to hear the baby inside their womb with an ultrasound, but they will use the same technology to guide them to more valuable organs as they perform abortions

for monetary gain. These actions deserve to be fully investigated. Crimes have been committed. It is our moral obligation to fully prosecute any violations of the law.

Today I have introduced legislation that would require the appointment of a special prosecutor to investigate and prosecute these atrocities. To pay for this, the legislation would rescind all moneys that have been appropriated to Planned Parenthood and provide the special prosecutor with as much of this money to conduct the investigation as is necessary.

We have to protect innocent lives. Now that this has opened the door to a reality that has been suspected for so many years, this Senator wants America and the world to know that endangering women’s health and profiting from killing children is not acceptable.

The video just released today shows a lab technician placing and celebrating the monetary value of a baby’s arms, legs, kidneys, and spinal cord as they pulled apart its body.

The bill is S. 1877. We have gotten a lot of calls about it. I didn’t want to let this opportunity go by without coming to the floor and getting something started to do something to stop the barbaric acts we are seeing on behalf of Planned Parenthood.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 233—RECOGNIZING JULY 28, 2015, AS “WORLD HEPATITIS DAY”

Ms. HIRONO (for herself, Mr. SCHUMER, and Mr. SCHATZ) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 233

Whereas hepatitis B and hepatitis C, and the incidence of liver disease caused by these viruses, have become urgent problems of a global proportion;

Whereas an estimated 350,000,000 people worldwide live with chronic hepatitis B, and an estimated 780,000 people worldwide die each year due to hepatitis B;

Whereas an estimated 150,000,000 people worldwide are chronically infected with hepatitis C, and an estimated 500,000 people worldwide die each year due to a liver-related illness caused by hepatitis C;

Whereas an estimated 1,000,000 people worldwide die each year due to liver failure or primary liver cancer resulting from a chronic infection of hepatitis;

Whereas an estimated 5,300,000 people in the United States are infected with either hepatitis B or hepatitis C, including 1,400,000 people who are chronically infected with hepatitis B and 2,700,000 people who are chronically infected with hepatitis C;

Whereas the Centers for Disease Control and Prevention (referred to in this preamble as “CDC”) estimated that there were 19,764 new hepatitis B infections and 29,718 new hepatitis C infections, respectively, in the United States in 2013;

Whereas the CDC has found significant increases in the transmission of new hepatitis cases in the United States since 2010, including a 151 percent increase between 2010 and

2013 in new transmissions of hepatitis C in the United States;

Whereas chronic viral hepatitis claims thousands of lives each year in the United States, with 19,368 deaths due to hepatitis C in the United States in 2013;

Whereas, in 2014, \$4,500,000,000 in Medicare funds were spent on hepatitis C treatments;

Whereas a person who has become chronically infected with hepatitis B or hepatitis C may not have symptoms for up to 40 years after the initial infection occurred;

Whereas African Americans, Asian Americans, Pacific Islanders, Latinos, Native Americans, Alaska Natives, gay and bisexual men, and persons who inject drugs intravenously all have higher rates of chronic viral hepatitis infections in the United States than other groups of people;

Whereas Asian Americans and Pacific Islanders bear the greatest burden of hepatitis B related deaths in the United States;

Whereas hepatitis C is 10 times more infectious than human immunodeficiency virus (referred to in this preamble as “HIV”);

Whereas hepatitis B is 50 to 100 times more infectious than HIV;

Whereas an estimated 25 percent of people who live in the United States and are infected with HIV are also infected with hepatitis C;

Whereas life expectancies for persons infected with HIV have increased with antiretroviral treatment, and liver disease, much of which is related to hepatitis B and hepatitis C infections, has become the most common cause of death among this population that is not related to acquired immune deficiency syndrome;

Whereas, despite the fact that chronic viral hepatitis is the most common blood-borne infection in the United States, 65 percent of people living with hepatitis B and an estimated 75 percent of people living with hepatitis C are unaware of their infection;

Whereas hepatitis B is preventable through vaccination, and both hepatitis B and hepatitis C are preventable with proper public health interventions, including programs that offer access to sterile injection equipment for people who inject drugs intravenously;

Whereas effective and safe treatment is available for people living with hepatitis B and hepatitis C, including new curative treatments for hepatitis C; and

Whereas the goals of “World Hepatitis Day” on July 28, 2015, are to—

(1) highlight the global nature of chronic viral hepatitis epidemics;

(2) recognize that hepatitis can be prevented and eliminated in part through a comprehensive public education and awareness campaign designed to identify those at risk for, and living with, hepatitis;

(3) inform patients about new treatments that are available for hepatitis; and

(4) help increase the length and quality of life for people diagnosed with chronic hepatitis B and hepatitis C infections: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes July 28, 2015, as “World Hepatitis Day”;

(2) supports broad access to hepatitis B and hepatitis C treatments;

(3) supports raising awareness of the risks and consequences of undiagnosed chronic hepatitis B and hepatitis C infections; and

(4) calls for a robust governmental and public health response to protect the health of the approximately 5,000,000 people in the United States and 400,000,000 people worldwide who suffer from chronic viral hepatitis.

SENATE CONCURRENT RESOLUTION 20—RECOGNIZING AND HONORING THE 25TH ANNIVERSARY OF THE DATE OF ENACTMENT OF THE AMERICANS WITH DISABILITIES ACT OF 1990

Mr. HATCH (for himself, Mrs. MURRAY, Ms. AYOTTE, Ms. MURKOWSKI, Ms. COLLINS, Mr. KIRK, Mr. ROUNDS, Mr. COCHRAN, Mr. RUBIO, Mr. KAINE, Ms. BALDWIN, Ms. CANTWELL, Mrs. BOXER, Mr. BROWN, Ms. MIKULSKI, Mr. LEAHY, Mr. CASEY, Mr. DURBIN, Mr. SCHUMER, Mrs. FEINSTEIN, Mr. KING, Mrs. SHAHEEN, Mr. FRANKEN, Ms. KLOBUCHAR, Mr. MARKEY, Ms. HEITKAMP, Mr. BENNETT, Mr. BLUMENTHAL, Mr. MENENDEZ, Ms. STABENOW, Ms. WARREN, Mr. ALEXANDER, Mr. WHITEHOUSE, Ms. HIRONO, Mr. REED of Rhode Island, and Mr. CARDIN) submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 20

Whereas, July 26, 2015, marks the 25th anniversary of the date of enactment of the Americans with Disabilities Act of 1990 (referred to in this preamble as the “ADA”);

Whereas the ADA has been one of the most significant and effective civil rights laws passed by Congress;

Whereas, prior to the date of enactment of the ADA, individuals with disabilities were too often denied the opportunity to fully participate in society due to intolerance, misunderstanding, ignorance, or unfair stereotypes;

Whereas the dedicated efforts of passionate and courageous disability rights advocates served to awaken Congress and the people of the United States to the discrimination and prejudice that individuals with disabilities face;

Whereas Congress worked in a bipartisan manner to craft legislation to make discrimination against individuals with disabilities illegal;

Whereas Congress passed the ADA, and President George Herbert Walker Bush signed the ADA into law on July 26, 1990;

Whereas the purpose of the ADA is to fulfill the goals of opportunity, independent living, integration, and economic self-sufficiency for individuals with disabilities who live in the United States;

Whereas the ADA—

(1) prohibits employers from discriminating against qualified individuals with disabilities;

(2) requires that State and local governmental entities accommodate qualified individuals with disabilities;

(3) requires a place of public accommodation to take reasonable steps to ensure that the goods and services it provides are accessible to individuals with disabilities; and

(4) requires new trains and buses to be accessible to individuals with disabilities;

Whereas the ADA has played a historic role in allowing more than 55,000,000 individuals in the United States who have disabilities to better participate in society by removing barriers to employment, transportation, public services, telecommunications, and public accommodations;

Whereas the ADA has served as a model for disability rights in other countries;

Whereas every individual in the United States, not just those with disabilities, benefits from the accommodations that have become commonplace since the passage of the ADA, including curb cuts at street intersections, ramps for access to buildings, and other accommodations that provide access to

public transportation, stadiums, telecommunications, voting machines, and websites;

Whereas, 25 years after the date of enactment of the ADA, it remains a crucial tool, as children and adults with disabilities still experience barriers that interfere with their full participation in mainstream life in the United States;

Whereas, 25 years after the date of enactment of the ADA, individuals in the United States who have disabilities are twice as likely to live in poverty than individuals without disabilities, and individuals with disabilities continue to experience high rates of unemployment and underemployment;

Whereas, 25 years after the date of enactment of the ADA and 16 years after the Supreme Court issued the decision in *Olmstead v. L.C.*, many individuals with disabilities still live and work in segregated and institutional settings because of a lack of access to support services that would allow such individuals to live and work in their community;

Whereas, 25 years after the date of enactment of the ADA, the ADA remains a crucial tool for individuals with disabilities who experience barriers to accessibility in telecommunications and information technologies; and

Whereas the United States has a responsibility to welcome back and create opportunities for the tens of thousands of working-age veterans who have been wounded in action or have suffered injuries or illnesses related to their service in the Global War on Terror: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) recognizes and honors the 25th anniversary of the date of enactment of the Americans with Disabilities Act of 1990;

(2) salutes everyone whose efforts contributed to the enactment of the Americans with Disabilities Act of 1990;

(3) encourages everyone in the United States to celebrate the advancement of freedom and the expansion of opportunity made possible by the enactment of the Americans with Disabilities Act of 1990; and

(4) pledges to continue to work on a bipartisan basis to support opportunity, independent living, economic self-sufficiency, and the full participation of individuals in the United States who have disabilities.
