

By Mr. McCAIN:

S. 1895. A bill to amend the Radiation Exposure Compensation Act for purposes of making claims under such Act based on exposure to atmospheric nuclear testing; to the Committee on the Judiciary.

Mr. McCAIN. Mr. President, I am pleased to introduce legislation that would amend the Radiation Exposure Compensation Act, RECA, by adding Mohave County, AZ, to the list of counties eligible for downwinder compensation. A similar proposal was introduced today by Congress PAUL GOSAR. I am hopeful this bill will help close a painful chapter for those Arizonans who were arguably the most affected by nuclear weapons testing during the Cold War.

In 1990, Congress enacted the Radiation Exposure Compensation Act to compensate victims or their survivors who suffered certain illnesses caused by fallout exposure “down wind” of atmospheric nuclear weapons testing during the 1950’s and 1960’s. Among other requirements, eligibility is limited to individuals who can prove their physical presence in one of several affected counties. Astonishingly, despite its close proximity to the Nevada Test Site, the original RECA law and its subsequent amendments never listed Mohave County proper as an affected area. I believe the people of Mohave County deserve to see righted this unjust policy which has obstructed their ability to qualify for compensation.

I understand that several of my colleagues have proposed similar RECA amendments in previous years. I would hope that these various RECA proposals give additional consideration to an April 2005 report by the National Academy of Sciences, NAS, that assessed, among other things, whether additional geographic areas should be added to the RECA program. The NAS study revealed a much wider area of radioactive fallout than originally identified when the RECA law was first written. The report also recommended replacing the geographic area criteria with a new science-based process for determining compensation eligibility, a method similar to what’s used in the Radiation Exposed-Veterans Compensation Act and the Energy Employees Occupational Illness Compensation Program Act. I believe it is worthwhile for policy makers to consider the recommendations of the NAS report.

This bill is an expansion of the RECA program and thus I will be working with my colleagues to find funding offsets to ensure there is no net increase in government spending if this legislation were enacted. I encourage my colleagues to support this bill.
