

Initiative was conducted. I remember when Dr. Healy came to me with the idea for this study. She needed money to get a study underway looking at post-menopausal hormone therapy. I was so proud to work on the Appropriations Committee to get Dr. Healy and NIH the money they needed. I worked hand-in-hand with Senators Kennedy, Harkin, and Specter.

The Women's Health Initiative had groundbreaking findings that led to big changes in hormone replacement treatment protocols. As a result, we have seen significant reductions in breast cancer rates. We have reduced the incidence of breast cancer by 10,000 to 15,000 cases per year. Just think, this study alone—the brainchild of Dr. Healy—has helped save 375,000 lives over the past 25 years.

But the Office of Research on Women's Health has done so much more. Today, more than half of participants in NIH-funded clinical trials are women. The office worked with the National Cancer Institute to develop a vaccine that prevents the transmission of Human Papilloma Virus, HPV, resulting in fewer cervical cancer cases. The office worked with the National Institute of Allergy and Infectious Diseases on a landmark study which showed that giving the drug AZT to certain HIV-infected women reduced risk of mother-to-child transmission of HIV by two-thirds. The office has supported major advances in knowledge about genetic risk for breast cancer and discovery of BRCA1 and BRCA2 genetic risk markers. The office codirects the NIH Working Group on Women in Biomedical Careers, which develops and evaluates policies to promote recruitment, retention, and sustained advancement of women scientists.

We have come so far over the past 25 years, but we still have a long way to go. There remain striking gender differences in many diseases and conditions, including autoimmune diseases, cancer, cardiovascular diseases, depression and brain disorders, Alzheimer's disease, diabetes, and addictive disorders. We still don't have enough information on the involvement of women in clinical research and trials. We still don't have reliable data on how drugs currently on the market affect women differently than men. And still to this day, women are often prescribed dosages devised for men's average weights and metabolisms.

As you can see, there remains work to be done. But that doesn't mean we can't take a moment to commemorate how far we have come over the past quarter century. I am immensely proud of the work done by the NIH's Office of Research on Women's Health and all those who have worked day-in and day-out to end gender bias in medical research, including Dr. Ruth Kirschstein, Dr. Bernadine Healy, Dr. Vivian Pinn, and Dr. Janine Clayton, current Director of the office. I very much look forward to what the next 25 years will bring. Thank you.

RECOGNIZING THE HENDERSON CHAMBER OF COMMERCE'S 70TH ANNIVERSARY

- Mr. HELLER. Mr. President, today, I wish to recognize the 70th anniversary of an important entity to Southern Nevada, the Henderson Chamber of Commerce. I am proud to honor this chamber that contributes so much in support of local businesses and Henderson's economy and job market.

Without a doubt, this city's businesses, both small and large, have a great impact on our State's growth. Through the dedication and hard work of the Henderson Chamber of Commerce, Henderson's business community continues to strive and maintain a high quality of life for residents. Even when Nevada's economy took a difficult turn, the Henderson Chamber of Commerce intervened, fighting to help local businesses stay on their feet. It helped owners maneuver through an adverse economic climate with innovation, creativity, and ingenuity. To say this chamber has had a positive impact on Southern Nevada would be an understatement. The strong foundation it has built will be felt for years to come.

Aside from helping local businesses expand and thrive, the Henderson Chamber of Commerce also offers entrepreneurs opportunities in networking, marketing, business development programs, ribbon cutting ceremonies, and career openings. The chamber has 7 members serving on the executive board and 16 others on the

board of directors. I am thankful for their leadership and for the great things they are doing for businesses in Southern Nevada.

For the past 70 years, the Henderson Chamber of Commerce has demonstrated absolute dedication to the great State of Nevada and to the Henderson business community. Without the hard work of those that have served this chamber, the city of Henderson would not have demonstrated the excellent growth that we see today. I ask my colleagues to join me in honoring the Henderson Chamber of Commerce on its 70th anniversary and in thanking it for all it does to press on and find ways to make the Nevada business community the best it can be. •

CONGRATULATING MARIA SHEEHAN

- Mr. HELLER. Mr. President, today I wish to congratulate Maria Sheehan on her retirement after serving as president of Truckee Meadows Community College, TMCC, for 7 years. It gives me great pleasure to recognize her years of hard work and commitment to making this institution the best it can be.

Ms. Sheehan began working at TMCC in 2008 and took over the top leadership position at the community college that same year in July in the midst of a tumultuous economic downturn. Her leadership at the institution brought stability, creating a reliable administration and increased opportunity for students. During her career, Ms. Sheehan contributed greatly to the growth of TMCC, adding new buildings to the facility, including the Health Science Center at the Redfield Campus. She led the institution as it opened its Veterans Resource Center, an incredible resource for veterans wanting to go back to school after their service. She also spearheaded the complete renovation of the college's Applied Technology Center, providing students with the technical training and education needed to help grow Nevada's skilled workforce. In addition, student success rates doubled throughout her tenure. No words can adequately thank her for her great contribution to Nevada's students. Her positive legacy will continue on for years to come.

As the husband of a teacher, I understand the important role academic institutions play in enriching the lives of Nevadans. Ensuring students throughout the Silver State are prepared to compete in the 21st century is critical for the future of our country. The State of Nevada is fortunate to be home to educators like Ms. Sheehan.

I ask my colleagues and all Nevadans to join me in thanking Ms. Sheehan for her dedication to enriching the lives of Nevada's students and in congratulating her on her retirement. She exemplifies the highest standards of leadership and service and should be proud of her long and meaningful career. I

wish her well in all of her future endeavors and in her pursuit of volunteering in Central America.●
