IN HONOR OF REVEREND
MICHELLE THOMAS AND HER
WORK ON THE LOUDOUN FREE-
DOM CENTER

HON. BARBARA COMSTOCK

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 24, 2016

Mrs. COMSTOCK. Mr. Speaker, today, February 24, 2016, a very special ceremony took place at which the brave Foot Soldiers who participated in the civil rights marches from Selma to Montgomery half a century ago were honored with the Congressional Gold Medal. Among the witnesses to this ceremony were a group of my constituents from the Lansdowne community of Loudoun County who are taking affirmative steps to build a new church and multi-purpose community center on 4.4 acres of land that includes an unmarked cemetery in which more than 40 slaves who lived and worked on the former Belmont Plantation are buried.

To honor those slaves, Reverend Michelle Thomas, senior pastor at Holy and Whole Life Changing Ministries International, has joined with other Loudoun County residents to form The Loudoun Freedom Center, a non-profit that will use science and technology to explore the cultural history of Loudoun, including African-American slaves who helped build plantations in the area.

Among the projects planned for The Loudoun Freedom Center are: A visitors' center that will tell the story of the African-American

communities of Loudoun County; Belmont and Coton (Lansdowne) African burial grounds that will preserve, protect and restore the sacred burial grounds on the former Belmont and Coton plantations; a Loudoun-specific genome project; a virtual DNA extraction laboratory; a research library and genealogy hub; and the Loudoun Freedom Chapel, a place to reflect and meditate.

Just as it was divine inspiration that caused so many faithful Americans of different races and backgrounds to join together in unity and in hope at the Edmund Pettus Bridge last year, so too, it is divine inspiration for this diverse group of citizens in Loudoun County to join together in unity and in hope on the site of an unmarked slave cemetery on Belmont Ridge Road.

Reverend Thomas has said of the ambitious project that it is a crusade to reclaim the property under a banner of unity. "No matter what your race, your color, your creed . . . we all want the same things. We all want to be honored. We all want to have hope for the future."

I pray that they will be successful in their endeavors and that they will inspire the residents of Loudoun County and my Congressional District for years to come.

H.R. 3442 AND H.R. 2017

HON. SUZANNE BONAMICI

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 24, 2016

Ms. BONAMICI. Mr. Speaker, I was unable to be in Washington, D.C. on the afternoon on February 11th and on February 12th because I was attending a memorial service and I missed votes in the House. If I had been present, I would have opposed final passage of H.R. 3442, the Debt Management and Fiscal Responsibility Act, and H.R. 2017, the Common Sense Nutrition Disclosure Act.

The Debt Management and Fiscal Responsibility Act may sound like a common-sense bill, but it is a misguided effort that creates duplicative burdens and reporting requirements on the executive branch. The bill would require the Secretary of the Treasury to appear before Congress when the country nears the statutory debt limit and provide a written report on the Treasury's debt-reduction proposals. The Administration, however, already provides Congress with an outline of its debt-reduction proposals in the President's annual budget. The President presented his final budget—which includes numerous debt-reduction proposals—to Congress just two days ago, but House leaders denied the opportunity for the director of the Office of Management and Budget to testify about these proposals. Instead, we are considering a bill that would create more requirements for the Administration by making them duplicate efforts they already undertake. For those reasons, I would have voted against H.R. 3442.

I would have also opposed H.R. 2017, the Common Sense Nutrition Disclosure Act. This bill would have allowed certain restaurants and food retailers to limit the nutritional information they provide to consumers. The nutrition disclosure requirements this bill seeks to roll back became law as part of the Affordable Care Act. Preparing to comply with those requirements has been a substantial undertaking

for many retailers, but Congress has already delayed implementation of this rule as part of the FY2016 omnibus and given retailers an additional year before the rule would go into effect. Making nutrition information available empowers consumers to make healthy and nutritious choices, and this bill would have further undermined that effort. For that reason, I would have voted against H.R. 2017.

HONORING 360 PSG, INC. FOR RECEIVING THE TECHNOLOGY AWARD FROM THE AMHERST CHAMBER OF COMMERCE

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 24, 2016

Mr. HIGGINS. Mr. Speaker, today I rise to recognize and honor 360 PSG, Inc. for receiving the Technology Award from the Amherst Chamber of Commerce.

Founded in 2005 by 360 PSG partners Joel Colombo, Matthew Whelan, and Ben Shepard after their previous employer closed its doors. With no capital and grueling 20 hour work days, by the end of the first year they had built three websites to start the company.

360 PSG hired its first employees in 2006. Over the next two years, the company continued to hire, launched over 150 new websites, and developed automated tools and platforms to help small business owners take full advantage of internet marketing. In the following two years another 300 websites. By 2011 the staff had grown to almost 20 full-time members.

The company focuses its business on two flagship products that have been programmed and developed in-house, Fission CMS and 360 CMS. With over \$2.5 million dollars of operating capital invested, these innovative products provide website management tools with modern design elements to support the small business community across the country.

Having come a long way from their humble beginnings, 360 PSG, Inc. serves over 1,000 customers from nearly every state and Canada. Their solid core values and a dedication to treating clients like partners allows them to develop strong, lasting relationships with high retention, remain profitable every year in business, and continue regional employment growth. 360 PSG's internal divisions now include all aspects of digital and internet marketing.

Employing 30 full time team members specialized in their respective fields of web design, software engineering, social media advertising, search optimization and marketing, and service/support departments, 360 PSG continues to evolve as a single-stop hub of services supporting our region by bringing in national revenue, creating full-time technology jobs.

I ask that my colleagues join me in congratulating 360 PSG, Inc. on receiving the Technology Award from the Amherst Chamber of Commerce, and wish them the best as they continue to provide innovative services to small businesses and contribute to Western New York's revitalization.

CONGRATULATING 100 YEAR ANNIVERSARY OF ROSECRENCE HEALTH NETWORK

HON. ADAM KINZINGER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 24, 2016

Mr. KINZINGER of Illinois. Mr. Speaker, I rise today in celebration of the Rosecrance Health Network as they celebrate 100 years of serving children, adolescents, adults, and families in Northern Illinois and beyond.

In 1916, Dr. James Rosecrance kept the memory of his late wife, Franny, alive by creating the Rosecrance Memorial Home for Children at the couple's homestead in New Milford, Illinois. Incorporated by the state of Illinois as a home for children on August 11, 1916, the staff continued to care for needy children from New Milford and surrounding communities before expanding and relocating to Rockford, Illinois, in 1953.

Continually adapting to the changing needs of the community, in 1982, Rosecrance transformed into an innovative and groundbreaking chemical dependency treatment center for teens struggling with drug and alcohol addiction and abuse. In 1992, this mission expanded even further as Rosecrance began treating adults with substance abuse disorders. Today, their Harrison Campus in Rockford offers a number of substance abuse services including outpatient programs and maintains specialized units for young adults, veterans, firefighters, and paramedics.

In 2011, Rosecrance merged with the Janet Wattles Center, a leading mental health service provider, to truly integrate substance abuse and mental health services and better serve patients at their many locations throughout Illinois and Wisconsin. Today, Rosecrance operates more than 40 locations and serves more than 22,000 people annually.

Mr. Speaker, on behalf of the Sixteenth Congressional District, I would like to sincerely thank the hardworking men and women who have dedicated themselves to providing quality substance abuse and mental health care services. Without question, our communities and families are healthier and stronger thanks to the service and care provided by Rosecrance throughout their 100 year history.
