CHALLENGES WITHIN THE
POLITICAL PROCESS**HON. PETE OLSON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 15, 2016

Mr. OLSON. Mr. Speaker, I am privileged to interact with some of the brightest students in the 22nd Congressional District who serve on my Congressional Youth Advisory Council. I have gained much by listening to the high school students who are the future of this great nation. They provide important insight from across the political spectrum that sheds a light on the concerns of our younger constituents. Giving voice to their priorities will hopefully instill a better sense of the importance of being an active participant in the political process. Many of the students have written short essays on a variety of topics and I am pleased to share them with my House colleagues.

Arjun Luthra attends Clear Springs High School in League City, Texas. The essay topic is: Challenges within the political process.

Within the US political system, there is an iron triangle which defines the spheres of influence and relationship between the United States Congress, the bureaucracy and the interest groups. Along with these groups, the executive branch influences the appointments of justices and bureaucratic officials. Concerns regarding public policy are placed on the shoulders of numerous institutions. What makes the political process so challenging is to ensure there is reconciliation of the political interests of these numerous institutions like Congress, which represents individual districts and states, and the President, which represents the overall nation.

The President, Office of Management and Budget, the Congressional Budget Office, agencies and interest groups are all involved in the budgeting process. The President bears responsibility of presenting the Budget to Congress while the Congressional Budget Office advises Congress of potential consequences of budget decisions. Within the process, the agencies provide projection of budgetary needs. The complexity of the process and shared roles among the institution often require adaptation or reconciliation. For example, in 1973, President Nixon refused to disburse appropriated funds of Congress. This led to the Budget Impoundment Act which transferred power of President to Congress. This particular historical example not only demonstrates a check and balance system, but also exemplifies the challenges in the political process.

In addition to budget, legislation becomes difficult to enact either due to political gridlock due to divided government or party polarization. This gridlock has led to a re-

stricted number of bills that pass through the congressional committees. Only 4 percent of bills introduced to Congress become law and only about 6 percent of bills reach floor debate. Furthermore, discussion of bill is restricted by the closed rule in the House, which places time limit for debate and restricts amendments. While in the Senate, senators can request for a filibuster, which extends time of debate. This allows members of the Senate to push their interests forward and often prevent discussion of other legislation proposed.

In essence, the political process is challenging especially in creating the political agenda and reaching specific goals set by the numerous governmental institutions. Today, hot topics in the political agenda include gun control, education and immigration policies. Although pushing for funds and legislation that yields long-term benefits for the constituents is challenging, the political process requires purposeful rather than reckless action that is advantageous to the United States. The political process ensures recognition of the Constitution as a governing document and also ensures a check on the abuse of political power.

IN HONOR OF THE TUSKEGEE AIRMEN FOUNDATION 75TH ANNIVERSARY

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 15, 2016

Mr. ROGERS of Alabama. Mr. Speaker, I ask for the House's attention to recognize the

75th Anniversary of the activation of the U.S. Army Air Corps 99th Pursuit Squadron. The first black combat aviation unit comprised of pilots and support personnel trained at Tuskegee Army Air Field.

Tuskegee Airman Foundation is a national non-profit organization whose mission is to continue to build on the successes of the past, highlight the role models of today and develop the workforce of tomorrow.

In 1940, the military selected Tuskegee Institute to train pilots because of its commitment to aeronautical training; its facilities, engineering and technical instructors as well as a suitable climate for year-round flying.

In May of 1940, the first Civilian Pilot Training Program students completed their training. "The Tuskegee Experience" later grew to become a center for African-American aviation during World War II.

These brave airmen overcame segregation and prejudice to become one of the most respected fighter groups of WWII paving the way for full integration of the U.S. military. These men and women of the Tuskegee Airmen exemplify the State of Alabama's priority of Public Service Excellence.

This commemoration of their legacy comes directly from the efforts and determination of over 16,000 courageous men and women and recognizes the fortitude of these individuals to stand strong in the face of adversity.

Their accomplishments gave way to the continuation on a grand scale through the introduction of American youth to the world of aviation, technology, engineering and math through local and national programs and activities.

Mr. Speaker, please join me in recognizing today, March 22, 2016 as Tuskegee Airmen Foundation Day in honor of the Tuskegee Airmen Foundation 75th Anniversary.

Bushra Hamid attends Manvel High School in Manvel, Texas. The essay topic is: Select an important event that has occurred in the past year and explain how that event has changed/shaped our country.

Religion, rights, refuge—this past year has shaped our country like no other. From Pope Francis's historic visit to the United States, to the Supreme Court's new ruling on marriage equality, 2015 has marked, no doubt, a memorable year that has been etched in history. And yet, one of the most unfortunate
