

NATIONAL ACADEMY OF FUTURE
SCIENTISTS AND TECHNOLOGISTS—MARIA BENNETT

HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. OLSON. Mr. Speaker, I rise today to congratulate Maria Bennett from Katy, TX for being accepted into the National Academy of Future Scientists and Technologists to represent the state of Texas at the Congress of Future Science and Technology leaders.

Maria attends Cinco Ranch High School and is one of 13 high school honor students selected from the Twenty-Second Congressional District of Texas. These students were selected as Texas delegates at the Congress of Future Science and Technology Leaders. This program was designed for high school students to be recognized for their hard work in school, as well as to support their aspirations of working in a science or technology field. The National Academy was founded by Richard Rossi and Dr. Robert Darling; Mr. Rossi currently serves as president. The Congress is being held at the Tsongas Center at the University of Massachusetts, Lowell from June 29th through July 1st. Maria was selected by a group of educators to be a delegate for the Congress thanks to her dedication to her academic success and goals of pursuing science or technology. We are proud of Maria and all of her hard work, and know she will make Katy proud.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to Maria for being accepted into the National Academy of Future Scientists and Technologists. Keep up the great work.

CELEBRATING THE 150TH ANNI-
VERSARY OF GREEN HILL RE-
TIREMENT COMMUNITY

HON. RODNEY P. FRELINGHUYSEN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. FRELINGHUYSEN. Mr. Speaker, I rise today in celebration of the 150th Anniversary of Green Hill Retirement Community located in West Orange, Essex County, New Jersey.

Green Hill Retirement Community is devoted to providing personal care to older Americans of lifestyles ranging from all levels of need. Green Hill continues to preserve the vision of its founders set 150 years ago by working to adapt to the changing needs of their community.

Established in 1866, Green Hill is a non-profit facility dedicated to providing compassionate care to seniors and their families. Originally founded by the Society for the Relief of Respectable Aged Women in 1866, following the end of the Civil War with just 13 residences, Green Hill currently continues to expand and innovate new ways of living such as the launch of their Green House Homes development in 2011. Though the world has changed greatly since 1866, the need for selfless personal care continues to grow.

Additionally, Green Hill provides families of elderly loved ones with all of the necessary re-

sources crucial in the transition to a senior living community. Green Hill provides the tools and services required to evaluate the level of need for each prospective resident, determine what financial resources are available to them, and explore their different lifestyle options at Green Hill. Green Hill understands that transitioning to a senior living community can be stressful for both the prospective resident and their family; therefore Green Hill is dedicated to all efforts helping to ease the process.

In addition to the quality care that Green Hill provides to seniors on both ends of the need spectrum, including those independent and "on the go" as well as those who require full-time assistance, Green Hill also offers an immense selection of recreational, educational, and social activities. These programs increase the comfort of living in the convenient metropolitan location of Green Hill.

Mr. Speaker, please join me in thanking the members and supporters of the Green Hill Retirement Community of West Orange, New Jersey for all of their service to the community, and in congratulating them on their 150th Anniversary.

OUR UNCONSCIONABLE NATIONAL
DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took office, the national debt was \$10,626,877,048,913.08.

Today, it is \$19,203,643,099,493.25. We've added \$8,576,766,050,550.17 to our debt in 6 years. This is over \$7.5 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

TRIBUTE TO COLTON
CLINGENPEEL

HON. DAVID YOUNG

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. YOUNG of Iowa. Mr. Speaker, I rise today to recognize and congratulate Colton Clingenpeel of Thomas Jefferson High School in Council Bluffs, Iowa for winning the Class 3A, 152-pound bracket at the Iowa High School Athletic Association State Wrestling tournament on February 20, 2016.

Iowa has a long and proud history of strong wrestling programs in our state, producing college and Olympic champions for years. Winning a state championship is the culmination of years of hard work and commitment, not only on the part of Colton, but also his parents, his family and coaches.

Mr. Speaker, the example set by Colton demonstrates the rewards of hard work, dedication, and perseverance. I am honored to represent Colton and his family in the United States Congress. I know all of my colleagues in the United States House of Representatives will join me in congratulating Colton on com-

peting in this rigorous competition and wishing him continued success in his education and high school wrestling career.

PERSONAL EXPLANATION

HON. TODD C. YOUNG

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. YOUNG of Indiana. Mr. Speaker, on Monday, April 18, 2016, I was unable to be present for recorded votes. Had I been present, I would have voted: "Yes" on roll call vote No. 153, and "Yes" on roll call vote No. 154.

TRIBUTE TO DR. ROBERT A.
COPELAND, JR.

HON. JAMES E. CLYBURN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. CLYBURN. Mr. Speaker, I rise today in remembrance of Dr. Robert A. Copeland, Jr. a leading American ophthalmologist who helped the profession deepen its understanding of disparities and broaden its international reach. Dr. Copeland was the founding chairman of the Department of Ophthalmology at the Howard University College of Medicine, the position he held at the time of his untimely passing on the evening of Monday, April 11, 2016. He is survived by his wife Candie, whom he married May 24, 2008, and children Kennedie, Robert III, and Lucas.

Dr. Copeland was widely admired as an advocate for the prevention of eye disease, a mentor to countless students, and an expert and attentive physician. His advocacy reached Capitol Hill, where I had the pleasure of working with him on patient issues. Dr. Copeland was scheduled to come to my office for a meeting in conjunction with the American Academy of Ophthalmology on April 14, the week of his passing.

Robert A. Copeland, Jr., was born on December 13, 1955, in Philadelphia, Pennsylvania. His interest in the condition of the eye arose during his first week as a Fisk University undergraduate in 1973. Copeland was injured playing football and had to be treated for blunt trauma to the right eye at Meharry Medical College. After completing his studies at Fisk, Copeland earned a medical degree in 1981 from Temple University School of Medicine. He subsequently completed an internal medicine residency at the Robert Wood Johnson Medical School at the University of Medicine and Dentistry of New Jersey in 1982, an ophthalmology residency at Howard University Hospital in 1985, an external disease/cornea fellowship at Wayne State University School of Medicine in 1986, and a cornea, external disease, and uveitis fellowship at the University of California, San Francisco in 1989.

Dr. Copeland contributed more than three decades of service to Howard University. In 1982, he arrived at Howard University Hospital as a young ophthalmology resident. Four years later, he joined the Howard University Department of Surgery, Division of Ophthalmology, as an instructor. He was elevated to

assistant professor in 1988 and to full professor in 2010. He served as interim chief of the division from 1993 until his campaign to make ophthalmology a stand-alone department was successful in 2000. He was named chair in the document ratifying creation of the Department of Ophthalmology by the Howard University Board of Trustees.

Dr. Copeland wrote multiple papers on corneal and external diseases, uveitis, and other diseases of the eye. His research focused on conditions affecting the eye, as well as the socioeconomic and gender disparities in cataract surgery, including factors such as insurance coverage, transportation, and other barriers to access.

In 2012, in conjunction with a Duke University professor, Dr. Copeland published *Copeland and Afshari's Principles and Practice of Cornea*, a definitive textbook on the cornea. The two-volume work is over 1,500 pages long, includes 119 chapters, and weighs over 14 pounds. Dr. Copeland also traveled throughout the world to perform humanitarian services for underserved populations. He served the people of Haiti, Saint Lucia, Ghana, Egypt, Ethiopia, Chile, Liberia, Nigeria, and India.

Over the years, Dr. Copeland's work drew numerous awards and accolades. He was frequently honored by the American Academy of Ophthalmology, garnering the Distinguished Service Award, Achievement Award, Council of Appreciation Award, Surgery by Surgeons Award, and the Secretariat Award. He was frequently listed as a "top doctor" in major publications. In 2008, Dr. Copeland received the Professional Service Award from the Prevention of Blindness Society of Metropolitan Washington, and in 2013, he garnered an Alpha Omega Alpha Honor Medical Society nomination. At Howard University, Dr. Copeland was honored at the Ninth Annual Spirituality and Medicine Seminar in 2005—he was a member of Washington's historic Shiloh Baptist Church, where he was a deacon. Howard also honored Dr. Copeland with a Citation of Achievement Award in 2008.

Mr. Speaker, I ask you and my colleagues to join me in remembering this barrier-breaking physician. Dr. Copeland was a leader in ophthalmology who used his expertise to help the underserved. His wisdom and compassion will be sorely missed, but his contributions will live on through all those who learned from him.

**NATIONAL ACADEMY OF FUTURE
SCIENTISTS AND TECHNOLOGISTS—ARNYA ARORA**

HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. OLSON. Mr. Speaker, I rise today to congratulate Arnya Arora from Pearland, TX for being accepted into the National Academy of Future Scientists and Technologists to represent the state of Texas at the Congress of Future Science and Technology leaders.

Arnya attends Manvel High School and is one of 13 high school honor students selected from the Twenty-Second Congressional District of Texas. These students were selected as Texas delegates at the Congress of Future

Science and Technology Leaders. This program was designed for high school students to be recognized for their hard work in school, as well as to support their aspirations of working in a science or technology field. The National Academy was founded by Richard Rossi and Dr. Robert Darling; Mr. Rossi currently serves as president. The Congress is being held at the Tsongas Center at the University of Massachusetts, Lowell from June 29th through July 1st. Arnya was selected by a group of educators to be a delegate for the Congress thanks to his dedication to his academic success and goals of pursuing science or technology. We are proud of Arnya and all of his hard work, and know he will make Pearland proud.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to Arnya for being accepted into the National Academy of Future Scientists and Technologists. Keep up the great work.

**CELEBRATING THE 275TH ANNI-
VERSARY OF THE CITY OF
BETHLEHEM**

HON. CHARLES W. DENT

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. DENT. Mr. Speaker, in 1741, 275 years ago, a small group of Moravian settlers founded a community along the banks of the Monocacy Creek in an area about 60 miles north of Philadelphia.

In recognition of their faith—and in the hope that they were establishing a community that would stand the test of time—they named their settlement Bethlehem.

These Moravian settlers chose an excellent site for their settlement. Bethlehem quickly grew to become an important hub for commerce, industry and learning. It remains so to this day, and continues to evolve with the times while still retaining strong ties to its heritage and founders.

Bethlehem also remains a rich melting pot and serves as a shining example for other cities. Many of its citizens share a connection to the former Bethlehem Steel plant, which was once the number two steel producer in the United States. While time and circumstances resulted in Bethlehem Steel's closure, the people of Bethlehem have proven themselves to be as resilient and strong as the steel they forged. The City has continued to prosper, and it consistently appears on lists of the best places to live in the country.

Now with a population over 75,000, a diversified industrial base, and a unique blend of culture and commerce, Bethlehem is celebrating its 275th Anniversary.

Mr. Speaker, it is an honor for me to serve and represent the people of Bethlehem, and I offer them my sincerest congratulations on their numerous achievements over the course of their city's long and storied past. May their city long continue to grow and to prosper.

RECOGNIZING TRENT HARMON,
15TH AND FINAL WINNER OF
"AMERICAN IDOL"

HON. TRENT KELLY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. KELLY of Mississippi. Mr. Speaker, April 7, 2016, was an exciting night for Mississippians, as we were represented by gifted vocalists, Trent Harmon, of Amory, and La'Porsha Renae, of McComb, the final two contestants during the farewell season of "American Idol." While Trent was ultimately victorious, he and La'Porsha have bright futures ahead of them and made Mississippi proud.

Born and raised in the First District of Mississippi, I was inspired by Trent's faith in God, hard work ethic, and humility. During the process, Trent was diagnosed with mononucleosis and was given the option to quit the show. Thankfully, Trent's hard work and determination allowed him to compete and overcome the illness.

Throughout the season, Trent was proud of his state and his state was proud of him. This was on display during the hometown parade and concert. Thousands of fans flocked to the parade in downtown Amory wearing blue and white "Team Trent" shirts, businesses had "Vote for Trent" signs in their windows, and fans crowded Amory High School to watch Trent perform. This is what is special about Mississippi. People are proud of where they come from and are happy to see each other succeed.

Most importantly, Trent had the love and support of his family. He discussed working on his family farm and restaurant and the need to leave in order to find success in the music industry. Even though he had to leave Amory, his family, community, and state continued to support his dream. I congratulate Trent on his success and wish him the best in his future career.

ESSAY BY JILLIAN SABOE

HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2016

Mr. OLSON. Mr. Speaker, I am privileged to interact with some of the brightest students in the 22nd Congressional District who serve on my Congressional Youth Advisory Council. I have gained much by listening to the high school students who are the future of this great nation. They provide important insight from across the political spectrum that sheds a light on the concerns of our younger constituents. Giving voice to their priorities will hopefully instill a better sense of the importance of being an active participant in the political process. Many of the students have written short essays on a variety of topics and I am pleased to share them with my House colleagues.

Jillian Saboe attends Pearland High School in Pearland, Texas. The essay topic is: What makes the political process in Congress so challenging?

In recent decades, many political scientists as well as ordinary people of the
