

merger consolidation activity as a series of below-threshold consolidations. FERC has already told us that it has the tools to deal with efforts to evade review through such schemes if it finds out that they are occurring.

However, the clear problem was, which FERC acknowledged, that the bill, as introduced, would leave the Commission with no standardized way to acquire information to even know that these below-threshold transactions were actually occurring. I think we can all agree that FERC should not have to rely on trade publications or word of mouth to know that merger consolidation activity is occurring involving regulated entities.

The easiest way to address this problem is by requiring regulated entities engaging in merger or consolidation activity to simply have to notify FERC that a transaction is occurring, and that is exactly what the committee did when it adopted by voice vote an amendment by Subcommittee Ranking Member BOBBY RUSH.

The bill, as reported by the Energy and Commerce Committee, requires FERC to begin a rulemaking process to develop a short, simple notification process for transactions between \$1 million and \$10 million. The bill also includes statutory direction to FERC to minimize the notification burden on industry to the maximum extent possible.

What we envisioned is a standard form of a page or less, able to be completed online, that simply informs FERC that a transaction is occurring or has recently occurred, who is involved, what the appropriate amount of that transaction is, and a brief description of the transaction. The bill we are considering now also adds language requested by industry, supported by both the chairman and ranking member of the committee, which provides further certainty by setting a reporting deadline of not later than 30 days from the consummation of a reportable transaction.

I commend the gentleman from Illinois and the gentleman from Kansas, along with Chairman UPTON, Chairman WHITFIELD, and Ranking Member PALONE, for coming together and addressing this issue. It is a sensible piece of legislation that reduces the burden not only on industry, Mr. Speaker, but also on the government, while ensuring the public good is protected.

I urge passage of the legislation.

I yield back the balance of my time.

Mr. WHITFIELD. Mr. Speaker, as the gentleman from Massachusetts made reference, this bill will reduce regulatory burdens, bring important parity to the statute, while also protecting ratepayers by providing important notice requirements. I would urge its passage.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. WHITFIELD) that the House suspend the

rules and pass the bill, H.R. 4427, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

REINSTATING AND EXTENDING DEADLINE FOR CONSTRUCTION OF HYDROELECTRIC PROJECT INVOLVING CLARK CANYON DAM

Mr. WHITFIELD. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2080) to reinstate and extend the deadline for commencement of construction of a hydroelectric project involving Clark Canyon Dam.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2080

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXTENSION OF TIME FOR A FEDERAL ENERGY REGULATORY COMMISSION PROJECT INVOLVING CLARK CANYON DAM.

Notwithstanding the time period described in section 13 of the Federal Power Act (16 U.S.C. 806) that would otherwise apply to the Federal Energy Regulatory Commission project numbered 12429, the Federal Energy Regulatory Commission (referred to in this section as the "Commission") shall, at the request of the licensee for the project, and after reasonable notice and in accordance with the procedures of the Commission under that section, reinstate the license and extend the time period during which the licensee is required to commence construction of project works for the 3-year period beginning on the date of enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. WHITFIELD) and the gentleman from Massachusetts (Mr. KENNEDY) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. WHITFIELD. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and to insert extraneous material in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. WHITFIELD. Mr. Speaker, I yield 5 minutes to the gentleman from Montana (Mr. ZINKE), who is the author of this legislation.

□ 1530

Mr. ZINKE. Mr. Speaker, I rise today in firm support of H.R. 2080, which reinstates and extends the deadline for construction of the Clark Canyon Dam hydroelectric project.

The dam is located outside of Dillon, Montana, and will provide critical electricity to both Montana and Idaho. That is why I am proud to have the entire Idaho delegation with me and the entirety of the Montana delegation in support of this bill.

The issue is the red tape. Despite the importance of the project, the red tape with the U.S. Fish and Wildlife Service has created an impassable deadlock in it that won't allow for construction of it. Even though we all recognize that hydroelectric power is clean and it is appropriate and the project is enormously important to Montana and Idaho, the bureaucratic red tape has just prevented it from going forward.

This is why we are here. Congress must act, and Congress will act. I am sure my colleagues on the other side of the aisle will agree that this is a worthy project for Congress to use our authority and to introduce the legislation to authorize such projects and independently move ahead.

This is why I urge all my colleagues to support H.R. 2080.

Mr. KENNEDY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 2080, a bill sponsored and led by the gentleman from Montana (Mr. ZINKE) to reinstate and extend the deadline for commencement of construction on the hydroelectric project involving Clark Canyon Dam.

Mr. Speaker, on August 26, 2009, FERC licensed the Clark Canyon Dam project at the Bureau of Reclamation's Clark Canyon Dam on the Beaverhead River in Beaverhead County, Montana.

Section 13 of the Federal Power Act requires licensees to commence construction of the hydroelectric project within a time fixed by the license, no more than 2 years from its being issued. It also authorizes FERC to issue one extension of that deadline for no more than 2 years.

In March of 2015, FERC terminated the license for the Clark Canyon Dam hydroelectric project after the licensee did not commence construction by the already extended deadline of August 2013.

The bill authorizes FERC to reinstate the terminated license for the Clark Canyon Dam hydroelectric project to extend for 6 years the date by which the licensee is required to commence construction. FERC has no objections to this legislation, and the Committee on Energy and Commerce reported the bill by voice vote without dissent.

I hope my colleagues will support passage of H.R. 2080. I commend the gentleman from Montana for all his work in bringing this to the floor.

I yield back the balance of my time.

Mr. WHITFIELD. Mr. Speaker, this is an important piece of legislation to give additional time for the development of Clark Canyon Dam, for which a license has been issued in the past. I urge passage of this legislation.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. WHITFIELD) that the House suspend the rules and pass the bill, H.R. 2080.

The question was taken; and (two-thirds being in the affirmative) the

rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

EXTENDING DEADLINE FOR CONSTRUCTION OF HYDROELECTRIC PROJECT INVOLVING GIBSON DAM

Mr. WHITFIELD. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2081) to extend the deadline for commencement of construction of a hydroelectric project involving the Gibson Dam.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2081

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXTENSION OF TIME FOR FEDERAL ENERGY REGULATORY COMMISSION PROJECT INVOLVING GIBSON DAM.

(a) IN GENERAL.—Notwithstanding the requirements of section 13 of the Federal Power Act (16 U.S.C. 806) that would otherwise apply to the Federal Energy Regulatory Commission project numbered 12478-003, the Federal Energy Regulatory Commission (referred to in this section as the “Commission”) may, at the request of the licensee for the project, and after reasonable notice and in accordance with the procedures of the Commission under that section, extend the time period during which the licensee is required to commence construction of the project for a 6-year period that begins on the date described in subsection (b).

(b) DATE DESCRIBED.—The date described in this subsection is the date of the expiration of the extension of the period required for commencement of construction for the project described in subsection (a) that was issued by the Commission prior to the date of enactment of this Act under section 13 of the Federal Power Act (16 U.S.C. 806).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. WHITFIELD) and the gentleman from Massachusetts (Mr. KENNEDY) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. WHITFIELD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and insert extraneous materials in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. WHITFIELD. Mr. Speaker, I yield 5 minutes to the gentleman from Montana (Mr. ZINKE), the author of this legislation.

Mr. ZINKE. Mr. Speaker, I rise in firm support of H.R. 2081, which reinstates and extends the deadline for construction of the Gibson Dam hydroelectric project.

Similar to the project before, the Gibson Dam—this is situated in Augusta, Montana—is a partnership between the Greenfields Irrigation District of Fairfield, Montana, and Toll-

house Energy of Bellingham, Washington.

The project was officially licensed by FERC in 2014, and a 2-year extension was also granted that year. Unfortunately, delays once again in paperwork and redtape require that Congress act to extend the deadline.

I am fairly confident that my colleagues on the other side will also support this bill, being that the same issue before us is dams provide a clean source of power.

The project has been reviewed multiple times, and it is in the best interests of Montana and our country. The dam itself is important not only to Montana and local farming communities, but it also protects pivotal wildlife in areas around it.

Mr. Speaker, I urge my colleagues to support H.R. 2081.

I reserve the balance of my time.

Mr. KENNEDY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this legislation was reported unanimously out by the Committee on Energy and Commerce. I know of no objections to the bill. I commend Mr. ZINKE for his work on bringing it to the floor.

I yield back the balance of my time.

Mr. WHITFIELD. Mr. Speaker, I urge passage of this legislation.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. WHITFIELD) that the House suspend the rules and pass the bill, H.R. 2081.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. WHITFIELD. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

EXTENDING DEADLINE FOR CONSTRUCTION OF HYDROELECTRIC PROJECT NUMBERED 12642

Mr. WHITFIELD. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3447) to extend the deadline for commencement of construction of a hydroelectric project, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3447

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXTENSION.

(a) IN GENERAL.—Notwithstanding the time period specified in section 13 of the Federal Power Act (16 U.S.C. 806) that would otherwise apply to the Federal Energy Regulatory Commission project numbered 12642, the Commission may, at the request of the licensee for the project, and after reasonable notice, in accordance with the good faith, due diligence, and public interest requirements of that section and the Commission's procedures under that section, extend the

time period during which the licensee is required to commence the construction of the project for up to 3 consecutive 2-year periods from the date of the expiration of the extension originally issued by the Commission.

(b) REINSTATEMENT OF EXPIRED LICENSE.—If the period required for commencement of construction of the project described in subsection (a) has expired prior to the date of the enactment of this Act, the Commission shall reinstate the license effective as of the date of its expiration and the first extension authorized under subsection (a) shall take effect on the date of such expiration.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. WHITFIELD) and the gentleman from Massachusetts (Mr. KENNEDY) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. WHITFIELD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and insert extraneous materials in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. WHITFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to give a strong thanks to the gentlewoman from North Carolina (Ms. FOXX) for her work on this legislation.

This, like the other two pieces of legislation that we have just passed, refers to a hydroelectric project, in North Carolina in this instance.

Like the facts in the other cases, after granting a license to commence construction of this project, FERC issued an order terminating the project license as a result of continued delays by the project applicant and other agencies.

This legislation requires FERC to reinstate the license and extend the start time for construction of the W. Kerr Scott Dam project for 6 years.

Mr. Speaker, I reserve the balance of my time.

Mr. KENNEDY. Mr. Speaker, this legislation was reported unanimously out by the Committee on Energy and Commerce. I know of no objections to the bill.

I yield back the balance of my time.

Mr. WHITFIELD. Mr. Speaker, I urge the passage of this legislation.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. WHITFIELD) that the House suspend the rules and pass the bill, H.R. 3447, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. WHITFIELD. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.
