ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1400

Ms. CLARKE of New York changed her vote from “aye” to “no.”

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

EXTENDING DEADLINE FOR CONSTRUCTION OF HYDROELECTRIC PROJECT INVOLVING GIBSON DAM

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (H.R. 2081) to extend the deadline for commencement of construction of a hydroelectric project involving the Gibson Dam, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. WHITFIELD) that the House suspend the rules and pass the bill.

This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 410, nays 2, not voting 21, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. FLEISCHMANN) (during the vote). There are 2 minutes remaining.

□ 1408

Mr. RANGEL changed his vote from “nay” to “yea.”

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

EXTENDING DEADLINE FOR CONSTRUCTION OF HYDROELECTRIC PROJECT NUMBERED 12642

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (H.R. 3447) to extend the deadline for commencement of construction of a hydroelectric project, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. WHITFIELD) that the House suspend the rules and pass the bill, as amended.

This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 406, nays 3, not voting 24, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1415

Mr. TAKANO changed his vote from “nay” to “yea.”

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. POLIQUIN. Mr. Speaker, on rollcall No. 117, I was unavoidably detained. Had I been present, I would have voted “yes.”

SATISFYING ENERGY NEEDS AND SAVING THE ENVIRONMENT ACT

GENERAL LEAVE

Mr. WHITFIELD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on the bill, H.R. 3797.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 640 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 3797.

The Chair appoints the gentleman from Georgia (Mr. WESTMORELAND) to preside over the Committee of the Whole.

□ 1417

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 3797) to establish the bases by which the Administrator of the Environmental Protection Agency shall issue, implement, and enforce certain emission limitations and allocations for existing electric utility steam generating units that convert coal refuse into energy, with Mr. WESTMORELAND in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Kentucky (Mr. WHITFIELD) and the gentleman from

New Jersey (Mr. PALLONE) each will control 30 minutes.

The Chair recognizes the gentleman from Kentucky.

Mr. WHITFIELD. Mr. Chairman, I yield myself such time as I may consume.

It is not often that Congress has the opportunity to help an industry that creates both jobs and energy while also improving the environment, and it is especially rare when we can do that at no cost to the taxpayer. H.R. 3797, the SENSE Act, accomplishes all this. That is why we are here today, and that is why I urge my colleagues to vote “yes” on this legislation.

Mr. Chairman, I yield 5 minutes the gentleman from Pennsylvania (Mr. ROTHFUS), the author of the legislation.

Mr. ROTHFUS. I thank the chairman for yielding, and I thank him for the support that he and the Energy and Commerce Committee have expressed for H.R. 3797, the Satisfying Energy Needs and Saving the Environment Act, also known as the SENSE Act.

Mr. Chair, the SENSE Act is a vitally important effort that I have championed in various forms for my nearly 3 years in Congress. This bill recognizes the overwhelming success of the endangered coal refuse-to-energy industry in making my district in western Pennsylvania and others across coal country healthier and cleaner places to work and live.

Without the SENSE Act, coal refuse-to-energy facilities will close, and their environmental mediation efforts will end. Contrary to the claims of this legislation's supposedly environmentalist opponents, the SENSE Act is a pro-environment bill.

As many of you know, the coal industry has been an important part of the economy in Pennsylvania for many generations. Historic mining activity unfortunately left behind large piles of coal refuse. These piles consist of lower quality coal mixed with rock and dirt. For a long time, we did not have the technology to use this material, so it accumulated in large piles in cities and towns, close to schools and neighborhoods, and in fields across the countryside. This has led to a number of environmental problems that diminish the quality of life for many people in the surrounding areas. Vegetation and wildlife have been harmed, the air has been polluted, and acid mine drainage has impaired nearby rivers and streams.

I have been to many of these sites and seen firsthand the environmental danger they pose. Coal refuse piles can catch fire, causing dangerous and uncontrolled air pollution. Runoff from these sites can turn rivers orange and leave them devoid of life.

The cost to clean all this up is astronomical. Pennsylvania's environmental regulator estimates that fixing abandoned mine lands could take over \$16 billion, \$2 billion of which would be needed for coal refuse piles alone.
