NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2017

GENERAL LEAVE

Mr. THORNBERRY. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and insert extraneous material on H.R. 4909.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 732 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 4909.

The Chair appoints the gentleman from Idaho (Mr. SIMPSON) to preside over the Committee of the Whole.

□ 1455

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 4909) to authorize appropriations for fiscal year 2017 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for such fiscal year, and for other purposes, with Mr. SIMPSON in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Texas (Mr. THORNBERRY) and the gentleman from Washington (Mr. SMITH) each will control 30 minutes.

The Chair recognizes the gentleman from Texas.

Mr. THORNBERRY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I am honored to bring to the House today H.R. 4909, the National Defense Authorization Act for Fiscal Year 2017.

The House Armed Services Committee reported it favorably 3 weeks ago by a vote of 60-2. The only way a vote like that is possible is that members are willing to work together for the best interests of the country.

I want to start by thanking my partner on this committee, Mr. SMITH, for his work, his insight, and his commitment to work together to try to do the

right thing for our servicemembers and for the good of the Nation.

Now, I am sure that he does not agree with everything in this bill, nor do I. It is the product of difficult choices, of compromise, of input from many members of this body.

But, as a whole, I think this bill is good for the troops, good for the country, and is faithful to the constitutional responsibilities that we have on our shoulders to provide for the military of the United States and defend the country.

I want to thank all the members of the committee as well as the staff. We had a compressed schedule this year. At the same time, the country is facing national security challenges that are growing more complex and more dangerous and we are still dealing with the consequences of defense budget cuts.

Coupled with an ambitious reform agenda, all of those things meant that our job was not easy, but members on both sides of the aisle put in the hours, attended the briefings and hearings, and contributed to this product.

This bill was built from the ground up. We started with about 2,000 legislative provisions that were suggested by members of our committee. We then received many additional requests from members who are not on our committee through testimony, letters, and other forms of communication.

For example, some members of the Small Business Committee all came together with a package of proposals to help small businesses contribute to our defense efforts.

We had subcommittee markups and then a full committee markup that lasted about 16 hours and considered 248 amendments.

Now we have more than 370 amendments that have been filed with the Rules Committee, and many of them will be considered over the next 2 days on this floor.

Mr. Chairman, I think that is the epitome of a regular legislative process and is particularly appropriate for this bill because providing for the common defense is the first job, I believe, of the Federal Government.

I would add that servicemembers here and around the world deserve to know that we in this body are doing our job and that we support them and are actually trying to do our job, inspired by the courage and dedication and selfless sacrifice that they exhibit in doing their jobs.

I want to just highlight two primary thrusts of this bill in addition to fulfilling our constitutional responsibilities. Those thrusts are readiness and reform.

The term "readiness" is often used by the military. It is sometimes not understood by those who are not in the military. Readiness involves the preparation and support required to successfully accomplish what the political leadership asks the military to do.

□ 1500

It means having the right number of people for a mission, each of whom is fully trained, has appropriate equipment, and is able to carry out their mission.

Now, we have got severe readiness problems today in the United States military. We have pilots who are getting less than half the minimum number of training hours they are supposed to get in order to stay proficient in their airplanes. We are cannibalizing some aircraft just to keep other aircraft flying.

We have significant shortages of people in key areas, such as pilots and aircraft mechanics.

I could go on with examples and statistics which point toward, unfortunately, the kind of hollow military that our country has seen in the past. Certainly there is a high level of frustration among many of our servicemembers.

Now, we do not fix all of those problems in this bill, but we start to turn them around. And to truly turn them around, it means not only providing more resources for operations and maintenance and training accounts, it means we have to deal with personnel accounts, and we have to deal with modernization accounts.

This bill authorizes spending at the same level as requested by the President, \$610 billion, when you add it all together.

Now, personally, I would prefer a higher number, but last year we saw military funding used as a hostage to get more domestic funding. In fact, the President vetoed this bill once last year to force more domestic spending, the first time that has ever been done. Once an agreement was reached, he signed the exact same bill into law with the funding adjustments.

I think using the military as a hostage for domestic political leverage is deplorable, but I also want to avoid a repeat of that since President Obama is still in the White House. So we used the exact same number, the exact same top line as requested by the President.

Mr. Chairman, it would also be irresponsible for us to turn away and ignore the severe readiness problems that are coming to the fore, so this bill authorizes funding for several items that the President rejected in the budget proposal that he sent to us.

For example, it restores a full cost-of-living adjustment for our military. It prevents further cuts in the number of people serving. It begins to repair facilities. It adds funds for training and for maintenance, and it makes some progress on replacing outdated weapons systems.

So this bill provides full funding for the base requirements for the full year, as was agreed upon in last year's balanced budget agreement.

It then provides a bridge fund to pay for the overseas deployments for about half of the new fiscal year. That gives the new President, whoever he or she

may be, the opportunity to look at the deployments that President Obama has begun, look at the funding that he has requested, make adjustments however they think it needs to be adjusted, and then come back to Congress with their conclusions.

Mr. Chairman, that is exactly the approach that was used the last time we transitioned between administrations. In June of 2008, this body, under Democratic leadership, did exactly what I have described with a bridge fund to get into 2009. We are following the same approach this year.

Now, this bill also contains major reforms. In fact, there are five major reform packages in it, all of which are the work of bipartisan work on the committee, and consultation with the Department of Defense.

Those areas, just briefly, are:

Acquisition reform to try to ensure that we are getting more value for the money we spend, and that we get modern technology into the hands of the warfighters faster.

Military health care to modernize the system, provide better care, and ensure that the emphasis is where it is supposed to be, and that is military health care for our warfighters.

Commissary reform to put domestic commissaries on a self-sustaining track while maintaining the benefit for our servicemembers, their families, and for retirees.

Organizational reform, including the changes to the 30-year old Goldwater-Nichols law, and replacing the Quadrennial Defense Review, the QDR, with something that is less costly and more useful.

Reform of the Uniform Code of Military Justice, long overdue and modernization spurred by a review that we required in this committee that was prompted by the sexual assault allegations of recent years.

So, Mr. Chairman, there is a lot here. There is a lot of substance, and there is a lot of reform, and it is all focused towards two goals. One is to support the men and women who volunteer to risk their lives to protect us. And secondly, to preserve and protect the national security of the United States of America in a very dangerous world.

I believe this bill deserves the support of all Members.

Mr. Chairman, I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Chairman, I yield myself 5 minutes.

I want to thank the chairman and all the staff members and members of the committee for their excellent work in pulling this bill together.

As always, I think it is a fine example of how the legislative process should work around here, and too often doesn't. We had a bill before committee. We had many, many hearings to discuss the issues around it. Then we had a long markup with amendments offered and debated, and we put together a bill in a bipartisan fashion that I think was done quite well.

I also agree with the chairman that there is a lot of good in this bill. There are a lot of efforts at reforming the way we do procurement and other things in the Department of Defense to try to get the most out of the money we spend.

More than anything, the good in this bill is that it continues to provide for the men and women of our services who are fighting for us and protecting our national security, and I think it does a very comprehensive job of that, and that is an important issue right now. I will also agree with the chairman that we face as complex a threat environment as we have probably faced, gosh, in the history of the country. We have certainly had great national security challenges throughout our history, but now they are coming at us from all directions.

Certainly, we have the asymmetric threat of terrorism from groups like al Qaeda and Daesh and all that goes with that.

We have a newly belligerent Russia that is creating problems in Eastern Europe and elsewhere. We have Iran, which continues to pose challenges to us in the Middle East and also elsewhere; North Korea, that is acting in a very belligerent manner; and China, that is expanding its territory by creating islands in the South China Sea and challenging the territorial integrity of other nations.

All of those things require us to be prepared and to have a robust national security policy. I think this bill does a good job of it.

Now, we are facing a reckoning, coming down the road here, in that all of those national security challenges that I just mentioned are going to be tough to meet under any budget.

One of the things that I would urge us to do is to work more closely with partners throughout the globe, as we have in some instances, to meet our national security challenges, because the sheer cost of them is going to be difficult. But on the whole, I think this bill does a good job of meeting our national security concerns.

There are just two problems that I do want to point out. Number one, we don't really make as many tough choices as we should make in this bill. The chairman has pointed out how this bill prioritizes readiness, and to some degree that is true; but this bill also still has \$11 million less in money for readiness than the President's budget that was proposed because we support a wide range of other programs.

If you look over the course of the next 10 years at all of the programs that we are funding and planning on buying, and then you look at how much money we are likely to have, the two don't add up. We have to start making some difficult choices about what we are going to fund and what we are not going to fund.

Related to that is the second problem, the one the chairman alluded to, and that is the fact that while this

budget sticks to the \$610 billion number that was agreed to in the budget resolution last year, it takes \$18 billion out of the overseas contingency operations fund and puts it into the base budget, which means that 6 months into the fiscal year our troops in Afghanistan and Iraq and elsewhere will not have the money to support those overseas operations unless a supplemental is passed.

Now, the chairman is quite correct: this was done in 2008. But in 2008, we did not have the Budget Control Act. We did not have the complete unwillingness of this Congress to lift the Budget Control Act. I don't see that changing in the next 6 months.

Which brings us to the other issue, and that is the issue of "holding the defense bill hostage for other spending priorities, for domestic spending priorities."

Well, that is one way of looking at it. The other way of looking at it is a budget is a series of choices that you have to make. And if we do spend an additional \$18 billion on defense, over and above what the budget agreement of last year agreed to, then that money has got to come from somewhere.

Either, one, it adds to a \$19 trillion debt that I think most people feel is too high and that we need to eventually get to the point of a balanced budget.

It requires new revenue which, of course, is—you know, I should be struck down by lightning in this Chamber for even mentioning the words "new revenue." That is, apparently, verboten and not going to happen.

However much we may claim to support the men and women who served in our Armed Forces, we are not prepared to raise taxes for what they need to do.

Then you have got the domestic choices, and those domestic choices are not irrelevant. We have a crumbling infrastructure in this country that is way behind, massively unfunded.

We have other priorities. We have the Department of Homeland Security. We have Intel priorities. All of those priorities are shoved backwards if we take an additional \$18 billion for defense.

So we are not holding defense hostage. We are arguing about what our budget priorities should be.

Should we go and take the \$610 billion agreement we had for defense and effectively up it to \$628 billion at the expense of all these other priorities, or shouldn't we? That is what we have to balance.

I will look forward to the debate. There are a lot of interesting amendments coming up. I am not sure at this point how I am going to vote on this bill. I think it is incredibly important. We need to get it done.

But those budget priorities are very real. And if we take an extra \$18 billion for defense, that does shortchange other areas, given our unwillingness to raise revenue to pay for it.

Mr. Chairman, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Chairman, I am pleased to yield 1 minute to the gentleman from California (Mr. MCCARTHY), the distinguished majority leader.

Mr. MCCARTHY. I thank the gentleman for yielding.

Mr. Chairman, I want to take one moment. Very seldom do we see a bill of this significance come to the floor in such a bipartisan manner. That takes leadership, it takes experience, and I want to thank the chairman for that. He knows that I trust his judgment, but more importantly, whenever we are talking about national security, he is the first one that I call. But I am not the only one who calls him: those around the world do as well.

I want to take a moment to thank the ranking member as well. The vote to come out of this committee was 60-2. That shows the leadership on both sides that when America looks at national security, they want Republicans and Democrats alike to work together.

Both of you have shown that leadership, and I want to congratulate you for that, bringing it to the floor in that manner.

Mr. Chairman, it is indisputable that our national security has declined under President Obama's watch. Terrorists are attacking us right here at home. Europe is under siege. And, yet, the President is more focused on closing Guantanamo Bay and releasing detainees than he is on the real threats to American security.

Afghanistan is increasingly unstable, and the Taliban and al Qaeda are gaining ground. Yet, President Obama remains committed to withdrawing our troops while constraining their ability to take the fight to the enemy.

These are just two examples, and I don't need to go through the whole list. Just look at the map of the world, and what do you see?

Allies that have been slighted, enemies that have been appeased, regions that have fallen into conflict and chaos.

The Obama administration is not the direct cause of every problem, but the President's inadequate responses, naive beliefs, and failures of leadership have put American interests at risk and made our country less safe.

Now, House Republicans have always been and remain committed to a strong American military, an active foreign policy, and continued American leadership in the world.

We must counter the terrorist threats forcefully. We must reaffirm and strengthen our strategic alliances, like NATO. We must engage and prevent, not retrench and respond.

This National Defense Authorization Act demonstrates our commitment by prioritizing funding to support more troops, better defenses, and better equipment.

Most importantly, this bill works to improve readiness, and ensures that our men and women are prepared to go into battle.

The President has fought this approach and has said he will veto this bill as it currently stands. That is despite a 2.1 percent pay raise for our troops, better resources for the warfighter, an aggressive stance against Russian expansion, and funding for Israel's missile defense.

□ 1515

This is the height of irresponsibility. With this bill, the House makes it clear that we intend to reinvigorate the Department of Defense, take care of our men and women in uniform, stand with our allies, and make every possible effort to defeat global extremism.

The President should share these goals and sign this bill.

Mr. SMITH of Washington. Mr. Chair, I yield 3 minutes to the gentlewoman from California (Ms. LORETTA SANCHEZ), the ranking member of the Tactical Air and Land Forces Subcommittee.

Ms. LORETTA SANCHEZ of California. Mr. Chairman, I thank Chairman THORNBERRY, Ranking Member SMITH, and all of our staff for tirelessly working on this very incredibly important bill. Also I would like to thank Mr. TURNER. For the past 4 years, he has been the chairman and I have been the ranking member of the Subcommittee for Tactical Air and Land Forces. It has been a pleasure.

The National Defense Authorization Act, of course, is a must-pass bill. We have passed it for the past 53 years, and I am really honored to have been part of it for the past 20.

The NDAA is the annual piece of law that puts the necessary resources and funding to ensure that our servicemembers are fully equipped and trained to defend our country here and abroad. All of our military systems—air, land, water, and space—are authorized by this legislation. It provides new opportunities for the Department of Defense to engage in innovative research and development to ensure that America has the most technologically advanced military. Of course, that also bleeds over into the civilian world with all of our new technologies.

The NDAA makes sure that servicemembers and their families are provided with the necessary support and resources as they sacrifice their lives to defend their country. Just last Friday, I had the opportunity to be in Erie, Pennsylvania, where our son was commissioned as a second lieutenant and officer into the U.S. Army artillery. So I am pretty excited to continue to support our military families because we are one.

This bill also provides provisions to support women in the military—making equipment that actually fits them, for example—and we put in language for parental leave for our servicemembers for up to 14 days.

It increases funding for nuclear non-proliferation, something which I am an adamant supporter of, trying to eliminate nuclear threats for the future, for our grandchildren and their children.

It increases funding for K–12 STEM education because, again, we have to invest in our future, and the future of education is equal to our national security. The legislation also provides funding and resources to counterterrorism, including those threats from ISIL.

On our particular subcommittee, we included some significant oversight legislation. Everybody thinks about passing laws, but the reality is that one of the main things that we have to do as Members of Congress is to oversee what is really happening in programs and with the money of our taxpayers. So we included the F–35 Joint Strike Fighter's software oversight, the F–18 Super Hornet oxygen system, and a multiyear procurement authority for the Army's helicopters.

However, the successful passage of this important legislation is at risk because, first, it doesn't comply with the Republicans' Budget Control Act because it is \$18 billion over the budget caps. Secondly, it includes a number of discriminatory provisions, such as language that would allow government contractors to discriminate against the LGBT community.

There are many things that we need to do to ensure that this bill can be, in a bipartisan way, passed by this House.

Mr. THORNBERRY. Mr. Chairman, I am pleased to yield 2 minutes to the gentleman from Virginia (Mr. FORBES), the chairman of the Subcommittee on Seapower and Projection Forces.

Mr. FORBES. Mr. Chairman, I rise in support of the National Defense Authorization Act for Fiscal Year 2017.

I want to first commend the leadership of Chairman THORNBERRY in bringing this bill to the floor. His leadership has been instrumental in tackling many of the tough issues this committee has had to address.

I am particularly impressed with the chairman's leadership to make sure that this Congress provides the required equipment and readiness that will begin to turn some disconcerting trend lines with our national security.

For example, Navy aviation has only 3 in 10 Navy jet aircraft that are fully mission capable; aircraft carriers are not available in sufficient quantities, and our Nation had a carrier gap of almost 3 months in Central Command last year; Navy ship deployments have increased almost 40 percent, and submarine demand continues to outpace availability, with the Navy projecting they will meet only 42 percent of the combatant commanders' demand, and this is before we reduce another 20 percent of our submarines by the end of the 2020s.

As to the Air Force, our B–1 fleet was pulled back from the Arabian Gulf this year because of engine maintenance issues and replaced with B–52s that are over 50 years old; and in the last 4 years, we have reduced our tactical airlift by 20 percent.

I think everyone would agree that these are disturbing trends. It is time we invest in these capabilities. This

bill goes a long way to reversing this trajectory and authorizes funds to meet the 350-ship Navy that our Nation needs. I believe it is a national security imperative to arrest the decline of our projection forces.

Mr. Chairman, I urge my colleagues to support the National Defense Authorization Act for Fiscal Year 2017.

Mr. SMITH of Washington. Mr. Chairman, I yield 3 minutes to the gentleman from Rhode Island (Mr. LANGEVIN), the ranking member of the Emerging Threats and Capabilities Subcommittee.

Mr. LANGEVIN. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I want to thank Chairman THORNBERRY, Ranking Member SMITH, and my fellow colleagues on the committee this year for many important issues within the committee's jurisdiction which we found in this bill, on which I have been proud to work with my colleagues.

As ranking member of the Emerging Threats and Capabilities Subcommittee, I especially want to thank my subcommittee colleagues, particularly my colleague JOE WILSON, the chairman of the subcommittee. It has been a pleasure to work with him.

I also want to take this opportunity to recognize members of the staff who worked so hard on this bill, without whom we wouldn't be able to move legislation of this magnitude forward.

The legislation, Mr. Chairman, before us today continues to address critical priorities and programs at the strategic, operational, and tactical levels when it comes to emerging threats and capabilities.

In particular, I am pleased with many provisions relating to game-changing technologies, such as language addressing how to properly operationalize directed energy technologies, electromagnetic rail gun mount funding, electronic warfare capabilities, strategy requirements, and a point person within DOD for directed energy systems.

This legislation goes on also to prioritize the readiness of the Cyber Mission Force and fully supports U.S. Cyber Command while elevating this critical entity to its own combatant command. This effort enhances our superiority in the cyber domain, and I am glad the committee recognized the need to take this vital step.

I am also pleased with the approach we took toward enhancing capabilities and extending authorities to defeat nonstate actors like ISIL and al Qaeda.

I am also pleased with the continued support of our Special Operations Forces and their families who are under the responsibility of the subcommittee, and those forces which are always at the pointy tip of the spear.

Although this bill moves the ball forward on policies vital to our national defense, of course, it is far from perfect. We must continue to address funding issues in other areas of concern as we move forward in the process.

In closing, I want to thank all the members of our subcommittee, as well as the members of the full Armed Services Committee, for their support during this markup.

I again commend Chairman THORNBERRY and Ranking Member SMITH for their leadership. I look forward to our continuing to work together to craft a final product with the Senate that provides further support for our men and women in uniform, our military families, and further strengthens our national security.

Mr. THORNBERRY. Mr. Chairman, I am pleased to yield 2 minutes to the gentleman from South Carolina (Mr. WILSON), the chairman of the Subcommittee on Emerging Threats and Capabilities.

Mr. WILSON of South Carolina. Mr. Chairman, I thank the gentleman for his efforts to promote peace through strength.

Mr. Chairman, I am grateful to support H.R. 4909, the National Defense Authorization Act for Fiscal Year 2017, which I believe faithfully sets forth a path to recover and strengthen our military readiness.

As chairman of the Subcommittee on Emerging Threats and Capabilities of the House Armed Services Committee, I am particularly appreciative to oversee some of the most innovative aspects of the Department of Defense.

A few key areas of the subcommittee's contributions to this legislation are providing robust and resilient cyber capabilities and authorities to improve our cyber readiness and ensure resiliency for Department of Defense networks and weapons systems. We support innovative science and technology programs and authorities to meet future challenges. We fully resource and support our Special Operations Forces, who remain at war and globally postured, supporting our national security in the global war on terrorism. We extend vital counterterrorism authorities while improving congressional oversight in this very important area.

Again, I would like to thank Chairman MAC THORNBERRY for his steadfast leadership as well as the subcommittee ranking member, Mr. JIM LANGEVIN of Rhode Island, who has been an energetic partner on these issues with an extraordinary subcommittee staff.

Mr. Chairman, I urge my colleagues to support this bill and vote "yes" on H.R. 4909.

Mr. SMITH of Washington. Mr. Chairman, I yield 3 minutes to the gentlewoman from Guam (Ms. BORDALLO), the ranking member of the Readiness Subcommittee.

Ms. BORDALLO. Mr. Chairman, I commend Chairman THORNBERRY, Ranking Member SMITH, and the committee staff who have worked many, many long nights on the FY17 National Defense Authorization Act. I worked with Mr. SMITH and members on the committee, particularly the Readiness chairman, Mr. ROB WITTMAN, to include a number of provisions that will

improve our military readiness and continue to support the Asia-Pacific rebalance, allowing crucial infrastructure projects to move forward and requiring the Navy to report on land usage on Guam that will have positive impacts for our posture in this region.

The bill provides critical funding to the Long Range Strike Bomber program as well as adds additional funding to keep the fielding of the MQ-4 program on track.

I especially want to thank Ranking Member SMITH for working to get a provision mandating a review of distinguished Asian American and Pacific Islander veterans who may have been unjustly overlooked in the Medal of Honor consideration included in the chairman's mark. It is important that we appropriately recognize the contributions of our brave men and women in uniform.

While I am proud of these and other provisions, this bill is far from perfect. There are, once again, numerous damaging environmental provisions; and, more broadly, I am disappointed that the majority has again created a bill that circumvents budget caps, a maneuver that plays politics with our servicemembers in the field—particularly reckless in this environment.

I look forward to working with my colleagues on both sides of the aisle to address these and other concerns, and I hope common sense will prevail as this process continues.

Mr. THORNBERRY. Mr. Chairman, I am pleased to yield 2 minutes to the gentleman from Ohio (Mr. TURNER), the subcommittee chairman on Tactical Air and Land Forces.

Mr. TURNER. Mr. Chairman, I rise in support of the National Defense Authorization Act for Fiscal Year 2017.

As the chairman has indicated, the President has issued a veto threat on this bill claiming criticism that the bill uses overseas contingency operations funds for base requirements. This is a hypocritical attack by the President because the President, in his own bill, included \$5 billion in overseas contingency operations funding to be used for base requirements as part of the President's budget for 2017.

The reality is that \$5 billion is not enough to address the readiness crisis that is facing our military, and it does not ensure that our troops are ready to deploy and are fully prepared. The military, in fact, submitted \$22 billion in unfunded requirements for fiscal year 2017 alone.

I want to thank Chairman THORNBERRY for his leadership as he begins the process of rebuilding our military and restoring readiness back into the future. As the chairman said, this bill came out of our committee, 60-2. It is the same bill that is going to come to this House floor.

I certainly hope we are not in the situation, as we were last year, where we had Democrats on the committee who actually voted for the bill in committee and then voted against the bill

on the House floor. This is a bill that deserves passage. It deserves the support for our men and women in uniform.

In my subcommittee, the bill authorizes almost \$6 billion in additional funds to address critical unfunded requirements, a benefit provided by the military services.

I want to also thank Chairman THORNBERRY, in this bill, for reversing the President's proposed cuts to our end strength, our numbers of those serving in the Army and the Marine Corps. He has incorporated the POSTURE Act, which was first introduced by Representative CHRIS GIBSON.

The bill also includes funds for the European Reassurance Initiative, which is incredibly important as we move to respond against Russian aggression.

Additionally, this bill calls for continued action to eradicate sexual assault in the military, and I appreciate the chairman's support for those provisions.

The bill provides greater transparency in the military criminal justice system, acknowledges the need for intensive treatment for male victims of sexual assault, and continues to address the critical issue of retaliation.

□ 1530

Before I conclude, I want to thank our subcommittee's ranking member, Ms. LORETTA SANCHEZ, for her support in completing the markup of this bill as well as that of other Members, and I want to thank LORETTA SANCHEZ for her long service on the Armed Services Committee.

I ask everyone to support this bill.

The CHAIR. The Chair would remind Members to refrain from engaging in personalities toward the President.

Mr. SMITH of Washington. Mr. Chairman, I yield 3 minutes to the gentleman from Connecticut (Mr. COURTNEY), the ranking member of the Seapower and Projection Forces Subcommittee.

Mr. COURTNEY. Mr. Chair, I enthusiastically support the seapower portion of the defense bill, which is a strong bipartisan boost to our security on, below, and above the seas.

The Seapower and Projection Forces Subcommittee worked hard this year examining the President's budget as well as the larger strategic maritime context that we are considering these programs in.

We have determined the following, that the demand for our naval fleet is higher than ever and so is the strain on the force. A casual review of the headlines explains why.

China's navy is militarizing the South China Sea, threatening good order and commerce on the world's seaways, completely in violation of international maritime law.

Russia's navy is recapitalizing its fleet, particularly its undersea fleet, and operating at a level not seen since the cold war.

These are just two examples of the up-tempo challenges that the Navy faces every single day. In this strategic context, the seapower portion of our bill builds on the work done by the Navy, the Obama administration, and this Congress to put us on a path to a 308-ship Navy within the next 5 years.

That is good, but it is clear we need to do more to ensure that we have the capability to keep pace with the growing and changing threats around the world. That is why this bill adds three new ships to the seven ships in the President's budget, a third littoral combat ship, funding to complete a third DDG-51 destroyer, and resources to add an additional amphibious ship.

Our bill also has another area of good bipartisan work. It is in the area of our undersea forces. Our bill not only sustains the two-a-year build rate of our advanced Virginia-class submarines, but also includes a measure that I pushed for to continue that build rate through the 2020s to provide the undersea capabilities our military leaders are pleading for.

Our bill also fully funds our Nation's top strategic priority, the Ohio replacement submarine. We also continue our bipartisan work to strengthen the National Sea-Based Deterrence Fund to support this critical program outside of the regular shipbuilding account.

We provide this fund with new authorities to save additional funds during the course of building the Ohio class program—perhaps as much as 10 percent on components like missile tubes—on top of the billions in savings that already existing authorities in the fund were shown to garner by the CRS and the Congressional Budget Office.

The bipartisan seapower mark is a down payment on the additional naval capabilities and capacity that we will need to keep pace with the fast-changing security challenges around the globe. I am confident that it will emerge in the final enactment of the 2017 NDAA.

Mr. THORNBERRY. Mr. Chairman, I yield 2 minutes to the gentleman from Alabama (Mr. ROGERS), the distinguished chairman of the Subcommittee on Strategic Forces.

Mr. ROGERS of Alabama. Mr. Chair, I would like to thank the distinguished chairman of the House Armed Services Committee for his leadership in bringing what I think is a very good NDAA bill to the floor. This is the 55th consecutive NDAA.

This is not an easy bill to manage. We have a critical set of funding challenges as the administration's budget submission for FY 2017 broke the deal negotiated in 2015 to achieve the Bipartisan Budget Act of 2015.

Because of this failure, we in Congress must exercise our constitutional duty to provide for the men and women in uniform and we must provide much-needed oversight of the Department of Defense and the Department of Energy.

This bill includes a number of key provisions that were authored by the

Subcommittee on Strategic Forces that I lead, including:

Consolidating and strengthening the Air Force's organization regarding our nuclear command and control and missile warning systems;

It enhances the authority for the Department of Defense and, also, the Department of Energy to mitigate threats from unmanned aircraft at its most sensitive nuclear facilities;

It prohibits the DOE funding for Russia and for Secretary Kerry's unilateral disarmament initiative concerning retired U.S. nuclear warheads;

It tackles the significant and growing foreign counter space threat that our space systems are suffering by providing the necessary resources to build up our space security and defense capabilities and by ensuring the Department is organized properly and has the authorities it needs to maintain our space advantage long into the future;

It makes clear that replacement of the RD-180 in a reasoned, prudent timeline is the primary goal of the Department of Defense to maintain assured access to space while protecting the taxpayers and ending our reliance on Russian rocket engines;

It requires the Army to do a better job for its soldiers than delaying the procurement of a modern radar until 2028 at the earliest; and

Most significantly to me, in this bill we have recommended to the chairman a significant increase of over \$400 million for the Missile Defense Agency, focusing on R&D, and full funding of the request of our allies in Israel, \$600.7 million, for codevelopment and coproduction of Iron Dome, David's Sling, and Arrow 3.

I want to thank the chairman for his leadership, and I want to thank my good friend and colleague from Tennessee, Mr. JIM COOPER, for his support, counsel, and thoughtfulness. I couldn't ask for a better ranking member.

I urge support of the bill.

Mr. SMITH of Washington. Mr. Chairman, I yield 3 minutes to the gentleman from Tennessee (Mr. COOPER), the ranking member of the Strategic Forces Subcommittee.

Mr. COOPER. Mr. Chair, I thank the gentleman from Washington. I thank also the chairman of the full committee from Texas and my particular friend, the gentleman from Alabama (Mr. ROGERS).

All the members of the subcommittee contributed greatly to the final product. It is not to all of our liking, but we are making progress.

We agree on so many of the fundamental provisions having to do with national security. For example, I am thankful that our safe, secure, and effective nuclear deterrent is fully funded and we are also providing full support for our nuclear nonproliferation efforts as well as providing for nuclear cleanup. Those are all very important efforts.

The bill also provides a very robust missile defense, including not only pro-

tecting the homeland, but also our allies and partners, such as the \$600 million for Israeli missile defense.

The mark fully funds national security space programs and makes some very important adjustments, including ensuring that we adequately support acquisition of satellite communication services.

There are a few provisions in the bill that I strongly oppose, such as restricting dismantlement of obsolete and unneeded nuclear weapons.

Also, I think it was a mistake to mandate a poorly-thought-out, unaffordable, and unrealistic missile defense policy, including plans for a space-based missile deterrent. I also plan to continue to oppose these provisions in conference.

I would like to reiterate my thanks to Chairman ROGERS, my friend from Alabama. It is a pleasure to work with him and our other subcommittee members.

Mr. THORNBERRY. Mr. Chairman, I yield 2 minutes to the gentleman from Virginia (Mr. WITTMAN), the distinguished chairman of the Subcommittee on Readiness.

Mr. WITTMAN. Mr. Chairman, I would like to thank Chairman THORNBERRY, Ranking Member SMITH, and the ranking member on the Readiness Subcommittee, MADELEINE BORDALLO, for all of their efforts.

Chairman THORNBERRY over the last few months has highlighted the significant readiness challenges and budget choices we are facing. The reality is that these decisions we make here will affect the strength of our national security for years to come.

The American people are concerned. And why shouldn't they be? The readiness obstacles that we face force our military leaders to choose between providing adequate training and equipment for troops at home and supporting our men and women who are already fighting on the front lines.

We have heard verified media reports, for instance, that aircraft mechanics have taken drastic measures, even attempting to strip parts from museum pieces, to keep our fighters and bombers flying.

We have heard testimony from each of our service branches about how critical it is for us to address our military readiness shortfalls. What we have heard has been sobering, to say the least.

Today we are called to address these maintenance, sustainment, and readiness issues. That is our constitutional duty. I believe that this bill will move us toward that end goal of restoring full-spectrum readiness.

This bill, for example, prohibits the Department from implementing another round of base realignment and closure in the absence of an accurate end strength assessment and it streamlines the Department of Defense's civilian hiring practices so that critical manpower capability gaps can be filled.

Most importantly, this bill also includes more than \$5 billion in addi-

tional funds for, among other things, ship and aircraft depot maintenance, aviation training and readiness, and long-neglected facility sustainment, restoration, and modernization accounts.

Our military, an overruling force for good, is supported by the finest men and women in the world. They deserve our support in return.

At the same time, I would like to note that these recommendations don't fully alleviate my concerns about our readiness shortfalls. Here in Washington we need to make sure that we fully understand what is at stake and how the choices we make affect those who serve and sacrifice on our behalf.

We have to continue to focus on restoring readiness in the years to come and make sure that we properly man, train, and equip our forces so that they can meet the challenges on the horizon with the confidence and superiority we have come to expect.

I ask the Members of the House to support this National Defense Authorization Act and vote "yes" on H.R. 4909.

Mr. SMITH of Washington. Mr. Chairman, may I inquire as to how much time each side has remaining?

The CHAIR. The gentleman from Washington has 13½ minutes remaining. The gentleman from Texas has 11 minutes remaining.

Mr. SMITH of Washington. Mr. Chairman, I yield 4 minutes to the gentlewoman from California (Mrs. DAVIS), ranking member of the Military Personnel Subcommittee.

Mrs. DAVIS of California. Mr. Chairman, I want to thank Dr. HECK and the committee staff for working in a bipartisan manner to develop this bill and particularly recognize Chairman THORNBERRY and Ranking Member SMITH for their leadership during this process.

The bill includes many provisions that will provide the military services flexibility to recruit and retain members of our Armed Forces and to continue our commitment to taking care of military families.

One provision that we have expands parental leave for military members to 14 days as well as expanding adoption leave for dual military couples to 36 days to be split between them.

It also requires DOD to study flexible maternity and paternity leave sharing for all of our dual military couples.

This bill includes reforms that will put the commissary on a sustainable path while protecting the benefit for our servicemembers, retirees, and their families. It also begins to reform and modernize the military healthcare system.

Although we would all agree it is not perfect, this bill is long needed to start ensuring that our servicemembers, retirees, and their families continue to receive the best health care in the world through efficient and economical means.

Important issues were addressed in this bill. I support many of the reforms

and all of the hard work that went into them. However, I am extremely concerned with how this bill is funded.

I applaud Chairman THORNBERRY'S desire to increase funds for end strength, modernization, and the operations and maintenance accounts. But the \$18 billion required comes from the Overseas Contingency Fund and cuts short resources required for our troops in harm's way.

This will require the next Congress to pass a supplemental before May, and that assumes current operations don't increase over the next year. What programs do we cut midyear to find that level of funding?

This gimmick creates a hollow force. It will require the military services to hedge their bets that the funding to maintain the increased end strength authorized will be available in fiscal year 2018 when sequestration hits.

The world we know is very dangerous in many places, and the pace of combat operations will most likely not diminish in the near future.

In light of these dangers, I do not disagree that the Army may need more soldiers. But the Army has not provided us with the requested number, nor have they told Congress how they would create the appropriate force structure to use these additional soldiers.

Lastly, this NDAA passed out of committee continued to expand on Congress' efforts to increase opportunities for women to serve our Nation by requiring women to register for the Selective Service. This was only possible because the Department of Defense, after several years of intense review, opened the last remaining combat arms positions to women earlier this year.

Unfortunately, the rule for the NDAA strikes the provision without debate. I understand that we are not always going to be in agreement, and that is why we debate and vote issues on the House floor. But to resort to gimmicks to hide debate is unconscionable. This is a national issue that Congress must debate and vote on.

I certainly look forward, Mr. Chair, to continuing to work with the chairman and the rest of the committee to ensure our resource our military services in a responsible manner so that we can face the challenges of today and tomorrow.

Mr. THORNBERRY. Mr. Chairman, I yield 2 minutes to the gentlewoman from Missouri (Mrs. HARTZLER), the chair of the Subcommittee on Oversight and Investigations.

Mrs. HARTZLER. Mr. Chair, I rise today in support of our national defense. There are some stark realities we must face in today's world of increased and emerging threats from around the globe combined with decreased military readiness from arbitrary and reckless cuts to our national defense.

In the face of these challenges, we have a choice: either continue to let our military capabilities wither as our

adversaries grow stronger or we can recognize that ever-changing global landscape and make sure our troops are prepared with the resources and training they need to keep Americans safe against today's threats and tomorrow's.

The latter, Mr. Chair, is what this defense authorization does. From addressing the strike fighter shortfall with 14 additional F-18s that the Navy needs, to providing for maintenance of equipment and facilities so that museum aircraft do not have to be cannibalized for spare parts, to fully funding our troops' pay raise, which they have rightly earned, we have listened to the services and our commanders.

□ 1545

They know what they need to do their jobs, to keep us safe, and to retain their people, and we have acted on their priorities.

This bill also addresses shortfalls in training and provides for the modernization of critical national security programs. It makes sure soldiers are prepared at all of our bases, including at the Army's Maneuver Support Center of Excellence at Fort Leonard Wood, in my district. It ensures aircraft like the B-2 at Whiteman Air Force Base can continue to project power and the spirit of America around the globe.

Mr. Chair, this authorization takes care of our troops, ensures the safety of the American people, and fulfills our constitutional obligation to provide for the common defense.

I commend Chairman THORNBERRY, my House Armed Services colleagues, and the HASC staff for all of their hard work and leadership.

I urge my colleagues to vote "yes" on this responsible authorization.

Mr. SMITH of Washington. Mr. Chair, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Chair, I yield 2 minutes to the distinguished gentleman from Nevada (Mr. HECK), the chairman of the Subcommittee on Military Personnel, who is both a doctor and a general in the Reserves.

Mr. HECK of Nevada. Mr. Chair, I rise in strong support of H.R. 4909, the National Defense Authorization Act of 2017.

This bill contains significant policy and funding initiatives that continue our commitment to maintain military personnel and family readiness and address important issues for our troops.

To that end, this bill:

Establishes a fully funded pay raise for all of our servicemembers. After 3 years of executive action that has provided lower-than-by-law calculated pay raises, it is time we give our troops and their families the pay increase they deserve;

Stops the reductions in the active end-strengths of the Armed Forces, thereby increasing readiness while reducing the stress and strain on the force and their families;

Reforms the Military Health System to ensure the system can sustain

trained and ready healthcare providers to support the readiness of the force and provide a quality healthcare benefit valued by its beneficiaries;

It also modernizes the Uniform Code of Military Justice to improve the system's efficiency and transparency while also enhancing victims' rights. This includes establishing several new offenses, including an offense prohibiting retaliation and prohibiting inappropriate relationships between military recruits or trainees and a person in a position of special trust;

Reforms the commissary system in a way that preserves this important benefit while also improving the system so it remains an excellent value for the shoppers and a good value for the taxpayer;

Includes an increase in parental adoptive leave for dual military couples in recognition of the importance of bonding time between parents and their newly adopted children.

In conclusion, I thank the ranking member, Mrs. DAVIS of California, and her staff for their contributions to the mark and support in this very bipartisan process. We were joined by an active and informed and dedicated group of subcommittee members, and their recommendations and priorities are clearly reflected in this bill. Additionally, I appreciate the dedication and hard work of the subcommittee staff.

I urge my colleagues to support our military men and women and their families and to support this bill.

Mr. SMITH of Washington. Mr. Chair, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Chair, I yield 2 minutes to the gentleman from Oklahoma (Mr. BRIDENSTINE), who is a member of the committee and who also continues to be active in the Air National Guard.

Mr. BRIDENSTINE. I thank the chairman.

Mr. Chair, this defense authorization makes a huge down payment on the readiness of our forces.

As a combat veteran, I have participated in the inter-deployment training cycles that are getting ready to deploy. I have seen the force regeneration process. I have seen it during good times, and I have seen it during bad times.

Personally, as a Navy reservist, most recently, I saw a very steep decline in readiness when my squadron got eliminated. The VAW-77, the Nightwolves, got completely eliminated when I was a Navy reservist. We busted about \$2 billion worth of cocaine every year on the high seas. Now that cocaine comes into the country, and \$2 billion worth of cash funds transnational criminal organizations in northern Mexico and in Central and South America. That is what happens when we have defense cuts the way we have had recently.

In fact, I will tell you that our remaining forces still face significant shortfalls and disruptions to time-tested training and deployment cycles. The OPTEMPO back home is almost more intense than an overseas deployment,

but the resources are simply not available. Pilots are flying the bare minimum flight hours to stay qualified, and our maintainers and our depots can't keep up. As a warfighter, I can attest that this will break our force.

The important thing about this bill, this defense authorization—and, Mr. Chairman, it is why I am so grateful for your leadership and the bipartisan support that we had from the ranking member, Mr. SMITH—is it makes a huge down payment on the readiness that is required to make sure that the force we have remaining is not hollow, which is critically important to the national security of this country.

I urge my colleagues to support this bill.

Mr. SMITH of Washington. Mr. Chair, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Chair, I yield 1 minute to the distinguished gentlewoman from New York (Ms. STEFANIK), the vice chairman of the Subcommittee on Readiness.

Ms. STEFANIK. Mr. Chair, I am proud of the bipartisan work of the House Committee on Armed Services on the FY17 National Defense Authorization Act.

This legislation takes important steps to strengthen our defense capabilities, and it gives our Armed Forces the resources they need to keep us safe. Importantly, this bill works to stop the funding gaps that are harming our military's readiness, and it includes a much-deserved pay raise for our troops.

This bill contains an important initiative to ensure our land forces will not be depleted as well as including some of my own initiatives—the creation of a DOD social media cell to counter radical online recruitment and maintain the edge in a 21st century battlefield. It also includes the development of joint directed energy capabilities between the United States and Israel.

I am proud to support this legislation, which passed in committee by a bipartisan vote of 60–2, and I urge my colleagues to vote in favor of this vital bill on the floor.

The CHAIR. The gentleman from Washington has 10 minutes remaining, and the gentleman from Texas has 4 minutes remaining.

Mr. SMITH of Washington. Mr. Chair, I yield myself the balance of my time.

I want to reiterate some of the points that were made during the debate in the beginning of how important this bill is.

We do have many national security needs. I know you see the size of the Department of Defense's budget, and there are certainly ways we can save money. I think we have done that with acquisition reform and with some of the other reforms that are contained in this bill.

It is also important to understand the threats that we face in the world—the continuing threat of terrorism and the continuing threats from nations like Russia, Iran, North Korea, and

China. We need to be prepared to counter those threats if we are going to have a peaceful and stable world.

Nonetheless, I think we still have the budget problem that I alluded to earlier, and that is that we do not have the money that we would like to have. It is not just for defense; it is for a lot of domestic priorities as well. In the way this bill is set up, it creates the possibility that we will take an additional \$18 billion for defense.

How does that balance against our other priorities?

We have to figure out how to make our budget balance and meet the priorities domestically while also meeting the national security priorities because our infrastructure is critical to our national security as well. We have to remain strong economically as a country.

In addition to that, it is not just the Department of Defense that provides for our security. There is the Department of Homeland Security, certainly, in the intelligence budget; the Department of Treasury; the Department of Justice. A lot of pieces to that puzzle are necessary, and they all get short-changed if we don't take into account their needs as well.

Mr. Chair, I yield back the balance of my time.

Mr. THORNBERRY. Mr. Chair, I yield myself the balance of my time.

As usual, I largely agree with many of the comments made by Mr. SMITH. I think he is exactly right when he discusses the many complex, dangerous threats that face the United States at this point. I think he is also right that we all have to put the Federal budget—but especially the military budget—on a more stable, predictable footing. I absolutely agree with him on those points.

At the same time, we have an immediate need, one in which lives are at stake. Mr. Chair, let me just offer the fact that the Air Force is currently short 4,000 maintainers and more than 700 pilots.

Another fact: in fiscal year 2015, the Navy had a backlog of 11 planes in depot. In fiscal year 2017, they are going to have 278 planes backlogged in the Navy depots. Less than one-third of the Army is now ready to meet the requirements of the defense strategic guidance.

We can't just turn away and say: Oh, we don't like this budget approach, so we are willing to live with all of those problems.

We have to deal with them. That is what this bill tries to do.

Mr. Chair, by the way, if we take away the \$18 billion that we try to put to readiness issues, then a lot of the things that the Members have asked for go away.

I have before me, for example, a letter that has been signed by a number of House and Senate Members who ask for new Black Hawks this year. The fact is the President did not request any Black Hawks in his budget request.

Currently, too many of our military folks are flying Black Hawks that were made in 1979. They can't get the parts for them. They can't even fly them in a lot of the circumstances because of the restrictions on these helicopters. So we look to the Army's unfunded requirements' list of the things they would like to have had that were stripped out by the administration, and we put into this bill 36 new Black Hawks. That is the way you deal with a lot of these readiness problems, is you replace the 1979 helicopter with a 2016 helicopter. We do that in this bill, but if we take away the approach that we have here to meet the readiness requirements, all of those Black Hawks go away.

I also have letters from Members who ask for the third littoral combat ship. We were only able to do that because of the \$18 billion. I have a letter signed by a number of Members to increase the U.S.-Israeli cooperative missile defense. Again, if our approach is not used, which some people on the other side are critical of, that funding goes away. It doesn't just come out of the air.

Mr. Chair, my point is we have an immediate problem. This bill tries to deal with the immediate problem that is affecting the men and women who serve our country today. Is it perfect? Of course not, but I have yet to hear of a better alternative that meets these needs and can pass the House.

Mr. Chair, just to reiterate, the other point is this is exactly the same approach that was used in the last administration. It is curious to me that some people who wanted to give President Obama a chance of a fresh look of the deployments which he found when he came into office now want to deny the same possibility for the next President, whoever he or she may be. We take exactly the approach that was used under Speaker PELOSI and Majority Leader HARRY REID in 2008, and we apply it to the next transition. I think that is what makes sense because that is what enables us to deal today with the readiness problems that threaten our military. I hope all Members will support this bill.

I yield back the balance of my time.

Mr. THORNBERRY. Mr. Chair, I ask that the following exchange of letters be submitted on H.R. 4909:

WILLIAM M. "MAC" THORNBERRY,
Chairman.

Ms. JACKSON LEE. Mr. Chair, I rise to speak on House consideration of the National Defense Authorization Act for Fiscal Year 2017.

I thank Chairman THORNBERRY and Ranking Member SMITH and the Armed Services Committee for their work on the National Defense Authorization Act for Fiscal Year 2015.

As a senior member of the House Committee on Homeland Security, I take our role in Congress as stewards of our nation's security seriously.

I offer my thanks and appreciation to the men and women of the armed services who place themselves in harm's way each day for the safety and security of our nation's people.

The National Defense Authorization Act's purpose is to address the threats our nation

must deal with not just today, but into the future. This makes our work vital to our national interest and it should reflect our strong commitment to ensure that the men and women of our Armed Services receive the benefits and support that they deserve for their faithful service.

This is the 54th consecutive National Defense Authorization Act, which speaks to the long term commitment of the Congress and successive Administrations to provide for National Defense.

This bill encompasses a number of initiatives designed to confront the military challenges posed by violent extremism, terrorists engaging in ground wars, making more efficient the work of protecting America, addresses the medical health needs of men and women in the armed services, and extends economic and education opportunity to small minority and women owned businesses.

We do live in a dangerous world, where threats are not always easily identifiable, and our enemies are not bound by borders.

Boko Haram, ISIL, and Al Shabaab remind us of how fragile our nation's security could be without a well trained and equipped military.

I appreciate the House Armed Services Committee's continued support of our national defense and support a number of provisions in H.R. 1735, the National Defense Authorization Act for Fiscal Year (FY) 2016, such as authorities that support ongoing operations.

The Administration also appreciates much of the work of the committee, but is expressing strong objections because the bill: Redirects \$18 billion in funding intended for use in defeating ISIL to base budget programs; Extends operations at Guantanamo Bay, Cuba; Increases costs of the TRICARE administration; Prohibits the retiring or inactivation of Ticonderoga-Class cruisers or dock landing ships; Reduces by \$250 million the Counterterrorism Partnership Fund; Bars the administration from making sure that companies that break United States labor laws are not rewarded; Prohibition on the use of funds for Countering Weapons of Mass Production; and Eliminates for the Department of Defense's Joint Urgent Operational Needs Fund.

Although the Administration points out areas of agreement with the Committee, the Administration strongly objects to several provisions in the bill.

The opportunity to amend the bill will offer an opportunity to address these and other Administration concerns that will improve the bill.

Congress should authorize sufficient funding for our military's priorities, and avoid using the Overseas Contingency Operations (OCO) funding in ways that leaders of both parties over the years have made clear is inappropriate.

The final bill considered by the Congress should adopt many of the needed force structure and weapons system reforms that have been identified by military leaders and experts.

As written the President's senior advisors would recommend that he veto this bill.

It is my hope that the Rules Committee will make in order a number of perfecting amendments for consideration under the Rule for H.R. 4909.

I have amendments that have been offered for consideration of H.R. 4909.

Let me discuss briefly the amendments I offered that were adopted by the House and included in the final version of the bill.

Jackson Lee Amendment Number 1 calls for increased collaboration with NIH to combat Triple Negative Breast Cancer.

Jackson Lee Amendment Number 2 provides authorization for \$2.5 million increase in funding to combat post-traumatic stress disorder (PTSD).

Jackson Lee Amendment Number 3 condemns the actions of Boko Haram and urges the Commander-in-Chief to ensure accountability for crimes against humanity committed by Boko Haram against the Nigerian people.

Jackson Lee Amendment Number 4 authorizes the Secretary of Defense to work with local security partners in facilitating the provision of security at civilian nuclear research centers in educational institutions to ascertain that nuclear weapons do not end up in the hands of terrorists, in promotion of the United States' and its allies' security interests.

Jackson Lee Amendment Number 5 authorizes the Secretary of Defense to work with local and international security partners, innovators, law enforcement, and other civil society organizations in the provision of technical assistance for the creation, facilitation and implementation of a technological app designed to enable the location, protection and tracking of missing persons, refugees, returnees and internally displaced persons.

Jackson Lee Amendment Number 6 directs Secretary of the Navy to submit report to Congress on the feasibility of applying desalination technologies to provide drought relief in areas impacted by sharp declines in water availability for both military as well as civilian purposes.

Jackson Lee Amendment Number 7 authorizes the Secretary of Defense to provide technical assistance to local and international security partners in the provision of security and protection for activists and civil society organizations advocating for and promoting freedom of religion, education, press expression and personal expression.

Jackson Lee Amendment Number 8 directs Secretary of Defense to conduct study and submit to Congress report regarding the awarding of secret and top secret security clearances to better understand the process for awarding clearances in effective and fair.

Jackson Lee Amendment Number 9 requires outreach for small business concerns owned and controlled by women and minorities required before conversation of certain functions to contractor performance.

Jackson Lee Amendment Number 10 expresses the sense of Congress regarding the importance of increasing the effectiveness of the Northern Command ("NORTHCOM") in fulfilling its critical mission of protecting the U.S. homeland in event of war and to provide support to local, state, and federal authorities in times of national emergency.

Jackson Lee Amendment Number 11 requires the Government Accountability Office to include in its annual report to Congress a list of the most common grounds for sustaining protests related to bids for contracts.

Jackson Lee Amendment Number 12 directs the Secretary of Defense to report to Congress on the Department's ability to support the rapid development, production and deployment of vaccines or treatments of emerging tropical diseases, like the Zika and Ebola viruses, to protect the men and women of the armed forces and their families.

We must continue to direct our efforts as a body to ensure that our troops remain the best

equipped and prepared military force in the world. They are not just soldiers they are sons and daughters, husbands and wives, brothers and sisters—they are some of the people we represent as members of Congress.

Support of our men and women in uniform is a sacred obligation of Congress both to those who are at risk on battle fields and serving as the guard against threats around the world, but they are also those who have returned home from war.

I look forward to the inclusion of the Jackson Lee Amendments and others that will improve the underlying bill.

Any funds so transferred shall be considered to be nonappropriated funds for such purpose.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT
Subtitle A—Goldwater-Nichols Reform

SEC. 901. SENSE OF CONGRESS ON GOLDWATER-NICHOLS REFORM.

It is the sense of Congress that the following principles should be adhered to in any reform of the Goldwater-Nichols Department of Defense Reorganization Act of 1986:

(1) Civilian control of the military and the civilian chain of command must be preserved.

(2) The role of the Chairman of the Joint Chiefs of Staff in providing independent military advice, as the principal military advisor to the President and the Secretary of Defense, must be preserved.

(3) Any changes to the Goldwater-Nichols Act of 1986 should be rooted in a clear identification and understanding of the issues and the objectives and ramifications of any changes.

(4) Any changes to the Goldwater-Nichols Act of 1986 should enhance the capabilities of the United States Armed Forces.

(5) Each Geographical Unified Command has its own distinct area of emphasis and expertise, as well as requirements and responsibilities. Combining Northern Command and Southern Command, or combining European Command and Africa Command, would severely degrade mission effectiveness, but would provide only marginal increased efficiency. Additionally, consolidating Geographic Unified Commands would cause unacceptable risk to both global strategic influence as well as regional capability, and would exacerbate already significant capacity challenges.

(6) The emphasis on strategy and planning in the Goldwater-Nichols Act must be sustained.

(7) Complex security challenges will become increasingly transregional, multi-domain, and multi-functional.

(8) Therefore, the Department of Defense, including streamlined headquarters staffs, must be more agile and adaptive.

SEC. 1089. SENSE OF CONGRESS REGARDING CONNECTICUT'S SUBMARINE CENTURY.

(a) FINDINGS.—Congress makes the following findings:

(1) On March 2, 1867, Congress enacted a naval appropriations Act that authorized the Secretary of the Navy to “receive and accept a deed of gift, when offered by the State of Connecticut, of a tract of land with not less than one mile of shore front on the Thames River near New London, Connecticut, to be held by the United States for naval purposes”.

(2) The people of Connecticut and the towns and cities in the southeastern region of Connecticut subsequently gifted land to establish a military installation to fulfil the Nation's need for a naval facility on the Atlantic coast.

(3) On April 11, 1868, the Navy accepted the deed of gift of land from Connecticut to establish a naval yard and storage depot along the eastern shore of the Thames River in Groton, Connecticut;

(4) Between 1868 and 1912, the New London Navy Yard supported a diverse range of missions, including berthing inactive Civil War era ironclad warships and serving as a coaling station for refueling naval ships traveling in New England waters.

(5) Congress rejected the Navy's proposal to close New London Navy Yard in 1912, following an impassioned effort by Congressman Edwin W. Higgins, who stated that “this action proposed is not only unjust but unreasonable and unsound as a military proposition”.

(6) The outbreak of World War I and the enemy use of submarines to sink allied military and civilian ships in the Atlantic sparked a new focus on developing submarine capabilities in the United States.

(7) October 18, 1915, marked the arrival at the New London Navy Yard of the submarines G-1, G-2, and G-4 under the care of the tender U.S.S. OZARK, soon followed by the arrival of submarines E-1, D-1, and D-3 under the care of the tender U.S.S. TONOPAH, and on November 1, 1915, the arrival of the first ship built as a submarine tender, the U.S.S. FULTON (AS-1).

(8) On June 21, 1916, Commander Yeates Stirling assumed the command of the newly designated Naval Submarine Base New London, the New London Submarine Flotilla, and the Submarine School;

(9) In the 100 years since the arrival of the first submarines to the base, Naval Submarine Base New London has grown to occupy more than 680 acres along the east side of the Thames River, with more than 160 major facilities, 15 nuclear submarines, and more than 70 tenant commands and activities, including the Submarine Learning Center, Naval Submarine School, the Naval Submarine Medical Research Laboratory, the Naval Undersea Medical Institute, and the newly established Undersea Warfighting Development Center.

(10) In addition to being the site of the first submarine base in the United States, Connecticut was home to the foremost submarine manufacturers of the time, the Lake Torpedo

Boat Company in Bridgeport and the Electric Boat Company in Groton, which later became General Dynamics Electric Boat.

(11) General Dynamics Electric Boat, its talented workforce, and its Connecticut-based and nationwide network of suppliers have delivered more than 200 submarines from its current location in Groton, Connecticut, including the first nuclear-powered submarine, the U.S.S. NAUTILUS (SSN 571), and nearly half of the nuclear submarines ever built by the United States.

(12) The Submarine Force Library and Museum, located adjacent to Naval Submarine Base New London in Groton, Connecticut, is the only submarine museum operated by the United States Navy and today serves as the primary repository for artifacts, documents, and photographs relating to the bold and courageous history of the Submarine Force and highlights as its core exhibit the Historic Ship NAUTILUS (SSN 571) following her retirement from service.

(13) Reflecting the close ties between Connecticut and the Navy that began with the gift of land that established the base, the State of Connecticut has set aside \$40,000,000 in funding for critical infrastructure investments to support the mission of the base, including construction of a new dive locker building, expansion of the Submarine Learning Center, and modernization of energy infrastructure.

(14) On September 29, 2015, Connecticut Governor Dannel Malloy designated October 2015 through October 2016 as Connecticut's Submarine Century, a year-long observance that celebrates 100 years of submarine activity in Connecticut, including the Town of Groton's distinction as the Submarine Capital of the World, to coincide with the centennial anniversary of the establishment of Naval Submarine Base New London and the Naval Submarine School.

(15) Whereas Naval Submarine Base New London still proudly proclaims its motto of "The First and Finest".

(16) Congressman Higgins' statement before Congress in 1912 that "Connecticut stands ready, as she always has, to bear her part of the burdens of the national defense" remains true today.

(b) SENSE OF CONGRESS.—Congress—

(1) commends the longstanding dedication and contribution to the Navy and submarine force by the people of Connecticut, both through the initial deed of gift that established what would become Naval Submarine Base New London and through their ongoing commitment to support the mission of the base and the Navy personnel assigned to it;

(2) honors the submariners who have trained and served at Naval Submarine Base New London throughout its history in support of the Nation's security and undersea superiority;

(3) recognizes the contribution of the industry and workforce of Connecticut in designing, building, and sustaining the Navy's submarine fleet; and

(4) encourages the recognition of Connecticut's Submarine Century by Congress, the Navy, and the American people by honoring the contribution of the people of Connecticut to the defense of the United States and the important role of the submarine force in safeguarding the security of the United States for more than a century.

SEC. 1215. SENSE OF CONGRESS ON UNITED STATES POLICY AND STRATEGY IN AFGHANISTAN.

(a) FINDINGS.—Congress finds the following:

(1) The United States continues to have vital national security interests in ensuring that Afghanistan is a stable, sovereign country.

(2) President Obama signed a Strategic Partnership Agreement and a Bilateral Security Agreement with the President of the Islamic Republic of Afghanistan, which commits the United States to the long-term security of, and defense cooperation with, the Government of Afghanistan and designates Afghanistan as a “major non-NATO ally”.

(3) The unity government in Afghanistan, led by President Ghani and Chief Executive Abdullah, should be applauded for their continued leadership and commitment to Afghanistan’s stability and security.

(4) Stability and security in Afghanistan reinforces stability and security in the region.

(5) The best long-term guarantor of stability and security in Afghanistan is a stable unity government and a capable Afghan National Defense and Security Forces (ANDSF).

(6) The President’s current policy is to draw down from 9,800 to 5,500 United States troops by January 1, 2017. As the recent commander in Afghanistan, General John Campbell, testified to the Senate Armed Services Committee, “the 5,500 [U.S. troops] plan was developed primarily around counterterrorism. There’s very limited train-advise-and-assist...in those numbers. To continue to build on the Afghan Security Forces, the gaps and seams in aviation, logistics, intelligence...we’d have to make some adjustments to that number.”

(7) The President’s policy of limiting the number of United States troops that the commander can employ in Afghanistan is hindering the effectiveness of the United States mission therein.

(8) Further, at the current policy of 9,800 United States troops, the new commander of Operation Resolute Support in Afghanistan, General John “Mick” Nicholson, agreed in testimony with the Senate Armed Services Committee that the security situation in Afghanistan has been deteriorating rather than improving.

(9) General John Campbell also stated “. . . Afghan shortfalls will persist beyond 2016. Capability gaps still exist in fixed and rotary-wing aviation, combined arms operations, intelligence collection and dissemination, and maintenance.”

(10) General John Campbell further stated “I have the authority to protect coalition members against any insurgents. . . to attack the Taliban just because they’re Taliban, I do not have that authority.”

(11) The Taliban have made territorial gains and are holding terrain in key geographic areas in Afghanistan, including in Helmand Province.

(12) The Taliban held the city of Kunduz, Afghanistan, which is the first time the Taliban have held a major city in Afghanistan in 14 years.

(13) The Haqqani Network, a designated foreign terrorist organization aligned with the Taliban, is the most lethal group on the battlefield in Afghanistan, and continues to provide safe haven to al-Qaeda.

(14) The Islamic State of Iraq and the Levant (ISIL) has established an affiliate in Afghanistan.

(15) Since the death of the Taliban’s leader, Mullah Mohammad Omar, and the ascendance of Mullah Akhtar Mansoor and Saraj Haqqani, head of the Haqqani Network, to Taliban leadership, the Taliban have not engaged in political reconciliation negotiations with the Government of Afghanistan.

(16) The President has the statutory, legal authority to strike the Taliban and the Haqqani Network.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the President should authorize at least 9,800 United States troops to continue the train, advise, and assist and counterterrorism missions in Afghanistan after 2016;

(2) the President should provide the United States commander in Afghanistan with the authority to unilaterally strike the Taliban and the Haqqani Network;

(3) the President should provide additional resources to strike the Islamic State of Iraq and the Levant (ISIL) in Afghanistan;

(4) the President should provide the United States commander in Afghanistan the authority to conduct the train, advise, and assist mission below the corps level of the Afghan National Defense and Security Forces (ANDSF);

(5) the United States should provide United States Armed Forces lift and close air support to ANDSF units until the ANDSF has a fully capable, organic lift and close air support capability and capacity;

(6) the United States should provide monetary and advisory support for 352,000 ANDSF personnel and 30,000 Afghan Local Police, including intelligence, surveillance, and reconnaissance support, through 2018;

(7) it should continue to be a top priority to provide United States Armed Forces deployed to Afghanistan with necessary medical, force protection, and combat search and rescue support; and

(8) United States military personnel who are tasked with the mission of providing combat search and rescue support, casualty evacuation, and medical support should not be counted as part of any force management level limitation on the number of United States ground forces in Afghanistan.

“(B) such major system interfaces are consistent with the widely supported and consensus-based standards that exist at the time of the milestone decision, unless such standards are unavailable or unsuitable for particular major system interfaces; and

“(C) the Government has arranged to obtain appropriate and necessary intellectual property rights with respect to such major system interfaces upon completion of the development of the major system platform; or

“(2) in the case of a program that does not use a modular open system approach, that the use of a modular open system approach is not practicable.

“The Secretary of each military department shall—

“(1) coordinate with the other military departments, the defense agencies, defense and other private sector entities, national standards-setting organizations, and, when appropriate, with elements of the intelligence community with respect to the specification, identification, development, and maintenance of major system interfaces and standards for use in major system platforms, where practicable;

“(2) ensure that major system interfaces incorporate commercial standards and other widely supported consensus-based standards that are validated, published, and maintained by recognized standards organizations to the maximum extent practicable;

“(3) ensure that sufficient systems engineering and development expertise and resources are available to support the use of a modular open system approach in requirements development and acquisition program planning;

“(4) ensure that necessary planning, programming, and budgeting resources are provided to specify, identify, develop, and sustain the modular open system approach, associated major system interfaces, and any additional program activities necessary to sustain innovation and interoperability; and

“(5) ensure that adequate training in the use of a modular open system approach is provided to members of the requirements and acquisition workforce.

“§2446d. Requirement to include modular open system approach in Selected Acquisition Reports

“For each major defense acquisition program that receives Milestone B approval after January 1, 2019, a brief summary description of the key elements of the modular open system approach or, if a modular open system approach was not used, the rationale for not using such an approach, shall be submitted to the congressional defense committees with the first Selected Acquisition Report required under section 2432 of this title for the program.”.

“(3) the participants in the project successfully completed the project provided for in the transaction; and

“(4) a prototype of the system to be procured in the rapid fielding project was demonstrated in a relevant environment.

“(b) SPECIAL TRANSFER AUTHORITY.—(1) The Secretary of a military department may transfer funds that remain available for obligation in procurement appropriation accounts of the military department to fund the low-rate initial production of the rapid fielding project until required funding for full-rate production can be submitted and approved through the regular budget process of the Department of Defense.

“(2) The funds transferred under this subsection to fund the low-rate initial production of a rapid fielding project shall be for a period not to exceed two years, the amount for such period may not exceed \$50,000,000, and the special transfer authority provided in this subsection may not be used more than once to fund procurement of a particular new or upgraded system.

“(3) The special transfer authority provided in this subsection is in addition to any other transfer authority available to the Department of Defense.

“(c) NOTIFICATION TO CONGRESS.—Within 30 days after the service acquisition executive of a military department selects a weapon system component or technology rapid fielding project for a follow-on production contract or other transaction, the service acquisition executive shall notify the congressional defense committees of the selection and provide a brief description of the rapid fielding project.

TITLE XVIII—MATTERS RELATING TO SMALL BUSINESS PROCUREMENT

Subtitle A—Improving Transparency and Clarity for Small Businesses

SEC. 1801. PLAIN LANGUAGE REWRITE OF REQUIREMENTS FOR SMALL BUSINESS PROCUREMENTS.

Section 15(a) of the Small Business Act (15 U.S.C. 644(a)) is amended to read as follows:

“(a) SMALL BUSINESS PROCUREMENTS.—

“(1) IN GENERAL.—For purposes of this Act, small business concerns shall receive any award or contract if such award or contract is, in the determination of the Administrator and the contracting agency, in the interest of—

“(A) maintaining or mobilizing the full productive capacity of the United States;

“(B) war or national defense programs; or

“(C) assuring that a fair proportion of the total purchase and contracts for goods and services of the Government in each industry category (as described under paragraph (2)) are awarded to small business concerns.

“(2) INDUSTRY CATEGORY DEFINED.—

“(A) IN GENERAL.—In this subsection, the term ‘industry category’ means a discrete group of similar goods and services, as determined by the Administrator in accordance with the North American Industry Classification System codes used to establish small business size standards, except that the Administrator shall limit an industry category to a greater extent than provided under the North American Industry Classification codes if the Administrator receives evidence indicating that further segmentation of the industry category is warranted—

“(i) due to special capital equipment needs;

“(ii) due to special labor requirements;

“(iii) due to special geographic requirements, except as provided in subparagraph (B);

“(iv) due to unique Federal buying patterns or requirements; or

“(v) to recognize a new industry.

“(B) EXCEPTION FOR GEOGRAPHIC REQUIREMENTS.—The Administrator may not further segment an industry category based on geographic requirements unless—

“(i) the Government typically designates the geographic area where work for contracts for goods or services is to be performed;

“(ii) Government purchases comprise the major portion of the entire domestic market for such goods or services; and

“(iii) it is unreasonable to expect competition from business concerns located outside of the general geographic area due to the fixed location of facilities, high mobilization costs, or similar economic factors.

“(3) DETERMINATIONS WITH RESPECT TO AWARDS OR CONTRACTS.—Determinations made pursuant to paragraph (1) may be made for individual awards or contracts, any part of an award or contract or task order, or for classes of awards or contracts or task orders.

“(4) INCREASING PRIME CONTRACTING OPPORTUNITIES FOR SMALL BUSINESS CONCERNS.—

“(A) DESCRIPTION OF COVERED PROPOSED PROCUREMENTS.—The requirements of this paragraph shall apply to a proposed procurement that includes in its statement of work goods or services currently being supplied or performed by a small business concern and, as determined by the Administrator—

“(i) is in a quantity or of an estimated dollar value which makes the participation of a small business concern as a prime contractor unlikely;

“(ii) in the case of a proposed procurement for construction, if such proposed procurement seeks to bundle or consolidate discrete construction projects; or

“(iii) is a solicitation that involves an unnecessary or unjustified bundling of contract requirements.

“(B) NOTICE TO PROCUREMENT CENTER REPRESENTATIVES.—With respect to proposed procurements described in subparagraph (A), at least 30 days before issuing a solicitation and concurrent with other processing steps required before issuing the solicitation, the contracting agency shall provide a copy of the proposed procurement to the procurement center representative of the contracting agency (as described in subsection (I)) along with a statement explaining—

“(i) why the proposed procurement cannot be divided into reasonably small lots (not less than economic production runs) to permit offers on quantities less than the total requirement;

“(ii) why delivery schedules cannot be established on a realistic basis that will encourage the participation of small business concerns in a manner consistent with the actual requirements of the Government;

“(iii) why the proposed procurement cannot be offered to increase the likelihood of the participation of small business concerns;

“(iv) in the case of a proposed procurement for construction, why the proposed procurement cannot be offered as separate discrete projects; or

“(v) why the agency has determined that the bundling of contract requirements is necessary and justified.

“(C) ALTERNATIVES TO INCREASE PRIME CONTRACTING OPPORTUNITIES FOR SMALL BUSINESS CONCERNS.—If the procurement center representative believes that the proposed procurement will make the participation of small business concerns as prime contractors unlikely, the procurement center representative, within 15 days after receiving the statement described in subparagraph (B), shall recommend to the contracting agency alternative procurement methods for increasing prime contracting opportunities for small business concerns.

“(D) FAILURE TO AGREE ON AN ALTERNATIVE PROCUREMENT METHOD.—If the procurement center representative and the contracting agency fail to agree on an alternative procurement method, the Administrator shall submit the matter to the head of the appropriate department or agency for a determination.

“(5) CONTRACTS FOR SALE OF GOVERNMENT PROPERTY.—With respect to a contract for the sale of Government property, small business concerns shall receive any such contract if, in the determination of the Administrator and the disposal agency, the award of such contract is in the interest of assuring that a fair proportion of the total sales of Government property be made to small business concerns.

“(6) SALE OF ELECTRICAL POWER OR OTHER PROPERTY.—Nothing in this subsection shall be construed to change any preferences or priorities established by law with respect to the sale of electrical power or other property by the Federal Government.

“(7) COSTS EXCEEDING FAIR MARKET PRICE.—A contract may not be awarded under this subsection if the cost of the contract to the awarding agency exceeds a fair market price.”

SEC. 1802. IMPROVING REPORTING ON SMALL BUSINESS GOALS.

(a) IN GENERAL.—Section 15(h)(2)(E) of the Small Business Act (15 U.S.C. 644(h)(2)(E)) is amended—

(1) in clause (i)—

(A) in subclause (III), by striking “and” at the end; and

(B) by adding at the end the following new subclauses:

“(V) that were purchased by another entity after the initial contract was awarded and as a result of the purchase, would no longer be deemed to be small business concerns for purposes of the initial contract; and

SEC. 3604. UNIFORM NATIONAL STANDARDS AND REQUIREMENTS FOR THE REGULATION OF DISCHARGES INCIDENTAL TO THE NORMAL OPERATION OF A VESSEL.

(a) REQUIREMENTS.—

(1) BALLAST WATER MANAGEMENT REQUIREMENTS.—

(A) IN GENERAL.—Notwithstanding any other provision of law, the requirements set forth in the final rule, Standards for Living Organisms in Ships’ Ballast Water Discharged in U.S. Waters (77 Fed. Reg. 17254 (March 23, 2012), as corrected at 77 Fed. Reg. 33969 (June 8, 2012)), shall be the management requirements for a ballast water discharge incidental to the normal operation of a vessel until the Secretary revises the ballast water performance standard under subsection (b) or adopts a more stringent State standard under subparagraph (B) of this paragraph.

(B) ADOPTION OF MORE STRINGENT STATE STANDARD.—If the Secretary makes a determination in favor of a State petition under section 3609, the Secretary shall adopt the more stringent ballast water performance standard specified in the statute or regulation that is the subject of that State petition in lieu of the ballast water performance standard in the final rule described under subparagraph (A).

(2) INITIAL MANAGEMENT REQUIREMENTS FOR DISCHARGES OTHER THAN BALLAST WATER.—Not later than 2 years after the date of enactment of this Act, the Secretary, in consultation with the Administrator, shall issue a final rule establishing best management practices for discharges incidental to the normal operation of a vessel other than ballast water.

(b) REVISED BALLAST WATER PERFORMANCE STANDARD; 7-YEAR REVIEW.—

(1) IN GENERAL.—Subject to the feasibility review under paragraph (2), not later than January 1, 2022, the Secretary, in consultation with the Administrator, shall issue a final rule revising the ballast water performance standard under subsection (a)(1) so that a ballast water discharge incidental to the normal operation of a vessel will contain—

(A) less than 1 living organism per 10 cubic meters that is 50 or more micrometers in minimum dimension;

(B) less than 1 living organism per 10 milliliters that is less than 50 micrometers in minimum dimension and more than 10 micrometers in minimum dimension;

(C) concentrations of indicator microbes that are less than—

(i) 1 colony-forming unit of toxicogenic *Vibrio cholera* (serotypes O1 and O139) per 100 milliliters or less than 1 colony-forming unit of that microbe per gram of wet weight of zoological samples;

(ii) 126 colony-forming units of *Escherichia coli* per 100 milliliters; and

(C) LOWER REVISED PERFORMANCE STANDARD.—

(i) IN GENERAL.—If the Secretary, in consultation with the Administrator, determines, on the basis of the feasibility review and after an opportunity for a public hearing, that no ballast water treatment technology can be certified under section 3605 to comply with the revised ballast water performance standard under paragraph (1), the Secretary shall require the use of the treatment technology that achieves the performance levels of the best treatment technology available.

(ii) IMPLEMENTATION DEADLINE.—If the Secretary, in consultation with the Administrator, determines that the treatment technology under clause (i) cannot be implemented before the implementation deadline under paragraph (3) with respect to a class of vessels, the Secretary shall extend the implementation deadline for that class of vessels for not more than 36 months.

(iii) COMPLIANCE.—If the implementation deadline under paragraph (3) is extended, the Secretary shall recommend action to ensure compliance with the extended implementation deadline under clause (ii).

(D) HIGHER REVISED PERFORMANCE STANDARD.—

(i) IN GENERAL.—If the Secretary, in consultation with the Administrator, determines that ballast water treatment technology exists that exceeds the revised ballast water performance standard under paragraph (1) with respect to a class of vessels, the Secretary shall revise the ballast water performance standard for that class of vessels to incorporate the higher performance standard.

(ii) IMPLEMENTATION DEADLINE.—If the Secretary, in consultation with the Administrator, determines that the treatment technology under clause (i) can be implemented before the implementation deadline under paragraph (3) with respect to a class of vessels, the Secretary shall accelerate the implementation deadline for that class of vessels. If the implementation deadline under paragraph (3) is accelerated, the Secretary shall provide not less than 24 months notice before the accelerated deadline takes effect.

(3) IMPLEMENTATION DEADLINE.—The revised ballast water performance standard under paragraph (1) shall apply to a vessel beginning on

the date of the first drydocking of the vessel on or after January 1, 2022, but not later than December 31, 2024.

(i) apply for a period of not to exceed 18 months from the date of the applicable deadline under subparagraph (A); and

(ii) be renewable for an additional period of not to exceed 18 months.

(D) **FACTORS.**—In issuing a compliance deadline or reviewing a petition under this paragraph, the Secretary shall consider, with respect to the ability of an owner or operator to meet a compliance deadline, the following factors:

(C) **FUTURE REVISIONS OF VESSEL INCIDENTAL DISCHARGE STANDARDS; DECENNIAL REVIEWS.**—

(1) **REVISED BALLAST WATER PERFORMANCE STANDARDS.**—The Secretary, in consultation with the Administrator, shall complete a review, 10 years after the issuance of a final rule under subsection (b) and every 10 years thereafter, to determine whether further revision of the ballast water performance standard would result in a scientifically demonstrable and substantial reduction in the risk of the introduction or establishment of aquatic nuisance species.

(2) **REVISED STANDARDS FOR DISCHARGES OTHER THAN BALLAST WATER.**—The Secretary, in consultation with the Administrator, may include in a decennial review under this subsection best management practices for discharges covered by subsection (a)(2). The Secretary shall initiate a rulemaking to revise 1 or more best management practices for such discharges after a decennial review if the Secretary, in consultation with the Administrator, determines that revising 1 or more of such practices would substantially reduce the impacts on navigable waters of discharges incidental to the normal operation of a vessel other than ballast water.

(3) **CONSIDERATIONS.**—In conducting a review under paragraph (1), the Secretary, the Administrator, and the heads of other appropriate Federal agencies as determined by the Secretary, shall consider the criteria under subsection (b)(2)(B).

AMENDMENT NO. 1 OFFERED BY MR. THORNBERRY

The CHAIR. It is now in order to consider amendment No. 1 printed in part B of House Report 114-569.

Page 727, line 5, insert after “may” the following: “, as specified in advance by appropriations Acts.”.

The CHAIR. Pursuant to House Resolution 732, the gentleman from Texas (Mr. THORNBERRY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

□ 1600

Mr. THORNBERRY. Mr. Chair, I yield myself such time as I may consume.

I appreciate the opportunity to offer this amendment, which I do not believe is controversial.

Mr. Chairman, one of the many parts of this bill, on which Members on both sides of the aisle have contributed, is to try to improve our acquisition system, partly to get more value out of the taxpayer money that is spent and partly to try to get technology into the field, into the hands of our warfighters faster because technology evolves and the threats evolve so quickly.

Members on both sides of the aisle have contributed to that effort, and we have consulted with folks in the Pentagon and in industry to try to make improvements in this part of the bill.

This amendment is a technical amendment, which just deals with some of those issues, to ensure that whatever process we set up here, obviously, the money has to be appropriated as well.

Mr. Chairman, I don't think it is controversial, but I want to reiterate that

most of this bill is built from the ground up on a bipartisan basis, including each of the five major reform areas. I think acquisition reform is very important that we pursue, that we continue to try to improve the equipment and the weapons that we provide our personnel. That is what helps make them more ready to conduct the missions that the country asks them to conduct.

Mr. VEASEY. Will the gentleman yield?

Mr. THORNBERRY. I yield to the gentleman from Texas.

Mr. VEASEY. Mr. Chairman, I am not in opposition to the amendment.

Mr. THORNBERRY. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR (Mr. ROTHFUS). The question is on the amendment offered by the gentleman from Texas (Mr. THORNBERRY).

The amendment was agreed to.

AMENDMENT NO. 17 OFFERED BY MR. ROYCE OF CALIFORNIA

At the end of title X, add the following:

Subtitle H—United States Naval Station Guantanamo Bay Preservation Act

SEC. 10xx. SHORT TITLE.

This subtitle may be cited as the “United States Naval Station Guantanamo Bay Preservation Act”.

SEC. 10xx. FINDINGS.

Congress makes the following findings:

(1) United States Naval Station, Guantanamo Bay, Cuba, has been a strategic military asset critical to the defense of the United States and the maintenance of regional security for more than a century.

(2) The United States continues to exercise control over the area of United States Naval Station, Guantanamo Bay, Cuba, pursuant to the Guantanamo Lease Agreements, which

were initiated and concluded pursuant to an Act of Congress.

(3) Senior United States military leaders have consistently voiced strong support for maintaining United States Naval Station, Guantanamo Bay, Cuba, noting its strategic value for military basing and logistics, disaster relief, humanitarian work, terrorist detention, and counter-narcotics purposes.

(4) On February 29, 2016, Secretary of Defense Ashton B. Carter, discussing United States Naval Station, Guantanamo Bay, Cuba, stated that “it’s a strategic location, we’ve had it for a long time, it’s important to us and we intend to hold onto it”.

(5) On March 12, 2015, Commander of United States Southern Command, General John Kelly, testified that the United States facilities at Naval Station Guantanamo Bay “are indispensable to the Departments of Defense, Homeland Security, and State’s operational and contingency plans. . . . As the only permanent U.S. military base in Latin America and the Caribbean, its location provides persistent U.S. presence and immediate access to the region, as well as supporting a layered defense to secure the air and maritime approaches to the United States”.

(6) In testimony before Congress in 2012, then-Commander of United States Southern Command, General Douglas Fraser, stated that “the strategic capability provided by U.S. Naval Station Guantanamo Bay remains essential for executing national priorities throughout the Caribbean, Latin America, and South America”.

(7) Following a 1991 coup in Haiti that prompted a mass exodus of people by boat, United States Naval Station, Guantanamo Bay, Cuba, provided a location for temporary housing and the orderly adjudication of asylum claims outside of the continental United States.

(8) In 2010, United States Naval Station, Guantanamo Bay, Cuba, was a critical hub for the provision of humanitarian disaster relief following the devastating earthquakes in Haiti.

(9) The United States presence at United States Naval Station, Guantanamo Bay, Cuba, has its origins in Acts of Congress undertaken pursuant to the powers of Congress expressly enumerated in the Constitution of the United States.

(10) By joint resolution approved on April 20, 1898, Congress “directed and empowered” the President “to use the entire land and naval forces of the United States” as necessary to ensure that the Government of Spain “relinquish its authority and government in the island of Cuba, and withdraw its land and naval forces from Cuba and Cuban waters”.

(11) Congress declared war against Spain on April 25, 1898, which lasted until December 10, 1898, when the United States and Spain signed the Treaty of Paris, in which Spain relinquished all claims of sovereignty over Cuba, and United States governance of Cuba was established.

(12) Nearly three years later, in the Act of March 2, 1901 (Chapter 803; 31 Stat. 898), Congress granted the President the authority to return “the government and control of the island of Cuba to its people” subject to several express conditions including, in article VII of the Act of March 2, 1901, the sale or lease by Cuba to the United States of lands necessary for naval stations.

(13) Pursuant to the authority granted by article VII of the Act of March 2, 1901, the United States negotiated the Guantanamo Lease Agreements, which specified the area of, and United States jurisdiction and control over, what became United States Naval Station, Guantanamo Bay, Cuba.

(14) On October 2, 1903, when approving the Lease to the United States by the Govern-

ment of Cuba of Certain Areas of Land and Water for Naval or Coaling Stations, signed in Havana on July 2, 1903, President Theodore Roosevelt cited the Act of March 2, 1901, as providing his authority to do so: “I, Theodore Roosevelt, President of the United States of America, having seen and considered the foregoing lease, do hereby approve the same, by virtue of the authority conferred by the seventh of the provisions defining the relations which are to exist between the United States and Cuba, contained in the Act of Congress approved March 2, 1901, entitled ‘An Act making appropriation for the support of the Army for the fiscal year ending June 30, 1902.’”.

(15) Obtaining United States naval station rights in Cuba was an express condition of the authority that Congress gave the President to return control and governance of Cuba to the people of Cuba. In exercising that authority and concluding the Guantanamo Lease Agreements, President Theodore Roosevelt recognized the source of that authority as the Act of March 2, 1901.

(16) The Treaty of Relations between the United States of America and the Republic of Cuba, signed at Washington, May 29, 1934, did not supersede, abrogate, or modify the Guantanamo Lease Agreements, but noted that the stipulations of those agreements “shall continue in effect” until the United States and Cuba agree to modify them.

(17) The Constitution of the United States expressly grants to Congress the power to provide for the common defense of the United States, the power to provide and maintain a Navy, and the power “to dispose of and make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States”.

SEC. 10xx. PROHIBITION ON MODIFICATION, ABROGATION, OR OTHER RELATED ACTIONS WITH RESPECT TO UNITED STATES JURISDICTION AND CONTROL OVER UNITED STATES NAVAL STATION, GUANTANAMO BAY, CUBA, WITHOUT CONGRESSIONAL ACTION.

No action may be taken to modify, abrogate, or replace the stipulations, agreements, and commitments contained in the Guantanamo Lease Agreements, or to impair or abandon the jurisdiction and control of the United States over United States Naval Station, Guantanamo Bay, Cuba, unless specifically authorized or otherwise provided by—

(1) a statute that is enacted on or after the date of the enactment of this Act;

(2) a treaty that is ratified with the advice and consent of the Senate on or after the date of the enactment of this Act; or

(3) a modification of the Treaty Between the United States of America and Cuba signed at Washington, DC, on May 29, 1934, that is ratified with the advice and consent of the Senate on or after the date of the enactment of this Act.

SEC. 10xx. GUANTANAMO LEASE AGREEMENTS DEFINED.

In this subtitle, the term “Guantanamo Lease Agreements” means—

(1) the Agreement Between the United States of America and the Republic of Cuba for the Lease to the United States of Lands in Cuba for coaling and naval stations, signed by the President of the United States on February 23, 1903; and

(2) the Lease to the United States by the Government of Cuba of Certain Areas of Land and Water for Naval or Coaling Stations, signed by the President of the United States on October 2, 1903.

AMENDMENT NO. 20 OFFERED BY MS. MOORE OF WISCONSIN

At the end of subtitle C of title XII, add the following:

SEC. 12xx. SENSE OF CONGRESS CONDEMNING CONTINUING ATTACKS ON MEDICAL FACILITIES IN SYRIA.

(a) FINDINGS.—Congress finds the following:

(1) Attacks intentionally targeting civilians, medical personnel, or medical facilities constitute grave violations of international humanitarian law.

(2) In Syria, schools, markets, and hospitals are routinely destroyed in attacks and medical providers routinely targeted for attacks.

(3) Physicians for Human Rights has documented at least 350 airstrikes against medical facilities and the deaths of over 700 medical personnel in Syria since 2011.

(4) So far in May 2016, there have been at least six attacks on medical facilities in the city of Aleppo alone in less than a week killing dozens, including the last pediatrician still working in Aleppo.

(5) These attacks seriously hinder access to medical care and are compounded by ongoing efforts by the Syrian regime to block or limit humanitarian aid to Syrians.

(6) Secretary of State John Kerry has condemned these attacks arguing, “there is no justification for this horrific violence that targets civilians or medical facilities or first responders no matter who it is, whether it’s a member of the opposition retaliating or the regime in its brutality against the civilians which has continued for five years.”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Department of Defense and all other appropriate United States Government agencies should continue to strongly condemn and call for an immediate end to attacks on medical facilities and medical providers in Syria and work to ensure that doctors can do their job and provide care to the those in need;

(2) humanitarian crises in Syria and Iraq, exacerbated by targeted attacks on medical facilities, personnel, and schools, threaten the achievement of United States goals in the region, such as destroying and dismantling the Islamic State in Iraq and the Levant (ISIL) and peace and stability in the region, including Syria;

(3) the United States and international community should do more to support medical professionals and medical nonprofit organizations working in Syria, at great risk to their personal well-being, to treat the ill and infirm and ensure some level of medical care for Syrians; and

(4) the Department of Defense is strongly encouraged to support, where appropriate, other appropriate United States Government agencies and entities engaged in meeting urgent and increasing humanitarian and medical needs in Syria, especially in areas where medical facilities and providers have been targeted by the Syrian regime, ISIL, or Al-Qaeda.

MODIFICATION TO AMENDMENT NO. 7 OFFERED
BY MR. THORNBERRY OF TEXAS

At the end of title VIII, add the following new section:

SEC. 843. BRIEFING ON DESIGN-BUILD CONSTRUCTION PROCESS FOR DEFENSE CONTRACTS.

Not later than February 1, 2017, the Secretary of Defense shall provide to the Committee on Armed Services of the House of

Representatives a briefing on the use and implementation of the two-phase design-build selection procedures. The briefing shall address the following:

(1) How the Department of Defense continues to implement the updates to the Federal Acquisition Regulation that implemented the 2015 amendments to section 2305a, title 10, United States Code.

(2) A list of instances in which the Department awarded a design-build contract pursuant to section 2305a of title 10, United States Code, that had more than five finalists for phase-two requests for proposals during fiscal year 2016, and the list of design-build requests for proposals that used a one-step process.

(3) Any feedback the Department has received from industry.

(4) Any challenges to the implementation of the statute.

(5) Any additional criteria identified by the Secretary.

Mr. THORNBERRY (during the reading). Mr. Chairman, I ask unanimous consent that the reading of the modification be dispensed with.

The Acting CHAIR. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Acting CHAIR. Is there objection to the modification?

There was no objection.

The Acting CHAIR. Pursuant to House Resolution 732, the gentleman from Texas (Mr. THORNBERRY) and the gentleman from Texas (Mr. VEASEY) each will control 10 minutes.

The Chair recognizes the gentleman from Texas (Mr. THORNBERRY).

Mr. THORNBERRY. Mr. Chairman, these amendments have been worked out with the minority. I believe that they should be acceptable to all Members.

I reserve the balance of my time.

Mr. VEASEY. Mr. Chairman, I am not in opposition to the amendments. At this time, I am waiting for a speaker.

I reserve the balance of my time.

Mr. THORNBERRY. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Georgia (Mr. JODY B. HICE).

Mr. JODY B. HICE of Georgia. Mr. Chairman, I rise in strong support of our national defense. We have a constitutional responsibility to provide for and maintain our military forces. And this legislation, H.R. 4909, prevents the President from reducing our troops’ pay raises and, most importantly, provides our military with the resources they need to restore our readiness levels.

Today, as we all know, we are facing threats from all around the world, and many of our adversaries are using new technologies and methods that require our forces to be able to adapt and respond more quickly than ever before.

Our U.S. Cyber Command being unified and fully funded is a critical aspect of the whole picture, including Fort Gordon’s Cyber Center of Excellence. It will enable our military to be better prepared to respond to the threats we are facing today.

Mr. Chairman, over the past several years, we have all been inundated with stories of the White House staffers who fall under the NSC umbrella, micro-managing both our foreign policy and our defense policy, even going so far as to circumvent or ignore senior officials altogether.

I am strongly supportive of Chairman THORNBERRY’s amendment to reduce the size of the National Security Council. He is absolutely right that 400 people is not the makeup of an advisory committee; that is the size of another executive agency.

So I am in full support of H.R. 4909. I urge my colleagues to support that bill as well.

Mr. VEASEY. Mr. Chairman, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Chairman, I yield 2 minutes to the gentleman from New York (Mr. GIBSON), a valued member of the House Committee on Armed Services.

Mr. GIBSON. Mr. Chairman, I rise in strong support of this bill. I thank the chairman and the ranking member. I think we have made significant progress in restoring readiness to our Armed Forces and also a marked progress in reform, which is very necessary to our national security going forward.

Mr. Chairman, I want to express my gratitude to the chairman and ranking member for including a bill that I drafted along with the help of so many others—Chairman TURNER, Representative WALZ of Minnesota—that stops the drawdown of our Armed Forces. So critically important for restoring deterrents, peace through strength, is that we not give pink slips to the 67,000-plus troops that were heading in that direction in the next 2 years. This committee working together in a bipartisan way stopped that drawdown, and I think that is critically important.

Related, I would say that the work that we are doing on the global response force, the GRF, is also critically important to deterrents. And I believe that ultimately it strengthens the hands of diplomats when we have the ability to strategically maneuver. I am appreciative of the resources and the oversight in this bill to strengthen the GRF.

Finally, let me say how much I really appreciate the pay raise to the troops. After 29 years in uniform, I can’t adequately describe how much I appreciate the sacrifices and the service of our servicemen and -women. Giving them this pay raise, I think, was critically important.

I urge all my colleagues to support this bill.

Mr. VEASEY. Mr. Chairman, I yield 1 minute to the gentlewoman from Wisconsin (Ms. MOORE).

Ms. MOORE. Mr. Chair, I thank the chairman and ranking member for their support.

My amendment would condemn the continuing attacks against and the intentional targeting of medical facilities and medical providers in Syria. I

want to remind my colleagues that these facilities are entitled to protection under international law. Yet, we continue to hear about airstrikes in Syria targeting these hospitals and medical facilities. Just pick up the newspaper. In 1 week, six facilities in Aleppo were targeted.

Intentional attacks against hospitals, surgeons, nurses, and other healthcare workers is not a norm that we should accept.

Neither is the Syrian Government's blocking of humanitarian aid, including medical aid. Just last week, a U.N.-Red Cross aid convoy, including medical aid to a besieged Syrian city, was blocked by the Syrian Government. A former top U.N. humanitarian official tweeted his disgust that the aid had been blocked "because it carried baby milk."

The Acting CHAIR. The time of the gentlewoman has expired.

Mr. VEASEY. Mr. Chairman, I yield 15 seconds to the gentlewoman from Wisconsin.

Ms. MOORE. Mr. Chair, I commend the courageous healthcare providers and nonprofit groups that are working in the midst of these attacks to provide health care to the millions under siege in Syria. Too many have died and too many more will die if we continue to be sorry.

Mr. THORNBERRY. Mr. Chair, I yield 2 minutes to the gentleman from Georgia (Mr. AUSTIN SCOTT), another valuable member of the House Armed Services Committee.

Mr. AUSTIN SCOTT of Georgia. Mr. Chair, the world has become an increasingly unstable place due to conflicts in the Middle East and provocations by Russia, China, and North Korea. In order to maintain our national security in this environment, we must ensure that the United States military remains the best trained and most well-equipped fighting force in the world.

My home State of Georgia plays an essential role in maintaining military readiness as we are the home to nine major military installations. As the only Republican from Georgia on the House Committee on Armed Services, it is an honor to serve as Georgia's primary voice in Congress on military issues.

My top priority is to offer effective representation of Robins Air Force Base and Moody Air Force Base, in addition to all of Georgia's military installations. That is why I am proud to support the House version of the National Defense Authorization Act for Fiscal Year 2017, which came out of the House Committee on Armed Services with a bipartisan vote of 60-2.

This legislation takes many important steps to rectify the damage to our military readiness done by President Obama's cuts to our defense budget over the last few years.

We have got some big wins for Georgia in this NDAA. We, again, fought to make sure that two of the Air Force's

most valuable platforms stay in the air: the A-10 flown out of Moody Air Force Base and E-8C Joint Surveillance Target Attack Radar System, better known as JSTARS, flown out of Robins Air Force Base.

Both of these fleets are taking the fight to the enemy right now. The A-10 is currently engaged in the fight against ISIS in the Middle East and supporting our Special Forces by carrying out precision strikes against these terrorists.

Additionally, I am grateful that the committee adopted my amendment to delay retirement of the JSTARS through fiscal year 2018. This legislation also provides for the recapitalization of that fleet.

During the committee process, we moved to protect the C-130 depot workload. Robins is an efficient and effective depot center and has the potential to become the C-130 center of excellence for our country.

I believe the House version of the NDAA sets us on a course that sustains military readiness, makes appropriate investments for future threats, continues to reform the DOD's outdated acquisition strategy, and supports the significant contributions that Robins, Moody, and other Georgia military institutions make to our national defense.

I urge my colleagues to support our troops, get our military readiness back on track, and pass H.R. 4909, the National Defense Authorization Act for Fiscal Year 2017.

Mr. VEASEY. Mr. Chairman, I yield 2 minutes to the gentleman from Arizona (Mr. GALLEGO).

Mr. GALLEGO. Mr. Chairman, today I rise on behalf of the estimated one in five veterans of the Iraq and Afghanistan wars who suffer with post-traumatic stress disorder, or PTSD.

The Department of Defense and the Veterans Health Administration have collaborated to develop clinical practice guidelines for PTSD. According to a GAO report earlier this year, the Veterans Health Administration currently monitors the prescribing of medications that are included in these guidelines, but DOD and the Army do not. This discrepancy could result in negative consequences for our men and women in uniform undergoing treatment in military medical facilities.

My amendment would require each branch of the armed services to monitor the prescribing practices of medications to treat symptoms of PTSD among servicemembers. By monitoring the prescribing practices, we can make sure our returning warfighters receive the proper treatment necessary to alleviate the symptoms of PTSD.

I urge my colleagues to support my amendment.

Mr. THORNBERRY. Mr. Chairman, I reserve the balance of my time.

Mr. VEASEY. Mr. Chairman, I yield 3 minutes to the gentlewoman from Texas (Ms. JACKSON LEE).

□ 1615

Ms. JACKSON LEE. Mr. Chair, coming from the State of Texas, let me express my continued appreciation for the men and women of the United States military, so many of them living in our State, so many different bases, so many veterans living in our State as well, which has caused me to continue to support the men and women who are posted overseas, those who are here domestically as well on bases here in the United States, and, of course, our veterans.

As we move toward Memorial Day, it is important that we look holistically at our military and look at them as an entity that includes personnel. I want to take note of the fact that there is a 2.1 percent pay increase for military personnel and that this bill does update the Uniform Code of Military Justice to include new protections for victims of military sexual assaults.

I am concerned, however, that the bill shortchanges war funding for efforts against ISIS and redirects funds that should continue to be used for base budget projects toward nonwar-related base budget projects. Let me be clear that I think some of these projects are very important, but I would have wanted this legislation to deal with the fight against ISIS and not go into the contingency fund. As I indicated, I heard the debate and there was some suggestion that the President's budget went into the contingency fund, but in the way that it is done in this bill, it is larger than should be.

I also want to take note of the fact that I have concerns regarding an amendment in the bill, and I hope that we will be able to address it because this amendment allows any religious corporation, religious association, religious educational institution, or religious society that receives a Federal grant or grant to claim religious exemptions from antidiscrimination protections of LGBT individuals whom they may employ.

I believe in the First Amendment and the separation of church and State and, as well, religious freedom, but under the Federal funding where we as taxpayers have the responsibility not to discriminate against anyone, this goes against that duty, and it also undermines President Obama's landmark 2014 executive order banning all Federal contractors and grantees from discrimination on the basis of sexual orientation or gender identity. So I am hoping, Mr. Chairman, that we will have the opportunity to work through this legislation and to move forward in a way that embraces all Americans.

I do want to thank, however, Chairman THORNBERRY and Ranking Member SMITH and the Committee on Rules for making two of my amendments in order. They are in the en bloc No. 1 and No. 2.

The Acting CHAIR. The time of the gentlewoman has expired.

Mr. VEASEY. Mr. Chair, I yield an additional 1 minute to the gentleman from Texas.

Ms. JACKSON LEE. The amendments are amendment No. 8 and amendment No. 9.

Amendment No. 8 calls for outreach for small-business concerns owned and controlled by women and minorities prior to conversion of certain functions to contract upfront performance.

Amendment No. 9 requires the Government Accountability Office to include in its annual report to Congress a list of the most common grounds for sustaining protests relating to bids for contracts.

These are important amendments because they help to grow small businesses owned and controlled by women and minorities before conversation of certain functions of contractor performance. This amendment seeks to provide information to businesses that may have little experience in government contracting to make them aware of new opportunities.

Amendment No. 9 seeks a report to be provided to oversight committees to better understand the circumstances that impact when a company wins a Federal contract award that is challenged. These challenges often come from companies that are big, competing for the same contract, and little companies can't stand up. Successfully competing for a Federal contract can be difficult and costly, especially for new entrants into Federal contracting competition.

I would ask my colleagues to support the included amendments and look forward to us working through this bill on some of the issues of concern.

Mr. Chair, I thank Chairman THORNBERRY and Ranking Member ADAM SMITH and the Rules Committee for making in order and including in En Bloc Number 1 two of the amendments I have offered to "National Defense Authorization Act for Fiscal Year 2017."

The first of these amendments, Amendment Number 8 calls for outreach to small business concerns owned and controlled by women and minorities prior to conversion of certain functions to contractor performance.

The second amendment, Jackson Lee Amendment Number 9, requires the Government Accountability Office to include in its annual report to Congress a list of the most common grounds for sustaining protests relating to bids for contracts.

Amendment Number 8 will provide information to businesses that may have little experience in government contracting to make them aware of new opportunities to contract for business with the Department of Defense.

There are instances where it is prudent and appropriate for agencies to engage in sole source contracting.

This can occur if the work is highly specialized and only one source can meet the needs of a component or agency.

A sole source contract arrangement might arise because the work is only for a brief period of time.

However, these sole source contracting arrangements may over time be converted to a competitive bidding process.

The Jackson Lee amendment ensures that the Department of Defense make known to small and minority owned businesses when a sole source contract will be converted to a competitive bidding process.

Having more competition for government contracting is the goal.

Receiving notice that a new competitive bidding opportunity is coming does not mean that an award will be made to that business.

However, the more businesses who compete for Federal government business the better off the government and the economy will be.

Amendment Number 9 requires GAO to conduct a study and report to Congress on the successful challenges to competitive bid awards.

Challenges to federal contract awarded by competitive bidding often come from companies that were unsuccessful in winning the contract in the bidding process.

Successfully competing for a federal contract can be difficult and costly especially for new entrants into federal competitive contracting.

Challenges to federal contract awards, especially when the winner is a small business can make it difficult for these businesses to pursue opportunities they have won.

The amendment provides Congress relevant and useful information regarding how often challenges to a contract award are sustained and awards withdrawn, and upon which grounds.

I thank Chairman THORNBERRY and Ranking Member SMITH for including these amendments in the En Bloc Amendment Number 1, and I urge all Members to join me in voting for its adoption.

Mr. VEASEY. Mr. Chair, I yield back the balance of my time.

Mr. THORNBERRY. Mr. Chairman, I yield back the balance of my time.

Mr. ROYCE. Mr. Chair, I rise in strong support of this amendment, the text of which was previously adopted and favorably reported by the Committee on Foreign Affairs as H.R. 4678.

This amendment focuses on asserting Congress's longstanding constitutional and legal authority to determine the future of the U.S. military base at Guantanamo, which senior military officers continue to view as "indispensable" to our national security and to our strategic and humanitarian operations in this Hemisphere.

For decades—and most recently during the President's trip to Havana—the Cuban regime has demanded the return of the base as a prerequisite to the normalization of relations with the United States.

This amendment lays out the legal and historical case why a President may not weaken U.S. "jurisdiction and control" over the base without affirmative Congressional action—either a new statute or a treaty concluded with Senate consent.

U.S. Naval Station Guantanamo Bay is not a typical basing situation, and U.S. control is not premised on a treaty. Its history is wholly unique and has its roots in Acts of Congress.

Cuba became an American protectorate after the U.S. prevailed in the Spanish-American War, which Congress had declared in 1898. In 1901, Congress rightly granted the President conditional authority to return control and governance of the island to the people of

Cuba, subject to the express requirement of securing U.S. Naval basing rights there. In fact, the Administration stated that it did not have the power to return governance until that Congressional condition had been met.

When the President signed the 1903 Guantanamo Lease—the agreements under which the U.S. continues to exercise "complete jurisdiction and control" over the base—the President specifically cited the 1901 Act of Congress as providing his authority to do so.

The last Treaty of Relations between the U.S. and Cuba (in 1934) did not nullify, replace, or change the 1903 lease agreements, but noted that they "shall continue in effect" until the U.S. and Cuba agree to modify them.

This means that any executive attempt to impair the United States' "jurisdiction and control" over Naval Station Guantanamo Bay without congressional authority would illegally nullify the 1901 Act of Congress, and infringe on Congress's exercise of its express constitutional powers.

Some say giving up Guantanamo isn't in the cards. Why worry? The Assistant Secretary of State for Legislative Affairs has recently written, stating that "the United States has no plans to alter any of the arrangements regarding the base."

But saying that you "have no plans" to do something is not the same as saying that you will not do something. As we have seen in any number of prior situations—whether it be unfulfilled pledges of consultation with Congress prior to any Cuba policy change, or the 11th hour lifting of missile restrictions as part of the Iran nuclear deal—plans can change very quickly, for the worse, with no prior warning to Congress.

And we should be concerned about the next Administration's plans. This amendment is about protecting congressional prerogative during this Administration, and the next, and the next.

Congress needs to make clear its role in any decision to relinquish U.S. Naval Station Guantanamo Bay, which remains indispensable to our nation's defense, and our support for regional stability. This amendment does this, and deserves our support.

The Acting CHAIR. The question is on the amendments en bloc, as modified, offered by the gentleman from Texas (Mr. THORNBERRY).

The en bloc amendments, as modified, were agreed to.

AMENDMENT NO. 2 OFFERED BY MR. WESTERMAN

The Acting CHAIR. It is now in order to consider amendment No. 2 printed in part B of House Report 114-569.

Mr. WESTERMAN. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle B of title I, add the following new section:

SEC. 1. FUNDING FOR SURFACE-TO-AIR MISSILE SYSTEM.

(a) INCREASE.—Notwithstanding the amounts set forth in the funding tables in division D, the amount authorized to be appropriated for procurement, as specified in the corresponding funding table in section 4101, for missile procurement, Army, surface-to-air missile system, MSE missile (Line 002) is hereby increased by \$82,400,000.

(b) OFFSET.—Notwithstanding the amounts set forth in the funding tables in division D,

the amount authorized to be appropriated for Department of Energy national security programs, as specified in the corresponding funding table in section 4701, for Defense Nuclear Nonproliferation, Defense Nuclear Nonproliferation Programs, Defense Nuclear Nonproliferation R&D, Material management and minimization is hereby reduced by \$82,400,000.

The Acting CHAIR. Pursuant to House Resolution 732, the gentleman from Arkansas (Mr. WESTERMAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arkansas.

Mr. WESTERMAN. Mr. Chairman, I yield myself such time as I may consume.

I rise in support of my amendment for a budget neutral increase in funding for Army surface-to-air missile systems. The Patriot Advanced Capability-3 Missile Segment Enhancement, or the MSE, is the next generation of the battle-proven PAC-3 interceptor for the Patriot air defense system. Along with its earlier generation PAC-3 interceptor, the Missile Segment Enhancement is the world's most capable air and missile defense missile.

PAC-3 missiles are high-velocity interceptors that destroy incoming targets with direct body-to-body impact. This hit-to-kill impact produces a tremendous amount of energy that defeats tactical ballistic missiles carrying weapons of mass destruction and/or submunition payloads, cruise missiles, unmanned aerial vehicles and aircraft.

The MSE missile provides a 50 percent improvement in altitude and 100 percent improvement in range over earlier PAC-3 interceptors and is required to address advance air and missile defense threats.

MSE capability is in great demand across the deployed force. In fact, the MSE missiles have been on the Army's unfunded request top priorities list. Additional missiles have been on the Army UFR the past 2 years and have been funded by Congress.

This amendment would allow approximately 20 new missiles to be purchased in fiscal year 2017, which would put the total at 105 missiles, which is still below the fiscal year 2015 and fiscal year 2016 levels. If we add these additional 20 missiles, the unit cost of the missiles would go down as well because of the quantity of scale in the program.

Mr. Chairman, I reserve the balance of my time.

Mr. VEASEY. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. VEASEY. Mr. Chairman, I yield 2 minutes to the gentleman from California (Mr. GARAMENDI).

Mr. GARAMENDI. Mr. Chair, yes, we would surely like to do what my colleague suggests. However, it does leave us rather vulnerable to terrorism, terrorism that would be carried out by those who might want to get their hands on highly enriched uranium or other elements to either make a bomb or to create a dirty bomb.

The money comes from a very, very important fund, a fund that the National Nuclear Security Administration uses to secure loose nukes and highly enriched uranium and other kinds of material that might be used in making a bomb. It would be wonderful if we could carry out what our colleague would like to do for the surface-to-air missiles. I mean, those are important. But don't take the money from this account.

This account is extremely important in preventing the proliferation of nuclear materials as well as how we need to convert those reactors around the world, including here in the United States, that are capable of producing plutonium and highly enriched uranium.

I don't have a problem with where the gentleman tends to augment the surface-to-air missile defense program or the air-to-surface program but, rather, from where he is taking, the account. I would suggest to the gentleman that we would be far better off finding a different place, one that has far less risk to us.

The terrorists are out there. They are looking to get their hands on this kind of fissile material, and they will be able to do so unless we use the money in this program from the National Nuclear Security Administration, atomic agency, to secure these sites and materials.

Mr. WESTERMAN. Mr. Chairman, I yield such time as he may consume to the gentleman from Alabama (Mr. ROGERS).

Mr. ROGERS of Alabama. Mr. Chairman, I rise in support of the gentleman from Arkansas' amendment.

The Army included Patriot MSE procurement as number 12 on its fiscal year 2017 UFR list to "mitigate critical shortfall in Army war reserve requirements."

The ballistic missile threat from Russia, China, Pakistan, Iran, and North Korea is growing. We owe it to our men and women in uniform to give them the tools they need to defend themselves when we send them into harm's way.

I know that on the other side of the aisle they look at every dollar that goes to the defense nuclear nonproliferation budget as sacrosanct, but I know that the House Subcommittee on Energy and Water Development, and Related Agencies mark also has skepticism about whether this technology is ready for prime time.

As the chairman of the Subcommittee on Strategic Forces, I urge the support of this amendment offered by the gentleman from Arkansas.

Mr. VEASEY. Mr. Chairman, I yield 2 minutes to the gentleman from Nebraska (Mr. FORTENBERRY).

Mr. FORTENBERRY. Mr. Chair, Senator MARK KIRK, who used to be a Member of this body, told me a story a while back. He was a bomber pilot during the Bosnian war, and during that war he literally carried a map in his

hands, and there was a red circle drawn around a particular point on that map, and it said, "Do not bomb here."

What was there? Loose nuclear materials, unsecured, that could have been a disaster had we inadvertently struck that target.

Loose nuclear materials are all around the world. We have a very specialized program here called the global material security initiative program that helps secure these materials, brings down the risk that they will get into the wrong hands, brings down the risk of a nuclear explosion—which is an absolutely critical national security priority—to as close to zero as possible. I know it is not the intention of the author of the amendment, my friend Mr. WESTERMAN, to undermine this program.

In fact, I support the underlying intent of enhancing the surface-to-air missile program, but this is the wrong place to take this money from. The Department of State, the Department of the Treasury, the Department of Defense, and the Department of Energy as well as other agencies are sharing in the multitasked effort to try to have a multipronged effect on reducing the probability of a nuclear weapons explosion, reducing the probability of nuclear materials getting into the wrong hands to, again, as close to zero as possible.

That is why, as we move forward in looking at how to enhance important programs like my friend has raised, we should look for it in the right places and not undermine a critical aspect of our national security.

I thank the gentleman from Texas for yielding.

Mr. WESTERMAN. Mr. Chairman, I would also like to commend the Material Management and Minimization program for the work that they have done, but as was stated before, the House Subcommittee on Energy and Water Development, and Related Agencies of the Committee on Appropriations said:

A significant portion of the highly enriched uranium minimization efforts going forward will involve multiyear research and development activities. To better align research and development-related activities with resident expertise for managing such activities within the Office of Defense Nuclear Nonproliferation, the recommendation shifts funding responsibility for the development of fuel for high-performance research reactors and for demonstrating and commercially deploying domestic-based technologies for the production of the medical isotope Mo-99 to defense nuclear proliferation research and development.

Mr. Chairman, I believe this is the appropriate place to offset the funding for these additional missiles. These missiles are critical to our Nation's defense.

Mr. Chairman, I reserve the balance of my time.

Mr. VEASEY. Mr. Chairman, I yield 1 minute to the gentleman from Tennessee (Mr. COOPER).

Mr. COOPER. Mr. Chair, I think most of us are very interested in supporting the MSE portion of this. I just worry about the offset. It is very important that we make sure we do not raid the nonproliferation account in order to pay for what may be a very worthy priority.

You remember that Secretary of Defense Robert Gates didn't even allow an unfunded request to be transmitted to Congress. That removed a certain temptation from us. We all know there are a number of these requests, and some of them should be funded, but to raid the nuclear safety account—because that is basically what nonproliferation is—is a very dangerous precedent. I would urge the gentleman to reconsider.

We hope to work on this amendment in conference, but this is not a piggy bank we are raiding. This is not a slush fund. This is an account that could keep America safe from a nuclear attack. I would urge the gentleman, as he pursues his very worthy priorities, to not pursue an offset in this area.

I thank the gentleman. He is an excellent Member, but I think that we should all be very aware of the importance of the nonproliferation account.

□ 1630

Mr. WESTERMAN. Mr. Chairman, I would like to emphasize that, even with these additional 20 missiles, we will still be below the numbers for FY 2015 and FY 2016. This is an unfunded request and high priority for the Army, and I encourage a positive vote on this amendment.

Mr. Chair, I yield back the balance of my time.

Mr. VEASEY. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arkansas (Mr. WESTERMAN).

The amendment was agreed to.

AMENDMENT NO. 3 OFFERED BY MR. GARAMENDI

The Acting CHAIR. It is now in order to consider amendment No. 3 printed in part B of House Report 114-569.

Mr. GARAMENDI. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle D of title I, add the following new section:

SEC. 1. FUNDING FOR LARGE AIRCRAFT INFRARED COUNTERMEASURES.

(a) INCREASE.—Notwithstanding the amounts set forth in the funding tables in division D, there is authorized to be appropriated \$17,930,000 for procurement, Air Force, Large Aircraft Infrared Countermeasures.

(b) OFFSET.—Notwithstanding the amounts set forth in the funding tables in division D, the amount authorized to be appropriated for research, development, test, and evaluation, as specified in the corresponding funding

table in section 4201, for advanced component development & prototypes, Ground Based Strategic Deterrent (Line 044) is hereby reduced by \$17,930,000.

The Acting CHAIR. Pursuant to House Resolution 732, the gentleman from California (Mr. GARAMENDI) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. GARAMENDI. Mr. Chairman, every day men and women from Travis Air Force Base fly the big C-17s and C-130s and other heavy, large aircraft into harm's way in Iraq, Afghanistan, and over and around Syria. Every day they are at risk. They are at risk from being shot down by a shoulder-fired missile.

There is a defense for this. It is called the Large Aircraft Infrared Countermeasures defense system. It is one of the unfunded requests that the Air Force has made of us. This amendment would fund at least part of that request and provide a higher level of safety to the men and women in the Air Force that fly these large aircraft into harm's way.

I don't think there is one of us here on the floor, in the House, or even in the Senate that would deny that flying these aircraft into the airfields of Afghanistan, even into Bagram, and certainly into Baghdad, is always safe. It is not.

There is a proliferation of these shoulder-fired MPADS, and they are increasingly available to the bad guys, who our men and women are trying to take out.

So we are looking here to move \$17-plus million from an account that is not needed—at least, the money is not needed at this time—over to something that is desperately needed, a defensive system for our large Air Force aircraft, removing the money from the new Minuteman IV intercontinental ballistic missile program, which is not scheduled to be fielded until 12 years from now, and taking that just short of \$18 million out of that account and moving it over so that our pilots and crew members can be safer.

We don't need that money for these new intercontinental ballistic missiles that are 12 years away. What we need is to protect our men and women today with Large Aircraft Infrared Countermeasures equipment. That is what this is all about.

It is pretty simple. It is a matter of choices: do we choose to protect our men and women today or augment a program that doesn't need the money, according to the GAO. I choose to protect our men and women today and not to fund a program that the GAO says doesn't need this \$17.9 million.

Mr. Chair, I reserve the balance of my time.

Mr. ROGERS of Alabama. Mr. Chairman, I claim the time in opposition to the amendment.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. ROGERS of Alabama. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chair, I strongly oppose the amendment, and so does the United States Air Force. The Air Force opposes the offset in this amendment, which would take \$17.9 million from the Ground-Based Strategic Deterrent, also called GBSD, program.

I and the Air Force oppose the offset because the \$17.9 million is already being used in a pending reprogramming action. Taking the money via this amendment would delay this program.

This is what the Air Force says about taking this money:

Removing these funds . . . would be a double-take to the program, hindering the GBSD contractors' ability to fully fund their Technology Maturation and Risk Reduction phase contracts. This would prevent the winning contractors from appropriately ramping up their efforts . . . and result in a 5-month delay.

Furthermore, GAO does not support this reduction. The gentleman is basing his argument on GAO's initial draft budget fact sheet released over a month ago, which said that the \$17 million offset may be available.

However, in its final GAO budget fact sheet released today, GAO says:

The Air Force's Fiscal Year 2017 request for GBSD could be reduced by a total of \$17.93 million—as long as the funds are not reprogrammed.

In their final fact sheet, GAO also said that the GBSD account for FY 2017 should only be reduced to offset the excess \$17.93 million if the funds remain with the program and are not reprogrammed as currently planned.

So both the GAO and the Air Force oppose the offset in this amendment.

Furthermore, two successive Secretaries of Defense say that nuclear deterrence is DOD's most important mission.

Here is Secretary Hagel:

Our nuclear deterrent plays a critical role in assuring U.S. national security, and it is DOD's highest priority mission. No other capability we have is more important.

And here is Secretary Carter:

The nuclear mission is the bedrock of our security. It is what stands in the background and looms over every action this country takes on the world stage. It is the foundation for everything we do.

In short, GBSD is the future of one leg of the triad and must remain on schedule. According to the Air Force and GAO, this amendment delays that schedule. Let's be clear. This is an antinuclear disarmament amendment disguised as something else.

I urge my colleagues to vote "no" on the amendment.

I reserve the balance of my time.

Mr. GARAMENDI. Mr. Chair, this is most assuredly not a disarmament. We are scheduled to spend a trillion dollars on this kind of program. It is hardly a disarmament. We are talking about \$17.9 million; yet, this nuclear security program is a trillion over the next 25 years. It is hardly a disarmament.

The reality is that this money is not needed now. This money is going to be

reprogrammed by the Air Force to be spent next year—without our authority, but I suppose with summary programming authority—when we know that the Air Force has C-17s, C-130s, and other large aircraft that can be shot out of the sky now, not in 2028 and beyond, but now.

Are we unwilling to protect our airmen and -women that are on these airplanes? This is not disarmament. This is about protecting the men and women that are flying dangerous missions into Afghanistan, into Iraq, into other places where the terrorists do have MPADS and can shoot them out of the sky.

Don't give me that business that this has something to do with disarmament. This has to do with protecting the men and women that are flying our large aircraft and giving them the protection that they need.

Mr. Chair, I yield back the balance of my time.

Mr. ROGERS of Alabama. Mr. Chair, this is about disarmament.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. GARAMENDI).

The amendment was rejected.

AMENDMENT NO. 10 OFFERED BY MR. MCKINLEY

The Acting CHAIR. It is now in order to consider amendment No. 10 printed in part B of House Report 114-569.

Mr. MCKINLEY. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Add at the end of title VIII the following new section:

SEC. 843. POLICY REGARDING SOLID ROCKET MOTORS USED IN TACTICAL MISSILES.

(a) POLICY.—The Secretary of Defense shall ensure that every tactical missile program of the Department of Defense that uses solid propellant as the primary propulsion system shall have at least two fully certified rocket motor suppliers in the event that one of the rocket motor suppliers is outside the national technology and industrial base (as defined in section 2500(1) of title 10, United States Code).

(b) WAIVER.—The Secretary may waive subsection (a) in the case of compelling national security reasons.

The Acting CHAIR. Pursuant to House Resolution 732, the gentleman from West Virginia (Mr. MCKINLEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from West Virginia.

Mr. MCKINLEY. Mr. Chairman, this bipartisan amendment seeks to address the problem of America's declining defense industrial base.

Consider these facts. Since the 1980s, the number of American rocket motor companies has declined by 60 percent with only two companies remaining able to manufacture motors that propel our missiles.

The Department of Defense has already published seven reports going

back to 2009 and all the way up to last year, all talking about specifically warning of the danger of this decline of our solid rocket motor industrial base. In these reports, they use terms like "at risk," "vulnerable," "shrinking," "atrophying," and "fragile."

Despite these reports, the Air Force has permitted outsourcing of rocket motors for tactical missiles to foreign companies without even giving other U.S. companies the opportunity to compete.

Mr. Chairman, this illustrates why so many Americans are frustrated with Washington. The DOD has identified a problem, but they haven't done anything about it since these reports have been surfacing.

This amendment will help correct the problem, strengthen the solid rocket motor industrial base, and possibly create American manufacturing jobs.

The amendment simply says that, if there is a foreign supplier for solid rocket motors on our missiles, the DOD must ensure there is a second supplier available. The second supplier can be domestic or it can be foreign.

Last year a similar provision passed in the House NDAA, but was removed in conference with the Senate. Since that time, we have modified this amendment to try to find a compromise that would be acceptable.

Now, the bottom line is: This is about an opportunity to strengthen America's industrial base and American jobs.

The question remains: Does Congress stand for American jobs or with continued foreign outsourcing and weakening our fragile manufacturing capacity?

Mr. Chairman, let's give our firms in America an opportunity to compete.

I would like to thank Chairman THORBERRY for his support of this amendment and his staff for working with us as well as our bipartisan sponsors of this amendment.

I urge a "yes" vote on this amendment.

I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Chair, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. SMITH of Washington. Mr. Chair, I yield to the gentlewoman from Arizona (Ms. MCSALLY).

Ms. MCSALLY. Mr. Chair, I rise today in strong opposition to this proposed amendment. Although I have respect for my colleague and teammate, I have strong reservations and opposition to this amendment.

This amendment is a solution in search of a problem. It would delay critical missile capabilities to the warfighter and will be more costly to the taxpayer.

Only two tactical missile programs in production today use international motors, and both of them are made by our friend, Norway.

If enacted, prime contractors will have to pause production of critical tactical missiles and spend tens of mil-

lions in compliance costs to certify an alternative product that does not currently exist.

What is more, while we wait for the second company to develop a working product line, we will slow production of missiles needed by warfighters today.

The history for why past programs have used international motors is important to keep in mind. In 2011, after a history of success, the AMRAAM missile, which is a critical air-to-air missile—and, as a fighter pilot, I know a little bit about capabilities—that was built by a domestic company, but began to fail in cold weather.

Think about that. You are a fighter pilot. You have been called to engage with the enemy. You have got them in your sight.

□ 1645

You hit the pickle button and the missile fails on you; puts your life at risk and the risk of air superiority and our military capabilities and the military mission.

In that circumstance, the domestic company was unable to solve the problem, so we turned to a back-up company in Norway. Our NATO ally, Norway, stepped in to fill the production gap for the AMRAAM program, which produces missiles we sell to dozens of our partner nations to guarantee air superiority in any contingency.

Without our foreign partner, the AMRAAM program could have been shut down for up to 5 years. Instead, we turned around a 2-year production lag and put the missile program ahead of schedule.

If this amendment passes, it will put a dangerous pause on this critical air-to-air missile program, risking air superiority for us and our allies.

If the domestic producer, which will benefit from this amendment, wants its rocket motors back on the AMRAAM missile, they need to fix their quality issues and compete when the shortfalls are addressed instead of asking Congress to take up the slack with an earmark-like amendment like this one.

The amendment puts parochial interests above what is best for our fighter pilots, our warfighters, and our military readiness. That is not right, and we owe it to our troops to shoot it down.

In closing, the Department of Defense, the Navy and the Air Force have all expressed strong opposition to this amendment.

The Pentagon believes this language would require significant program investment and ultimately result in increased program costs that will be passed on to the taxpayer or come at the expense of other important defense spending and readiness, which we are trying to fix in this bill today. We simply cannot afford it.

Current law already provides the authority for the Department of Defense to address this issue. Mandating two vendors is merely a clever effort to essentially put an earmark for a specific

defense company into this bill. This same amendment was debated last year, but it was dropped in conference. It will ultimately harm our warfighters in a time that we need to be giving them every advantage, ensuring the equipment that they have is reliable.

I strongly urge a “no” vote on this amendment.

Mr. MCKINLEY. Mr. Chairman, how much time do I have?

The Acting CHAIR. The gentleman from West Virginia has 2¼ minutes remaining.

Mr. MCKINLEY. Mr. Chair, I yield myself such time as I may consume.

Let’s try to clarify this. And I do appreciate the remarks of my colleague.

We are talking about a situation that when the performance specification was changed, there was a problem. I recognize that.

But the problem here, or the issue here is that the defense already was embarking on going overseas to find a supplier before there were any problems that had surfaced with this. This has been cleared. We understand that.

Now, let’s go further with this. We are not talking about just an American firm. There are two, possibly there could be another one that could emerge, three or four. Remember, we used to have far more rocket motor manufacturers in America. We are down to two now.

Now, maybe there is going to be a foreign corporation, someone else that surfaces with this. We know there are others. But it just seems patently shortsighted for us in America, with all this purchasing power that we have, to limit ourselves to one supplier, one supplier.

So what we are saying is, fulfill the specifications, find out whether or not you can get another firm as qualified to be able to do this, whether it is foreign or domestic. But let’s have competition. For the American public and our defense and our spending, I think it is a fiscally responsible thing to do to try to find a way to be responsible in our dollars. So it may be an American firm. Quite frankly, I hope it is. And then we can stimulate our declining industrial defense base. But if it is someone else, at least we are going to find we have competition. And unless I am wrong, I always thought that the American way was finding competition to be able to compete with us.

This amendment gives us an opportunity. Since 2009, our government has come out with report after report after report after report that there is a problem. We need to address it.

But they have done nothing other than outsourcing this material. I think it is time that we take action, we allow an opportunity for a second firm to compete.

Mr. Chairman, I yield back the balance of my time.

Mr. SMITH of Washington. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gen-

tleman from West Virginia (Mr. MCKINLEY).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. MCKINLEY. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from West Virginia will be postponed.

The Committee will rise informally.

The Speaker pro tempore (Mr. HOLDING) assumed the chair.

AMENDMENT NO. 11 OFFERED BY MR. THORNBERRY

The Acting CHAIR (Mr. ROTHFUS). It is now in order to consider amendment No. 11 printed in part B of House Report 114-569.

Mr. THORNBERRY. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle B of title IX, add the following new section:

SEC. 9. REFORM OF NATIONAL SECURITY COUNCIL.

(a) FINDINGS.—Congress finds the following:

(1) The National Security Council has increasingly micromanaged military operations and centralized decisionmaking within the staff of the National Security Council. The size of the staff has contributed this problem.

(2) As stated by former Secretary of Defense Robert M. Gates, “It was the operational micromanagement that drove me nuts of White House and [National Security Council] staffers calling senior commanders out in the field and asking them questions, second guessing commanders”, and by another former Secretary of Defense Leon Panetta, “[B]ecause of that centralization of that authority at the White House, there are too few voices being heard in terms of the ability to make decisions and that includes members of the cabinet.”

(3) Gates stated, “You have 25 people working on a single military problem... They are going to be doing things they shouldn’t be doing,” and Panetta noted, “The National Security Council has grown enormously, which means you have a lot more staff people running around at the White House on these foreign policy issues.”

(4) Press reports indicate that National Security Council micromanagement has included selecting targets in ongoing military

operations, specifying detailed parameters and limitations on military operations, and managing military planning and the execution of plans.

(5) As stated in section 101(a) of the National Security Act of 1947 (50 U.S.C. 3021(a)), the “function of the Council shall be to advise the President with respect to the integration of domestic, foreign, and military policies relating to the national security so as to enable the military services and the other departments and agencies of the Government to cooperate more effectively in matters involving the national security”.

(6) As stated in the November 1961 staff reports and recommendations on “Organizing for National Security” submitted to the Committee on Government Operations of the Senate by the Subcommittee on National Policy Machinery, “The Council is an interagency committee: It can inform, debate, review, adjust, and validate... The Council is not a decisionmaking body; it does not itself make policy. It serves only in an advisory capacity to the President, helping him arrive at decisions which he alone can make.”

(7) As noted in the 1987 Report of the President’s Special Review Board (commonly known as the “Tower Commission Report”), “As a general matter, the [National Security Council] staff should not engage in the implementation of policy or the conduct of operations. This compromises their oversight role and usurps the responsibilities of the departments and agencies.”

(8) As noted in the “Addendum on Structure and Process Analyses: Volume II – Executive Office of the President,” accompanying the February 2001 U.S. Commission on National Security/21st Century (commonly known as the “Hart-Rudman Commission”), “[T]he degree to which the [National Security Council] gets involved in operational issues raises a question of congressional oversight. Today there is limited congressional oversight of the [National Security Council]... Assigning the [National Security Council] greater operational responsibility would likely result in calls for more congressional oversight and legislative control...”

(9) According to analysis from the Brookings Institution’s National Security Council Project, the size of the National Security Council staff from the early 1960s to the mid-1990s remained consistently under 60 personnel. Since then, it has grown significantly in size.

(10) As former National Security Advisor, Zbigniew Brzezinski, wrote in “The NSC’s Midlife Crisis” in *Foreign Policy*, Winter 1987–1988, “There is no magic number, but it would appear that for successful strategic planning and policy coordination 30-40 senior staff members are probably adequate. However, to ensure effective supervision over policy implementation as well, the size of the staff should be somewhat larger. An optimal figure for the senior staff probably would be about 50 senior staff members.”

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the function of the National Security Council, consistent with the National Security Act of 1947 (50 U.S.C. 3001 et seq.), is to advise the President as an independent honest broker on national security matters, to coordinate national security activities across departments and agencies, and to make recommendations to the President regarding national security objectives and policy, and the size of the staff of the National Security Council should be appropriately aligned to this function;

(2) the President is entitled to privacy in the Office of the President and to a confidential relationship with the National Security Advisor and the National Security Council; and
