

TRUMP'S RECORD OF FAILURE

(Mr. POLIS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POLIS. Mr. Speaker, I am here to talk about the failed business record of likely Republican nominee Donald Trump. His own failed company, Trump Mortgage, actually pushed homeowners into subprime mortgages. Donald Trump not only lost money himself and his company went out of business, but millions of hardworking Americans also lost their homes during the housing crisis.

I also want to talk about his scam university that he set up, Trump University. The State of New York said it is illegal to use the name "university" because you are not running a university. He then changed the name before it went out of business.

It is also being sued by many of its students, who paid up to \$35,000, thinking, as it said in the informercials, that Trump had handpicked the instructors. But according to Donald Trump's own deposition, he never selected the instructors for the program. In fact, he hadn't even met most of them and didn't even know who they were. That is why, in 2014, a New York judge found Donald Trump personally liable for operating the company without the required business license.

Look, what a track record: losing money, forcing subprime loans on Americans and taking money from hardworking Americans, and then going out of business with his fake university company. This is Donald Trump's record of failure.

The SPEAKER pro tempore. The Chair would remind Members to refrain from engaging in personalities toward presumptive nominees for the Office of President.

AMERICAN STROKE MONTH

(Mr. DOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOLD. Mr. Speaker, I rise today to recognize May as American Stroke Month.

800,000 Americans suffer a stroke every year, with more than 300,000 stroke survivors living in Illinois today. Stroke research and rehabilitation plays a critical role in helping these 300,000 survivors return to work and lead fulfilling lives.

A strong congressional response to stroke is crucial for the hundreds of thousands of stroke victims, their families, and their friends each year.

My friend and colleague Senator MARK KIRK overcame unbelievable adversity and returned to work representing Illinois in the United States Senate after suffering a life-threatening stroke. His perseverance has been a personal inspiration, and through his Battle Buddies group, he

has become an inspiration to countless stroke survivors in Illinois and around the country.

Senator KIRK's Battle Buddies group is raising awareness of the fact that nearly 80 percent of all strokes can be prevented through healthy lifestyle choices and maintaining low blood pressure. By simply recognizing the signs of stroke and taking action, people can save a life and greatly minimize long-term damage.

This month, I ask all my colleagues to join me in raising awareness for this important issue and ensuring that stroke survivors have the absolute best quality of care possible.

ROOTING AGAINST FAMILIES

(Mr. RYAN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RYAN of Ohio. Mr. Speaker, back in 2005, '06, '07, '08, '09, and '10, in Ohio, we saw a housing crisis unlike anything we had ever seen before. We saw almost 400,000 people in Ohio, families, lose their home. We saw over 400,000 job losses. We saw a 16 percent decrease in housing values in Ohio.

All the while, hundreds of miles away, perched in the gold-plated towers of the Trump building in New York City, there was a billionaire saying: I hope this happens. I hope the housing market collapses. I hope people get thrown from their homes. I hope they file bankruptcy because that will be good for me.

Shame. Shame that we have a major leader of a major party rooting against families in Ohio, in Pennsylvania, in Florida, in Colorado. Shame on you, Mr. Trump. You are supposed to be rooting for the American people, not rooting against them.

The SPEAKER pro tempore. The Chair would like to remind Members, once again, to refrain from engaging in personalities toward presumptive nominees for the Office of President.

HONORING OUR FALLEN HEROES

(Mr. MARCHANT asked and was given permission to address the House for 1 minute.)

Mr. MARCHANT. Mr. Speaker, last week I voted to ensure our brave men and women in uniform receive the proper training and necessary equipment to protect themselves and our country.

Today I rise to honor and offer my prayers to the families of those men and women who have, unfortunately, made the ultimate sacrifice in defending the United States.

This coming Monday, our Nation will observe Memorial Day. As families across the country gather to celebrate this holiday, we must not forget those men and women who gave their lives protecting the rights and freedoms guaranteed by our Constitution. These brave men and women answered the

call to serve when our country was in need, and they deserve our honor and gratitude.

I remain forever grateful for their service.

CATERPILLAR CONSTRUCTION'S ATHENS PLANT

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today to recognize the success of the Caterpillar Construction Equipment Company's plant in Athens, Georgia.

On April 21, 2016, the Athens branch was named by Governor Nathan Deal as Georgia's 2016 Large Manufacturer of the Year. This award comes directly on the heels of the Athens branch being recognized as the Athens-Clarke County Manufacturer of the Year.

Opened on October 31, 2013, the Caterpillar location touts an 850,000-square-foot state-of-the-art facility with 1,700 employees. The branch specializes in small track-type tractors and mini hydraulic excavators, providing these products to customers throughout North and South America and Europe.

This award illustrates the continued success of Georgia in attracting new businesses. Since 2011, Georgia has attracted 511,000 private sector jobs, with 40,000 in manufacturing. I am extremely proud of these statistics.

I rise today to congratulate Caterpillar Athens on their success, and I wish them the best of luck in their continued success.

HONORING CHIEF KEITH SMITH

(Mrs. BROOKS of Indiana asked and was given permission to address the House for 1 minute.)

Mrs. BROOKS of Indiana. Mr. Speaker, I rise today to honor the courage and leadership of Chief Keith Smith, or "Smitty," as many affectionately called him. He was a dedicated firefighter, a leader in the truest sense of the word, and a devoted husband, father, and grandfather. Sadly, Chief Smith passed away recently after a battle with cancer.

A lifelong Hoosier, Smitty spent nearly five decades as a firefighter in the Indianapolis area. He led the Indianapolis, Westfield, and Carmel departments as fire chief during his long career. He retired in 2012 a highly decorated and widely respected leader who, in retirement, continued to champion and advocate for firefighter education and mentorship.

In 2000, I was honored to work with Chief Smith to put on the 2001 World Police and Fire Games in Indianapolis. His remarkable leadership and passion for leading others was truly inspirational.

I feel fortunate to have known him, and I know his legacy lives on through the many lives he saved, the men and

women he led, and, most importantly, his family, whom he loved dearly.

I offer my deepest condolences to Keith's family, especially his wife, Cindy, and all the firefighters who mourn his loss and cherish his memory.

GET THE VA WORKING FOR VETERANS

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, one of the most important bills signed into law during the last couple of years was a measure to reform the Department of Veterans Affairs to give our veterans choices.

This law was adopted in response to a national scandal over outrageous wait times at the VA, secret wait lists, and 40 veterans who died while waiting to receive care. In Oakland, the VA regional office discovered over 13,000 initial benefit claims that dated back to the 1990s tucked away in a file cabinet.

The widespread dysfunction and mismanagement of the VA is unacceptable. Our veterans deserve better.

Like many of my colleagues, I was shocked by the recent comments made by VA Secretary Bob McDonald, who made references to Disneyland in an interview about how long veterans must wait in line to see a doctor.

Veterans attempting to schedule medical appointments are not there for entertainment. Indeed, they are on a roller coaster as to whether they are even going to have an appointment when they show up a few days later. They are in need of basic healthcare services that they have risked their lives for.

In my district, I have heard from many veterans who have had their appointments canceled and have experienced significant obstacles in accessing their healthcare benefits.

It is clear that there are veterans all across the country who are not satisfied with the VA, and the only way to get the VA working for veterans is with accountability and strong congressional oversight.

Indeed, the glowing reports we get from VA officials are a fantasyland of the nontruth.

□ 1230

PROVIDING FOR CONSIDERATION OF THE SENATE AMENDMENT TO H.R. 2576, TSCA MODERNIZATION ACT OF 2015, AND PROVIDING FOR CONSIDERATION OF H.R. 897, REDUCING REGULATORY BURDENS ACT OF 2015

Mr. WOODALL. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 742 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 742

Resolved, That upon adoption of this resolution it shall be in order to take from the Speaker's table the bill (H.R. 2576) to modernize the Toxic Substances Control Act, and for other purposes, with the Senate amendment thereto, and to consider in the House, without intervention of any point of order, a motion offered by the chair of the Committee on Energy and Commerce or his designee that the House concur in the Senate amendment with an amendment inserting the text of Rules Committee Print 114-54 modified by the amendment printed in the report of the Committee on Rules accompanying this resolution in lieu of the matter proposed to be inserted by the Senate. The Senate amendment and the motion shall be considered as read. The motion shall be debatable for one hour equally divided and controlled by the chair and ranking minority member of the Committee on Energy and Commerce. The previous question shall be considered as ordered on the motion to its adoption without intervening motion or demand for division of the question.

SEC. 2. Upon adoption of this resolution it shall be in order to consider in the House the bill (H.R. 897) to amend the Federal Insecticide, Fungicide, and Rodenticide Act and the Federal Water Pollution Control Act to clarify Congressional intent regarding the regulation of the use of pesticides in or near navigable waters, and for other purposes. All points of order against consideration of the bill are waived. An amendment in the nature of a substitute consisting of the text of Rules Committee Print 114-53 shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions in the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, and on any further amendment thereto, to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure; and (2) one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentleman from Georgia is recognized for 1 hour.

Mr. WOODALL. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to my friend from Colorado (Mr. POLIS), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

GENERAL LEAVE

Mr. WOODALL. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. WOODALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, you heard the Reading Clerk read. Sometimes it is tough to follow what we do up there in the Committee on Rules. I would remind folks that rules.house.gov has the copy of the rule, and folks can get into all of the details. I am real proud of the work that we did up there yesterday. I am glad to be down here on the floor today representing it.

House Resolution 742, Mr. Speaker, is a standard rule for consideration of a House amendment to the Senate-amended H.R. 2576. That is the Toxic Substances Control Act Modernization Act. It also provides a closed rule for consideration of H.R. 897, the Zika Vector Control Act.

Mr. Speaker, the year was 1976. That was the last time the Congress and the White House dealt in a serious way with the Toxic Substances Control Act. In fact, that is when the bill was first passed.

For the intervening four decades, science has changed, technology has changed, consumer demands have changed, and yet the way that we regulate these chemicals has not. And it is not for lack of trying.

For Pete's sake, Mr. Speaker, long before I arrived in this Chamber 5 years ago, Members were trying to find an agreement on how to deal with the Toxic Substances Control Act, how to update that for late 20th century or early 21st century technology.

In fact, the late Senator Lautenberg, Mr. Speaker, was probably the largest champion for this reform that we had on either side of Capitol Hill. He passed away 3 years ago next week. Three years ago next week, many thought that the opportunities we had to succeed here passed away with him.

Despite the headlines, Mr. Speaker, that read that gridlock controls Washington, D.C., despite the 1-minute that you hear down on the floor, Mr. Speaker, where it is their fault and it is their problem or it is his fault and it is his problem, there really are a serious group of Members on both sides of this Capitol who want to get the people's business done. What we have today is one of those efforts, an effort 40 years in the making that culminates here today.

It happened with a lot of serious, hard work on both sides of the Hill, Mr. Speaker. It happened because folks didn't give up when people said it couldn't be done. It happened because nobody said: It is my way or the highway. But they said: How can I work with folks who may disagree with me in order to reach an end that is going to be better for the folks that I serve back home?

We have that product today, Mr. Speaker. In fact, I have it right here. It is also available. It is the Rules Committee print. It is available at rules.house.gov if folks want to give it a read.

I won't confess it is a short read. I won't even suggest that it is an exciting read. But what I will suggest is it is the product of negotiation and consensus building.

You may remember, Mr. Speaker, that when we first dealt with this issue on the House side, it passed 398-1-398-1. It passed by unanimous consent on the Senate side. Now here we are today, having bridged those two bills. Mr. Speaker, that is the TSCA legislation.
