This is a very good bill for reviving it. Look what it does. It keeps up with rapidly changing technology, and what is particularly gratifying about the bill is it says you don't have to come back to the floor every time when technology changes, you can reimburse as technology changes.

This will encourage Federal employees to look for the fastest, cheapest way to get around the District of Columbia and the region. Remember, these employees are all over the United States, but they are particularly to be found in crowded regions like the national capital area region. And I note that in this region Metro is being fixed. It goes to show that we need all the diversity and means of travel we can find, and I applaud this bill.

Mr. Speaker, having no further speakers, I yield back the balance of my time.

Mr. CARTER of Georgia. Mr. Speaker, I urge adoption of the bill.

I yield back the balance of my time. Mr. SWALWELL of California. Mr. Speaker, I rise in strong support of H.R. 5625, the Modernizing Government Travel Act.

This bill is an important step forward in bringing government employees and federal regulations into the 21st century. Currently, each agency has different policies on what transportation options are available to federal employees for reimbursement. Thus, depending on the agency, some federal employees are unable to be reimbursed for official travel if they use ride-sharing or non-traditional forms of transportation, such as bikeshare. Yet many of these platforms provide cost-effective ways for our government employees to travel quickly and efficiently.

H.R. 5625 would address this problem by requiring the General Services Administration (GSA) to implement regulations to allow all federal employees to be reimbursed for these modes of travel. I was privileged to help in the drafting of H.R. 5625, and I want to thank the sponsor, Congressman SETH MOULTON, for introducing the bill and working diligently to help move it to the Floor.

Last year, Congressman DARRELL ISSA and I co-founded the bipartisan Congressional Sharing Economy Caucus. We started this caucus in order to bring government attention to the benefits of the sharing economy and to find ways for the federal government to support it, a growing sector of our economy. The bill in front of us helps to encourage the use of sharing economy technology, therefore saving taxpayers money, and fits perfectly within the goals of the Sharing Economy Caucus.

I urge my colleagues to support H.R. 5625 today.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. CARTER) that the House suspend the rules and pass the bill, H.R. 5625, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. HUELSKAMP. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mr. CARTER of Georgia. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. CARTER of Georgia. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of S. 1550, the Program Management Improvement Accountability Act, introduced by Senator JONI ERNST of Iowa. Program and project management are the guide rails that are necessary to ensure the Federal Government actually works.

Effective program and project managers are both the first line of defense against waste and fraud throughout the Federal Government and the best positioned employees to increase government efficiency.

With Federal spending out of control, we need the best program and project managers we can get to combat waste, fraud, and inefficiency. According to CBO, the Federal Government will spend more than \$4 trillion in fiscal year 2017, but better management alone could prove a significant effect on our long-term spending.

A 2013 Accenture study found that a 1 percent increase in efficiency could save the Federal Government nearly \$1 trillion by 2025.

S. 1550 gives our Federal professionals the support and leadership they need to build a strong foundation of efficiency for Federal programs and projects. The bill addresses challenges these professionals face to ensure that management professionals in our Federal workforce have the guidance, support, and professional standards necessary to improve efficiency.

According to a report by the National Academy of Public Administration, there are five significant challenges to improving program management capabilities in the Federal Government: laws do not holistically address challenges of program management; program management is not recognized as an important discipline for improving performance and results; agency executives and stakeholders do not understand their roles and responsibilities; training and development of program managers lack consistency across the Federal Government; and program managers lack a professional community to provide support and voice concerns about program management development.

S. 1550 addresses these challenges by: requiring OMB's Deputy Director of Management to adopt and oversee government-wide standards that are consistent with private sector best practices; requiring agencies to designate a senior executive to serve as a program management improvement officer, an individual who will then be responsible for implementing standards and policies set by OMB at their agency; and establishing a Program Management Policy Council to discuss topics of importance to program and project managers and make recommendations to resolve inefficiencies in programs identified as high risk by the Government Accountability Office.

Providing guidance and leadership to our Federal employees responsible for trillions of dollars in spending will go a long way toward meeting a simple goal like increasing efficiency by just 1 percent. I urge my colleagues to support this cost-saving, bipartisan bill.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support this bipartisan legislation to improve program management practices in Federal agencies, and I want to thank the gentleman from Virginia (Mr. CONNOLLY), my good friend, and of course the gentleman from Indiana (Mr. YOUNG) for their bipartisan hard work on this bill.

The bill would require the development of standard policies and guidelines across the Federal Government for program management. It would also establish an interagency Program Management Policy Council to develop best practices and focus on improving the management of Federal programs.

The bill would, in addition, require the Office of Personnel Management to establish a new career path for program and project management and to identify key skills and competencies for such jobs. The Federal Government is often called upon to manage large, complex new programs and initiatives and needs a cadre of managers capable of guiding this work.

S. 1550, as amended, is a good, bipartisan measure that would improve the management of the Federal Government, and I urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Mr. CARTER of Georgia. Mr. Speaker, I have no further speakers, and I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield 3 minutes to the gentleman from Virginia (Mr. CONNOLLY), my good friend and a sponsor of this bill.

Mr. CONNOLLY. Mr. Speaker, I thank the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from Georgia (Mr. CARTER), my good friends, for their leadership in managing today.

I rise today, Mr. Speaker, in strong support of this bill, which will make fundamental changes to project and program management practices and standards for the Federal Government.

The bill's cosponsor, Representative TODD YOUNG, and I currently serve as co-chairs of the Government Efficiency Caucus, which to some may seem like an oxymoron. In our capacity as co-chairs, Representative YOUNG and I worked together on a bipartisan basis to develop the Program Management Improvement and Accountability Act.

After taking input from many stakeholders, including from agency management and private sector partners, regarding the root causes of poor project performance, we identified serious deficiencies in program and project management competencies across the entire Federal Government.

As ranking member of the Subcommittee on Government Operations, it is deeply troubling to me that so many Federal projects and programs find themselves substantially over budget or significantly behind schedule. These are all symptoms of a lack of institutional focus and attention to the mechanics of project management.

This bill strengthens project management policy throughout the Federal Government by requiring consistent project standards and guidelines for program management, demanding accountability at OMB and in Federal agencies to capture and implement lessons learned, and requiring a clear identification of skills and competencies necessary for effective program management professionals.

I have the honor of representing more than 13,000 project managers, Federal project managers, and the lack of requirements for the position is not acceptable. The job description for an important position where billions of dollars are being spent should be clearly

defined, and this legislation instructs OPM, the Office of Personnel Management, to develop a job classification and career path for these professionals.

I am proud to have worked with Congressman YOUNG and the Government Efficiency Caucus on a bipartisan basis. We have the support of non-partisan good government groups, including the Project Management Institute and the National Academy of Public Administration behind this bill.

As a result, the PMIAA passed through our committee, the Committee on Oversight and Government Reform, without objection, and passed the Senate unanimously. I strongly urge my colleagues to support this important piece of legislation that I think will lead to significant efficiencies in the Federal Government and ultimately benefit the American taxpayer.

Mr. CARTER of Georgia. Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I strongly support this bill. I thank my colleague for his work on this bill, my good friend from Virginia.

I yield back the balance of my time.

Mr. CARTER of Georgia. Mr. Speaker, I urge adoption of the bill.

I yield back the balance of my time. The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. CARTER) that the House suspend the rules and pass the bill, S. 1550, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. HUELSKAMP. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.
