

Mr. HURD of Texas. Mr. Speaker, I yield myself such time as I may consume.

As the distinguished gentleman from Virginia (Mr. CONNOLLY), my friend, pointed out, the GAO has identified that millions of taxpayer dollars can be saved through consolidating data centers and modernizing IT systems.

□ 1415

To date, agencies have closed over 3,000 data centers out of over 10,000, resulting in a savings of \$2.8 billion.

This bill authorizes agency-level working capital funds, as well as a centralized IT modernization fund within Treasury and overseen by OMB. These funds will accelerate our transition to modernize IT systems and will save American taxpayers millions of dollars. In other words, welcome to the 21st century, Federal Government. It is about time you got here.

The Modernizing Government Technology Act does not appropriate any new money, but, instead, builds on the successes of FITARA, which Mr. CONNOLLY was instrumental in making happen. It also invests savings in retiring these data systems and accelerating our transition to the cloud.

Folks recognize that sometimes up here in Washington, D.C., it can be a circus, but there are times when folks working together can actually solve major problems. This is one example of being in a partisan part of our election cycle where people working together can solve a big problem and do it to make sure that we are using American taxpayer dollars wisely and eventually, hopefully, making sure they keep some of that at home.

I reserve the balance of my time.

Mr. CONNOLLY. Mr. Speaker, I yield myself such time as I may consume.

I thank my good friend from Texas. He is always gracious and has always been a wonderful partner in this enterprise.

In closing, the United States Government must come into the 21st century. We owe it to the people we serve to protect the systems that operate within the 24 Federal agencies we are particularly concerned about.

We need to streamline management of IT assets; we need to make strategic and wise investments; we need to have a schedule of replacement for most of those legacy systems; and we need to encrypt and protect against cyber attacks for the sake of the American people. I think Mr. HURD and I share that as a critical mission not only for this Congress, but for the United States Government as a whole.

I am proud, again, to be an original coauthor and cosponsor of this legislation, working with Mr. HURD. I know we have other initiatives we are going to be working on as well.

Mr. Speaker, I yield back the balance of my time.

Mr. HURD of Texas. Mr. Speaker, I urge adoption of this bill.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. HURD) that the House suspend the rules and pass the bill, H.R. 6004, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.
