

the Fourth Congressional District of Arkansas are finding satisfaction and self-reliance through employment.

I thank Bridges of Hope for its work in my hometown, and I hope to see its efforts not only grow, but also be replicated, because there is a better way to fight poverty and it is still the best anti-poverty program of all time—a job.

DEPARTMENT OF LABOR OVERTIME RULE UPDATE

(Mr. ALLEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ALLEN. Mr. Speaker, last week, a Texas judge granted an emergency injunction against the Department of Labor's overtime rule.

This disastrous overtime rule is yet another attempt by this administration to legislate outside of reason and job description to impose their "we know what is best for you" agenda.

This rule, set to go into effect December 1, would double the overtime salary threshold almost overnight. For Americans, this overtime rule would mean fewer job prospects, less flexibility, and less opportunity.

I have stood before this body many times telling the stories of small businesses that have come to me and warned me of the struggles their employees and families would face because of this overtime rule.

Schools and universities back home in my district were negatively impacted by this rule and the possibility of having to inform employees of a partial paycheck right before the holidays. Despite outcry and outrage from folks back home, the administration pushed forward with its unpopular overtime rule.

Thankfully, the courts got it right. I thank the courts for standing up for the rule of law and the American people.

THE OHIO STATE UNIVERSITY KEEPS STUDENTS SAFE

(Mr. TIBERI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIBERI. Mr. Speaker, I rise today to recognize The Ohio State University, their emergency management team, and all our police officers and first responders who took swift action on Monday to keep our students safe and stop an attacker wielding a knife. My thoughts and prayers are with the victims who were injured, and I wish them a quick and full recovery.

As a fellow Buckeye, it is difficult to even fathom that senseless violence like this can happen even on one of our own campuses. I walked those side-walks as a student, and just a few days ago I was with my wife on campus.

With the unpredictable threats and the potential emergencies we face today, we must be prepared, and we must always be vigilant.

I am sincerely grateful to The Ohio State University that they were ready. An OSU police officer, who is also a graduate of the university, is a hero for stopping a potential terror attack that ISIS has claimed responsibility for. The university effectively utilized emergency response protocol to keep thousands of students on campus out of harm's way.

Mr. Speaker, America's universities and colleges are places where students should safely engage with their classmates, where they are challenged, and where they find opportunities to succeed in our great Nation. That is certainly the case at The Ohio State University.

As we continue to pray for our students' safety and security, we must stand with the Buckeye community. We are Buckeye strong.

HONORING WAYNE STATE UNIVERSITY POLICE K9 OFFICER COLLIN ROSE

(Mr. BISHOP of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BISHOP of Michigan. Mr. Speaker, I rise today with a heavy heart to pay tribute to a fallen Wayne State University Police K9 Officer Collin Rose, who died in the line of duty on Tuesday, November 22, 2016.

Officer Rose was a man of the community, who visited schools and trained police dogs. He was a Ferris State University Criminal Justice and Law Enforcement Academy graduate. And tragically, Officer Rose became the fifth officer to be shot in the United States in a matter of days.

It is completely unacceptable. This trend of violence and murder against the very people who serve and protect us, there are no words. It must stop.

These brave men and women in uniform are more than their occupation. They are husbands, they are wives, they are brothers, and sisters. They are our children. In Officer Rose's case, he was somebody's fiancé, preparing to get married in less than a year from now.

As much as we think that their job is to protect us, it is our job to ensure their safety as well. Our communities must work with the police to open dialogue and voice concerns peacefully. Every single American must respect our police and men and women in uniform.

Please join me today in praying for Officer Rose's family, friends, and the entire Wayne State Police Force during this time of tragedy. His life and legacy will never be forgotten.

SUPPORT INNOVATION, RESEARCH, AND LIFESAVING CURES TO DIS- EASES

(Mr. YODER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YODER. Mr. Speaker, I rise today in support of innovation, research, and lifesaving cures to diseases that affect every family in every neighborhood of America.

We are set to begin a new era in Washington in January, but we still have the opportunity to accomplish meaningful change before the end of this year. We have the opportunity to save lives by passing the 21st Century Cures Act and getting it signed into law.

For example, right now, each year, 700,000 people die with Alzheimer's disease annually. By 2050, estimates are that our country will spend over \$1 trillion alone just to treat patients with Alzheimer's. Yet, we spend just a few hundred million dollars a year on Alzheimer's research.

This weekend, 60 Minutes highlighted an NIH-backed Alzheimer's study and the amazing work our researchers are doing to find a cure for this dreadful disease.

21st Century Cures increases our commitment to studies like these by adding almost \$5 billion in new investment for research over the next 10 years.

Mr. Speaker, if we support 21st Century Cures, we not only save lives, but our investment will pay for itself a thousand times over.
