

CONGRATULATING THE
AUGUSTANA UNIVERSITY MEN'S
BASKETBALL TEAM

• Mr. THUNE. Mr. President, today I wish to congratulate the Augustana University men's basketball team as they celebrate winning their first National Collegiate Athletic Association, NCAA, Division II men's basketball championship.

The Augustana Vikings men's basketball team had an outstanding season, finishing with a school record 34 wins and only 2 losses. Their formidable opponents in the championship game, the Lincoln Memorial Railsplitters, were on a 24-game winning streak before facing Augustana. The first half of the game was close, with the two teams exchanging the lead. The Vikings maintained their lead throughout the entirety of the second half, however, and eventually won 90-81.

The Vikings are coached by Tom Billeter, who has led the Vikings to seven NCAA tournament appearances during his 13-year career with the school. Three senior Vikings players, Alex Richter, Daniel Jansen, and Casey Schilling, were named to the Elite Eight All-Tournament team, and all three scored more than 20 points during the championship game. Richter was named the Most Outstanding Player of the Tournament, and Jansen was recognized as the 2016 National Association of Basketball Coaches' Division II Player of the Year.

On behalf of the State of South Dakota, I am pleased to congratulate the Augustana Vikings men's basketball team on this impressive accomplishment. I commend the players and coaching staff for all of their hard work and wish them the best of luck in future seasons.●

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-141. A concurrent resolution adopted by the Legislature of the State of Louisiana memorializing the United States Congress to extend Louisiana's seaward boundary in the Gulf of Mexico to three marine leagues; to the Committee on Energy and Natural Resources.

SENATE CONCURRENT RESOLUTION NO. 4

Whereas, in *United States of America v. States of Louisiana, Texas, Mississippi, Alabama, and Florida*, 363 U.S. 1 (1960), the seaward boundary of the state of Louisiana in the Gulf of Mexico was judicially determined by the United States Supreme Court to be three geographical miles, despite evidence showing that Louisiana's seaward boundary historically consisted instead of three marine leagues, a distance equal to nine geographic miles or 10.357 statute miles; and

Whereas, the seaward boundaries in the Gulf of Mexico for the states of Texas and Florida were determined to be three marine leagues; and

Whereas, the unequal seaward boundary imposed upon Louisiana has resulted in (1) economic disparity and hardship for Louisiana citizens and entities; (2) economic loss to the state of Louisiana and its political subdivisions; and (3) the inability of the state of Louisiana and its political subdivisions to fully exercise their powers and duties under the federal and state constitutions and state laws and ordinances, including but not limited to protection and restoration of coastal lands, waters, and natural resources, and regulation of activities affecting them; and

Whereas, in recognition of all of the above the Legislature of Louisiana in the 2011 Regular Session enacted Act No. 336, which amended Louisiana statutes to provide that the seaward boundary of the state of Louisiana extends a distance into the Gulf of Mexico of three marine leagues from the coastline, and further defines "three marine leagues" as equal to nine geographic miles or 10.357 statute miles; and

Whereas, Act No. 336 further provides that the jurisdiction of the state of Louisiana or any political subdivision thereof shall not extend to the boundaries recognized in such Act until the United States Congress acknowledges the boundary described therein by an Act of Congress or any litigation resulting from the passage of Act No. 336 with respect to the legal boundary of the state is resolved and a final nonappealable judgment is rendered; and

Whereas, through the federal Submerged Lands Act of 1953, Congress has the power to fix the unequal disparity of the lesser seaward boundary forced upon Louisiana by recognizing and approving that Louisiana's seaward boundary extends three marine leagues into the Gulf of Mexico; and

Whereas, as shown by the national impact of natural and manmade disasters such as hurricanes Katrina and Rita in 2005 and the Deepwater Horizon BP Oil Spill in 2010, the seaward boundary of Louisiana is vital to the economy and well-being of the entire United States, since among other benefits the Louisiana coastal area: (1) serves as both host and corridor for significant energy and commercial development and transportation; (2) serves as a storm and marine forces buffer protecting ports and the vast infrastructure

of nationally significant oil and gas facilities located in such area; (3) provides critical environmental, ecological, ecosystem, and fish, waterfowl, and wildlife habitat functions; (4) provides protection from storms for more than 400 million tons of water-borne commerce; and (5) offers recreational and ecotourism opportunities and industries that are known and appreciated throughout the world; and

Whereas, the Louisiana coastal area accounts for 80% of the nation's coastal land loss, with its valuable wetlands disappearing at a dramatically high rate of between 25-35 square miles per year; and

Whereas, hurricanes Katrina and Rita turned approximately 100 square miles of southeast Louisiana coastal wetlands into open water, and destroyed more wetlands east of the Mississippi River in one month than experts estimated to be lost in over 45 years; and

Whereas, the economic, environmental, and ecological damage of the Deepwater Horizon BP Oil Spill is already calculated in terms of billions of dollars, and potential longer-lasting impacts are still being determined; and

Whereas, adopted in 2006, the federal Gulf of Mexico Energy Security Act (GOMESA) would provide ongoing revenues to Louisiana from federal oil revenue derived from gulf leasing and drilling, with the first payment in 2017 estimated to be approximately \$176 million, and with such monies dedicated to coastal restoration, hurricane protection and coastal infrastructure; and

Whereas, despite strenuous objection, efforts are now underway to repeal or amend GOMESA that would result in depriving Louisiana and other gulf coast states of such monies; and

Whereas, the extension of Louisiana's seaward boundary into the Gulf of Mexico for three marine leagues will provide a much-needed stream of revenue for use in the state's ongoing efforts to clean up, rebuild, protect and restore the Louisiana coastal area from losses suffered due to both natural and manmade disasters, and will benefit both the state and the entire nation: Now, therefore, be it

Resolved, That the Legislature of Louisiana memorializes the Congress of the United States to extend Louisiana's seaward boundary in the Gulf of Mexico to three marine leagues; and be it further

Resolved, That a copy of this Resolution shall be transmitted to the President of the United States, to the secretary of the United States Senate and the clerk of the United States House of Representatives, and to each member of the Louisiana delegation to the United States Congress.

POM-142. A concurrent resolution adopted by the Legislature of the State of Louisiana memorializing the United States Congress to maintain the Outer Continental Shelf revenue sharing arrangements established under the Gulf of Mexico Energy Security Act of 2006 for the creation of a recurring funding stream in support of Louisiana's coastal program; to the Committee on Energy and Natural Resources.

SENATE CONCURRENT RESOLUTION NO. 7

Whereas, the Gulf of Mexico Energy Security Act of 2006 (GOMESA) provides for the sharing of qualified Outer Continental Shelf (OCS) revenues to Gulf Coast states and their political subdivisions that host energy production in order to help mitigate the demands associated with that production on infrastructure and natural resources; and

Whereas, GOMESA stipulates that funds can only be used for the purposes of coastal protection including conservation, restora-

tion, hurricane protection, the mitigation of damage to wildlife and natural resources, and the mitigation of effects from Outer Continental Shelf activities through onshore infrastructure projects, and associated administrative costs; and

Whereas, in 2006, the people of Louisiana voted overwhelmingly to constitutionally dedicate the revenues received through GOMESA to the Coastal Protection and Restoration Fund for the purposes of coastal wetlands conservation, coastal restoration, hurricane protection, or infrastructure directly impacted by coastal wetland losses; and

Whereas, revenues received by Louisiana and its eligible coastal parishes from 2009 to 2015 under phase one of GOMESA provided only \$11.5 million to the state, but phase two is estimated to generate more than ten times as much revenue each year for coastal projects; and

Whereas, GOMESA revenues have long been seen as a crucial, reliable and recurring revenue stream to support Louisiana's coastal protection and restoration work; and

Whereas, since 2007, Louisiana has created a framework for its coastal protection and restoration program and set the national standard for utilizing world-class science and engineering and public outreach to meet the challenges of a vanishing coast through its Comprehensive Master Plan for a Sustainable Coast (Coastal Master Plan); and

Whereas, the 2012 Coastal Master Plan further evolved Louisiana's approach to coastal protection and restoration with the prioritization of projects in a resource-constrained funding and physical environment; and

Whereas, Louisiana's land loss crisis demands a robust and integrated coastal protection and restoration program that operates effectively and urgently for the safety, livelihood, culture, and enjoyment of its people; and

Whereas, the entire United States derives fantastic benefit from the natural assets of coastal Louisiana including its energy resources, the commerce and connections provided by its ports and waterways, its seafood production, and many other invaluable ecosystem services; and

Whereas, Louisiana's coastline has already lost twenty-five percent of its 1932 land area and without the implementation of large scale restoration projects it could lose an additional 1,750 square miles of land at the end of fifty years; and

Whereas, Louisiana has a science-based plan to meet these challenges that include massive public investments in the restoration of America's largest river delta, structural protection where necessary, and an extensive program to floodproof, elevate, and voluntarily acquire homes and businesses at greatest risk of flooding; and

Whereas, Louisiana aims to pioneer the engineered replication of natural processes such as the construction of sediment diversions off of the Mississippi River, and develop other expertise that can be exported around the globe to other cities, states, and countries adapting to climate change; and

Whereas, by maintaining GOMESA, Congress can follow through on a promise nearly ten years old, support Louisiana's efforts to provide for a sustainable coast, help to protect and maintain nationally significant economic and natural resources, and help reduce federal liabilities like insured properties in the National Flood Insurance Program and future hurricane disaster payouts: Now, therefore, be it

Resolved, That the Legislature of Louisiana memorializes the Congress of the United States to maintain the Outer Continental
