

and sacrifice. But now what matters most is not your accomplishments of the past, but what you have yet to achieve in the future.

Thank you.●

MESSAGE FROM THE PRESIDENT

A message from the President of the United States was communicated to the Senate by Mr. Pate, one of his secretaries.

PRESIDENTIAL MESSAGE

PROPOSED AGREEMENT FOR COOPERATION BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE KINGDOM OF NORWAY CONCERNING PEACEFUL USES OF NUCLEAR ENERGY—PM 51

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Foreign Relations:

To The Congress of the United States:

I am pleased to transmit to the Congress, pursuant to sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(b), (d)) (the "Act"), the text of a proposed Agreement for Cooperation Between the Government of the United States of America and the Government of the Kingdom of Norway Concerning Peaceful Uses of Nuclear Energy (the "Agreement"). I am also pleased to transmit my written approval, authorization, and determination concerning the Agreement, and an unclassified Nuclear Proliferation Assessment Statement (NPAS) concerning the proposed Agreement. (In accordance with section 123 of the Act, as amended by Title XII of the Foreign Affairs Reform and Restructuring Act of 1998 (Public Law 105-277), a classified annex to the NPAS, prepared by the Secretary of State, in consultation with the Director of National Intelligence, summarizing relevant classified information, will be submitted to the Congress separately.) The joint memorandum submitted to me by the Secretaries of State and Energy and a letter from the Chairman of the Nuclear Regulatory Commission stating the views of the Commission are also enclosed. An addendum to the NPAS containing a comprehensive analysis of Norway's export control system with respect to nuclear-related matters, including interactions with other countries of proliferation concern and the actual or suspected nuclear, dual-use, or missile-related transfers to such countries, pursuant to section 102A(w) of the National Security Act of 1947 (50 U.S.C. 3024(w)), is being submitted separately by the Director of National Intelligence.

The proposed Agreement has been negotiated in accordance with the Act and other applicable law. In my judgment, it meets all applicable statutory requirements and will advance the nonproliferation and other foreign policy interests of the United States.

The proposed Agreement contains all the provisions required by section 123 a. of the Act, and provides a comprehensive framework for peaceful nuclear cooperation with Norway based on a mutual commitment to nuclear nonproliferation. It would permit the transfer of unclassified information, material, equipment (including reactors), and components for nuclear research and nuclear power production. Norway has no nuclear power program, and no current plans for establishing one, but the proposed Agreement would facilitate cooperation on such a program if Norway's plans change in the future. Norway does have an active nuclear research program and the focus of cooperation under the proposed Agreement, as under the previous agreement, is expected to be in the area of nuclear research. The proposed Agreement would not permit transfers of Restricted Data, sensitive nuclear technology, sensitive nuclear facilities or major critical components of such facilities.

The proposed Agreement would provide advance, long-term (programmatic) consent to Norway for the retransfer for storage or reprocessing of irradiated nuclear material (spent fuel) subject to the Agreement to France, the United Kingdom, or other countries or destinations as may be agreed upon in writing. The United States has given similar advance consent to various other partners, including to Norway under the previous U.S.-Norway Peaceful Nuclear Cooperation Agreement that was in force from 1984 to 2014. The proposed Agreement would give the United States the option to revoke the advance consent if it considers that it cannot be continued without a significant increase of the risk of proliferation or without jeopardizing national security.

The proposed Agreement will have a term of 30 years from the date of its entry into force, unless terminated by either party on 1 year's advance written notice. In the event of termination or expiration of the proposed Agreement, key nonproliferation conditions and controls will continue in effect as long as any material, equipment, or component subject to the proposed Agreement remains in the territory of the party concerned or under its jurisdiction or control anywhere, or until such time as the parties agree that such items are no longer usable for any nuclear activity relevant from the point of view of safeguards.

Norway is a non-nuclear-weapon State party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). Norway has concluded a safeguards agreement and additional protocol with the International Atomic

Energy Agency. Norway is a party to the Convention on the Physical Protection of Nuclear Material, which establishes international standards of physical protection for the use, storage, and transport of nuclear material. It is also a member of the Nuclear Suppliers Group, whose non-legally binding guidelines set forth standards for the responsible export of nuclear commodities for peaceful use. A more detailed discussion of Norway's domestic civil nuclear activities and its nuclear nonproliferation policies and practices is provided in the NPAS and the NPAS classified annex submitted to the Congress separately.

I have considered the views and recommendations of the interested departments and agencies in reviewing the proposed Agreement and have determined that its performance will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I have approved the proposed Agreement and authorized its execution and urge that the Congress give it favorable consideration.

This transmission shall constitute a submittal for purposes of both sections 123 b. and 123 d. of the Act. My Administration is prepared to begin immediately consultations with the Senate Foreign Relations Committee and the House Foreign Affairs Committee as provided in section 123 b. Upon completion of the 30 days of continuous session review provided for in section 123 b., the 60 days of continuous session review provided for in section 123 d. shall commence.

BARACK OBAMA.
THE WHITE HOUSE, June 14, 2016.

MESSAGES FROM THE HOUSE

ENROLLED BILLS SIGNED

At 10:05 a.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

H.R. 1762. An act to name the Department of Veterans Affairs community-based outpatient clinic in The Dalles, Oregon, as the "Loren R. Kaufman VA Clinic".

H.R. 2212. An act to take certain Federal lands located in Lassen County, California, into trust for the benefit of the Susanville Indian Rancheria, and for other purposes.

H.R. 2576. An act to modernize the Toxic Substances Control Act, and for other purposes.

The enrolled bills were subsequently signed by the President pro tempore (Mr. HATCH).

At 11:30 a.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the House has passed the following bill, without amendment:

S. 337. An act to improve the Freedom of Information Act.

The message further announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 3636. An act to amend the Immigration and Nationality Act to allow labor organizations and management organizations to receive the results of visa petitions about which such organizations have submitted advisory opinions.

H.R. 3694. An act to combat trafficking in human organs, and for other purposes.

H.R. 4939. An act to increase engagement with the governments of the Caribbean region, the Caribbean diaspora community in the United States, and the private sector and civil society in both the United States and the Caribbean, and for other purposes.

H.R. 5312. An act to amend the High-Performance Computing Act of 1991 to authorize activities for support of networking and information technology research, and for other purposes.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 3636. An act to amend the Immigration and Nationality Act to allow labor organizations and management organizations to receive the results of visa petitions about which such organizations have submitted advisory opinions; to the Committee on the Judiciary.

H.R. 3694. An act to combat trafficking in human organs, and for other purposes; to the Committee on Foreign Relations.

H.R. 4939. An act to increase engagement with the governments of the Caribbean region, the Caribbean diaspora community in the United States, and the private sector and civil society in both the United States and the Caribbean, and for other purposes; to the Committee on Foreign Relations.

H.R. 5312. An act to amend the High-Performance Computing Act of 1991 to authorize activities for support of networking and information technology research, and for other purposes; to the Committee on Commerce, Science, and Transportation.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-174. A concurrent memorial adopted by the Legislature of the State of Arizona urging the United States Congress to enact the resilient Federal Forests Act; to the Committee on Agriculture, Nutrition, and Forestry.

SENATE CONCURRENT MEMORIAL 1011

Whereas, national forest lands are the largest single source of water in the United States and, in some regions of the west, contribute nearly 50% of the overall water supply; and

Whereas, the unhealthy state of these forests has resulted in catastrophic wildfires that are threatening the reliability, volume and quality of water for tens of millions of Americans; and

Whereas, severe drought and record-breaking wildfire seasons have highlighted the need for the implementation of a process that would require and provide for the United States Forest Service to accelerate restoration work in our national forests, which would protect critical headwaters and make forest lands more resilient against prolonged dry conditions, insect infestation and fire; and

Whereas, failure to take quick action will result in a continued increase in the frequency and intensity of destructive

wildfires, impacting the nation's water resources for decades at considerable cost to stakeholders and United States taxpayers; and

Whereas, the customs, cultures and economic well-being of our local communities, as well as important historic and cultural aspects of our local heritage, are being ignored, which adversely affects the lives and jobs of the people of the United States and devastates local and state economies; and

Whereas, on June 4, 2015, Representative Bruce Westerman introduced H.R. 2647, the Resilient Federal Forests Act. The bill passed in the House on July 9, 2015 and was transmitted to the Senate, where it died in committee; and

Whereas, the Resilient Federal Forests Act expedites and improves forest management activities through a collaborative process, resulting in the protection of water resources.

Wherefore your memorialist, the Senate of the State of Arizona, the House of Representatives concurring, prays:

1. That the United States Congress enact the Resilient Federal Forests Act.

2. That the Secretary of State of the State of Arizona transmit copies of this Memorial to the President of the United States Senate, the Speaker of the United States House of Representatives and each Member of Congress from the State of Arizona.

POM-175. A concurrent memorial adopted by the Legislature of the State of Arizona urging the United States Congress to act to prohibit Federal agencies from recommending and identifying Arizona's public lands as wilderness areas without express congressional consent; to the Committee on Energy and Natural Resources.

SENATE CONCURRENT MEMORIAL 1014

Whereas, through federal land management planning and associated guidelines, federal agencies are recommending and identifying Arizona's public lands as wilderness areas; and

Whereas, these administratively recommended wilderness areas circumvent congressional intent and lack full and appropriate National Environmental Policy Act (NEPA) analyses; and

Whereas, the identification of these de facto wilderness areas has resulted in significant restrictions on public access and recreation, paralyzing restrictions on the Arizona Game and Fish Department's ability to manage wildlife and potentially catastrophic restrictions on vegetation and habitat improvement projects, including fire management activities; and

Whereas, the conservation of wildlife resources is the trust responsibility of the Arizona Game and Fish Commission, and this responsibility extends to all lands within Arizona to ensure abundant wildlife resources for current and future generations; and

Whereas, the designation of Arizona's public lands as wilderness areas has resulted in the erosion of the Arizona Game and Fish Department's ability to comply with its federal mandate to proactively recover threatened and endangered species; and

Whereas, according to federal land management agency guidelines, an administratively recommended wilderness area must be managed to "protect and maintain the social and ecological characteristics that provide the basis for wilderness recommendation" in perpetuity or until Congress takes action to formally designate the area as a wilderness area; and

Whereas, allowable activities within administratively recommended wilderness areas will be left to the discretion of federal staff and deciding officers, resulting in even

greater restrictions and limitations than those formally vetted and designated by Congress; and

Whereas, congressionally designated wilderness provides clearer guidance for management and coordination with this state, specific processes for wildlife management exemptions and direction for collaboration via existing state agreements and guidelines; and

Whereas, administratively recommended wilderness areas circumvent the spirit of NEPA and congressional intent and lack transparency; and

Whereas, with the implementation of federal land management plans, recommended wilderness areas constitute a significant and immediate change in management without a fully disclosed impact analysis required by NEPA; and

Whereas, the federal land management plans lack full NEPA disclosure of potential impacts to this state and the public, assurances protecting this state's ability to proactively manage wildlife and fulfill its public trust responsibility, including specific management activities, and analyses of the cumulative impacts of further loss of public lands that provide for S.C.M. 1014 multiple-use and wildlife-related recreational and economic opportunities; and

Whereas, the areas being recommended as wilderness were not included within the original wilderness designations with purposeful intent by Congress; and

Whereas, the subsequent expansion of previously designated wilderness is an overreach of the federal agencies and disingenuous to the public, subverting original collaboration, coordination, negotiation and agreements; and

Whereas, the federal agency planning documents suggest that no significant management action or recommendation to Congress will take place before further NEPA analyses are completed. Within the recently released Prescott and Apache-Sitgreaves National Forest recommended wildernesses, the United States Forest Service indicates that these areas are simply preliminary administrative recommendations and that further NEPA analyses are necessary. However, in transmittal letters, the United States Forest Service states that "the Final Environmental Impact Statement for the . . . Forest's Revised Resource Management Plan contains the NEPA analysis necessary to support a legislative proposal." This is an egregious lack of transparency.

Wherefore your memorialist, the Senate of the State of Arizona, the House of Representatives concurring, prays:

1. That the Congress of the United States act to prohibit federal agencies from recommending and identifying Arizona's public lands as wilderness areas without express congressional consent.

2. That the Secretary of State of the State of Arizona transmit copies of this Memorial to the President of the United States Senate, the Speaker of the United States House of Representatives and each Member of Congress from the State of Arizona.

POM-176. A resolution adopted by the Senate of the State of Iowa calling upon the United States Congress, the United States Environmental Protection Agency, the President of the United States, and this country's future President of the United States and administration, to continue to support the renewable fuel standard in order to encourage American energy production and to strengthen rural communities; to the Committee on Environment and Public Works.

SENATE RESOLUTION 118

Whereas, in accordance with the federal Energy Policy Act of 2005, Pub. L. No. 109-58,
