#### GENERAL PROVISIONS

SEC. 301. (a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) conducting deep space exploration requires radioisotope power systems, such as thermoelectric and Stirling generators and converters;

(2) establishing continuity in the production of the material needed to power such radioisotope power systems is paramount to the success of future deep space missions; and

(3) Federal agencies supporting the National Aeronautics and Space Administration through the production of the material described in paragraph (2) should do so in a cost effective manner so as not to impose excessive reimbursement requirements on the Administration.

(b) ANALYSIS OF REQUIREMENTS AND RISKS.—The Director of the Office of Science and Technology Policy and the Administrator of the National Aeronautics and Space Administration, in consultation with the heads of other Federal agencies, shall conduct an analysis of—

(1) the requirements of the National Aeronautics and Space Administration for radioisotope power system material that is needed to carry out planned, high priority robotic missions in the solar system and other surface exploration activities beyond low-Earth orbit; and

(2) the risks to missions of the Administration in meeting those requirements, or any additional requirements, due to a lack of adequate radioisotope power system material.

(c) CONTENTS OF ANALYSIS.—The analysis conducted under subsection (b) shall—

(1) detail the current projected mission requirements and associated timeframes for radioisotope power systems and radioisotope power system material;

(2) explain the assumptions used to determine the requirements of the National Aeronautics and Space Administration for the material, including—

(A) the planned use of advanced thermal conversion technology, such as advanced thermocouples and Stirling generators and converters; and

(B) the risks and implications of, and contingencies for, any delays or unanticipated technical challenges affecting or related to the mission plans of the Administration for the anticipated use of advanced thermal conversion technology;

(3) assess the risk to the programs of the Administration of any potential delays in achieving the schedule and milestones for planned domestic production of radioisotope power system material;

(4) outline a process for meeting any additional Administration requirements for the material;

(5) estimate the incremental costs required to increase the amount of material produced each year, if such an increase is needed to support additional Administration requirements for the material;

(6) detail how the Administration and other Federal agencies will manage, operate, and fund production facilities and the design

and development of all radioisotope power systems used by the Administration and other Federal agencies as necessary;

(7) specify the steps the Administrator will take, in consultation with the Secretary of Energy, to preserve the infrastructure and workforce necessary for production of radioisotope power systems and ensure that Administration reimbursements to the Department of Energy associated with such preservation are equitable and justified;

(8) identify the steps the Administrator will take to preserve taxpayer investment to date in Advanced Stirling Converter technology; and

(9) detail how the Administrator has implemented or rejected the recommendations of the National Research Council in the 2009 report titled "Radioisotope Power Systems: An Imperative for Maintaining U.S. Leadership in Space Exploration".

(d) TRANSMITTAL.—Not later than 180 days after the date of the enactment of this Act, the Administrator of the National Aeronautics and Space Administration shall transmit the results of the analysis conducted under subsection (b) to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives.

**SEC. \_\_\_\_ . OPERATION STREAMLINE.**

(a) FINDINGS.—Congress finds the following:

(1) The Border Patrol’s Yuma Sector has long grappled with the crossing of undocumented aliens and has seen illegal traffic decline precipitously from the early 2000s to the present.

(2) A combination of increased manpower, technology implementation, and the delivery

of appropriate consequences have resulted in gains in border security in the Yuma Sector.

(3) A key to the success in the Yuma Sector has been the implementation of Operation Streamline, a program established in 2005 that was described by former Department of Homeland Security Secretary Janet Napolitano as “a DHS partnership with the Department of Justice, . . . a geographically focused operation that aims to increase the consequences for illegally crossing the border by criminally prosecuting illegal border-crossers.”.

(4) The Yuma County Sheriff’s Office, which is known for its “zero-tolerance” approach, cites 100 percent prosecution of illegal border crossers as a shared goal of a partnership including Federal, State, and local law enforcement agencies.

(5) Among the various consequences delivered to illegal crossers by the Department of Homeland Security, Operation Streamline is associated with a recidivism rate that is well below average and has seen a steady decrease in recidivism in recent years.

(6) The United States Attorney’s Office for the District of Arizona will reportedly no longer be prosecuting those apprehended crossing the border illegally for the first time.

(7) According to the Sheriff of Yuma County, Operation Streamline “had a deterrent effect in Yuma County, which gained a reputation as an area to avoid crossing into because if caught, you were assured to go to court and possibly face penalties”, but now the program “has been severely diluted.”.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) gains made in border security in the Yuma Sector and positive trends in recidivism rates are of critical importance to those living and working in the border region and to the Nation as a whole;

(2) refusing to prosecute first time illegal border crossers under Operation Streamline will jeopardize border security gains;

(3) the border security steps that have led to some measure of improvement on the border, such as the historical implementation of Operation Streamline, should be preserved; and

(4) the Executive Branch should immediately remove any issued or related prohibition, policy, guidance, or direction to cease prosecuting first time illegal border crossers under Operation Streamline.

SEC. \_\_\_\_\_. (a) Congress finds the following:

(1) On May 19, 2016, United States district court judge Andrew Hanen issued an order finding that Department of Justice lawyers made a number of intentionally false statements to defend the Accountability Immigration Executive Action of the President.

(2) Judge Hanen stated the lawyers lied to the court 3 distinct times:

(A) LIE #1.—On December 19, 2014, Department of Justice lawyers asked to push a hearing back to January, assuring the court that no applications to the Deferred Action for Childhood Arrivals program (in this section referred to as "DACA") program would be approved. ("This was not a curve ball thrown by the Government; this was a spitball which neither the Plaintiff States nor the Court would learn of until March 3, 2015." Texas v. United States, Civil No. B-14-254, 2016 WL 3211803, at \*5 (S.D. Tex. May 19, 2016).)

(B) LIE #2.—In January 2015, Department of Justice lawyers told the court no applications for DACA would be accepted until February 18, 2015, and no action would be taken on them until March 4—meanwhile 100,000 applications had already been approved.

(C) LIE #3.—On February 23, 2015, a week after an injunction was issued, Department of Justice lawyers filed a brief stating that DACA applications were set to begin on March 3, despite the fact that the Department of Homeland Security started processing them in late November 2014. ("Yet counsel, who knew of the DHS activity, were not only silent, but their motion was certainly calculated to give the impression that nothing was happening or had happened pursuant to the 2014 DHS Directive—when, in fact, by that time over 100,000 applications had already been granted." Id. at \*7.)

(3) Judge Hanen drew the following conclusions:

(A) "[T]he Justice Department lawyers knew the true facts and misrepresented those facts to the citizens of the 26 Plaintiff States, their lawyers and this Court on multiple occasions. . . . Such conduct is certainly not worthy of any department whose name includes the word 'Justice.'" Id. at \*3.

(B) "The United States Department of Justice . . . has now admitted making statements that clearly did not match the facts. It has admitted that the lawyers who made these statements had knowledge of the truth when they made these misstatements." Id. at \*1.

(C) "These misrepresentations will be discussed in more detail below; but suffice it to say the Government's attorneys effectively misled the Plaintiff States into foregoing a request for a temporary restraining order or an earlier injunction hearing. Further, these misrepresentations may have caused more damage in the intervening time period and may cause additional damage in the future. Counsel's misrepresentations also mis-

directed the Court as to the timeline involved in the implementation of the 2014 DHS Directive, which included the amendments to the Deferred Action for Childhood Arrivals ("DACA") program." Id. at \*2.

(D) "The Government's attorneys knew since late-November of 2014 that the DHS was issuing three-year deferrals under the 2014 DHS Directive. Whether it was one person or one hundred thousand persons, the magnitude does not change a lawyer's ethical obligations. The duties of a Government lawyer, and in fact of any lawyer, are threefold: (1) tell the truth; (2) do not mislead the Court; and (3) do not allow the Court to be misled. The Government's lawyers failed on all three fronts. The actions of the DHS should have been brought to the attention of the opposing counsel and the Court as early as December 19, 2014. The failure of counsel to do that constituted more than mere inadvertent omissions—it was intentionally deceptive. There is no de minimis rule that applies to a lawyer's ethical obligation to tell the truth." Id. at \*7 (citation omitted).

(E) "The failure of counsel to inform the counsel for the Plaintiff States and the Court of the DHS activity—activity the Justice Department admittedly knew about—was clearly unethical and clearly misled both counsel for the Plaintiff States and the Court." Id. at \*9.

(F) "This Court finds that the misrepresentations detailed above: (1) were false; (2) were made in bad faith; and (3) misled both the Court and the Plaintiff States." Id. at \*10.

(G) "In fact, it is hard to imagine a more serious, more calculated plan of unethical conduct." Id. at \*11.

(b) It is the sense of Congress that the conduct of the Department of Justice lawyers is unbecoming of representatives of the highest-ranking law enforcement officer in the United States.
