

strong interest in public policy and practical politics. James knows how rare is the beauty of the American Republic. He is a student of history and has worked relentlessly to preserve and enrich our heritage of law and policy.

He has a brilliant mind and is always thinking. A real conservative in the classical sense, James has constantly worked to undergird our spasmodic political system with the timeless principles that have made her great.

I am a great admirer. James represents the best in public service. He has rock-solid values, and he is unafraid to fight for them. The Senator's great loss will be the great gain of our most valuable Heritage Foundation. There, one can be sure he will continue to be a champion for America.

#### ADDITIONAL STATEMENTS

##### 100TH ANNIVERSARY OF SINCLAIR OIL CORPORATION

• Mr. BARRASSO. Mr. President, today I wish to congratulate Sinclair Oil on its 100th anniversary of operations. Based in Wyoming, Sinclair Oil is one of the largest privately held, vertically integrated oil companies in America.

Sinclair Oil and Refining Corporation was founded in 1916 by Harry Ford Sinclair. Under his leadership, Sinclair opened America's first modern service stations in the 1920s. These stations offered gasoline, oil changes, car repairs, and, for the first time, public restrooms. With the establishment of this network of full service gasoline stations, Americans were finally able to experience what drivers have for nearly a century referred to as "the long road trip."

In the 1930s, the world suffered through the Great Depression. Sinclair Oil continued to operate during those tough times, expanding its national operations by acquiring dying competitors, and, more importantly, protecting hundreds of jobs at a time when employment was scarce. By 1935, the company had 20,000 employees, 8,100 company-owned or leased service stations, and 14,000 miles of pipelines.

It was also during this time that Sinclair introduced Dino the Dinosaur as the company's mascot and logo. Dino remains the face of Sinclair Oil and is one of America's best known oil industry mascots.

Following the retirement of Mr. Sinclair in 1948, the company continued to operate under various ownership groups until 1976, when Earl Holding purchased the company's assets. Earl Holding, like Harry Ford Sinclair, was a self-made man. As was the case of many in his generation, Mr. Holding grew up with nothing during the Great Depression. He learned early on that hard work and dedication to one's goals was the path to success.

Earl Holding's long business career began in 1952 when he and his wife,

Carol, invested in a motel and service station called Little America. Located in a remote area along what is now I-80 in Wyoming, the Holdings took 2 years to turn their single operation to profitability. They fell in love with Wyoming and the people they met, and it is where they raised their three children, Anne, Kathleen, and Stephen. With their business successful, they began building the Little America chain of hotels and gas stations that exist throughout the West today. Just prior to the Holding's purchase of Sinclair Oil in 1976, Little America became Sinclair Oil's biggest customer.

Today Sinclair Oil remains a vital player in providing American drivers with quality gasoline. Incorporated in Wyoming, the company owns refineries in Casper and Sinclair, WY. There are more than 1,300 Sinclair-branded stations located in 24 States. The company markets high-quality products, including DINOCARE™ TOP TIER™ Gasoline through a network of 400 distributors. Sinclair also operates a network of pipelines and terminals in the Rocky Mountain and midcontinent regions, and the company continues to invest in its workers and operations to insure reliable and affordable products for generations to come.

When Earl Holding passed away in 2013, Wyoming lost a remarkable individual. His love of family and community, and his commitment to hard work and pursuing one's dreams, led him to a life of tremendous success and fulfillment.

We are fortunate that his legacy continues through the Holding family businesses, particularly Sinclair Oil. Headed by current CEO and chairman of the board, Ross Matthews, the Holding family remains intimately involved in the company's activities, and the values Earl and Carol Holding lived their working lives by are still reflected in Sinclair Oil's company vision: Love of Country, Care for People, Commitment to Safety.

I invite all members of the Senate to join me in celebrating the 100-year anniversary of a truly American company, Sinclair Oil, and wishing the company, its employees, and the Holding family much success in the future.●

##### TRIBUTE TO VAL KUNTZ

• Mr. DAINES. Mr. President, in the Capitol in Washington, DC, there is a corridor that highlights the discovery and expansion of America. Just above one of the doors, there is a quote that reminds me of the people who have helped shape Montana, and that makes me proud to be a Westerner. The quote from Horace Greenley reads, "Go West, young men, go West and grow up with the country."

Today I honor a man who has grown up in the city of Belgrade, MT. Valentine Kuntz was born and raised on the family farm after his parents immigrated to America from Russia. Folks know him as Val, but many may not

know the role he has played in serving and building Belgrade.

Val has served his country honorably throughout his life. As a young man he enlisted in the U.S. Army and was stationed in the Pacific theater during World War II. On September 2, 1945, Val was a part of the 200 ships sitting in Pearl Harbor when the Japanese surrendered and ended the war.

After the war, Val served as a sawmill operator and business owner in Belgrade. The city of Belgrade owes thanks to Val for his part in constructing the Catholic church and the goalposts for the Belgrade High School football field. Val was also the entrepreneur behind the first fourplex housing unit in Belgrade.

Together, Val and his wife, Betsy, have raised nine children, four of whom inherited the talent and building trades from their father. Today their children continue his legacy by working on construction projects all over the world. However, out of all of his achievements, his children are his pride and joy.

On July 23, 2016, Val will celebrate his 90th birthday, surrounded by family and friends. Thank you for the long hours and hard work that helped build Belgrade, MT. I am so grateful for all that you have done and all that your children continue to do, and I wish you a very happy birthday.●

##### TRIBUTE TO KELLY AND CINDY REID

• Mr. DAINES. Mr. President, "If we all do one random act of kindness daily, we just might set the world in the right direction." These are inspiring words and a mantra for the Miles City nonprofit Wake Up & Lace Up. But for Kelly and Cindy Reid, this quote is a lifestyle, and for the last 34 years this couple has selflessly volunteered their time to setting the community of Miles City in the right direction. Together they have brought economic growth and national recognition to this town of nearly 9,000 people. They are an active couple and have used sports and athletic events to bring people from their community, Montana, and neighboring States together.

Cindy uses running and athletics as a powerful motivator. As a survivor of acute myelogenous leukemia, she used exercise as a way to work through her illness. From this experience she co-founded Wake Up & Lace Up, which provides direct funding to eastern Montana family to help cover the costs of cancer treatment. These costs include travel expenses and even wigs to chemotherapy patients. For one family, they even provided a stroller to accommodate a family of triplets. When dealt a hard hand, she turned her hardship into an opportunity to extend kindness and has inspired many others to her cause. Altogether the organization has provided nearly \$103,000 to 157 patients and their families in Miles City, Forsyth, Colstrip, Hysham, Jordan,

Broadus, Baker, Sidney, Plentywood, Fairview, and Circle.

Along with her nonprofit, Cindy inspires young girls through multiple athletic programs in her area. Cindy has coached fifth and sixth grade girls traveling basketball teams, girls' softball, and track and field at Washington Middle School and Custer County District High School. Over the years, she has organized multiple athletic events such as Range Runners, Row Run & Ride, and the Badlands Bowl Fun Run.

When she isn't running, coaching, or raising money, you can find Cindy playing piano at the Sacred Heart Parish.

Her husband and teammate is Miles City native, Kelly Reid. Over the years Kelly has brought economic growth to Miles City through a variety of businesses and events. After serving 2 years in the Army and working as an air traffic controller in Salt Lake, UT, Kelly moved back to his hometown and has been promoting others to be a part of Miles City ever since.

Kelly has coordinated numerous events, including boxing matches with Olympic boxer Todd Foster, concerts with Willie Nelson and Merle Haggard, the 1995 Cattle Drive, and most recognizably the Montana North Dakota All Star Football game.

Every year, this game recruits 34 of the best senior players from each State and brings them together in June to raise money for the Knights of Columbus. Over 1,500 players have participated since the inaugural game and brings together over 2,500 friends, families, and fans. The game showcases Montana talent and instills camaraderie and healthy competition into these young men. USA Today even recognized the event as the "No. 1 Montana Community Event" in 1998.

They have played an irreplaceable role in the lives of so many. Their good deeds and hard work has affected citizens all over Custer County, MT, and North Dakota and improves the lives of Miles City citizens every day. Thank you for the tireless and selfless dedication you have for your community.●

#### CONGRATULATING ATHENA TUREK-HANKINS AND DANIEL SAFTNER

• Mr. HELLER. Mr. President, today I wish to recognize two of Nevada's brightest students, Athena Turek-Hankins and Daniel Saftner, on being selected as 2016 recipients of the Fulbright scholarship.

The Fulbright Scholar Program was developed shortly after World War II by former U.S. Senator James William Fulbright to promote the exchange of students in the fields of education, culture, and science. Today the program offers 1,900 grants each year for students to study in various fields in more than 140 countries worldwide. As a highly competitive and prestigious scholarship, thousands of students and young professionals apply from across

the country. I am proud to congratulate these two students on their achievement. These students are shining examples of how hard work leads to success, and they stand as role models for future members of the Nevada Wolf Pack.

Ms. Turek-Hankins recently graduated from the University of Nevada, Reno, UNR, as an honors student and received her bachelor's degree in international affairs with a special emphasis in Middle Eastern affairs. She also earned a bachelor's degree in French and a minor in philosophy of ethics, law, and politics. Ms. Turek-Hankins will be teaching English in Luxembourg this coming fall through the Fulbright scholarship and will have the opportunity to expand her knowledge on European economics.

Mr. Saftner received his bachelor's degree from UNR in geology in 2011. His studies focused more specifically on climate change. He is currently pursuing his master's degree from the university in hydrogeology from the Graduate Program of Hydrologic Sciences. In addition, he spent 2 years in Cameroon, Africa, as a volunteer in the Peace Corps. His Fulbright scholarship will allow him the opportunity to return to Africa in Niger, West Africa. While there, Mr. Saftner will research the variations of groundwater quality in the rural areas of Southwest Niger and participate in a global effort to increase access to safe drinking water in developing countries.

Today I ask my colleagues to join me in congratulating these exceptional young Nevadans. I am proud to have them representing both Nevada and UNR as global ambassadors through the Fulbright scholarship. These students worked hard for this incredible opportunity, and I wish them the best of luck in their future endeavors.●

#### RECOGNIZING VANDERBURG ELEMENTARY SCHOOL

• Mr. HELLER. Mr. President, today I wish to congratulate John C. Vanderburg Elementary School on its team of fifth grade students and facilitator selected as a national winner in the Student Spaceflight Experiments Program, SSEP. This team of students should be proud of its achievement as 1 of 11 national winners selected for the opportunity to have their experiment conducted on the International Space Station.

Facilitator William Gilluly and student investigators Shani Abeyakoon, Kendall Allgower, and Avery Sanford created a winning proposal titled, "Soybean Germination in Microgravity." The experiment seeks to gain further clarity on whether soybeans can be used as a vitamin and nutrient-dense food source for astronauts during long-term space travel. The experiment is expected to be conducted on the space flight scheduled to take place in early 2017. During this time, astronauts will activate the experiment as the stu-

dents conduct the same experiment on land, ultimately comparing the results to evaluate the effects of microgravity on the germination of seeds.

SSEP is a national science, technology, engineering, and math educational program with the National Center for Earth and Space Science Education, which works to inspire future generations of scientists and engineers. I extend my sincerest congratulations to these Nevada students selected as winners of the SSEP competition. They stand as role models to future Vanderburg Elementary students of what hard work and determination can accomplish.

I am excited to see local students bringing recognition to both Nevada and Vanderburg Elementary School for their advancement in a national competition. These students should be proud to call themselves top contenders in a competitive environment. I ask my colleagues to join me and all Nevadans in congratulating Vanderburg Elementary School for its success and honorable representation of Nevada.●

#### TRIBUTE TO RAY HARRY

• Mr. INHOFE. Mr. President, today I congratulate Ray Harry on his recent retirement after 40 years at Southern Company.

Ray started with Southern Company back in 1976 as an environmental licensing specialist at Gulf Power in his home State of Florida. Since then, he has held numerous senior positions dealing with environmental policy both at Gulf Power and at Southern Company itself. Most recently, he served as senior director of governmental affairs in the company's Washington, DC, office, responsible for the direction and management of all Federal environmental issues. He represented Southern with great distinction before Federal policymakers in both Congress and the executive branch, with international policymaking bodies such as the United Nations Framework Convention on Climate Change, and as part of various coalitions and trade associations in Washington, DC.

During his many years of service, I had the privilege of getting to know Ray and of working with him on a number of important environmental issues facing our country. He was always honest, straightforward, and eager to share his deep experience and policy expertise. More than that, his soft-spoken manner and quick, wry sense of humor made him a pleasure to be around. I congratulate Ray on his retirement and wish him and his wife, Sheila, all the best in their coming adventures.●

#### RECOGNIZING MORRIS & DICKSON CO., LLC

• Mr. VITTER. Mr. President, oftentimes the truest test of a small business's strength is its longevity. In
