STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CRUZ:

S. 3488. A bill to protect freedom of speech in America's electoral process and ensure transparency in campaign finance; to the Committee on Rules and Administration.

Mr. CRUZ. Mr. President, today I am introducing the SuperPAC Elimination Act. Another election cycle has come and gone without addressing a glaring issue that remains significant: free speech and transparency in campaign finance. Our current campaign finance system is absurd. Right now, a large percentage—sometimes a majority—of campaign expenditures are made by independent third-party SuperPACs that are prohibited from communicating with candidates. That makes no sense. Candidates should define their own messages, and citizens should be free to support whatever candidates they choose to support. Restrictions to political contributions are always presented under the guise of preventing corruption and holding politicians accountable, when in fact they accomplish exactly the opposite: pro-

tecting incumbent politicians. My legislation would put Americans on a level playing field with the media and politicians when it comes to influencing elections and exercising our First Amendment rights. Specifically, it would remove the caps on direct contributions to candidates from individuals and requires donations of more than \$200 to be disclosed within 24 hours. Establishing unlimited contributions paired with immediate disclosure is the best way to promote transparency, eliminate the viability of SuperPACs going forward, and ensure that free speech is protected in the electoral process. I look forward to working with my colleagues in the Senate to shed light on the political arena and empower individual Americans by passing this important legislation.

Mr. BROWN (for himself and Mr. ISAKSON) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 624

Whereas, according to the World Health Organization, complications from preterm birth are the world's leading killer of children younger than 5 years of age;

Whereas preterm birth is a global problem, exacting a harsh toll on families from all parts of society in every country;

Whereas there are stark inequalities with respect to the survival rates of preterm babies born around the world;

Whereas up to 75 percent of deaths resulting from preterm birth worldwide could be prevented through proven low-cost interventions;

Whereas countries can improve maternal health and the survival rate of babies born prematurely by making strategic investments in health care systems to ensure access to—

- (1) high quality prenatal and postnatal care;
- (2) quality childbirth services;
- (3) emergency obstetric care; and
- (4) comprehensive care for affected newborns;

Whereas, according to the Centers for Disease Control and Prevention, premature birth is the leading contributor to infant death in the United States and poses the risk of lifelong health problems for babies who survive;

Whereas, while the preterm birth rate in the United States decreased from a peak of 12.8 percent in 2006 to 9.6 percent in 2015, the rate remains too high;

Whereas many communities in the United States experience significant racial and ethnic disparities in preterm birth rates;
