

along the U.S.-Mexico border. A border wall serves only to instill fear and puts United States taxpayers on the hook for something that is unrealistic, costly, and unnecessary. It's immoral and goes against our values as Americans.

There are also severe budgetary concerns. The bill would increase defense spending more than \$72 billion above limits set in the Budget Control Act. House Republicans have refused to work with Democrats on a new budget agreement, and without a budget resolution, the funding levels in this legislation would be subject to a sequester. H.R. 3219 is an affront to smart spending and a testament to misguided governing.

The legislation increases funding levels for several redundant weapons programs, including certain dangerous nuclear weapons programs. The prioritizing of weapons systems over our troops and veterans is wrong and will result in the hollowing out of the Army, Navy, and Air Force conventional forces. We need to set clear spending priorities.

In addition, the bill contains a number of provisions that ignore basic environmental policy requirements and important investments in renewable energy. It includes a rider that would prevent the federal government from protecting clean water and even exempts discharged dredged or fill material from clean water act requirements. The bill would also eliminate the Department of Energy's advanced energy research program and the energy loan guarantee program and would slash energy efficiency & renewable energy investments by nearly \$1 billion. The so-called Making America Secure Act even prevents agencies from collaborating on federal ocean policies.

There was a bright spot. The House passed an amendment to defund painful experiments on dogs conducted by the Department of Veterans Affairs. It is critical that Congress work to strengthen animal protections, which is why I've laid out an ambitious agenda to help animals and crack down on abuse.

I hope we can work together going forward to pass a budget resolution that prioritizes appropriately.

DEPARTMENT OF DEFENSE
APPROPRIATIONS ACT, 2018

SPEECH OF

HON. CAROL SHEA-PORTER

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 27, 2017

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 3219) making appropriations for the Department of Defense for the fiscal year ending September 30, 2018, and for other purposes.

Ms. SHEA-PORTER. Mr. Chair, I represent the First District of New Hampshire, which includes Pease Air Guard Base, formerly Pease Air Force Base. As a member of the House Armed Services Committee, I'm aware that our military's historic use of perfluorinated chemicals or PFCs has not only polluted the groundwater of Pease and the surrounding area, but also of bases and their environs nationwide. That's why I'm offering this amendment to authorize the Department of Defense

to fund a nationwide health impact study—which the House-passed NDAA has just authorized—to be conducted by the Agency for Toxic Substances and Disease Registry beginning in FY2018. Our service members, veterans, and other affected constituents deserve answers about how they and their children have been harmed by these chemicals, which are classified as emerging contaminants.

This contamination began in the 1970s, when more than 600 U.S. military fire-training sites used a firefighting foam that contained PFCs called perfluorooctanoic acid (PFOA) and perfluorooctanesulfonic acid (PFOS). Testing conducted by the Department of Defense at many of these sites has found PFC groundwater levels that exceed EPA guidelines many times over. At Pease, it is 12.5 times higher than the health advisory. The Department of Defense has so far spent \$200 million assessing and remediating the water at many of these sites. The House report accompanying the NDAA has extensive language identifying this problem and directing the Defense Department to report to the Committee on the process and timeline for identifying and resourcing long-term remediation on military bases or in the surrounding communities.

Because of widespread PFC use at sites across the United States, contaminated drinking water now poses a nationwide public health threat. According to the American Cancer Society (ACS), PFOA is especially problematic "because it can stay in the environment and in the human body for long periods." Many peer-reviewed studies indicate health dangers of PFCs, including links to testicular, kidney, and thyroid cancer, liver damage, impaired immune system function, decreased fertility, and harm to a developing fetus or child. But the ACS says "more research is needed to clarify these findings," because a comprehensive, long-term study of the health impacts of PFOA and PFOS has not yet been conducted.

That is why I see a clear and pressing need for this study. Our service men and women, veterans, and others who have been exposed to PFCs deserve answers on both the short- and long-term health impacts of these contaminants. Such a study's findings could enable them to take proactive measures, such as more frequent cancer screenings, to protect their own and their children's health.

Knowing that groundwater contamination exists and understanding the clear danger of long-term health risks, we can begin to remedy past mistakes by supporting the launch of this much-needed study on behalf of our troops, our veterans, their families, and affected civilians. This is a debt we owe our troops and military families, defense civilian workers, and others who served on or lived near these bases.

Please support our amendment to give our military members and veterans, their families and children, in and around bases across our country, the answers they deserve.

RECOGNIZING LAMP HIGH SCHOOL
IN MONTGOMERY, ALABAMA

HON. TERRI A. SEWELL

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2017

Ms. SEWELL of Alabama. Mr. Speaker, I rise today to honor the history and continued

legacy of LAMP High School in Montgomery, Alabama. This Magnet school remains a significant testament to the success of public education in America, especially in the historic city of Montgomery.

LAMP, originally an acronym for Lanier Academic Motivational Program, had its origin in 1984 as a magnet program in Lanier High School. As the Montgomery Board of Education saw that white flight away from integrated schools continued to increase, public education leaders affirmed that retaining racial balance in schools would allow for quality education for all students.

The first director of the program, Mary George Jester, brilliantly led this school to continually be the number one ranked public school in Alabama, a top 50 public school nationally, and the number one ranked magnet school in the nation in 2013, according to Newsweek and US News and World Report. What started as an idea by the Board of Education to combat white flight turned into a program with the philosophy that any student, regardless of background or race, could get the highest quality education in Alabama. Mary George Jester relentlessly took that attitude into a community that was all too familiar with innovative ideas, a fervor for change, and the desire for equal opportunity. Montgomery remains the backdrop of LAMP High School today as it boasts its racial, religious, and cultural diversity.

However, as the 2017 to 2018 school year approaches, LAMP will move locations for the third time in four years. After LAMP formed in an already existing high school in 1984, it finally received its own building in 1999. That facility, built in 1923, housed the first junior and senior high schools for African-American students, and was named after Henry Allen Loveless, a founding member of the Dexter Avenue Baptist Church. Subsequently, LAMP changed its acronym to what it is today: Loveless Academic Magnet Program—reflecting the name of that building. As students and faculty grew accustomed to their new surroundings and strived to get national recognition, the building they worked in slowly deteriorated. Finally, after 13 years, that building was deemed severely unsafe for a school, and the school was promptly moved in November of 2014 to a temporary, unused elementary school building a couple miles away downtown.

Nevertheless, LAMP persisted, with students, faculty, and administrators scrambling to get situated; this was not the first nor the last time LAMP would have to adapt to a new environment. The timeless philosophy Mary George Jester instilled in the program that "excellence in education does not limit itself in the classroom; rather, it encompasses the student's entire world." After being present for LAMP's second move, Ms. Jester retired after returning that year to be the principal. Ms. Jester's philosophy remained as LAMP was informed that it would be moving again to a renovated portion of the closed down and vacant Montgomery Mall building. The brand new facility will reopen for students and faculty in August of 2017, which will complete its fourth and final move.

It took the push of education leaders in 1984 for LAMP's success to transcend buildings thirty-three years later. Through community support early on, LAMP stands as a testament that public education creates developed

minds with the ability to adapt to adversity. As current Principal Matthew Monson leads the school onward, Ms. Jester's philosophy is clearer than ever: education is "always believing in, and always nurturing the mind, body and soul, no matter the hindrances."

On behalf of Alabama's 7th Congressional District, and the nation, I ask my colleagues to join me in recognizing LAMP High School in Montgomery, Alabama for demonstrating the pinnacle of public education in the face of adversity.

HONORING BRIAN ROSS LUCAS

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2017

Mr. GRAVES of Missouri. Mr. Speaker, I proudly pause to recognize Brian Ross Lucas. Brian is a very special young man who has exemplified the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 222, and earning the most prestigious award of Eagle Scout.

Brian has been very active with his troop, participating in many scout activities. Over the many years Brian has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community. Most notably, Brian has contributed to his community through his Eagle Scout project. Brian completed a landscaping project around a sign he also erected for Eagleville United Methodist Church in Eagleville, Missouri.

Mr. Speaker, I proudly ask you to join me in commending Brian Ross Lucas for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

IN RECOGNITION OF THE 2017 GRADUATING CLASS OF THE DODIE LONDEN EXCELLENCE IN PUBLIC SERVICE SERIES

HON. DAVID SCHWEIKERT

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2017

Mr. SCHWEIKERT. Mr. Speaker, I rise today in recognition of the graduating class of the 2017 Dodie Londen Excellence in Public Service Series. Brandy Wells, Cindy Casaus, Debi Vandenboom, Farhana Ahmed, Jeni White, Kristen Desmangles, Lauren Pemberton, Lisa Godzich, Dr. Shadow Asgari, Simone Hall, ViciLee Jacobs, Bernadette Coggins and Yvonne Cahill have all distinguished themselves as impactful leaders in our community.

HONORING NAFCU NEWEST BOARD MEMBER

HON. SCOTT TAYLOR

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2017

Mr. TAYLOR. Mr. Speaker, I rise today to congratulate Brian Schools on his recent se-

lection to the Board of Directors at the National Association of Federally-Insured Credit Unions, NAFCU.

Mr. Schools has been President and CEO of Chartway Federal Credit Union in Virginia Beach since 2015. Mr. Schools joined Chartway Federal Credit Union in 2008 and served as vice president of lending, corporate strategy officer, and corporate divisional president, until he assumed his current role.

Mr. Schools has more than 20 years of business leadership experience and holds a Bachelor of Science in Finance from Virginia Tech and a Master of Business Administration from Virginia Commonwealth University. He has also served as a Board member of Chartway's We Promise Foundation, which provides financial support to make dreams and wishes come to life for children facing medical challenges.

He is known at his credit union as a highly capable leader who has the experience, the determination, and the drive to position Chartway for the opportunities and challenges ahead. Mr. Schools' business experience and leadership will bring a tremendous amount of expertise to the NAFCU Board.

I wish Mr. Schools the best of luck in his new role on the NAFCU Board, and look forward to working with him in this capacity. I ask that my colleagues join me today in congratulating Brian Schools on this achievement.

RECOGNIZING THE 150TH ANNIVERSARY OF THE VILLAGE OF PENTWATER

HON. BILL HUIZENGA

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2017

Mr. HUIZENGA. Mr. Speaker, I rise today to recognize the village of Pentwater, Michigan on the occasion of its 150th Anniversary.

On March 16, 1867, the former settlement of Pentwater was officially incorporated as a village by the Michigan Legislature. The Victorian homes and cottages scattered around the village remind visitors of Pentwater's historic past. Its first sawmill—opened in 1867—turned into a booming lumbering industry, including the largest shingle mill in the United States. As we look back at Pentwater's historic past, we hope to preserve that which has made it special.

From early on, Pentwater was known as a scenic resort destination. Today, with its picturesque location on Lake Michigan, Pentwater offers countless options for recreation and entertainment. Charles Mears State Park provides visitors the opportunity to hike, fish, sail and enjoy all that Lake Michigan has to offer.

Mr. Speaker, I encourage my colleagues to join me in celebrating the 150th Anniversary of the village of Pentwater, Michigan.

TRIBUTE TO DAN MATHEWS

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2017

Mr. SHUSTER. Mr. Speaker, I rise today to recognize Dan Mathews and thank him for his

years of dedicated service to Congress and the American taxpayers. Dan has worked on the Hill for over 20 years, and, he has been a fixture on the staff of the Committee on Transportation and Infrastructure as the Republican Staff Director of the Subcommittee on Economic Development, Public Buildings, and Emergency Management for the last 14 years. The Subcommittee has a wide area of jurisdiction covering federal buildings and courthouses, the General Services Administration, and GSA leases and capital projects, the Smithsonian, the Kennedy Center, the National Gallery of Art, and numerous other federal facilities. In addition, Dan also staffed the Select Bipartisan Committee to Investigate the Preparedness for and the Response to Hurricane Katrina in 2006. He was one of the primary authors of the Committee's investigative report, "A Failure of Initiative," which led to the successful enactment of the Post-Katrina Emergency Management Reform Act, and later the establishment of the National Preparedness System and the Sandy Recovery Improvement Act.

In his time with the Committee on Transportation and Infrastructure, Dan has had a leading role in the enactment of major pieces of legislation related to public buildings and emergency management. Most notably, during his tenure, he has overseen the passage and the initial implementation of the Federal Assets Sale and Transfer Act (FASTA), which will shrink the size of government and help ensure savings by selling or redeveloping high value properties, consolidating federal space, and streamlining the disposal of unneeded assets; the Post-Katrina Emergency Management Reform Act, which gave FEMA clear guidance on its mission and priorities, and provided the legislative authorities needed to better partner with state, local, tribal, and territorial governments before, during, and after disasters; and the Sandy Recovery Improvement Act, which was the most significant legislative change to the Federal Emergency Management Agency's (FEMA) substantive authorities since the enactment of the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974.

Dan has also worked tirelessly to save taxpayer money by reducing the cost of federal real estate, reducing waste in the federal courthouse construction program, coordinating efforts by agencies to reduce leasing costs through space reductions and consolidations, and pushing GSA to negotiate the best lease deals for the taxpayer. It comes as no surprise given his experience and efforts, that the Administration has appointed him Commissioner of GSA's Public Buildings Service. I am confident in that role, Dan will continue the important work of ensuring GSA and other federal agencies continue to reduce costs and make smarter decisions in federal real estate to benefit the taxpayer.

In his spare time, Dan enjoys spending time with his family, his wife Lara and their two daughters, traveling, doing yoga, and rock climbing. Mr. Speaker, please join me in acknowledging Dan's achievements during his tenure here in the House of Representatives and in wishing Dan the best of luck with new endeavors.
