HONORING THE 75TH ANNIVERSARY OF THE BLUE GRASS ARMY DEPOT

HON. ANDY BARR

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 20, 2017

Mr. BARR. Mr. Speaker, I rise to recognize the marking of a very special occasion—the 75th Anniversary of the Blue Grass Army Depot in Richmond, Kentucky. Since 1942, the Blue Grass Army Depot's dedicated civilian workforce has been called upon time after time to fulfill their critical role as key ammunition suppliers to our nation's joint warfighters by providing ready and reliable ammo at the right place and right time, every time.

Throughout the course of our nation's history, our great success in establishing our country as a beacon of hope to the world has been largely defined by the everyday bravery and dedication of individual citizens. The Blue Grass Army Depot has exemplified that bravery and dedication through direct civilian support of our warfighters.

From World War II to the Korean War, the War in Vietnam, the Gulf War, and through today's ongoing Global War on Terrorism, wherever and whenever our men and women are engaged in conflict and risking their lives fighting on the front lines, the Blue Grass Army Depot has been there.

The civilian employees of the Blue Grass Army Depot are amongst the thousands of often unsung heroes who have provided, and continue to provide, unwavering support for our nation's ongoing fight to defend and preserve democracy and freedom. Their work has ensured that our nation's joint war fighters are victorious, and sustains the reputation of the United States Armed Forces as the world's preeminent military.

The Blue Grass Army Depot and its workforce are to be commended for their service, dedication to duty, and loyalty to our nation. I join with a grateful nation in thanking them and wishing them the best in years to come.

It is my privilege to represent such an outstanding military installation and civilian workforce among my constituents in Kentucky's Sixth Congressional District, and to honor the Blue Grass Army Depot and its workforce before the United States House of Representatives.

INTRODUCTION OF BANNING THE USE OF ELECTRONIC CIGARETTES ON AIRPLANES ACT OF 2017

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 20, 2017

Ms. NORTON. Mr. Speaker, I rise to introduce the Banning the Use of Electronic Ciga-

rettes on Airplanes Act of 2017. The bill prohibits the use of electronic cigarettes and vaping devices on commercial airplanes by including use of these devices within the definition of smoking. Smoking tobacco products on commercial airplanes has been banned for years, but with the increase in use of electronic cigarettes and vaping devices in their place, it is necessary to update our laws to reflect this new nuisance and health risk on airplanes. The U.S. Department of Transportation (DOT) issued a final rule in March 2016 banning the use of these devices on airplanes, but Congress should make a permanent, statutory change to include the use of these devices within the definition of "smoking." Last Congress, my bill received bipartisan support from the House Committee on Transportation and Infrastructure and was added as an amendment to the Federal Aviation Administration (FAA) reauthorization bill, the Aviation Innovation, Reform, and Reauthorization (AIRR) Act. The amendment was also included in the Senate's long-term FAA reauthorization bill.

Electronic cigarette use has increased over the last decade with the increased education of the general public about the dangers and public health threats caused by traditional cigarettes to smokers and nonsmokers alike. For example, between 2010 and 2011, e-cigarette use among adults doubled. Researchers and public health experts have voiced concerns over the use of electronic cigarettes because there are still so many unknowns about the chemicals these devices can produce. The American Lung Association (ALA) has cited many concerns about the lack of regulation of e-cigarettes because they are being marketed to the public while the potential harm from secondhand e-cigarette emissions is unknown. ALA has identified two studies that show formaldehyde, acetaldehyde, benzene, tobacco-specific nitrosamines, and other harmful irritants coming from e-cigarette emissions. In addition, the temperature of an e-cigarette can affect how harmful the chemicals are, but with no configuration standards, it is too difficult to uniformly assess the health effects of smoking e-cigarettes. The Food and Drug Administration (FDA) issued a proposed rule in 2014 that would extend new regulatory authority to e-cigarettes by subjecting e-cigarettes to registration and product listing requirements, restrictions on marketing products prior to FDA review, and a prohibition on providing free samples as with traditional tobacco products.

It has been over 25 years since legislation was passed banning smoking on domestic flights in the United States. In the 1960s, the U.S. Surgeon General identified smoking as a cause of increased mortality and by 1986, the U.S. Surgeon General had named secondhand smoke a serious health risk. The National Academy of Sciences, in its report "The Airliner Cabin Environment: Air Quality and Safety," recommended a ban on smoking on all domestic commercial flights. The Association of Flight Attendants can be credited with urging the smoking ban due to the negative health impacts flights attendants suffered working in cramped, closed-off spaces when a third or more passengers smoked in-flight. Congress used this information to include an amendment authored by then-Representative DICK DURBIN (D-IL) in the Federal Aviation Act that made domestic flights of two hours or less smoke-free. By 1990, this smoking ban was

extended to all domestic flights of six hours or less, and, in 2000, the Wendell H. Ford Aviation Investment and Reform Act made all flights to and from the United States smoke-free. All of this was done even in the face of the strong tobacco industry's opposition because of the undeniable health impacts of cigarettes and cigarette smoke. Many flyers do not remember a time without "No Smoking" signs located throughout a commercial airplane.

In 2016, DOT issued its final rule to prohibit the use of e-cigarettes on U.S. airplanes. Legislation is necessary to make this update applicable to all airlines, and permanent. Under current FAA policy, battery-powered electronic cigarettes, vaporizers, vape pens, atomizers, and electronic nicotine systems are prohibited in checked baggage, and the FAA recommends that such devices only be carried in the aircraft cabins because of safety issues.

The current statutory smoking ban applies to the smoking of tobacco products on all scheduled passenger flights and on scheduled passenger flight segments on foreign air carriers in the U.S. and between the U.S. and foreign countries, unless a waiver is granted based on bilateral negotiations. The Banning the Use of Electronic Cigarettes on Airplanes Act of 2017 will amend the statutory definition of smoking in 49 U.S.C. 41706 to include the use of electronic cigarettes, defined as "a device that delivers nicotine or other substances to a user of the device in the form of a vapor that is inhaled to simulate the experience of smoking."

I urge my colleagues to join me in supporting this bill.

THE CHARITY TRANSPARENCY ACT

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 20, 2017

Mr. POE of Texas. Mr. Speaker, in 2001 the U.S. Government shut down the Texas-based Holy Land Foundation for its role in sending money to Hamas. But some of the Holy Land Foundation's employees are now working at 501(c)(3) "charities" that are leading the Boycott, Divestment and Sanctions movement in the U.S. against Israel.

Charitable American donors have no way of knowing of the questionable histories of some of the employees of these charities before they donate. My bill, The Charity Transparency Act, will require organizations applying for 501(c)(3) status to disclose if any of their key employees once worked for such organizations.

It would require no new paperwork and give the IRS no new authorities. It would just require one more disclosure on the already existing IRS documents.

It would also not penalize any of these charities. It would simply protect charitable American citizens and arm them with the information they need to make better informed decisions regarding where they donate their hard-earned money.

I urge my colleagues to support this important bill.

And that's just the way it is.

RECOGNIZING RAUL ORTIZ

HON. BRADLEY SCOTT SCHNEIDER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 20, 2017

Mr. SCHNEIDER. Mr. Speaker, I include in the RECORD a letter from my constituent Raul Ortiz, age 8, to President Trump on World Refugee Day.

DEAR PRESIDENT DONALD TRUMP. Please receive a respectful greeting in my name and all the children and families that are part of LULAC's Child Refugees United for Freedom group. My name is Raul Ortiz and I come from Honduras. I want to express to you my fear for the situation of many refugees that have arrived to the United States of America seeking refuge. I must share with you our sad reality that we live in because our countries of origin are full of crime and violence. This is why our parents risked our lives to bring us to safety in the USA. Here we are safe and have hope to see another tomorrow.

Mr. President, we respectfully ask for your help, we ask you, a great man that is a responsible person dedicated to the USA, to please meet with us and listen to our stories and consider granting us protection.

Abraham Lincoln is my favorite president. He ran as president under the National Union Party which was the name used by the Republican party for the 1864 presidential election, during the Civil War. The Republican party at this time under President Lincoln was successful in abolishing slavery.

My favorite president Abraham Lincoln freed the slaves so I believe and have faith you President Trump can do the same thing with granting freedom to the Central American refugees just like me.

God Bless You President Trump and God Bless The USA!

Respectfully,

RAUL ORTIZ,
8 yrs old.
