HONORING DRS. JOHN GORMAN,
VINCENT FRED A AND WILLIAM
POLLACK FOR CREATING THE
RH VACCINE

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 13, 2017

Mr. LANCE. Mr. Speaker, I rise today to pay tribute to Drs. John Gorman, Vincent Freda and William Pollack for their creation of the Rh Vaccine. May 29, 2018, will mark the 50th Anniversary of the availability of this important and innovative medical therapeutic.

Prior to May 29, 1968, Hemolytic Disease of the Newborn (HDN), which is caused by a blood incompatibility between the mother and the fetus or newborn baby, had afflicted women over the ages. In the United States alone it was affecting thousands of Rh negative women and was responsible for nearly 9,000 fetal or newborn deaths annually. To address this crisis, Drs. John Gorman and Vincent Freda, practicing physicians at Columbia Presbyterian Hospital in New York, and Dr. William Pollack, of the Ortho Research Foundation at Johnson & Johnson in New Jersey, created a new vaccine that would prevent HDN and rapidly become the standard, worldwide, in the care and management of every Rh negative pregnancy.

The Rh Vaccine has nearly eliminated Rh hemolytic disease in the United States. This development has produced savings in human and financial costs that are estimated to exceed \$750 million dollars annually. The Rh Vaccine has a track record of being one of the most effective and safest products in the history of vaccines.

Drs. Gorman, Freda and Pollack were recognized for their work by the American Association of Blood Banks in 1969. In 1980, they were again recognized for this accomplishment by sharing the Lasker Clinical Medical Research Award, which honors those whose contributions have improved the clinical treatment of patients.

The Rh Vaccine is just one example why New Jersey is known as the medicine chest of the world. All the research and development for the vaccine was done in Raritan, New Jersey, which is part of the district that I serve. The product continues to be manufactured there today.

Mr. Speaker, the accomplishments of Drs. Gorman, Freda and Pollack should inspire all

of us. They should remind us the important role Congress has in encouraging research and development. Together, we can continue to work in a bipartisan fashion to ensure that the next group of great doctors and scientists in this country has the support they need to bring innovative medicines and products to market.

HON. BETTY MCCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 13, 2017

Ms. MCCOLLUM. Mr. Speaker, I would like to extend my warmest wishes to Mary Pat Raimondi, a Minnesotan and dear friend, who is retiring after a successful and long career as a dietician and anti-hunger advocate. Mary Pat most recently has served as Vice President of Strategic Policy and Partnerships of the Academy of Nutrition and Dietetics where she has used her vast experience and knowledge to inform and educate policy makers on nutrition issues that improve health and reduce hunger.

Mary Pat's enthusiasm for her work and dedication to nutrition issues is evident from a recent interview in which she said, "I have the best job because I can tell the story of the value we offer to improve health to members of Congress, federal agencies, and the White House. I love to promote our members' work that impacts health and helps families and communities."

The leadership demonstrated by Mary Pat was evident in Minnesota where she worked from many years as Program Director for the University of Minnesota Extension. She was a frequent visitor to my office and I could always count on her advice, insights, and solid information on critical policy issues. Mary Pat was

a consummate professional and a tremendous resource for my staff and me.

Again, I want to thank Mary Pat Raimondi for her dedicated service and her passion for the children, families, and seniors who benefited from her work.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2018

SPEECH OF

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 12, 2017

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 2810) to authorize appropriations for fiscal year 2018 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for such fiscal year, and for other purposes:

Mr. CONNOLLY. Mr. Chair, I rise to speak in support of my amendment No. 41 to H.R. 2810, the National Defense Authorization Act for Fiscal Year 2018.

My amendment directs the Secretary of Defense to develop a definition for the term Procurement Administrative Lead Time to be applied throughout the Department of Defense (DoD). Additionally, the amendment also requires a plan for measuring and publicly reporting data on procurement administrative lead time for DoD contracts and task orders above a certain threshold.

Given the number and costs of contracts and task orders issued by the Department of Defense, it is important that the Department collect information on the amount of time between when a solicitation is issued and the initial award of the contract or task order. By establishing a uniform definition and collecting this data, DoD, the contractor community, and other stakeholders can better analyze the data and use it as a tool to reduce unnecessary delays.

I am very pleased that the managers of this legislation recognize the need to find and address inefficiencies in the procurement process.

Mr. Chair, I also rise to speak in support of my bipartisan amendment No. 43 to H.R. 2810, the National Defense Authorization Act for Fiscal Year 2018, which I have offered with my colleague, Mr. ISSA of California.

My amendment would extend three expiring provisions of the Federal Information Technology Acquisition and Reform Act, which is better known as FITARA or Issa-Connolly. This bipartisan legislation represented the first major reform of the laws governing federal IT management since the seminal Clinger-Cohen Act of 1996, and it was enacted as a provision of the FY2015 NDAA.

When I meet with stakeholders in federal IT from government agencies and industry, I am constantly reminded why previous major IT reform efforts have fallen short of their potential—the lack of a robust implementation plan and congressional oversight. Through countless hearings and briefings, close coordination with the Office of Management and Budget (OMB) and Government Accountability Office (GAO), and the Oversight and Government Reform Committee's work on the FITARA

Scorecard, Congress is committed to the successful implementation and oversight of FITARA.

In working with GAO and OMB on FITARA implementation, we have found that there are areas of FITARA that would benefit from an extension of their original sunset date. These areas include the provisions on federal data center consolidation, transparency and risk management of major IT systems (IT Dashboard), and IT portfolio, program, and resource reviews (PortfolioStat).

Very simply, the federal data center problem is bigger than we initially thought. In 2009, when Federal Chief Information Officer Vivek Kundra directed agencies to determine how many data centers they had and begin to consolidate those centers, the government estimated it had roughly 1,100 data centers. That estimate grew to 11,700 by 2015.

As GAO has recommended, we are potentially leaving money on the table when it comes to data center consolidation if we allow FITARA's data center reporting and planning requirements to expire in 2018. Twenty-three agencies have reported roughly \$656 million collectively in planned savings for fiscal years 2016 through 2018. This is \$3.3 billion less than the estimated \$4.0 billion in planned savings for fiscal years 2016 through 2018 that agencies reported to GAO in November 2015. As of April 2017, 23 of 24 agencies have submitted a strategic plan for data center consolidation. Of the 23 plans, only 7 included all required information. The remaining plans either partially met or did not meet the requirements.

We need to let agencies know that they are not going to be able to run out the clock on FITARA's transparency and reporting requirements. A limited extension of the data center provisions of FITARA, scheduled to sunset October 1, 2018, could help us do that.

Additionally, the IT Dashboard and PortfolioStat provisions of FITARA have allowed OMB to evaluate the efficiencies and risk of IT investments and would benefit from a permanent extension of the current December 1, 2019 sunset. These are valuable oversight tools, and we should continue to use them to reform federal IT procurement.

The federal government invests roughly \$100 billion in IT each year. I look forward to continued bipartisan collaboration on FITARA implementation to ensure these investments are efficient, effective, and in the best interest of the taxpayer.

I want to thank the Chairman and Ranking Member for working with me on this amendment.
