

May God bless this House of Representatives and may God bless the United States of America.

Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Texas (Mr. GENE GREEN) come forward and lead the House in the Pledge of Allegiance.

Mr. GENE GREEN of Texas led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

WELCOMING RABBI HERSHEL LUTCH

The SPEAKER pro tempore. Without objection, the gentleman from Minnesota (Mr. EMMER) is recognized for 1 minute.

There was no objection.

Mr. EMMER. Mr. Speaker, I rise to recognize my friend, Rabbi Hershel Lutch, and to thank him for reading the opening prayer here on the House floor today.

Rabbi Lutch has devoted his life to working for the Jewish community in the United States and around the globe.

I met Rabbi Lutch on a trip to Israel that he and his organization, Aish HaTorah, helped to coordinate. That special trip showed me firsthand how our ally in Israel fights to survive and thrive every day.

In addition to his work for Aish HaTorah, Rabbi Lutch is the CEO of the MEOR Foundation, an organization that strives to inspire Jewish students on college campuses to learn more about their history and heritage.

In his personal life, Rabbi Lutch is a husband and a father and a son. He is an asset to his community and our country, and I am pleased we could hear from him on the floor today.

Thank you, Rabbi, for blessing us here today and for your continued dedication to the Jewish people and to people of all faiths. It is an honor to know you.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 further requests for 1-minute speeches on each side of the aisle.

HONORING ELSIE FIGUEROA JOHNSON

(Mr. HOLDING asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. HOLDING. Mr. Speaker, I rise today to honor the life of Elsie Johnson, who passed away last week at her Raleigh home.

Elsie was born in Puerto Rico to Gilbert and Maria Figueroa, and it was there during World War II that she met her husband, Carl Johnson, a North Carolinian and a U.S. Navy sailor stationed at Roosevelt Roads Naval Base.

Elsie and Carl lived the American Dream. Together, they started a small business, a motor shop, which grew into a franchise automobile dealership in New Bern, North Carolina, and, under the leadership of their son, David, now spans dealerships from Maryland to Florida. David learned from his parents the value of hard work and excellent customer service.

Elsie was a woman of incredible faith in God. She was strong, wise, and honest. Mr. Speaker, she made a difference and she leaves a legacy.

May God bless her family.

NATIONAL ASKING SAVES KIDS DAY

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

Mr. CICILLINE. Mr. Speaker, today, June 21, is National Asking Saves Kids Day, or ASK Day.

Every 6 days in our country, a child under the age of 15 dies from an accidental gunshot. Each year, more than 600 children sustain nonfatal injuries from an unintentional gunshot, and 80 percent of all unintentional firearm deaths of children under the age of 15 occur in a home. This is a national crisis, and we need to stop it.

Since 2000, the ASK Campaign has encouraged parents to ask before their child visits another home whether there is an unlocked gun in the House.

Today is the first day of summer, the season when kids spend more time at a friend's house, so later today I will be introducing a resolution to officially designate June 21 as National ASK Day, to promote children's health and gun safety.

This is not a Democratic issue or a Republican issue. This is an issue important to every family all across our country. Let's get the job done and do something that will save the lives of children all across our country. Just ask.

NATIONAL POLLINATOR WEEK

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, this week is National Pollinator Week, and it is a time when we encourage the protection of pollinator species, such as honeybees, native bees, birds, bats, and butterflies as essential partners of farmers and ranchers in producing food.

These pollinators are vital to keeping items like fruits, nuts, and vegetables in our diets.

As vice chairman of the House Agriculture Committee and chairman of the Nutrition Subcommittee, I know that healthy pollinator populations are critical to the continued economic well-being of rural America and our U.S. economy as a whole.

It is important to recognize how critical it is to protect the health of pollinators and celebrate the significance that they play in our everyday lives.

The number of honeybee hives has declined from 6 million in the 1940s to about 2.5 million today. We need to increase those habitats.

American farmers have no better friends than the honeybee. More than one-third of U.S. crops require pollination.

As someone who has a beehive in his backyard, I fully support efforts to raise awareness and keep our pollinators buzzing for generations to come.

SENATE REPUBLICANS ARE CRAFTING THEIR HEALTHCARE BILL IN SECRET

(Mr. KILDEE asked and was given permission to address the House for 1 minute.)

Mr. KILDEE. Mr. Speaker, Senate Republicans are continuing to craft their healthcare bill, TrumpCare, in complete secrecy, behind closed doors, no hearings, no bill text, no transparency whatsoever, and they expect to bring this bill to the floor next week.

The bill is secret, but it is pretty clear why they are keeping this legislation secret: because it is a lousy piece of legislation and the American people reject it because it takes away healthcare from 23 million Americans. For those who are fortunate enough to have healthcare, they will pay more for worse care. You will pay an age tax if you are an older American just to have access to healthcare.

Even President Donald Trump says this healthcare bill is mean. And let's just face the obvious. If Donald Trump says something is mean, you have got a real problem.

This legislation should go through the process of open debate and dialogue, not be crafted in secret because it is such a bad piece of legislation that the people offering it are embarrassed for the folks in America to know what it says. We have to shut this down.

HONORING SAILORS LOST AT SEA

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, the USS *Fitzgerald* collided with a cargo vessel in the Sea of Japan on Saturday, resulting in the loss of life of seven patriotic sailors. Each of the deceased sailors was dedicated in the service to their Nation and exemplified the U.S. Navy's motto, "Not for self but for country."

As the grateful father of an orthopedic surgeon currently serving in the United States Navy, the sailors and their families are in my thoughts and prayers.

May we never forget these sailors: Shingo Douglass, 25, of California; Noe Hernandez, 26, of Texas; Ngoc Huynh, 25, of Connecticut; Xavier Martin, 24, of Maryland; Gary Rehm, Jr., 37, of Ohio; Dakota Rigsby, 19, of Virginia; Carlos Sibayan, 23, of California.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

Our sympathy to the family of former State Representative Skipper Perry of Aiken, South Carolina, Aiken Chamber of Commerce "Man of the Year."

DO NOT REPEAL THE AFFORDABLE CARE ACT

(Mr. GENE GREEN of Texas asked and was given permission to address the House for 1 minute.)

Mr. GENE GREEN of Texas. Mr. Speaker, in the last month, Republican Senators have worked in secrecy on a bill that will repeal the Affordable Care Act. Now they are preparing to vote on that bill next week without any public hearings, no debates, no open forums. Instead, the Senate Republican majority have failed to be transparent with their constituents and the American people. No one knows what is in the bill.

Based on the last CBO score, we know that TrumpCare will lead to 23 million more Americans uninsured and gut protections for Americans with preexisting conditions and force hard-working Americans to pay higher costs for less care.

Mr. Speaker, in the words of President Trump, this bill is a mean bill. Even our former Speaker of the House, Newt Gingrich, has said to slow down.

Why must this bill be so secretive? Because our colleagues across the aisle know that the more light that is shed on their true intentions, the more people will realize this is not a healthcare bill at all, but a massive tax cut for the wealthiest Americans, and it will be paid for by our elderly and our poorest constituents.

Mr. Speaker, that bill is a bad bill.

REMOTE AREA MEDICAL

(Mr. DUNCAN of Tennessee asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNCAN of Tennessee. Mr. Speaker, this morning I met, once again, with representatives from Remote Area Medical, its founder and president, Stan Brock, and its leaders, Jeff Eastman and Anabel Evora.

Remote Area Medical, also known as RAM, is an organization that helps medical professionals volunteer their services to our Nation's neediest.

Over its 32 years, RAM has provided free healthcare to almost 1 million peo-

ple over the course of 862 weekend events so far. Their largest clinic was in Los Angeles, where over 7,000 people showed up to receive free dental care, eyeglasses, women's health services, and other free medical services.

Unfortunately, only 12 States currently allow RAM to host these free clinics with volunteer medical professionals from all over the country. That is why I introduced H.R. 860, the **HEALTHIER** Act, so that people nationwide can have access to free healthcare clinics like RAM's.

RAM is willing to provide these free healthcare services to several million more people across the Nation if only we will allow them to do so.

Mr. Speaker, I commend Stan, Anabel, Jeff, and all the others who work with RAM for their great work, and I urge my colleagues to help to support my bill, the **HEALTHIER** Act, to help many more people receive free medical care.

HOW TRUMPCARE WILL AFFECT AMERICANS

(Mrs. BUSTOS asked and was given permission to address the House for 1 minute.)

Mrs. BUSTOS. Mr. Speaker, I worked in healthcare for a decade. I have seen up close how healthcare impacts families. That is why I began a short video series that we call "Hear from the Heartland". In this, I listen to families about how TrumpCare would affect them.

I have spoken most recently with a woman named Anastasia. She has a little boy named Gryphon. They are from a town called Elizabeth, Illinois, just a small town.

Gryphon was born with cerebral palsy, and because of TrumpCare, Gryphon's family might not have anywhere to turn for affordable coverage and would be at risk of reaching their lifetime limits on their insurance.

Anastasia said it best when she said that her son's preexisting condition was simply being born.

Whether it is at a grocery store or small business, I hear it: people talking about their grave concerns about TrumpCare and what it would do to them.

I want us to work together on healthcare and make sure that we focus on lowering the costs for American families, but, instead, take a look at this. TrumpCare would raise costs, it would rip health insurance away from 23 million Americans, and it is so bad that, in the Senate, they are hiding their bill away. That is not what we were elected to do.

I want to work with my colleagues to improve the healthcare that we deliver to American families.

HONORING THE LIFE OF RICHARD UNDERWOOD

(Mr. RODNEY DAVIS of Illinois asked and was given permission to ad-

dress the House for 1 minute and to revise and extend his remarks.)

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to honor Richard Underwood, a veteran, a member of our Nation's Greatest Generation, an educator, and this is his 90th birthday.

Richard was born in Korea to his Presbyterian missionary parents and was a natural native speaker of the Korean language. After the attacks on Pearl Harbor, he was repatriated from Japanese-held Korea and attended high school in Brooklyn, New York, before enlisting in the U.S. Army and joining the Office of Strategic Services. In World War II, he served behind Soviet Russian lines in Korea and the liberation and division of Korea.

After his service in World War II, he returned to the United States, only to reenlist in the Army following North Korea's invasion of South Korea. As an interpreter in the Korean war, Richard and as his brother helped interpret peace talks at the end of the war.

After this military career, Richard returned to Korea in 1957 to head the America Korea Foundation; and in 1962, he joined the Korean mission of the Presbyterian Church and was assigned to the Seoul Foreign School as its principal and, later, headmaster.

Richard currently lives in Urbana, Illinois, with his wife of 65 years, Carol.

Richard, happy birthday, and thank you for your years of selfless service and sacrifice to this Nation.

SENATE VOTE ON HEALTHCARE

(Mr. EVANS asked and was given permission to address the House for 1 minute.)

Mr. EVANS. Mr. Speaker, Republicans say they want a healthcare system that cuts costs and covers more Americans, yet this bill does no such thing.

Right now, Senate Republicans are having a backdoor meeting about this bill. I may be new to Congress, but I have been around politics long enough to know that you don't hide something that you are proud of.

Right now, they are keeping a bill that would impact the lives of millions a secret. They refuse to let those same millions of people weigh in on the process.

What do we have to lose? In this equation, we have a lot to lose: 23 million Americans stand to lose their healthcare. I will say that again: 23 million stand to lose their healthcare. They are veterans, seniors, students, children, young and old. We all have a lot to lose.

I have said it before; I will say it again. There is a big difference between campaigning and governing. It is time to govern.

Philadelphians deserve a healthcare bill that guarantees quality, affordable care. Now is the time to resist. Together we will speak up and speak out to make our voices heard loud and clear. Philadelphians have not forgotten healthcare. We know we have a lot to lose.
