

many times in history it shows, just a short history ago, of those who have voted for it. Hillary Clinton has voted for border security as well on the wall, Barack Obama, Joe Biden, and CHUCK SCHUMER.

This will be an amendment made in Rules for the bill.

Mr. HOYER. Madam Speaker, I thank the gentleman for his comments.

It is an amendment made in Rules. Is that going to be an amendment that will be made in order for full consideration and debate on the floor of the House of Representatives?

Madam Speaker, I yield to my friend.

Mr. MCCARTHY. Madam Speaker, as the gentleman knows, I do not speak for the Rules Committee. It will be their process and their determination. It is a committee. They will decide as a committee.

Mr. HOYER. Madam Speaker, I thank the majority leader for that answer.

Given the fact that, as the gentleman has pointed out, this was made a major issue by the administration during the campaign, in light of the fact that there are many members of his own administration who believe the wall will not work and is not the most effective way to do what all of us agree ought to be done, and that is to keep our border secure and to make sure that we know who is coming into the United States of America—I think that is a unanimous position, frankly, of the Members of this House.

This border wall, as I understand it, is in none of the four bills that have been marked up by the committee. Therefore, my presumption is the Rules Committee is, in some fashion, going to add this. If they add it, frankly, to the rule and that it is adopted as a result of the adoption of the rule, that will preclude a vote on the wall.

Now, I know the gentleman doesn't like me to quote his book, but it seems to me, in the book, every issue was going to be taken on its own, discretely, and that Members of the House would be able to work their will.

If it is in the rule, that is, I think, not consistent with that ability of Members of the House to fully debate whether or not we ought to be putting billions and billions and billions of dollars into a wall and whether or not that wall would be effective to accomplish the objective.

Madam Speaker, can the gentleman assure me that it will not be simply included and assumed to be adopted by the adoption of the rule itself and will, in fact, be an amendment on which the House can engage and work its will?

Madam Speaker, I yield to my friend.

Mr. MCCARTHY. Madam Speaker, I thank the gentleman for yielding.

He brings up a point about the security of our border. It was a debate nationally, but it wasn't a new debate. It is a debate that actually happened on this floor a short amount of time ago. We all remember the Secure Fence Act. It was actually debated right before I was elected.

We got veto-proof majorities in both the House and Senate. Sixty-four Democrats voted for that bill on this floor, 80 of 100 Senators.

I would like to note once again, who were those Senators who voted for this? It was Hillary Clinton; at the time, Senator Barack Obama; Senator Joe Biden; and Senator CHUCK SCHUMER. So it is not a new challenge.

But the gentleman will be thankful that we have taken the new technology and also applied it within this bill for border security. We have levees. We have dams as well. We have taken the ideas on all sides. The American public has requested this. I can't promise what the Rules Committee will do, just as I would never ask you to promise what one of the committees is going to do.

Just as you quote my book—and I don't get upset with you quoting my book. You should buy it and read it more. Buy more books. The whole staff should be reading my book.

Mr. HOYER. I am enthralled by it, Mr. Majority Leader.

Mr. MCCARTHY. And just to clarify, I get no royalties. The Wounded Veterans get the money, and I am thankful that you buy it.

But if I may finish with this, the Rules Committee will act. The American public expects us to act. We utilize technology. We utilize levees. We utilize dams. And I will tell you, many of those ideas come from your side of the aisle.

It is requested not just from Members on your side of the aisle, but Democrats and city councils and others that are along the border.

So, yes, we are taking action, just as we said we would do. The Rules Committee will find the right place to apply it, and we will be able to have the discussion on the floor.

Mr. HOYER. Madam Speaker, I understand the majority leader's reticence to answer the question because he says he can't speak for the Rules Committee. I understand that. But the fact of the matter is this is an important issue. It ought to be considered by the House.

It ought to have every Member's ability to speak to the issue of whether or not we ought to build that wall, not whether we ought to have security—we all agree that we should and must have security—but whether we do it with a wall, as I said, in which many members of the current administration do not believe it will work and have been quoted as saying so in the past, and there are many Members on our side who feel that.

I would hope that the majority leader would at least make it known to the Rules Committee that we ought to have that as a freestanding amendment, not incorporate it in a rule that the vote for the rule or a vote against the rule is, of itself, a vote on the wall itself.

Lastly, Mr. Leader, I want to say that you and I are both very concerned

about the Russian sanctions and Iranian sanctions bill that is pending. We have been working very hard on that, very constructively on that, and I look forward, over the next 24 hours, more or less, to see whether or not we could get that resolved.

We have introduced, as you know, the Senate bill as a House bill. We would be for that if it would be brought to the floor. But we want to make sure that we move a bill, as you do, as quickly as possible and get agreement with the Senate and move that bill to the President's desk.

I thank you for your work on that, and I look forward to working with you over the next day or two to see if we can achieve that objective together.

Madam Speaker, unless the gentleman wants further time, I yield back the balance of my time.

ADJOURNMENT FROM THURSDAY, JULY 20, 2017, TO MONDAY, JULY 24, 2017

Mr. MCCARTHY. Madam Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet on Monday, July 24, 2017, when it shall convene at noon for morning-hour debate and 2 p.m. for legislative business.

The SPEAKER pro tempore (Ms. CHENEY). Is there objection to the request of the gentleman from California?

There was no objection.

□ 1230

RECOGNIZING GABRIELLA BOFFELLI

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Madam Speaker, last night I was proud to present my legislative director, Gabriella Boffelli, with the Vermillion Award of the Congressional Hispanic Leadership Institute, CHLI, named after the late Steve Vermillion, the former chief of staff to Congressman Lincoln Diaz-Balart.

This award is presented each year to two staffers who exemplify Steve's huge heart and dedication to freedom. None are more deserving than Gaby, and her fellow honoree, Angela Ramirez.

Since starting as an intern in my Miami office 6 years ago, Gaby has risen through the ranks, year after year, serving our south Florida community with wisdom, grace, and integrity. Now completing a master's degree at Johns Hopkins University, Gaby is the consummate public servant, selflessly working on behalf of our constituents, while constantly fighting for democracy and human rights in places like Nicaragua.

It has been an honor to have Gaby Boffelli on my team, and I know this is just the beginning of an extraordinary career.

Congratulations, my friend.
Felicidades, mi amiga.

BRING AMERICA TO 100 PERCENT RENEWABLE ENERGY BY 2050

(Ms. JAYAPAL asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JAYAPAL. Mr. Speaker, to quote Ronald Reagan: "Preservation of our environment is not a liberal or conservative challenge; it's common sense." Yet, this week, my Republican colleagues continued the trend of pushing through bills that deeply undermine critical environmental protections.

H.R. 806, the "Smoggy Skies Act," is an attack on the Clean Air Act that will lift protections against harmful pollutants that put the health of our communities at risk. Republicans also made it clear that they are prioritizing dangerous pipelines while shirking environmental review processes.

But despite their efforts, we are looking ahead and putting forward a bold vision for protecting our environment and our economic future. I am proud to introduce, with Congressmen POLIS, GRIJALVA, and HUFFMAN, the 100 by '50 Act, which aims to bring the United States to 100 percent renewable energy by 2050.

Climate change is the biggest threat to our planet, our economy, our children, and our communities, and our bill lays out a bold roadmap for ensuring that we transition to a clean and renewable energy economy while prioritizing good jobs for workers and investments in our communities.

This is the time to be bold.

HONORING HABITAT FOR HUMANITY OF BUCKS COUNTY

(Mr. FITZPATRICK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FITZPATRICK. Mr. Speaker, I rise to honor Habitat for Humanity of Bucks County, which is an organization dedicated to eliminating substandard housing, locally and worldwide, through constructing, rehabilitating, and preserving homes.

This global, nonprofit housing organization, with a local chapter in my district, operates on the principles that seek to put God's love into action. Habitat for Humanity of Bucks County advocates for fair and just housing policies that provide training and access to resources to help families improve their living conditions.

The Bucks County chapter of Habitat for Humanity is a motivated team, driven towards service, where they build communities and empower families. I am grateful for the work of Executive Director Florence Kawoczka, Laura Blair, B.J. Breish, Colleen Brink, Stefanie Clark, Candace Clarke, Mike Fallon, Susan Harrity, Josh

Hilliker, Theresa Leonard, Sam Martin, Tracy Mulvaney, Karen Reeve, and all of the associates and volunteers who make this organization possible.

Mr. Speaker, I am proud to work with the Bucks County Habitat for Humanity, driven by the conviction that every man, every woman, and every child should have a simple, durable place to live in dignity and safety, and that decent shelter and decent community should be a matter of conscience for all of us.

PROVIDE PROTECTION FOR UNDOCUMENTED FARMWORKERS

(Mr. PANETTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PANETTA. Mr. Speaker, I represent the central coast of California, known to many of my colleagues as the salad bowl of the world. It is where agriculture is the number one industry, and it is where the farm labor movement was partially founded.

Now, as many Republicans and Democrats know, in agriculture, undocumented farmworkers do a majority of the labor-intensive work needed to put food on our dinner tables. That is why I am a cosponsor of H.R. 2690, the Agricultural Worker Program Act, also known as the "Blue Card" bill.

This bill would provide a majority of our farmworkers with a path to legal permanent residence. Now, it doesn't allow people to jump the line. It doesn't just give them benefits. In fact, there are certain obligations that they must undertake in order to receive those benefits. They have to work in agriculture for at least 100 days, and then they have to commit to working in agriculture for 100 days over the next 5 years.

Our farmworkers, whom we employ and critically need, are now living in the shadows for fear of deportation. This bill would provide legal protections for our farmworkers to ensure a better future for their families, our farms, and our communities.

While it is my hope that this bill would again be incorporated into a larger comprehensive package negotiated by Republicans and Democrats, just like it was in 2013 when Congress nearly passed comprehensive immigration reform, the people who help feed our families deserve this opportunity, and that is why I support it.

"MADE IN AMERICA" WEEK

(Mr. WESTERMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WESTERMAN. Mr. Speaker, I rise today to show my support for the "Made in America" Week initiative. It is an initiative to highlight the contributions of American workers and job creators.

Made in America brings to mind a combination of the American spirit of

innovation and perseverance that is required to turn raw materials into manufactured goods.

I am proud of the contributions that my home State of Arkansas makes to the American economy. In Arkansas, 13 percent of the State's workforce is employed in the manufacturing industry, which is the second highest percentage in the South and the third highest percentage in the Nation. Twenty-eight percent of those jobs in Arkansas are in the Fourth District.

In 2016, manufacturers contributed \$2.2 trillion to the American economy. For every dollar spent in manufacturing, an additional \$1.80 is added to another part of the economy.

With abundant resources, a strong infrastructure, and a second-to-none work ethic, Arkansas is working to train the next generation of technicians and visionaries so that manufacturing can expand, promoting better careers, stronger families, and thriving communities.

THANKING UNSUNG HEROES IN WAKE OF ILLINOIS FLOODING

(Mr. SCHNEIDER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHNEIDER. Mr. Speaker, this week, torrential rains caused record flooding in many parts of Illinois, and, in particular, in my district. I had the chance to visit some of the affected areas over the weekend, joined by my colleagues from Illinois, Mr. HULTGREN and Mr. ROSKAM, as well as Senator DURBIN, Fox Lake Mayor Donny Schmit, and Lake County Chair Aaron Lawlor. We spoke with residents and saw firsthand some of the many challenges these communities are facing.

I rise today, however, to recognize the many unsung heroes who have stepped up to help their neighbors, and often helped total strangers, in the wake of this disaster. This includes our first responders, dedicated government workers, and volunteers, many coming from towns far away and unaffected by the floods.

As the rains fell and then in the days after, these people worked tirelessly around the clock to lend a hand and try to hold off the rising waters. We are not out of the woods yet, and the people who serve our communities day in and day out in our local governments, our police and fire departments, and our emergency agencies are continuing to work with professionalism and quick coordination.

Mr. Speaker, I am pleased to use my time today to say "thank you" to these people working behind the scenes without due recognition. They represent the very best of our communities and our Nation and make us all very proud.
