

Children with disabilities or illnesses should not be shunned away from trying to learn because they are considered different.

I am grateful that our Chamber has taken this important step to ensure that the United States dedicates our time and resources to helping the future of the world gain an education. I want to thank my colleagues on both sides of the aisle for their continued support of universal education for all.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. ROYCE) that the House suspend the rules and pass the bill, H.R. 601.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

BENEFITS OF RENEWABLE FUELS

(Mr. YOUNG of Iowa asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YOUNG of Iowa. Mr. Speaker, I rise to speak about an issue of great importance to my district and the State of Iowa, renewable fuels.

On January 31, a renewable fuels summit will allow Iowans to gather together and highlight the essential role Iowa plays when it comes to our energy needs.

The renewable fuels industry boasts good-paying jobs for our economy, not only in my State of Iowa, but across the country. Renewable fuels increase choice for consumers and lower prices at the pump. A U.S. Department of Agriculture report also showed how the renewable fuels contribute to reducing emissions and our Nation's reliance on foreign fuels.

This new Congress provides a lot of opportunity to both renewable fuels advocates and opponents. I look forward to engaging in meaningful discussions with my colleagues to inform them of the benefits of renewable fuels: energy independence, good-paying jobs, enhancing national security, environmental benefits, consumer choice with lower prices, and ensuring the strength and history of the family farm.

I will also work with the Trump administration and anyone else to help protect the Renewable Fuels Standard and consumer access to conventional and advanced biofuels. The renewable fuels industry plays such a key role in so many of our Nation's needs.

PRESIDENT TRUMP'S CONFLICTS OF INTEREST

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Mr. Speaker, I rise today to urge our new President to drain the swamp, to address his own myriad conflicts of interest. President Trump's financial disclosure stated he had a holding of at least \$15,000 in En-

ergy Transfer Partners, the lead developer on the Dakota Access Pipeline. We also know he has at least \$100,000 invested in Phillips 66, which has a 25 percent stake in the same project. His spokesperson claims he has sold his stake, but how do we know? We still don't have his tax returns.

Additionally, news stories indicate he has a holding in TransCanada, the developer of the Keystone XL pipeline. With the White House's action to push these pipelines forward, I fear that today we have the first of many indications of impropriety and conflict of interest. Without disclosure of his tax returns, Mr. Trump's personal financial interests are a riddle wrapped in a mystery inside an enigma. They appear to compromise honorable governance with insider deals.

The President should know the American people are watching, and they do care. The peaceful protests he saw on Saturday are only the beginning if he cannot live up to the ethical requirements of his new office and the legitimate expectations of the American people.

The SPEAKER pro tempore (Mr. LEWIS of Minnesota). Members are reminded to refrain from engaging in personalities toward the President.

CONGRATULATING CLEMSON UNIVERSITY FOOTBALL TEAM

(Mr. RICE of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RICE of South Carolina. Mr. Speaker, I rise today to congratulate the Clemson University football team on their 2017 national championship.

In a nail-biting rematch of the 2016 national championship game between the Clemson Tigers and the Alabama Crimson Tide, the Tigers came back with something to prove—and boy did they, with their 35-31 win.

While every member of the team played their hearts out, I would like to recognize a very special player who hails from the Seventh District of South Carolina, wide receiver Hunter Renfrow. A native of Horry County and graduate of Socastee High School, Mr. Renfrow has had an outstanding season, catching 44 passes, including 6 touchdowns, for a total of 495 yards this season. He joined the Tigers as a walk-on, earned a scholarship, and last week, with 1 second left, caught the game-winning touchdown in the championship game.

I would also like to extend special congratulations to two of Clemson's finest alumni: my wife, Wrenzie, and my friend, Congressman JEFF DUNCAN. I know few people who take more pride in their alma mater and enjoyed this win as much as they did.

This national title is a win for all of the great State of South Carolina. In fact, two national titles currently re-

side in South Carolina: the NCAA football championship in Clemson and the NCAA College World Series at Coastal Carolina University.

Congratulations Clemson, and go Tigers.

LET'S WORK TOGETHER TO IMPROVE THE AFFORDABLE CARE ACT, NOT END IT

(Mr. BRENDAN F. BOYLE of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. BRENDAN F. BOYLE of Pennsylvania. Mr. Speaker, today, in the House Budget Committee, we heard testimony that, if the repeal mission that our Republican colleagues have been on now for the past 7 years is successful, 29.8 million Americans would lose their health insurance.

Now, Mr. Speaker, keep in mind that, for all of the rhetoric, here are the facts:

Thanks to the Affordable Care Act, we have more people with health insurance today in our country than at any time in our Nation's history. What was once a 16 percent uninsured rate has been cut in half. It is now 8 percent.

Why in the world would we want to throw away that progress?

Now, we hear from the other side repeal and replace, repeal and replace. Well, we have now had 65 votes to repeal the Affordable Care Act, and how many votes have we had on their replace plan? Zero. Not one.

It would be criminal to throw away the progress that has been made through the Affordable Care Act. It is not perfect. No law is. No piece of legislation is. Let's work together to improve it, not end it.

AMERICANS' TAX DOLLARS SHOULD NEVER BE USED TO END THE LIFE OF A CHILD

(Mr. MOOLENAAR asked and was given permission to address the House for 1 minute.)

Mr. MOOLENAAR. Mr. Speaker, today, the House voted to end taxpayer support for abortion.

A majority of Americans believe abortion is wrong, and they do not wish to see their tax dollars pay for this gruesome procedure that ends the life of another human being. This legislation permanently puts into law a long-standing policy that has been renewed by Congress every year. It will reassure Americans that the hard-earned money they pay to the government will never be used to fund abortions.

This is necessary because the Affordable Care Act, a law that has been unaffordable for so many Americans, actually paid subsidies for healthcare plans that include abortion. This is unacceptable. A child in a mother's womb is a blessing. Americans expect their tax dollars will never be used to pay to end the life of an innocent child.

Today's legislation will protect taxpayers and, most importantly, our society's most vulnerable—the unborn.

**SUPPORT FOR IMMIGRANTS
ACROSS OUR COUNTRY**

(Ms. JAYAPAL asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JAYAPAL. Mr. Speaker, I rise today in strong support of immigrants across our country.

As an immigrant myself, I understand the sacrifices and hardships that immigrants experience. My parents sacrificed their very small life savings to send me to the United States at the age of 16 by myself to pursue college. That is why I stayed in my district last Friday to host an immigration round-table with directly impacted constituents.

Like many of us, Mr. Speaker, they have heard reports that this new administration intends to deport millions of people across our country rather than working towards a comprehensive reform of our immigration system, similar to the one that was passed in the other Chamber with 68 bipartisan votes, unfortunately, never brought to the floor of this Chamber.

I heard from children, Mr. Speaker, afraid to go to school out of fear that their parents will be taken away while they are at school. I heard from people whose lives are still in limbo because they have no idea what is going to happen next.

But despite their fear, they still are ready to stand together and fight for their futures, and their courage and resilience is truly inspiring. We owe it to them to fight alongside them.

**TAKE YOUR CRIMINAL ALIENS
BACK OR LOSE VISAS**

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, illegal Haitian immigrant Jean Jacques spent 17 years in a U.S. prison for attempted murder. After his release, ICE officials tried to deport him, but Haiti would not take him back, so he was let go. Five months later, he murdered Casey Chadwick of Connecticut, brutally stabbing her in the face and neck 15 times.

U.S. law says that illegals who have committed serious crimes will be deported. But if the country of origin won't take their citizen back, they are released back on the streets of America. There are thousands of criminal aliens who have been turned loose on our streets because their home country won't take them back.

I have introduced legislation to fix this. My bill codifies number seven of President Trump's immigration plan, which states that we should "ensure that other countries take their people back when we order them deported."

My legislation would prohibit visas for these countries that refuse to take their crooks back. No more American lives like Casey's should be lost be-

cause foreign criminals just won't go home.

And that is just the way it is.

DEFENDING CHOICE

(Mr. SCHNEIDER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHNEIDER. Mr. Speaker, 44 years ago this week, the Supreme Court ruled in *Roe v. Wade* in favor of a woman's right to make her own decisions about her own body. It is outrageous that today, more than four decades later, President Trump and my Republican colleagues have made restricting choice their first order of business.

Yesterday, President Trump signed an executive order banning health organizations that receive U.S. funding from even mentioning abortion as a medical option for their patients. And today, this House is launching a radical assault on women's health care that penalizes women and small businesses that choose private health insurance plans that cover abortion services.

The effect of these unprecedented restrictions is clear: restricting the comprehensive health coverage available for women.

Terminating a pregnancy is a personal choice that should be a woman's alone, made in consultation with her family and her physician. Politicians have no role in this process.

I urge my colleagues to end this backward attack on women's rights and start tackling the real challenges voters sent us here to address.

**44TH ANNIVERSARY OF ROE V.
WADE**

(Mr. LAMBORN asked and was given permission to address the House for 1 minute.)

Mr. LAMBORN. Mr. Speaker, I rise today to give voice to the millions of lives that have been lost in the aftermath of *Roe v. Wade*.

In the 44 years since that disgraceful decision, an unconscionable 58 million abortions have been performed. That represents 58 million children who will never grow up, never make their own decisions, and never influence the world around them, but whose lives are cut short.

The House took a vital step today with the passage of H.R. 7, the No Taxpayer Funding for Abortion and Abortion Insurance Full Disclosure Act. I am proud to be a cosponsor of this bill that permanently prohibits taxpayers from funding abortion through the Hyde amendment.

Since its original passage, this amendment has saved over 2 million babies. Congress must make permanent these protections to honor the conscience rights of a strong majority of Americans who do not want their taxpayer dollars paying for abortions.

This week, we gather to mourn the tragic loss of life and to seek God's forgiveness for the stain of abortion on our Nation's conscience.

May God have mercy on our country.

**HONORING ROLETTE COUNTY
SHERIFF'S DEPUTY, COLT ALLERY**

(Mr. CRAMER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CRAMER. Mr. Speaker, today I rise with a heavy heart to honor the life of Rolette County Sheriff's Deputy Colt Allery. On January 18, Deputy Allery made the ultimate sacrifice when he was shot and killed in the line of duty following a high-speed pursuit of a stolen vehicle near Belcourt, North Dakota. He was only 29 years old.

Mr. Speaker, people from across North Dakota and the country gathered today in Belcourt to pay tribute to Deputy Allery, who has been described by his friends and his colleagues as someone "full of spunk, cheerful, and always smiling."

He grew up and lived in St. John, North Dakota, where he dedicated his adult life to selflessly serving and defending his community through a career in law enforcement. In 2011, he became a correctional officer for Rolette County, and later served with the Rolla Police Department and Turtle Mountain Tribal Police Department before joining the Rolette County Sheriff's Office as a deputy, just 3 months ago.

Our State is heartbroken over the loss of another hero taken from us way too soon, and we will never forget Deputy Allery's service and sacrifice in defense of the citizens of North Dakota. My wife, Kris, and I offer our prayers on behalf of Deputy Allery's family, and express our condolences and our profound gratefulness to all police officers who put their lives on the line every day to protect our communities and country.

God bless them, and God bless the memory of Deputy Colt Allery.

SUPPORTING HEAD START

(Mr. YODER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YODER. Mr. Speaker, I rise today in support of Head Start, a program which serves many Kansas families and children to be prepared for modern education.

Many supporters of Head Start came to Capitol Hill today to spread a message, which I believe wholeheartedly: everyone should have the opportunity to pursue the American Dream. For so many, that starts with quality education and Head Start.

We know the importance of getting kids exposed to learning at young ages, but many disadvantaged families lack the resources to do this for their own children. Without Head Start, these
