

with people fleeing, and I met this wonderful woman who said to me: I have my child here. I am dropping her with my sister so that she can be free.

We would not allow this in Texas. We would not allow this in New Jersey. We would not allow this in Florida. We did not allow it even after a week in Katrina. Let's not allow it in Puerto Rico either.

A TRUE AMERICAN PATRIOT

The SPEAKER pro tempore. The Chair recognizes the gentleman from Minnesota (Mr. EMMER) for 5 minutes.

Mr. EMMER. Mr. Speaker, I rise today to honor the career and service of Major General Richard C. Nash. Major General Nash recently retired after serving as adjutant general of the Minnesota National Guard for 7 years.

In his role as adjutant general, Nash had the important responsibility of overseeing Minnesota's Army and Air National Guard units, an important role where he saw great success. Having served in the Army National Guard since 1976, General Nash was selected for the job of general because of his experience and strong leadership during the conflict in Bosnia and the Iraq war.

During his time in the National Guard, as a testament to his hard work and commitment to our great Nation, General Nash has received many awards like the Bronze Star and the Meritorious Service Medal.

General Richard Nash is a true patriot whose service to our Nation has been a blessing to us all. I speak for all Minnesotans when I thank him for his dedication and wish him the best in his well-deserved retirement.

MINNESOTA'S HONORARY CAREGIVER

Mr. EMMER. Mr. Speaker, I rise to honor the life of Carlene Johnston and the beautiful partnership she shared with her loving husband, Dan Johnston.

Originally diagnosed with breast cancer in 2012, Carlene passed away in 2016, after a long and hard fight. Carlene's devoted husband, Dan, stood by his wife's side through every moment, keeping his marriage vow to love his wife in health and in sickness.

On the day that Carlene passed, Dan shared in a post that caring for his wife in her final days was easy, writing: When you're helping someone you love, it's not a burden.

As tribute to Dan's and Carlene's strong marriage and Dan's commitment to caring for his sick wife, Dan was awarded the Waconia Relay for Life's 2017 Honorary Caregiver Award.

Our most sincere condolences go out to the Johnston family, and we thank Dan for epitomizing love in its truest form. You are an amazing role model.

BRINGING THE WORLD EXPO TO MINNESOTA

Mr. EMMER. Mr. Speaker, I rise today to support Minnesota's bid to host the 2023 World Expo. I was proud to cosponsor and see both Chambers of Congress unanimously pass the U.S.

Wants to Compete for a World Expo Act earlier this year to give Minnesota and the United States a chance to showcase the best we have to offer.

The President signed the Expo Act into law in May, and since then, the State Department, the Expo 2023 coalition, and the entire Minnesota delegation have been working hard to bring this prestigious international event back to the United States.

Now, as we near the November 15 announcement from the Bureau of International Expositions, Minnesota is one of the three finalists in the running to host the 2023 event with a proposed theme of "Healthy People, Healthy Planet."

I can think of no better place to hold such an event, as Minnesota is one of the healthiest States in the country, a hub for medical innovation and a world-class location to host the first Expo in the United States in more than 30 years.

I am grateful for the support of my colleagues in Congress and the President to make this opportunity a reality, and I look forward to putting the United States and the State of Minnesota back on the world stage as the host of the 2023 World Expo.

A TOP HONOR FOR SHERBURNE COUNTY

Mr. EMMER. Mr. Speaker, I rise today to congratulate the Sherburne County Sheriff's Office for receiving accreditation from the American Correctional Association. Sherburne County received this accreditation because of the quality of the county jail and the high standards the staff maintains.

The accreditation was actually earned by the 116 correctional officers who operate the jail and the strong leadership of Sherburne County Sheriff Joel Brott.

This is quite an accomplishment. In fact, out of Minnesota's 87 counties, only one other county jail in Minnesota received this accreditation. Congratulations to Sheriff Brott and his officers. We are proud to represent you and to work for you.

INFRASTRUCTURE FUNDING CRISIS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. BLUMENAUER) for 5 minutes.

Mr. BLUMENAUER. Mr. Speaker, my Republican friends are going to be asked this month to embrace a budget and a tax proposal with highly disputed benefits. But what is not in dispute is it will add \$1.5 trillion to the national debt and up to \$4 trillion in cuts to programs Americans care deeply about, like Medicaid and Medicare.

There is a better way. I spent much of this last weekend in Orlando, Florida, with leaders of the American Trucking Association. These are people who understand the infrastructure crisis America faces because they and their employees deal with it every single day. Instead of cutting transpor-

tation funding or having some mythical program without details, they are willing to step up and invest more, raising their fuel taxes—they already pay about half the total cost of the Highway Trust Fund—to be able to make a difference.

And I would hope that Congress will look at that example, listen to those people, and be able to do its part.

In no small measure, because of the leadership of many small businesses and trucking associations around the country, over half the States, since 2012, have stepped up to raise their transportation resources, and the States are seeing the benefit. They are seeing the economic impact of the construction, and it is making a difference on the ground for people and communities.

It is important that the Federal Government does its part. We need to be there for projects that are multimodal, that are multi-State, and multiyear. That Federal partnership has played a vital role since the enactment of the Interstate Highway System in 1956.

The trucking industry was able to make the point that the public is already paying the cost, about \$1,500 a year extra cost for the typical family for car maintenance and congestion.

The transportation industry is paying some \$63 billion of cost every year due to congestion. For about \$2 a week, from the average family, we could take critical steps to make sure that we address this infrastructure funding crisis.

If people really want to have some congressional action that will put people to work at family wage jobs, not the disputed trickle-down economics, it is undisputable that every \$1.2 billion invested in infrastructure creates almost 30,000 jobs.

□ 1015

It creates almost about \$2 billion of economic activity. For each \$1.2 billion invested, it will reduce the deficit \$200 million.

Mr. Speaker, it is past time that this Congress stops shirking its responsibility. We ought to be in partnership not just with the truckers, but with AAA, engineers, contractors, construction unions, local government, the vast array, the largest coalition of groups dealing with a controversial issue before Congress. If we would give 2 weeks to hear from these leaders across the country of this broad coalition, the case would be made and I think Congress would finally step up and do its job.

Our partners in the private sector, in State and local government, and people in the communities can expect Congress to be a partner to make our communities more livable, to make our families safer, healthier, and more economically secure.

I hope when some of our friends from the trucking industry join us this week on Capitol Hill, that Members will listen to their case and be able to have the courage to step up and invest in

our future. Our constituents deserve no less.

**TEXAS TECH PEACE OFFICER
FLOYD EAST, JR.**

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. POE) for 5 minutes.

Mr. POE of Texas. Mr. Speaker, Officer Floyd East, Jr., of the Texas Tech Police Department recently responded to a routine student welfare check at the dormitory. Callers reported a 19-year-old individual named Hollis Daniels, who was acting erratically and potentially had a weapon.

So Officer East went to Daniel's dorm room, and he discovered drugs and drug paraphernalia. Hollis, the defendant, was arrested and taken to the station for a standard debriefing.

But that is when the intake procedure at the police station went haywire. The defendant was not adequately searched before booking. Suddenly, the dastardly criminal whipped out a gun and fired pointblank into 48-year-old Officer East's head, instantly killing him. This is a photograph of Officer East. Yet another peace officer, another guardian of the thin blue line, murdered for no reason.

The suspect then fled, going on the lam, taking Officer East's body cam with him. The university went on lockdown, anxiously waiting for the killer to be found. Sure enough, thanks to the quick actions of the Texas Tech police force, the outlaw was located on campus and apprehended again.

Officer East was an El Paso, Texas, native. He is survived by his wife, Carmen, and two daughters, Anna and Monica. The funeral was a solemn remembrance wrapped up with the release of over 1,000 black and blue balloons, which flooded the west Texas blue sky, all in Officer East's memory.

Peace officers from all over Texas, and even other States, showed up for the funeral. As the body passed the Army National Guard Armory, officers and military stood at attention and saluted Officer East's body.

Officer Floyd East began his career with the Texas Tech Police Department on December 1, 2014. He started as a security guard at Texas Tech University Health Sciences Center in El Paso, Texas.

While working as a security guard, he went on to school at El Paso Community College Law Enforcement Academy to obtain his basic peace officer license to be a peace officer in the State of Texas.

Court documents show that the defendant, when he was arrested, concealed a weapon in his pants; and when Officer East's back was turned, the coward drew the weapon and murdered Officer East. The weapon that he had was stolen.

The defendant is charged with capital murder, and a \$5 million bond is set. May Texas justice occur.

Mr. Speaker, our men and women in blue voluntarily do everything they

can to help protect and serve our communities, especially at our colleges and universities. For these remarkable men and women, their safety, like all peace officers, is never guaranteed. While the badge and the uniform represent safety for citizens, for some reason, in our society it becomes a target for other people, like this defendant.

Officer East worked with university students, helping protect young Texans eager to learn on their university campus. He was senselessly killed. There is never an answer for murder, except to hold the person who did the murder accountable.

The defendant's friends quickly jumped to the defendant's defense online, claiming Daniels was not a monster. Mr. Speaker, college students do make mistakes. A mistake is like missing class and sleeping in. Mistakes are not murdering people.

The defendant is totally responsible for his own actions. He can't blame the drugs, he can't blame the fact that he was young, or he can't blame the fact that he was not thinking right.

Mr. Speaker, I was a judge in Texas for 22 years and heard cases like the murder of Officer East. People are responsible for what they do. In our society, we cannot have this feeling that people are not responsible and that something else calls them to do things. People are totally responsible for the choices that they make.

I have heard all of the excuses. I have heard: "Oh, I was too young." "Oh, I was too old." "I was on drugs." "I was affluent." "I wasn't affluent." I have heard all of the excuses.

There is no excuse. People, like this defendant, are responsible for their actions.

Officers like East are a cut above the rest of us, and they protect us from harm's way and they protect us from evildoers. He is of a rare breed, he is the Texas breed of law officers that sacrifice for the rest of us.

Taps have been played for Officer East. He has been laid to rest. We pray for his family, friends, and those officers in west Texas and Texas Tech University.

And that is just the way it is.

CALIFORNIA FIRES

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of California. Mr. Speaker, the worst fire in the history of California has devastated nearly 300,000 acres, destroyed some 7,000 homes, caused billions of dollars in damage, burned to the ground many businesses, and, most sadly, taken the lives of 42 people; and that number may, in fact, rise.

This fire was like no other, propelled by winds that reached speeds of over 70 miles an hour. It moved so fast, burning at times 200 feet per second—that is three football fields every 30 seconds—

that people had little time to escape their burning homes.

People fled with only their night clothes—no time to grab even their medication, important papers, or personal belongings. Thousands of families were displaced and will have to find housing, rebuild their homes and businesses, and rebuild their lives.

Over 100,000 people were evacuated during the late hours of the first night of this monster firestorm. Many of you saw the news coverage play out on your television. The most covered area in the news is an area in Santa Rosa called Coffey Park. This is it. There alone, some 1,300 homes were burned to the ground. This area is on the far western side of the fire-devastated area, a county away from where it started.

The winds were so high that they pushed the blaze across eight lanes of freeway and over two frontage roads to destroy the homes and the lives of these 1,300 families. The winds were so high that cars were not only burned beyond recognition, but they were flipped over. There is a metal garage door that remains stuck about 35 feet off the ground in the remains of a burned-out pine tree.

Leader McCARTHY was with me in Coffey Park and saw firsthand the devastation. I want to thank the leader for his commitment to work with us to help our communities and the many people so devastated by this unprecedented disaster. I thank also the 11,000 firefighters, the many law enforcement, and National Guard that put their life on the line to stop the raging inferno and protect the lives of the people of my district and the other fire-threatened areas of California. Some of those first responders lost their own homes, but worked 24/7 to help others.

The response was awesome and truly appreciated. Mutual aid came from every county in California, States across our great country, Federal agencies, and from other countries. The actions of civilian heroes and heroines saved an untold number of lives and continue to make life tolerable to those affected by this fire disaster.

The fallout from the disaster will be felt for years, if not decades. You just can't rebuild 7,000 homes and neighborhoods overnight.

The heartbeat of our community—doctors, nurses, workers, teachers, CEOs, and small business owners—were burned out and must start over. My colleagues and I appreciate all of their words of comfort and offers to help. The people hurt by this monster fire will need all of our help. As we move forward, we have to work together to address this devastation that has befallen the people of my district and other parts of northern California.

Mr. Speaker, I yield to the gentleman from California (Mr. HUFFMAN).

Mr. HUFFMAN. Mr. Speaker, I have spent a lot of time with my friend, Congressman MIKE THOMPSON, over the past week because our districts neighbor each other. While the worst of this
