

of any permanent solution. H.R. 2936's provisions that expedite environmental approval for proactive forest management, including hazardous fuel reduction and post-fire timber salvage and reforestation actions, are important steps forward. The Administration supports and will continue to work with Congress on the details of the forest management reform proposals.

Although the Administration has concerns with H.R. 2936's modifications to the Stafford Act, the Administration will continue working with Congress to enact a sustainable solution to "fire borrowing" that does not adversely affect FEMA's critical disaster relief funding and that recognizes the need for a comprehensive solution to the problem of wildfires.

STATEMENT OF ADMINISTRATION POLICY
H.R. 2647—RESILIENT FEDERAL FORESTS ACT OF 2015—REP. WESTERMAN, R-AR, AND 13 CO-SPONSORS

The Administration strongly opposes H.R. 2647. The most important step Congress can take to increase the pace and scale of forest restoration and management of the national forests and Department of the Interior (DOI) lands is to fix fire suppression funding and provide additional capacity for the Forest Service and DOI to manage the Nation's forests and other public lands. H.R. 2647 falls short of fixing the fire budget problem and contains other provisions that will undermine collaborative forest restoration, environmental safeguards, and public participation across the National Forest System and public lands.

Wildland Fire Management Funding

The Administration appreciates that there is bipartisan agreement that wildland fire management funding needs a legislative fix. The reasons are clear: in fiscal year (FY) 1995, the Forest Service in the Department of Agriculture (USDA) spent 16 percent of its budget on firefighting. Today the agency spends more than half of its budget on fire management activities. This fundamentally impedes its missions, including taking critical funding from programs that help reduce the risk of catastrophic fire, maintain healthy functioning ecosystems, and yield timber production.

The wildland fire funding fix in the President's FY 2016 Budget provides the necessary resources for the Forest Service as well as DOI to address wildland fire suppression and rehabilitation needs without resorting to detrimental transfers from other critical forest landscape resilience priorities. Under this fix, which includes a discretionary budget cap adjustment, the Forest Service and DOI could tap disaster funds once they spend 70 percent of their 10-year average of suppression spending, which is the amount of suppression funding requested within the discretionary budget caps. Providing this certainty would preserve critical resources for hazardous fuel reduction and other essential landscape restoration projects, allowing for more acres to be treated, and thereby reducing the risk of fire, and the degree of fire destruction.

The Administration's proposal would immediately increase the Forest Service's capacity to plan and execute restoration projects—including the FY 2016 Budget projection for timber volume sold from 2.9 billion board feet in FY 2014 to 3.2 billion board feet.

In contrast, the requirement in H.R. 2647 to fully fund the ten-year average for wildland fire suppression would mean that less funding is available each year in the agencies' budgets for restoration and risk reduction programs as it is diverted to the ever-increasing ten-year average.

Additionally, the bill repurposes the Stafford Act. The purpose of the Stafford Act is to provide Federal assistance to State, local, and tribal governments to alleviate disaster suffering and facilitate recovery. This bill would instead establish a sub-account within the Department of Homeland Security's Federal Emergency Management Agency's Disaster Relief Fund (DRF) to provide funding for USDA and DOI to perform wildland fire suppression operations on Federal land when suppression funding is exhausted and the President has issued a disaster declaration for such fires. A proposed sub-account under the DRF should not be used to redirect DRF resources in support of non-Stafford responsibilities or to circumvent existing major disaster declarations processes.

Undermining Fundamental Environmental Safeguards

The Administration takes seriously the management of Federal lands consistent with the principles of multiple-use and sustained-yield that are fundamental to the National Forest Management Act and the Federal Land Management and Policy Act and in accordance with long-standing environmental laws including the National Environmental Policy Act (NEPA), the Clean Water Act, and the Endangered Species Act, among others. Application of these environmental laws ensures that management activities recognize the economic benefits of Federal lands and the wide range of goods and services that these lands produce.

At the President's direction, Federal agencies, like the Forest Service and the Bureau of Land Management, are working diligently to promote efficiencies in the permitting and land management process. For example, the Forest Service has established additional categorical exclusions for restoration work, has expanded the use of focused environmental assessments, is using adaptive management to allow decisions to last longer, and is better training employees to take advantage of new efficiencies. The Forest Service is also developing new approaches in the wake of catastrophic fires, such as the response to the Rim Fire, which burned 257,000 acres in the summer of 2013, in which the Stanislaus National Forest finalized its NEPA work for restoration and salvage in one year. The Forest Service is also developing projects across larger areas, thereby utilizing efficiencies and providing a longer term and more certain timber supply for local mills. For example, the Black Hills National Forest is implementing a landscape scale approach across 200,000 acres for treating current and future pine beetle outbreaks.

H.R. 2647 includes several provisions that will undermine collaborative, landscape-scale forest restoration by undermining public trust in forest management projects and by limiting public participation in decision-making. The Administration has substantial concerns with the design and scale of the categorical exclusions, provisions related to post-fire salvage and restoration (including unrealistic timelines for environmental assessments), and unrealistic targets for reforestation given current budgetary resources.

The Administration has serious concerns with provisions in the bill related to the Resources Advisory Committees (RACs). The Administration opposes provisions that limit the discretion of RACs by requiring 50 percent of Secure Rural Schools Act Title II funding be spent on timber management projects. H.R. 2647 also assumes RACs can fulfill the role of local forest collaboratives in designing forest restoration projects, though the RACs were not specially set up to do this and in many cases may not have the breadth of stakeholder interest and expertise to do so effectively. Additionally, the Ad-

ministration opposes restrictions in the bill on the membership of RACs.

Furthermore, the Administration opposes provisions in the bill that require litigants to post a bond when challenging forest restoration projects. As the Forest Service has demonstrated, the best way to address concerns about litigation is to develop restoration projects in partnership with broad stakeholder interests through a transparent process informed by the best available science. Lastly, the bill should include stronger protections for ecologically sensitive areas, tribal sacred sites, and other important lands.

For the reasons set forth above, the Administration strongly opposes H.R. 2647. The Administration looks forward to continued engagement with Congress to address forest management issues, which must begin by providing the Forest Service and DOI with a comprehensive fix to the fire budget problem.

Mr. GRIJALVA. Mr. Chair, I yield back the balance of my time.

The Acting CHAIR (Mr. ROTHFUS). The question is on the amendment offered by the gentleman from New Mexico (Mr. PEARCE).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. GRIJALVA. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from New Mexico will be postponed.

Mr. WESTERMAN. Mr. Chairman, I move that the Committee do now rise. The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. WILLIAMS) having assumed the chair, Mr. ROTHFUS, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 2936) to expedite under the National Environmental Policy Act of 1969 and improve forest management activities on National Forest System lands, on public lands under the jurisdiction of the Bureau of Land Management, and on Tribal lands to return resilience to overgrown, fire-prone forested lands, and for other purposes, had come to no resolution thereon.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess for a period of less than 15 minutes.

Accordingly (at 5 o'clock and 7 minutes p.m.), the House stood in recess.

□ 1800

Mr. O'HALLERAN. Mr. Speaker, this is the final amendment to the bill, which will not kill it or send it back to committee. If adopted, the bill will immediately proceed to final passage, as amended.

Mr. Speaker, schools and counties across rural America are facing a funding and economic crisis. It has now been over 2 years since Congress has failed to reauthorize the Secure Rural Schools program. This is beyond unacceptable.

Schools and counties across rural America are facing a funding and economic crisis, and the reauthorization of the Secure Rural Schools and Community Self-Determination Act will go a long way to helping ensure children get the education they need to achieve success in today's economy.

Across my district, I have heard families, teachers, and school administrators in forest counties tell me about the dire straits schools will be in if SRS is not reauthorized.

In Greenlee County, in eastern Arizona, the school superintendent shared with me that if the county doesn't see SRS dollars, they will have to close the school that provides special education services. This is after the school has already gone through major changes to save money.

Across rural Arizona, schools face issues with access to technology and the educational opportunities that came with them. Reauthorizing Secure Rural Schools will allow more schools to develop innovative educational opportunities.

In Yavapai County, where they are using distance learning, schools can share teachers. Making sure that students don't miss opportunities because they live in rural America is the right thing to do, and reauthorizing SRS will better enable coordination and support for students.

Mr. Speaker, the people of rural Arizona and America are tough and innovative, but the simple fact is that they need resources to keep schools open and educate children. It is past time that we reauthorize SRS, and I call on my colleagues to do so today.

Across rural America and rural Arizona, the need for infrastructure is only growing. In Gila County, a bridge is needed to make it safer for residents to cross a creek. SRS funding would make it possible for the county to make a greater contribution to get the project completed.

If we are serious about passing a bipartisan infrastructure plan, it is critical that we make sure that local communities can begin planning. Reauthorizing SRS would allow that to happen.

Nationally, there are 720 counties and 4,400 school districts that depend on Secure Rural Schools for education, as well as other critical services and programs, like law enforcement and infrastructure.

Rural America is ready for a renaissance, but for it to happen, we need to make sure that folks have equal access to opportunities in school and in the workforce. That means that we need to guarantee that schools have the resources that they need to educate our children and achieve their potential. That means we need to make sure that communities have infrastructure that supports local economies and keeps people safe. That means we need to make sure that rural Americans have a fair shot.

Mr. Speaker, I call on my colleagues to support my commonsense amendment on behalf of kids across rural America.

Mr. Speaker, I yield back the balance of my time.

Mr. BISHOP of Utah. Mr. Speaker, I claim the time in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. BISHOP of Utah. Mr. Speaker, I appreciate the gentleman from Arizona presenting this issue about Secure Rural Schools. I am an old school teacher. I understand how significant and important it is.

The issue, though, for Secure Rural Schools is not the reauthorization, it is finding a funding stream to keep it going. Unfortunately, this amendment doesn't solve the problem. It is not reauthorization, it is the funding, and this provides no funding whatsoever. It doesn't do what we need to do. It simply is another delay tactic.

And let's face it, we are dealing with more significant issues in this Nation, like who is going to win game seven tonight. That is important stuff. That is what we should be talking about. And if you don't pass this forest resiliency act today, there won't be enough trees to make bats for next year's season.

Please vote "no" on this amendment, vote "yes" on the underlying bill, and let's go home.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. O'HALLERAN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 5-minute vote on the motion to recommit will be followed by 5-minute votes on passage of the bill, if ordered, and suspending the rules and passing H.R. 3903.

The vote was taken by electronic device, and there were—ayes 189, noes 230, not voting 13, as follows:
