

my colleagues today to join me in recognizing this great American, Bill Bell. On behalf of the United States House of Representatives, the residents of Durham, North Carolina, and the people of the First Congressional District, I express my sincere appreciation for Mayor Bill Bell's elective service, his dedicated service, and I wish him nothing but my best wishes in the months and years to come.

I thank Bill Bell for his leadership.

SEXUAL ASSAULT ON UNIVERSITY CAMPUS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. POE) for 5 minutes.

Mr. POE of Texas. Mr. Speaker, when teenagers select universities to attend, they assume that their school will protect and take care of them if something horrible occurs. Hannah was no different when she decided to attend Howard University in 2006. But on a Friday night of her sophomore year, she realized how deeply misplaced her trust in the school was.

On that night, Hannah and her friends went to a fellow student's house party. It was a typical college evening filled with dancing and laughter, but it wasn't until the party began to wind down that Hannah's friends noticed she was missing. Hannah was always very safety conscious and never wandered off alone, so her friends were immediately worried and began frantically looking for her in the house. They called her name and searched the entire first floor. Hannah was nowhere to be found.

They tried to go upstairs to search the second floor, but a man grabbed them and forced them down the stairs. He said that nobody was allowed to go upstairs. Hannah's friends argued with him. They screamed her name and threatened to call the police.

Just as the situation was escalating, Hannah appeared at the top of the stairs. She was a mess. She was confused, and she was barely able to walk or to speak. The girls took Hannah by the arms and immediately left the house. Something really awful had happened to her, so they rushed her to the Howard University emergency room.

Mr. Speaker, here is where the university system completely failed her. When the doctor finally came to see Hannah, he told her she was too drunk and she should go home and just sleep it all off. The friends begged the doctor to give her a rape kit, but he just refused and sent them away.

This is malpractice, Mr. Speaker. Rape kits can provide critically important evidence in sexual assault cases, especially cases where the victim has been drugged.

When Hannah woke up the next morning, she was in so much pain she could barely walk, so she called the police and returned to the university emergency room for a rape kit. But because Hannah couldn't remember ex-

actly what happened and who her assailant was, the police and the hospital staff again refused to conduct a rape kit.

Mr. Speaker, the purpose of a rape kit is to find out who the assailant was.

Desperate and denied any assistance from her own university, Hannah still reached out for help. She went to George Washington University Hospital, but they told her that, since she was denied a rape kit at Howard University, she was not allowed to get one at this hospital. Hannah sought help and was rejected at every turn.

This is tragic, Mr. Speaker.

Most of us have kids. A lot of them go to universities—all four of mine did; three of them are girls—and we expect universities to do something to protect those students when a crime is committed against them. The doctors and medical staff at both university hospitals were apparently not trained to deal with traumatized rape victims, and they were clearly ignorant of how important forensic evidence is after an assault.

So to ensure this doesn't happen to more victims, I have introduced legislation that would require a university to provide access to a nurse or a doctor who is properly trained to provide medical care for trauma rape victims or have a plan in place to quickly get a victim to a nearby hospital. Universities must have a plan in place or have access to a staffer.

This bill is named the Megan Rondini Act in honor of another college rape victim from Texas, who was at the University of Alabama. She was denied proper post-rape treatment at a hospital. Eventually, she took her own life because of the fact that no one paid attention to her.

This bill will ensure victims can access the care they need. Having a SAFE, sexual assault forensic examiner, or a SANE, sexual assault nurse examiner, for rape victims at universities ensures that rape kits are properly examined and collected.

Universities not only need to have access to a SAFE, but they need to have a victim advocate trained in sexual assault on campus, and all rape kits from students and nonstudents must be quickly analyzed so that the offender can be determined.

Mr. Speaker, there are thousands of rape kits all over the country sitting on police shelves that just haven't been examined. This is awful.

Hannah was denied justice because of incompetence. Victims are people, too, Mr. Speaker, and schools, especially, should be prepared to deal with sexual assault victims; otherwise, there will be more victims like Hannah.

And that is just the way it is.

RECOGNIZING CONWELL-EGAN CATHOLIC HIGH SCHOOL

The SPEAKER pro tempore. The Chair recognizes the gentleman from

Pennsylvania (Mr. FITZPATRICK) for 5 minutes.

Mr. FITZPATRICK. Mr. Speaker, today I recognize Conwell-Egan Catholic High School and the \$5 million contribution they received to help educate the next generation of students in Bucks County. This gift, in recognition of the school's continued success, was donated by a 1972 graduate who wanted to thank his teachers for all they did to help shape his life.

The benefactor, Mr. Tom Lynch, said he gave the gift because "anything is possible when you get a good education." This quote rings true in the ears of every American. The opportunity to learn from a young age is a critical experience. Continued support for our teachers and our schools is of the utmost importance.

With this donation, Conwell-Egan plans to set a significant amount aside for scholarships and tuition assistance for families in need in our area. Generous contributions like these allow our educational institutions to grow and to offer greater support to our communities.

I congratulate Conwell-Egan, and we all thank Mr. Lynch for supporting such a great institution.

RECOGNIZING PALISADES HIGH SCHOOL FOOTBALL TEAM

Mr. FITZPATRICK. Mr. Speaker, I rise today to recognize the players, coaches, and staff of the Palisades High School football team and to congratulate them on an incredible season. With their consistent displays of grit and tenacity, the Palisades Pirates should be proud of what they accomplished: a 13-1 season and the best record in Palisades football history.

Although their season ended with a tough loss in the playoffs, the Palisades Pirates football team should hold their heads high. They have worked hard, and they have made their community proud.

To the fans, friends, and families who have supported Palisades, we offer our congratulations. To all those who work with and support organized youth sports in our district, we offer our thanks. To the young student athletes on the Palisades football team, I say: Well done. I hope that you take the lessons of cooperation and determination that you have learned on the field with you when you step off the field. Our community is very proud of you.

INNOVATION IN MINNESOTA'S SIXTH CONGRESSIONAL DISTRICT

The SPEAKER pro tempore. The Chair recognizes the gentleman from Minnesota (Mr. EMMER) for 5 minutes.

Mr. EMMER. Mr. Speaker, I rise today to congratulate the 2017 recipients of the Greater St. Cloud Development Corporation Innovation Award. These four recipients received their awards for their ability to incorporate new and inventive ideas into their field.

I want to first congratulate Mighty Axe Hops in Foley for receiving the

For-Profit Emerging Company Award, which highlights their contributions to the hop industry and their efforts to develop an experimental hop yard.

Cybermation of Waite Park received the For-Profit Established Company Award for decades of work in digital healthcare technology for seniors. Cybermation has been innovating since 1996.

I also want to recognize the Talahi Community School for receiving the Nonprofit Organization Award for the school's commitment to building Minnesota's premier adaptive playground in St. Cloud.

Finally, I want to recognize Jugaad for also receiving a Nonprofit Organization Award for their Jugaad Leadership Program in St. Cloud that trains members of underrepresented communities with the knowledge and skills to produce grassroots change.

Again, congratulations to all of this year's award winners. I thank them for their innovation and contribution to our communities.

CAPITAL ONE'S GENEROSITY

Mr. EMMER. Mr. Speaker, I rise today to recognize Capital One and its executive team and employees for their generosity and their commitment to the local communities they serve.

Capital One has generously contributed to the Boys and Girls Club of Central Minnesota to support the organization's mission to enable young people to reach their full potential.

Capital One's \$15,000 grant to fund Project Learn helps advance a focus on equipping kids with coding skills to meet the needs of the future. STEM and tech-related skills are important to the future of our Nation, and Capital One is making a significant investment in our future leaders.

Since 2012, Capital One has donated over \$80,000 to the Boys and Girls Club of Central Minnesota.

Again, I want to thank Capital One for their commitment to the young people of central Minnesota. We are blessed to have them and their team in our community and in the great State of Minnesota.

NEVER GIVE UP

Mr. EMMER. Mr. Speaker, I rise today to congratulate an amazing constituent of mine for his talent and perseverance. From 2003 to 2008, Mick Schultz from Kimball, Minnesota, was a professional snowmobile racer.

In 2008, while competing at a national snocross race, Mike was in a snowmobile accident that resulted in the loss of his left leg. After such a devastating experience, no one would have thought less of Mike if he stopped competing, but Mike Schultz did not give up. Instead, he was racing again at the national level in less than 8 months. Over the past 10 years, Mike has earned eight gold medals at the X Games in adaptive motocross.

Mike would not allow his accident to keep him from sharing his talent and spirit with the world. Mike's talent, however, is not limited to racing snowmobiles.

In 2010, Mike began snowboarding as research for his company, BioDapt, which develops prosthetic equipment for athletes. This led him to compete as a member of the U.S. Snowboarding team. He is now in his fourth season.

As if all of his other accomplishments are not enough, Mike is now a Kellogg's cereal celebrity. Over the years, immensely talented athletes have graced boxes of Frosted Flakes, and we are proud that this year Mike joins the ranks.

I am honored to congratulate Mike on all of his incredible accomplishments and his recognition by Kellogg's. Mike is proof of what a person can accomplish when he confronts life's challenges head-on. Mike is a winner and an example to us all. We are proud and honored that he is a member of our community.

IMPEACHMENT DISCUSSIONS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. AL GREEN) for 5 minutes.

Mr. AL GREEN of Texas. Mr. Speaker, I am always grateful to have this preeminent privilege of standing in the well of the Congress of the United States of America.

Mr. Speaker, I rise today to announce that three prominent Democrats have asked to meet with me to discuss impeachment.

□ 1030

Mr. Speaker, I will meet with them in my office, and here is what I will say:

I will tell them that impeachment is not about Democrats. It is not about Republicans. I will tell them it is about democracy. It is about government of the people, by the people, for the people. I will tell them that it is about the Republic and that it is about what Franklin said: We have a Republic, if we can keep it.

I will tell them that I refuse to sit on the sidelines while the world is considering one of the greatest issues of our time. I will tell them that I will continue to be a part of this great debate.

I will tell them these words I have heard, but I do not know the origin of. I will tell them that if a man does not keep pace with his companions, perhaps he hears a different drummer. Let him step to the music he hears, however measured, however far away.

Mr. Speaker, I will tell them that tomorrow we will bring Articles of Impeachment to the floor of the Congress of the United States of America for a vote.

NATIONAL MINERS DAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Alabama (Mr. BYRNE) for 5 minutes.

Mr. BYRNE. Mr. Speaker, I rise to commemorate National Miners Day.

National Miners Day is recognized on December 6 each year, and I want to

express my deep appreciation to the hundreds of thousands of men and women who work in our Nation's quarries, dredge operations, and other mine facilities to help build and power our Nation.

These workers do a great deal to extract the materials found in every home, building, road, bridge, and public works project.

U.S. domestic production and use of stone, sand, and gravel, or aggregates, amounted to 2.5 million tons of crushed stone, valued at \$25 billion. The U.S. Mine Safety and Health Administration has reported that, throughout its 40 facilities, almost 3,000 people in my home State of Alabama owe their jobs to aggregates mining.

While performing this critical function, workers in the aggregates sector have helped make workplaces the safest they have ever been. In fact, 2016 marked the 16th consecutive year in which the industry reduced its injury rate from the year-earlier level. The rate stood at the record low level of just 1.95 injuries per 200,000 hours worked.

I applaud the safe practices of the aggregates industry and the hardworking men and women who are helping to continue this positive trend.

As chairman of the House Workforce Protections Subcommittee, I look forward to continuing to work with the Labor Department's Mine Safety and Health Administration to advance smart regulation and preventive enforcement that can help keep the workplace safe.

HONORING THE LIFE OF DR. LAUREL BLACKWELL

Mr. BYRNE. Mr. Speaker, I rise today to remember the life of Dr. Laurel Blackwell. Laurel recently passed away after fighting cancer and other medical issues.

Laurel was raised at her childhood farm home in Monticello, Iowa. She obtained an associate's degree from Cotter College in Missouri and a bachelor's degree from the University of Northern Iowa. She later earned her doctorate in administration of higher education from the University of Alabama.

After an early career in K-12 education, she started working in Alabama's community college system. She rose from serving as a tutor to becoming the director of adult education at Wallace Community College in Dothan, Alabama, and the director of workforce development at Southern Union Community College in Opelika, Alabama. Ultimately, she would become the president of Chattahoochee Valley Community College in Phenix City, Alabama.

During my time as chancellor of Alabama's community college system, I grew to know Laurel as a very professional and dependable colleague. I appreciated her honest and direct approach to the issues we faced together.

During her career, she held numerous roles in professional and civic organizations. She was recognized with a Girl
