

a God-fearing man, also, as someone who cared deeply for his staff, his family, his community, and the beloved land of his birth, Jamaica.

He leaves to cherish his legacy his devoted wife of 34 years, Lorna, and his four children, who all worked for the company: Daren, Omar, Monique, and Haywood.

I admire Lowell for bringing our shared love of Jamaican culture to life on a larger scale through food and fellowship. His success story is an inspiration to all who continue to dream the American Dream. I personally was honored to have known him.

As part of a tight-knit Caribbean diaspora and Jamaican community, he was considered a beloved part of my extended family, so much so that my mother adopted him, as mothers often do, and took him under her wing and into her heart. Lowell was more than a friend; he was a brother.

Today, I honor his life and living legacy. I will miss my friend and will cherish him always. On behalf of the people of the Ninth Congressional District of New York, the Clarke family, and myself, I wish to express my most deepest, profound condolences to the family and friends of the honorable Lowell Hawthorne.

#### PLANNED PARENTHOOD INVESTIGATION

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Alabama (Mrs. ROBY) for 5 minutes.

Mrs. ROBY. Mr. Speaker, a few days ago, we learned of the Department of Justice's decision to open an investigation in the appalling practice of abortion providers harvesting and trafficking aborted babies' body parts for profit—finally.

Mr. Speaker, as my colleagues surely remember, in July of 2015, senior Planned Parenthood officials were caught on camera discussing how abortion procedures could systematically be altered in order to preserve certain organs so that they could be sold to researchers. They talked of “crushing” here and “crushing” there, being careful to preserve little parts of a baby's body because they are valuable on the research market. They talked of menus for organs and how lucrative these arrangements could be.

It was sick, callous, and completely inhuman. It also happens to be against the law. Soon thereafter, several of my colleagues and I called for an investigation into these disturbing revelations.

But, Mr. Speaker, our demands fell on deaf ears. Attorney General Loretta Lynch turned a blind eye and didn't pursue an investigation. Even after multiple congressional committees referred their own investigations to the authorities at the Department of Justice, nothing was done.

At the time, I said it was disappointing, but hardly surprising. We all know how much political weight

Planned Parenthood throws around in this town. But, Mr. Speaker, in this country, no one is above the law.

That is why I was so pleased to receive word that the Department of Justice, now under the leadership of Attorney General Jeff Sessions, appears to be following up on the evidence and taking our calls for an investigation seriously.

In a letter to the Senate Judiciary Committee, Assistant Attorney General Stephen Boyd, who I am proud to say was formerly my chief of staff, requested unredacted documents from the committee's investigation into the suspected harvesting and trafficking of fetal tissue. He said, for now, the documents are for investigative use only, and a formal resolution may be required for further proceedings, such as a grand jury.

I appreciate the Department of Justice's attention to this, and I know I am not the only one who will be watching this closely.

When the terrible videos first surfaced in 2015, I immediately came to the House floor and stood right here in the well and spoke out about this outrageous activity. Someone later told me I was the first one to speak on the floor, and, Mr. Speaker, I will be the last, if I have to.

I said then: “I promise . . . we are not done talking about this.” Today, I am glad that has proven to be true.

#### LET'S TAKE CARE OF THOSE AT THE BOTTOM

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. AL GREEN) for 5 minutes.

Mr. AL GREEN of Texas. Mr. Speaker, again, I express my gratitude for the opportunity to speak from the well of the Congress of the United States of America.

Mr. Speaker, I believe that there is some misinformation being accorded the American people. Misinformation because there seems to be a belief among those who are pushing a tax plan that will put us an additional \$1.5 trillion, more or less, in debt. There seems to be the notion being pushed that somehow by giving major corporations major breaks, these major corporations will make a major concession and they will move major amounts of dollars down to those who work at the very lower levels of their businesses: those who clean the floors. Those who are there, they are called the night crew, and they make it possible for those who come in, in the daylight, to have a clean office and a better work environment.

There seems to be a notion that somehow there will be a trickle down to them. I don't see the empirical evidence to support this position. I encourage my friends who believe in trickle down to move to bubble up and allow the minimum wage to be raised.

Raise the minimum wage and make it a living wage.

If you can get it to those at the top, why not assure those at the bottom some degree of benefit from the \$1.5 trillion?

You but only have to decide that you will make a part of this tax bill a raise in the minimum wage. Make it so. You can do it. And if you should do it, you will find that there will be some people who will appreciate the fact that you didn't just look out for those at the top, that you also decided that you were going to take care of those at the bottom.

Finally this, Mr. Speaker, to those who believe that people will pull themselves up by bootstraps that they don't have, please know this:

Dear brothers and sisters: People who are poor cannot do more with less. There is a belief that if you are rich, you need more to do more. But if you are poor, you can do more with less. If poor people could do more with less, there would be no poor people.

Let's take care of those at the bottom. Let the system bubble up, as opposed to trickle down.

#### MODERNIZING SNAP

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. CONAWAY) for 5 minutes.

Mr. CONAWAY. Mr. Speaker, I rise today to discuss an issue that is receiving a lot of attention both in the media and in the House Agriculture Committee, and that is our Nation's largest anti-hunger problem, the Supplemental Nutrition Assistance Program, or SNAP.

As we approach the upcoming farm bill, I would offer a brief perspective, something that I have been keeping in the front of my mind throughout all of these conversations.

Mr. Speaker, SNAP is about families that are living paycheck to paycheck here in our Nation. It is about helping households across this country, not so much worry about where the next meal is coming from, but letting them worry more about their children's education, their own work, and, quite frankly, their own future. It is about helping every citizen realize the American Dream by modernizing a program that helps lift folks out of poverty, rather than trapping them there.

Mr. Speaker, this will not be easy. There will be people who demonize our efforts. Some will even criticize the process. We will have those who paint doomsday scenarios about what we are trying to get done. Some will say it is too much, too soon, and too fast.

Mr. Speaker, nothing could be further from the truth. Our committee has spent 3 years examining every aspect of this program. We have heard from citizens across this Nation who have been helped by SNAP, and we identified modest improvements that we believe will better serve those in greatest need.

Mr. Speaker, we must get this policy right. As I said, we must get this policy right.

I can tell you, Mr. Speaker, that these reforms are about maintaining the American value of generosity, a generosity that says no American should go to bed hungry each night. But, Mr. Speaker, it also strengthens that great American tradition of self-sufficiency that compels us to work to improve our own stations in life.

By doing this, by modernizing SNAP, by making these changes that incentivize work, encouraging collaboration, and promote and improve access, we will be ensuring better nutrition for our American families. And, as budgets tighten in our country and across this government, we will be preserving a program that must be preserved for future generations.

#### HONORING JIM HASLAM

The SPEAKER pro tempore. The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN) for 5 minutes.

Mr. DUNCAN of Tennessee. Mr. Speaker, one of the finest men I have ever known, Jim Haslam, turns 87 today.

Mr. Haslam is one of the greatest leaders Tennessee has ever had, and he is certainly our greatest philanthropist.

He came to the University of Tennessee at the age of 17 to play football for the legendary football coach, General Robert Neyland. He played on some of the greatest teams in Tennessee history, teams that won almost every game, losing only four games in the 3 years that Jim Haslam played.

In 1958, he bought a small gas station in Gate City, Virginia, on the Tennessee line. I believe I read at one point that he paid just \$6,000 for that four-pump station. Through much hard work and long hard hours, he slowly built that one little gas station into the Pilot Flying J chain. He is still involved in the business today.

We frequently tell people in the military: Thank you for your service.

That is a good thing to do. However, we don't show nearly enough appreciation for people who start small businesses, turn them into bigger businesses, and provide good jobs for people and their families.

The Pilot Flying J Company now has over 750 travel centers in 43 States and in Canada, and provides jobs for over 27,000 people. Very few people in this world can say that they are providing jobs for 27,000 people.

Jim Haslam has now contributed over \$100 million to the University of Tennessee. He and his family have contributed very large sums of money to almost every good cause in east Tennessee, in addition to the university.

He and his wife, Natalie, do not just contribute money. They are very active in all sorts of civic and charitable groups in Knoxville.

He is also a very patriotic man and has great love for this country. He

served his country in our Nation's military.

He is one of the biggest contributors to the Republican Party in this Nation and is personally involved in many campaigns. He has been a very good friend and supporter for both me and my late father, and I am very grateful to him.

Most important of all, Jim Haslam has been a good family man. He and his late wife raised three children. Then, many years ago, he married Natalie, a longtime friend; and between them, they raised six outstanding children.

One of his sons, Bill Haslam, is our great Governor in Tennessee and a chairman of the Republican Governors Association.

His other son, Jimmy Haslam, now leads the Pilot Flying J Company and owns and operates the Cleveland Browns football team.

Through hard work, honesty, dedication, and simple human kindness, Jim Haslam has lived the American Dream. He has touched thousands of lives in good and positive ways. This Nation is the greatest country in the history of this world because of people like Jim Haslam. This Nation is a better place today because of the life he has led. I salute him on his 87th birthday and give him best wishes for many, many more.

#### GRANDFATHER RANGER DISTRICT

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX. Mr. Speaker, I rise today to congratulate the Grandfather Ranger District of the Pisgah National Forest and community partners.

Recently, the Grandfather Ranger District of the Pisgah National Forest received the coveted 2017 Restored and Resilient Landscapes Award from the U.S. Forest Service southern region.

The Ranger District received this award due to efforts to produce a healthy and more diverse forest. This project, which began in 2012, has exceeded its goal of restoring 40,000 acres of forest for parkgoers to enjoy.

Specifically, collaborative partners have worked together to remove under-story fuels to decrease wildfire risk, restore shortleaf pines, and increase wildlife openings, while improving areas for deer and other wildlife to forage.

These combined efforts of the Grandfather Ranger District and collaborative partners have yielded fantastic results for our community and our forests.

I know that these efforts will benefit generations of outdoor enthusiasts and conservationists for years to come. I salute the Grandfather Ranger District and the many partners who earn the Restored and Resilient Landscapes Award.
