STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KAINE (for himself, Mr. PORTMAN, Ms. BALDWIN, Mrs. CAPITO, Mr. YOUNG, and Ms. HASSAN):

S. 1004. A bill to amend the Carl D. Perkins Career and Technical Education Act of 2006 to support innovative approaches to career and technical education and redesign the high school experience for students by providing students with equitable access to rigorous, engaging, and relevant real world education through partnerships with business and industry and higher education that prepare students to graduate from high school and enroll into postsecondary education without the need for remediation and with the ability to use knowledge to solve complex problems, think critically, communicate effectively, collaborate with others, and develop academic mindsets; to the Committee on Health, Education, Labor, and Pensions.

Mr. KAINE. Mr. President. In today's increasingly competitive global market, it is more important than ever that students develop the right skills and knowledge to succeed in postsecondary education and enter the workforce. Our nation's future depends on providing students with an engaging experience that is relevant to the workforce and integrates partnerships with industry and higher education. Unfortunately, many high schools currently lack these opportunities, leaving students unprepared for 21st century careers. In fact, nearly 80 percent of college instructors and 60 percent of employers indicate that public high schools fall short in preparing students for postsecondary education.

The cornerstone of high-quality career and technical education, CTE, is a strong focus on academics. The National Research Center for Career and Technical Education conducted a four-year longitudinal study in three states and found that students participating in CTE programs or career pathways outperformed their peers on the number of credits they earned in science, technology, engineering and math, STEM, and AP classes. These students also earned higher grade point averages in their CTE classes. Nonetheless, CTE

is often overlooked in discussions on increasing relevancy and rigor in our nation's schools.

That is why I am introducing with my colleagues, Senators PORTMAN, BALDWIN, CAPITO, and YOUNG, the CTE Excellence and Equity Act. This bipartisan legislation supports funding for innovation in career and technical education to help redesign the high school experience for historically underserved students. The bill would support the integration of rigorous academics with CTE in courses. It would also authorize grants to partnerships among school districts, employers, and institutions of higher education in Virginia and other states that help students earn industry recognized credentials or credit toward a postsecondary degree or certificate. The bill also places an emphasis on understanding the relevance of coursework in the context of a future career by placing an emphasis on teaching workplace skills through job shadowing, internships, and apprenticeships. Preparing our students for the careers of tomorrow puts them in the pipeline for the good-paying jobs that are the future of our workforce.

CTE programs are critical components to every student's education. I am pleased to be introducing this bipartisan legislation to strengthen CTE programs in high school so that students are better prepared for postsecondary studies and the workforce. I hope that my colleagues consider this legislation as we move to reauthorize the Carl D. Perkins CTE Act.

By Mr. GRASSLEY (for himself, Mrs. FEINSTEIN, Mr. LEAHY, and Mr. HATCH):

S. 1010. A bill to amend title 17, United States Code, to provide additional responsibilities for the Register of Copyrights, and for other purposes; to the Committee on Rules and Administration.
