

I am pleased to transmit the 2016 *National Drug Control Strategy* summarizing the accomplishments of my Administration's 21st century approach to drug policy and opportunities to continue to reduce the burden of substance use in the United States. My Administration released its first *Strategy* in 2010 with a commitment to use the best available science and to consult broadly to develop a balanced and comprehensive approach to drug policy that incorporates both public health and public safety approaches to address this complex problem.

We set aggressive goals to reduce drug use by 2015 and though the results of our efforts are mixed, we have seen progress in reducing drug use and in cooperation both nationally and internationally. As a Nation we exceeded our goals for reducing alcohol and tobacco use among youth and for reducing the number of new HIV infections attributable to drug use. We have been less successful in reducing illicit drugs in youth and young adults as well as reducing the number of drug-induced deaths and driving while drugged. We also face serious challenges including an epidemic of opioid drug use and overdose deaths as well as growing threats from drug trafficking organizations involved in manufacturing and distributing cocaine and synthetic drugs, including novel psychoactive substances. These threats may continue to have an impact on drug use across lifespans, particularly chronic drug use and its consequences that contribute to poor academic performance, crime, underemployment, lost productivity, and health care costs, all of which threaten families and communities.

My Administration has consistently sought a broad coalition of partners to provide input into the development and enhancement of the *Strategy* during the past 7 years. We have invested in science to better understand the nature of addiction and inform the prevention and treatment of addiction and support services to help maintain recovery in the community. We have sought to use medical terms and non-stigmatizing language when discussing substance use disorders, and those who suffer from this disease. Our support for law enforcement has led to significant outcomes in taking down drug trafficking organizations and removing millions of pounds of drugs from the market. And our work with our international partners has been instrumental in our allies' increasing regulation of chemical precursors to synthetic drugs and reducing their movement across the globe. Throughout my Administration, we have used the best available evidence to balance the Nation's public health and public safety and drive collaborative efforts to create healthier, safer, and more prosperous communities.

The Nation's work in reducing drug use and its consequences is not done and there are many opportunities for advancing efforts to address ongoing

and emerging challenges. I thank the Congress for its continued support of our efforts and ask that you continue to support this vital endeavor.

BARACK OBAMA.
THE WHITE HOUSE, January 11, 2017.

MESSAGE FROM THE HOUSE

At 12:03 p.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:
