

transferring that to tax breaks. Those tax breaks go overwhelmingly to the very wealthiest Americans—to the top 1 percent, in fact.

One of the things we did when we put together the Affordable Care Act to help pay for it was—we said: You know what, we think wealthier households should have to pay a small fee on their unearned income to be devoted to the Medicare trust fund.

Everyone in the country knows when they get that pay stub, it tells them how much is taken out for Medicare—3.4 percent. We said: Look, that should not just apply to earned income from hard-working people. If you're in the top 1 percent, if you are a higher income earner, you should also be contributing some of your capital gains revenue to help strengthen Medicare. That is what we did.

Yet this bill provides all those households with a tax cut. In fact, for millionaires, the average annual tax cut as a result of this bill will be \$50,000—a \$50,000 tax cut to millionaires while cutting access to affordable care for 23 million of our fellow Americans.

Why all these tax cuts are in something masquerading as a healthcare bill, I don't know, but we now know certainly who benefits the most from this legislation. Beyond those top 1 percent income earners, you also have insurance companies and the pharmaceutical industry. They get some tax breaks, as well, under this legislation.

Finally, I said at the outset that this TrumpCare 2.0, the most recent Republican healthcare bill, is worse than the original one. The original one was rotten to the core. The original one had most of the provisions I am talking about. So what got added that makes this one even worse? To find that, people should look at page 5 of this report and see what happens to people in States that decide to get rid of the patient protection provisions in the Affordable Care Act.

We have heard a lot of talk about how that House bill isn't really going to hurt people with preexisting conditions like diabetes and asthma. We have heard all that, but here's what the Congressional Budget Office report says. This is what the referee, the umpire, has to say about that with respect to those States. It says: "Community rated premiums would rise over time, and people who are less healthy," and then they state "including those with preexisting conditions or newly acquired medical conditions," right? So people who have had any kind of preexisting condition or prior health condition that an insurance company will argue makes them a much greater risk—people who are less healthy and those with preexisting conditions "would ultimately be unable to purchase comprehensive nongroup health insurance at premiums comparable to those under current law, if they could purchase it at all." They go on to say "despite the additional funding that would be available under H.R. 1628."

That is the House bill. Despite that additional funding to help reduce premiums, they go on, and I hope our colleagues will pay attention to this conclusion: "As a result, the nongroup markets in those states would become unstable for people with higher-than-average expected health care costs." Translation: People with preexisting conditions, people who, because they had diabetes or asthma as a child or they have a congenital disease—any preexisting condition will make it much harder for them to afford any kind of coverage at all, and ultimately the nongroup markets in those States will become unstable for those people. That is why this TrumpCare 2.0, this House healthcare bill, this Republican bill, took a really rotten bill and actually made it worse.

It is not enough, colleagues, for people to make a few cosmetic changes to this, to put couple of bandaids on it in the Senate, and say "Hey, we made this thing better" because this is rotten to its core.

If people really want to address healthcare reform, let's work together to improve the exchanges. There are commonsense things we can do to improve the exchanges, but you don't improve the exchanges by cutting Medicaid by \$834 billion. That has nothing to do with the exchanges. You don't improve the exchanges by giving a windfall tax credit to the wealthiest Americans. That has nothing to do with healthcare.

TrumpCare 2.0, this Republican healthcare bill, is rotten to the core. Let's throw it out, and let's focus on the question of fixing the exchanges. If people want to do that, we can actually get something done. But let's not pretend we are doing healthcare when really what the goal so far has been is "healthcare."

Thank you.
