

gave chase to the *Hannah*, and Captain Lindsey, who knew the waters of Narragansett Bay far better than Dudingston did, steered his ship north toward Pawtuxet Cove in Warwick, right over the shallows off of Namquid Point—known today as *Gaspee* Point. The lighter *Hannah* was able to shoot over those shallows, but the heavier *Gaspee* ran aground and stuck firm in a sandbar in a falling tide. The British ship and her crew were stranded and would need to wait many hours before a rising tide could free them.

Wasting no time, Captain Lindsey sailed up to Providence, and with the help of the respected merchant and statesman John Brown, rallied a group of Rhode Island patriots at Sabin's Tavern, in what is now the East Side of Providence. Together, after suitable refreshment, the group resolved to end the *Gaspee*'s menace in Rhode Island waters.

That night, 80 or so men shoved off from the wharf under a moonless sky, with their faces blackened and their oarlocks muffled, paddling eight longboats down Narragansett Bay toward the stranded *Gaspee*. The longboats silently surrounded the *Gaspee*, and the Rhode Islanders shouted for Lieutenant Dudingston to surrender his ship. As Daniel Harrington recounted in the Providence Journal, “Captain Abraham Whipple spoke first for the Rhode Islanders, summoning Dudingston: ‘I am sheriff of Kent County, [expletive]. I have a warrant to apprehend you, [expletive]; so surrender, [expletive].’ It was a classic Rhode Island greeting!”

Surprised and enraged, Dudingston refused and ordered his men to fire upon anyone who attempted to board the *Gaspee*. Gunshots struck out in the night, and musket balls hit Lieutenant Dudingston in his groin and his arm. The Rhode Islanders, outnumbering the British, swarmed onto the deck and commandeered the ship. Brown ordered one of his Rhode Islanders, a physician named John Mawney, to tend to Lieutenant Dudingston’s wounds.

After properly plundering the lieutenant’s quarters, the patriots removed the British crew to land and returned to torch the *Gaspee*. Ultimately, the flames reached the powder magazine, and the resulting blast echoed across the bay as the dreaded *Gaspee* blew to smithereens.

When word got back to the King, he was furious, and he offered huge royal rewards for the capture of the rebels who had done this deed, but, strangely enough, no Rhode Islander would step forward to finger the perpetrators. You have to admire, under that kind of pressure, that with 80 people who had gone down in those longboats, not one Rhode Islander would spill the beans.

Word spread throughout the Colonies of this incident and of the Crown’s brand of justice. Samuel Adams wrote a letter in the Providence Gazette on December 26, 1772, that read, in part:

A court of inquisition, more horrid than that of Spain or Portugal, is established

within this colony, to inquire into the circumstances of destroying the *Gaspee* schooner; and the persons who are the commissioners of this new-fangled court, are vested with most exorbitant and unconstitutional power. They are directed to summon witnesses, apprehend persons not only impeached, but even suspected! And . . . to deliver them to Admiral Montagu, who is ordered to have a ship in readiness to carry them to England, where they are to be tried.

The Reverend John Allen delivered at the Second Baptist Church in Boston a Thanksgiving sermon on the *Gaspee* Affair that was distributed in pamphlet form throughout the Colonies. His words helped rouse the spirit of independence of this fledgling Nation. He said:

Supposing . . . that the Rhode Islanders, for the sake of the blood-bought liberties of their forefathers, for the sake of the birthrights of their children, should show a spirit of resentment against a tyrannical arbitrary power that attempts to destroy their lives, liberties and property, would it not be insufferably cruel (for this which the law of nature and nations teaches them to do) to be butchered, assassinated and slaughtered in their own streets by their own King?

Well, schoolchildren’s history books tell a tale of Bostonians who dressed up in funny outfits and climbed onto a British boat and pushed bales of tea into the harbor, but not enough schoolchildren know of the bravery of the Rhode Islanders who, more than a year earlier, fired the first shots and drew the first blood in the quest for American independence. It is a fine thing, I am sure, to push tea bales off a boat. We blew the boat up, and we did it more than a year earlier.

Rhode Islanders are justifiably proud of our role in our rebellion. We have made a tradition of celebrating the *Gaspee* incident with the annual *Gaspee Days* celebration and parade through Warwick. An independent study group at Brown University is adapting the tale of the *Gaspee* into a virtual reality educational experience so you can put on the goggles and reenact the experience of the *Gaspee*, marrying Rhode Island history with cutting-edge technology to engage middle and high school students in this history.

Someday soon, children across the country may be able to join Captain Whipple and John Brown and step into a virtual longboat, coast down a virtual Narragansett Bay, and watch the sky over a virtual Rhode Island, alight with the fire of revolution.

I thank the Presiding Officer.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. McCONNELL. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

50TH ANNIVERSARY OF THE REUNIFICATION OF JERUSALEM

Mr. CARDIN. Madam President, this June marks the 50th anniversary of the

reunification of Jerusalem. I am honored to have supported S. Res. 176, which commemorates the 50th anniversary of the reunification of Jerusalem.

This resolution reaffirms the Holy City of Jerusalem’s central role for the Jewish people dating back many millennia. Since 1967, all people of all religious faiths are able to visit and worship at the holy sites of Jerusalem. I will always stand with Israel as it ensures that all individuals enjoy opportunities to visit and worship at Jerusalem’s holy sites.

The United States has stood with Israel for the past 50 years and will continue to do so. The intervening 50 years have included momentous changes in Israel and throughout the region, including peace treaties with Egypt and Jordan that stand to this day. These events give me hope for a future in which Israel and all of its neighbors together benefit from a comprehensive, warm peace.

CHILD PROTECTION AND FAMILY SUPPORT ACT

Mr. DAINES. Madam President, I am honored today to announce legislation that Senator PETERS and I have introduced that provides another option for children in the foster care system in Montana and across the country.

I worked with a host of Montana groups to develop the Child Protection and Family Support Act of 2017, including a handful of nonprofit organizations focused on foster youth, the Montana attorney general, Indian Tribes, and individual constituents. I am pleased to have their support on this legislation.

Montana is in the midst of a child welfare crisis. We have a record 3,400 children in foster care, and about a third of those children are there because of methamphetamine use by their parents.

Montana state law requires the Office of the Child and Family Ombudsman to investigate circumstances surrounding child fatalities when the child was involved with the Montana Department of Public Health and Human Services Child and Family Services Division within 12 months of the date of the child’s death.

Last December, the Montana Department of Justice issued a report and the findings were devastating: It detailed 14 child deaths that met these parameters.

Of the 14 cases reviewed, 11 involved children 2 years old or younger. In nine of those cases, the children were 1 year old or younger. Eleven cases included allegations of drug use, four of which indicated methamphetamine use. Six cases indicated issues of domestic violence, and eight cases involved parents who received child protective services in Montana when they themselves were children. I have been told that at least seven children have met a similar fate in the first 5 months of 2017 alone. The death of one child is too many.

Under current Federal policy, a child must be removed from the home of a parent and, after removal, cannot be living with the parent, in order to be eligible for a title IV-E foster care maintenance payment. My bill would permit title IV-E foster care maintenance payment support, for up to 12 months, for a child in foster care who is placed with a parent in a licensed residential family-based treatment facility. This would allow the parent to get the help they need while keeping the family intact.

Secondly, the bill would reauthorize the Administration for Children and Families' Regional Partnership Grant, RPG, Program. These competitive grants reduce the risk of foster care due to parental substance abuse, an issue of utmost importance to Montana. Since their inception in 2006, two Montana grantees have utilized and benefited from RPGs: the Center for Children and Families in Billings, MT, and the Apsaalooke Nation Housing Authority in Crow Agency.

My bill reauthorizes and strengthens this grant program with modest improvements. For example, it encourages the use of RPGs to address the needs of children and families affected by methamphetamine, heroin, and opioid substance use disorders, help implement effective title IV-E prevention services, and focus on improved outcomes for families, including children and their parents. The bill further requires that, in addition to the State child welfare agency, every funded partnership must include the State agency that administers the Federal substance abuse prevention and treatment block grant and, if the partnership intends to serve children placed in out-of-home care, the court that handles child abuse and neglect proceedings in the region.

Among the long list of eligible grant applicants and partners, Native American Tribes, Tribal consortiums, and Tribal organizations are all eligible grantees, and I hope they will increasingly utilize RPGs, especially given the unique foster care challenges in Indian communities.

As a U.S. Senator, as a person of faith, as a father, and as an American, I believe in helping the most vulnerable in our society—in this case, innocent children.

I urge my colleagues to join me in supporting this legislation.

100TH BIRTHDAY OF THE 34TH AND 37TH BOMB SQUADRONS

Mr. THUNE. Madam President, today I would like to recognize the 100th birthday of the Air Force's 34th and 37th Bomb Squadrons.

Two of the oldest active squadrons in the U.S. Air Force, the 34th and 37th Bomb Squadrons first served our Nation during "the war to end all wars." Too soon after the conclusion of their service in World War I, however, our country needed them once again. Dur-

ing World War II, when our allies in Europe and in the Pacific called for help, the brave airmen of these units answered the call. They served with distinction during the historic Doolittle Raid, a daring mission that tested the limits of the B-25 bombers that had been selected to strike a blow to the heart of the Japanese empire. While their bombers delivered payloads, their courage delivered hope to a world that longed for peace.

The 34th and 37th Bomb Squadrons went on to fly numerous interdiction and support missions during the Korean war, deployed during Operation Desert Storm, and fought in Kosovo and Serbia. When terrorists attacked our homeland in 2001, both squadrons took action in Operations Enduring Freedom and Iraqi Freedom. In 2011, the 34th and 37th joined forces to launch the first ever B-1 combat mission launched from the continental United States, flying from Ellsworth Air Force base in South Dakota to hit enemy targets in Libya during Operation Odyssey Dawn. During their 100 years of service, the airmen of the 34th and 37th Bomb Squadrons have assisted allies around the globe and represented the very best of who we are as a nation. I have full faith they will continue their distinguished service in defense of our country, our allies, and our freedoms.

So many times throughout the history of our republic, we have called upon ordinary men and women to become extraordinary heroes. Today we honor the legacy of the heroes of the 34th and 37th Bomb Squadrons, and I thank you for joining me in wishing them the best as they celebrate a century of service.

TRIBUTE TO VICE ADMIRAL JAMES D. SYRING

Mr. SHELBY. Madam President, today I wish to mark the retirement of VADM James D. Syring from the U.S. Navy following more than three decades of military service to this great Nation.

In his last post, he served as the Director of the United States Missile Defense Agency, MDA. As Director, Admiral Syring made enormous contributions to the successful development and fielding of the Ballistic Missile Defense System, BMDS, in order to protect our Nation, American troops deployed abroad, our allies, and our international partners.

Beginning as a midshipman at the U.S. Naval Academy, the Navy recognized his potential early on and designated him an engineering duty officer, where he served in various assignments.

Upon selection to flag rank in 2010, Admiral Syring served as the program executive officer for Integrated Warfare Systems, where he managed integrated weapons systems for ships, submarines, carriers, and aircraft within the Fleet and Joint Force.

His intellect, work ethic, and ability to deliver complex weapons systems resulted in his being nominated and confirmed as the ninth Director of MDA in November 2012, the first naval officer to assume the directorship of this multibillion-dollar Agency. He oversaw MDA's worldwide mission to develop and deliver to the warfighter a capability to defend the United States against ballistic missile attacks. He has done an outstanding job.

During his time at MDA, the Agency and the Department of Defense made significant progress in addressing current and emerging ballistic missile threats of all ranges. The progress made is even more remarkable considering the budget cuts sustained during that time. In response to the growing North Korean ICBM threat, Admiral Syring implemented a program to expand the capacity of homeland missile defenses. His leadership brought acquisition rigor to the critical Ground-based Midcourse Defense—GMD—Program and laid the foundation for the Agency to implement ground system modernization, a robust ground-based interceptor—GBI—Stockpile Reliability Program, as well as the Redesigned Kill Vehicle Program.

Under Admiral Syring's steady hand, the Agency successfully fielded a new data terminal at Fort Drum, NY, providing the warfighter the capability to improve communication with homeland defense interceptors.

He also oversaw a strategy to improve the overall sensor and discrimination capability of the Ballistic Missile Defense System. With the Long Range Discrimination Radar—LRDR—Program, MDA will deploy an improved persistent midcourse BMDS discrimination capability to enhance the Pacific architecture. The program today is within cost and is on schedule to deliver an initial capability to the warfighter in 2020. Those most familiar with major defense acquisition programs know that this is no small accomplishment.

Overall, Admiral Syring's advocacy for additional interceptor capacity, improved GBI reliability, a redesigned kill vehicle, and LRDR resulted in a fielded system that meets the threat today and is well-positioned to be expanded upon for future challenges.

Admiral Syring was also responsible for major BMDS asset deployments around the globe. He strengthened regional defenses by continuing deliveries of terminal high altitude area defense—THAAD—interceptors and Standard Missile-3—SM-3—Block IBs for use on Aegis Ballistic Missile Defense ships and at Aegis Ashore sites. He took steps to ensure that the United States remained committed to the planned European phased adaptive approach—EPAA—deployments.

He oversaw the delivery of the Aegis Ashore system in Romania in support of EPAA Phase 2, which was accepted for operations by the warfighter in May 2016. In addition, under his leadership, construction of the Aegis Ashore
