

civilian was armed and the type of force used and the types of weapons used in the incident. The bill would require the officer to explain why force was used, provide a description of any injuries sustained as a result of the incident, detail how many officers and civilians were involved, and provide a brief description of the circumstances surrounding the incident.

The bill would create a grant program to help smaller law enforcement agencies—those with 100 employees or less—comply with the provisions of the bill. Also, it would allow those agencies to use the grant money to create public awareness campaigns designed to gain information regarding shootings and use of force incidents against police officers. Lastly, the legislation would allow agencies to use the funds to conduct use-of-force training, including deescalation and bias training.

There is no excuse not to collect more data on use of force incidents between law enforcement officers and civilians. Shining a spotlight on these instances will improve police-community relations, vindicate wrongly accused law enforcement officers, and provide lawmakers with the information they need to devise smart and effective policy. I am proud to have introduced the PRIDE Act, and I urge its speedy passage.

250TH ANNIVERSARY OF THE TOWN OF LEBANON, MAINE

Ms. COLLINS. Mr. President, today I wish to commemorate the 250th anniversary of the town of Lebanon, ME. Lebanon was built with a spirit of determination and resiliency that still guides the community today, and this is a time to celebrate the generations of hard-working and caring people who have made it such a wonderful place to live, work, and raise families.

The year of Lebanon's incorporation, 1767, was but one milestone in a long journey of progress. For thousands of years, the land of fields, streams, and forests of what is now southwestern Maine was the home of the Abenaki, who called the area "Towwoh," meaning "a place to grind corn." The many archeological treasures unearthed in the region include a large ancient stone mortar used by the Abenaki for that very purpose.

In 1733, the Massachusetts General Court granted Towwoh Plantation to 60 colonists, and European settlement began. When the town was incorporated on June 11, 1767, the name Lebanon was chosen in reference to the Biblical land of fertile soil and towering trees.

With the Salmon Falls River and Little River providing power, Lebanon soon was home to many lumber, grain, and textile mills. The wealth produced by the land and by hard work and determination was invested in schools and churches to create a true community.

Among the many prominent residents of the town over the years was

the Reverend Oren Burbank Cheney, who established the Lebanon Academy in 1849. His courage and vision as an outspoken opponent of slavery and advocate for full rights for women and Native Americans so impressed Boston industrialist Benjamin Bates that, when Bates College was established in Lewiston in 1864, the Reverend Cheney was named as the first president of the esteemed school.

The coming of the railroads in the late 1800s helped to make Lebanon a tourism destination, with fine hotels, inns, and restaurants. An early visitor was the famed Norwegian violinist, Ole Bornemann Bull, who performed a concert at one of the town's remarkable attractions, the enormous cavern entrance known as Gully Oven, in 1871. The virtuoso was so impressed by the acoustics of the natural amphitheater that he bought a home in Lebanon, becoming one of the town's first summer residents.

Today visitors and residents alike enjoy Lebanon's quiet parks, beautiful historic buildings, and exciting outdoor recreation opportunities. The energy and planning that are going into Lebanon's 250th anniversary celebration this July demonstrate the pride townspeople have in their town.

The celebration of Lebanon's 250th anniversary is not merely about the passing of time; it is about human accomplishment. We celebrate the people who, for longer than America has been a nation, have pulled together, cared for one another, and built a great community. Thanks to those who came before, Lebanon, ME, has a wonderful history. Thanks to those there today, it has a bright future.

TRIBUTE TO JENNIFER SANTOS

Mr. COCHRAN. Mr. President, I wish to commend Jennifer Santos for her service on the Senate Committee on Appropriations.

She has served for 5 years as a very capable budget analyst for the Subcommittee on Defense. Her accomplishments have been very impressive and a credit to the Senate.

After graduating from Wheeling Jesuit University with a degree in mathematics, Jennifer joined a defense contractor in support of the Air Force's F-22 program. She played an important role in that program and can be proud of her contribution to fielding the most capable fighter aircraft ever developed.

Her talent was soon recognized by the Air Force where she served in a series of important positions, including those involving special programs that are key to protecting our national security. Jennifer established a reputation for competence in working with leaders from Department of Defense, Congress, and other agencies to ensure the responsible allocation of taxpayer dollars.

Jennifer's detailed knowledge of military budgeting and acquisition systems allowed her to make insightful

recommendations to the subcommittee, which have resulted in the better investment of tens of billions of taxpayer dollars over her Senate tenure. In particular, her efforts have supported increased Army helicopter procurement, important research and development projects funding, and legislation to improve the management of the Department of Defense.

Jennifer Santos has upheld the highest standards of a budget analyst, congressional staffer, and defense professional. Although she is soon leaving the committee, I wish her all the best on her next steps in her distinguished career and thank her for her work in the U.S. Senate.

ADDITIONAL STATEMENTS

TRIBUTE TO LIEUTENANT COLONEL SARAH B. GOLDMAN

• Mr. ALEXANDER. Mr. President, I would like to pay tribute to my constituent LTC Sarah B. Goldman for her exemplary dedication to duty and service to the U.S. Army and to the United States of America. She has served the last year as the chief of Congressional Affairs, Office of the Army Surgeon General. Lieutenant Colonel Goldman was born and raised in Nashville, TN, and received her commission as a lieutenant junior grade in the U.S. Navy in 1998. Lieutenant Colonel Goldman transferred to the U.S. Army in 2008.

Prior to her current assignment, LTC Sarah Goldman served as a congressional liaison in the office of the Assistant Secretary of the Army, Financial Management and Comptroller, as the medical liaison for the Army Surgeon General.

Lieutenant Colonel Goldman served as the Army Traumatic Brain Injury Program director at the Office of the Surgeon General, Rehabilitation and Reintegration Division, in Falls Church, VA, from 2010–2013. In 2011, she deployed to Afghanistan as a member of the International Security Assistance Force Joint Command's special assistant for Health Affairs Health Service Support Assessment Team to review traumatic brain injury care in the Combined Joint Operations Area-Afghanistan.

Lieutenant Colonel Goldman served as the Army's service representative to multiple Department of Defense traumatic brain injury working groups and, in 2010, was appointed as a member of the NATO Technical Team "Mild traumatic brain injury in a Military Operational Setting." At the U.S. Army Research Institute of Environmental Medicine's Military Performance Division Lieutenant Colonel Goldman conducted research studies related to rehabilitation from traumatic brain injury and upper extremity neuromusculoskeletal injuries. She deployed to Balad, Iraq, from August 2009 to February 2010 as a senior scientist with the Joint Combat Casualty Research

Team. Her Navy assignments include assistant department head, Physical and Occupational Therapy Department, Naval Hospital Jacksonville, and division officer, Educational and Developmental Intervention Services, Naval Hospital Yokosuka, Japan. In 2004, the Navy selected Lieutenant Colonel Goldman as the "Navy Occupational Therapist of the Year."

She holds a Ph.D. from Indiana University in kinesiology and is a graduate of Washington University in St. Louis, master's degree in occupational therapy and a bachelor of arts degree, with a follow-on fellowship at Vanderbilt University. Lieutenant Colonel Goldman has presented at numerous national conferences, authored peer-reviewed professional articles in five different scientific journals, has published a book chapter, and served as a reviewer for two major rehabilitation journals. Lieutenant Colonel Goldman was the first Department of Defense representative appointed to the American Occupational Therapy Association's research advisory panel and is a member of the American Hand Therapy Foundation Board.

On behalf of a grateful nation, I join my colleagues today in recognizing and commending LTC Sarah Goldman for nearly two decades of Active service to her country. We wish Sarah and her family all the best as they continue their journey of service.●

TRIBUTE TO PAM MOORE

● Mr. DAINES. Mr. President, this week I have the distinct honor of recognizing Pam Moore, the Benchmark plant manager in Lewis and Clark County. Pam has spent many years supervising a staff of hard-working Montanans doing their best to produce useful products for a variety of government agencies.

For well over three decades, the Benchmark Manufacturing Plant in Helena has produced tens of thousands of backpacks that have been distributed across the United States. For nearly 18 years, Pam has supervised production at the plant. Over half of Pam's team at the plant are disabled Montanans, and that team has done highly respectable work under her guidance. Their quality products help U.S. Forest Service wildland firefighters carry their equipment. With our abundant forests in Montana, we know how important it is to have the proper equipment in the hands of our firefighters, and over the years, the employees at the Benchmark Manufacturing Plant have had abundant success getting the right equipment to the right customer. For that, we are very grateful.

Montanans have earned a well-deserved reputation for being reliable and hard-working, and Pam and her team are great examples of that assessment. When asked about her favorite part of the job, Pam said she enjoys that her teammates are able to work. Valuing

work is a Montana tradition. Thank you, Pam, for having a steady hand helping others to overcome obstacles, reach their potential, and get the job done.●

REMEMBERING QUARRIER "Q" COOK

● Mr. HEINRICH. Mr. President, from the moment she arrived in Santa Fe in 1983, Quarrier "Q" Cook gave back. She gave her time to the Santa Fe Community Foundation as a board member. She gave her knack for fundraising to the Santa Fe Chamber Music Festival as cochair of several endowment campaigns and as board president from 2002 to 2005. She gave her energy and attention to many of New Mexico's social services organizations.

She gave whatever she could give to make New Mexico a better place.

Last year, Q Cook and her husband Phillip Cook received the Santa Fe Community Foundation's Philanthropic Leadership Award during the annual Pinon Awards Ceremony. In her acceptance speech, she remarked that in order to be part of a community, "you have to help the community" in small and large ways.

Q Cook's commitment to these values and her interest in helping others came from growing up in a family that always gave back and expected their children to do the same. She was born on April 7, 1935, in Wheeling, WV, to Thomas Moffat Block and Nancy Fulton and grew up seeing her parents' commitment to activism and public service. She attended Vassar College, earned a political science degree, and became involved in political activism herself.

She had three children: Thomas McKittrick Jones, Nancy Jones Carter, and Clare Fitz-Gerald Jones. She shared her love for the Southwest's culture with her daughter Clare, with whom she opened a southwestern home furnishings boutique in Washington, DC, called Santa Fe Style. As the buyer for the store, Q made sure that New Mexico had a presence in our Nation's Capital.

Back at home, she was known as a driving force who achieved whatever goal she set out to reach. She was someone any New Mexican would want on their side, someone who was generous, always willing to open her home, and give her time.

At the Pinon Awards, she said, "We hope that a little bit of what we have done has made the world a better place for some people."

Q Cook made the world a better place for lots of us, and New Mexico is indebted to her lifetime of service.●

RECOGNIZING BALLARD FAMILY DAIRY AND CHEESE

● Mr. RISCH. Mr. President, it is not every day that we take a moment to commemorate America's family-owned businesses that dedicate themselves to

serving their local communities. I stand before you today to recognize a small business that emphasizes service, tradition, and family values. In my home State of Idaho, I have had the privilege of seeing firsthand Idahoans' dynamic use of natural resources. In our State, we continue to watch our agricultural small businesses advance and thrive. As chairman of the Senate Committee on Small Business and Entrepreneurship, it is my privilege to honor Ballard Family Dairy and Cheese of Gooding as the Senate Small Business of the Month for June 2017. Ballard Family Dairy and Cheese has been a pioneer in Idaho's artisan cheesemaking community and is a remarkable example of entrepreneurial innovation.

With just a few Jersey calves and a strong work ethic, the Ballard family started their dairy farm in 1995. Steve and Stacie Ballard, along with their children, Travis and Jessica, have worked hard to perfect cheeses that are distinctive and can only be cultivated in Idaho's unique climate. Their goal was to create a cheese that was specific to Idaho. Since then, the Ballard family has developed a successful in-house cheese facility that has produced numerous award-winning specialty cheeses. The Ballard family gained the skills to produce artisan cheeses over years of hard work and trial and error. Their determination has allowed them to produce a fresh and original-tasting commodity unique to Idaho.

The Ballard family produces numerous types of hand-crafted cheeses, including cheddar, gouda, and cheese curds. Their facility produces approximately 3,000 pounds of cheese daily. Ballard Family Dairy and Cheese cows are individually cared for, which ensures that the calves are healthy and allows for the finest cheese. This well-executed cheese production system combined with small batch sizes enables the Ballard family to achieve the right consistencies for high-quality cheeses.

Award-winning cheese is not the only noted accomplishments this family-run business has attained. In 2013, the Ballards' cheese facility was distinguished by the Innovation Center for U.S. Dairy as having "Outstanding Achievement in Energy Efficiency." By adjusting their operational processes, their facility in Gooding has reduced their energy costs by about \$23,000 annually.

Beyond the Ballard family's thriving retail throughout the State, the Ballards also provide educational resources with their cheese purchasing information to Idahoans who are interested in learning about cheesemaking methods. Ballard Family Dairy and Cheese is an exceptional example of the entrepreneurial spirit of Idaho agriculture and of innovative energy practices from a family-owned business. I would like to extend my sincerest congratulations to the Ballard family and all of the employees of Ballard Family
